

MMI THAILAND

12th SYMPOSIUM

PROGRAM PLAN

A4M THAI 2023 PROGRAM PLAN
DATE: 17th & 18th FEBRUARY 2023 (FRIDAY & SATURDAY)

DAY 1

0800 – 0830 AM: ARRIVAL OF GUESTS & REGISTRATION OF DELEGATES
0830 – 0930 AM: Opening Ceremony

0830 – 0845: Dr. Jakkriss Bhumisawasdi, Honorary President of A4M Thailand, (Welcome Speech)

0845 – 0900: Prof Dato Sri Dr. Mike Chan, Chairman of A4M Thailand,
(Token of Appreciation presentation by The A4M Thailand President to the Honorary President & Special Guest/s)

0900 – 0910 **Mr. Anutin Charnvirakul, Deputy Prime Minister and Minister of Public Health & his topic: "The Thailand Public Health Policy on Anti-aging and Cannabis Medicine"**

0910 – 0930: Officiation of the 12th A4M Thailand Symposium
(Appreciation Memento presentation to GUEST of HONOR by The A4M Thailand President + photography)

0930 – 10:00: **Special Guest: Professor Emerita Somsri Pausawasdi, President of the Medical Council of Thailand & her topic: "The Conception and Development of Anti-aging and Regenerative Medicine"**

12th SYMPOSIUM

DAY 1

SPEAKERS & THEMES

DAY 1 PART I: THE CURRENT BREAKTHROUGH IN ANTI-AGING

1000 - 1020 AM: Dr. Nichamon Samantarat, MD

Naturopathy for Longevity and Rejuvenation

1020 – 1050: COFFEE BREAK

1050 – 1120 AM: Assoc. Prof. Surapote Wongyai, Ph.D.

The Current of Thai Herbs for Anti-aging

1120– 1140 AM: Prof Dr Roni Moya, Ph.D.

Mitochondrial and Lymphocytes Nano Peptides with Frozen Xenogeneic Cell Therapy in Autoimmune Pulmonary Chronic Inflammation

1140 - 1200 PM: Prof Dr Dmytro Klokol, MD, Ph.D.

Programmatic Approach to Health Management and Wellness Paradigms in Anti-Aging and Longevity Medicine

1200 – 1220 PM: PLATINUM PART 1

DAY 1 ***1220 – 1300: LUNCH BREAK***

1300 - 1320 PM: Prof Dato Sri Dr Mike Chan, Ph.D. | A4M Thailand President

The Application of Cellular Research in Precision Medicine

1320 - 1340 PM: Prof Dato Sri Dr. Michelle Wong, ND, Ph.D.

Is there Any Correlation between Autistic Spectrum Disorder (ASD) & Parkinson's Disease Despite Apparent Differences in Etiological Mechanisms?

1340 - 1400 PM: Prof Dr Thomas Skutella, Ph.D.

Age Reversal Effects of Rejuvenating Peptides in Preventing Senescence

1400 – 1420 PM: Dr Pisit Tantiwattanakul, MD

New techniques for Male and Female Fertility & IVF in Regenerative Medicine

DAY 1 PART II: AESTHETIC

1420 – 1440 PM: Dr. Glen Alvin, MD

Peptides: A Novel Treatment Option for Eyelash and Hair Growth

1440 – 1500 PM: Dr Volodymyr Chernykh, MD

Role of extracellular matrix in cutaneous aging and dedicated treatments

1500 – 1530: COFFEE BREAK

1530 – 1550 PM: Prof Dr Yuriy Nalapko MD, Ph.D.

Mitochondria as the Target of the Biomolecular Medicine

1550 – 1610 PM: Dr. Akaluck Thammasunthorn, MD

HA filler complication, how to avoid, and manage.

1610 – 1630 PM: Dr Anna Galęba, MD, Ph.D.

Premature skin aging - what we can do, to look long time young, health and attractive.

DAY 1 PART II: AESTHETIC [continued]

1630 – 1650 PM: Dr. Patricia Pan S.Y., Ph.D.

Liver peptides: the secret to de-age your body.

1650 – 1710 PM: Dr Volodymyr Chernykh, MD

Stem cell extracts as an effective tool for stimulating hair growth and hair structure improvement

1710 - 1730 PM: Dr Glen Alvin, MD

Cell Therapy: The New Approach to Dermatology and Dermatologic Surgery

1730 - 1750 PM: Dr. Khongkwan Kate Fujitnirun, MD

The Use of Stem Cell in Aesthetic Medicine

18:30 – 21:00PM: NETWORKING RECEPTION

A4M MMI THAILAND

12th SYMPOSIUM

DAY 2

SPEAKERS & THEMES

DAY 2 PART I: HORMONAL & REPRODUCTIVE THERAPEUTICS

0900 – 0920 AM: Asst. Prof. Dr. Pansak Sugkraroek, MD

Anti-Aging and Regenerative Medicine, Hormone Management

0920 – 0940 AM: Dr Margaryta Iemelianova, MD

Precision Medicine in Female Sexual Rejuvenation

0940 – 1000 AM: Prof Dr Dmytro Klokol, MD, Ph.D.

Hormonal Optimization Protocols in Men from the Perspective of Anti-Aging and Longevity

1000 – 1020 AM: Dr Athasit Amornthanomchoke, MD

Stem cell therapy in treatment of erectile disorder: back to the basic and go to the future

1020 – 1040 AM: Prof Dr Roni Moya, Ph.D.

Mitochondrial Cell Therapy in Anti-Aging Practice

1040 – 1110: COFFEE BREAK

DAY 2 PART II : LONGEVITY | ANTI-AGING

1110 – 1130 AM: SLOT VACANT

1130 – 1150 AM: Prof Dr Thomas Skutella, Ph.D.

Regeneration by Partial Reprogramming and Directed Differentiation

1150 – 1210 PM: Prof Dato Sri Dr Mike Chan, Ph.D. | A4M Thailand President

Pico-Sized Stem Cell Organo Peptides: The New Trend in Precision Medicine

1210 – 1230 PM: Dr. Wanviput Sanphasitvong, MD

Nutraceutical for Anti-Aging: What supplements are good for anti-aging?

1230 – 1330: LUNCH BREAK

1330 – 1350 PM: Dr Chaitchai Sribundit,

Updated Management in Heavy Metal Toxicity for Anti-Aging

DAY 2 PART III : LONGEVITY | ANTI AGING *continued*

1350 – 1410 PM: Prof Dr Yuriy Nalapko MD, Ph.D.

Precision Medicine in the Management of Metabolic Syndrome

1410 – 1430 PM: Dr Chaitchai Sribundit, MD

Updated Management in Heavy Metal Toxicity for Anti-Aging

1430 – 1450 PM: Prof Dr Yuriy Nalapko MD, Ph.D.

Precision Medicine in the Management of Metabolic Syndrome

1450 – 1510 PM: PLATINUM SPONSOR (Part 2)

1510 – 1530 PM: SLOT VACANT

1530 – 1550 PM: NETWORKING COFFEE BREAK

1550 – 1610 PM: Prof Dr Michael Papacharalampous, MD, Ph.D.

Precision Medicine in Prevention and Longevity

DAY 2 PART III : LONGEVITY | ANTI AGING *(conclude)*

1550 – 1610 PM: Dr Simon Yefimov, MD

Mobility preservation in older adults with age-related muscular-skeletal system pathologies: regenerative medicine multimodal approach

1610 – 1630 PM: Dr Emon Pataramongkolkarn, MD

How Functional Medicine is Driving Change in Anti-Aging and Rejuvenation

1630 – 1700 PM: Dr Nalinee Sutthipisal, MD

Energy Healing: Medicine for Body, Mind, and Spirit for Anti-aging Process

1700 – 1730 PM: Dr. Pilant Anantaranonkun, Ph.D.

Immune System Medicine and Functional Wellness for Anti-aging

1730 – 1750 PM: Dr Kobkul Sudsuansri, Ph.D.

The Role of Enzyme, Prebiotics, Probiotics, and Postbiotics in Anti-aging

END OF DAY 2

MMI THAILAND

SPEAKER & TOPICS

A4M THAILAND 12th SYMPOSSIUM

17 & 18 FEBRUARY 2023

CENTARA GRAND, BANGKOK THAILAND

Prof. Dato Sri Dr Mike Chan

Topic:

i. The Application of Cellular Research in Precision Medicine

ii. Pico Sized Stem Cell Organo Peptides: The New Trend in Precision Medicine

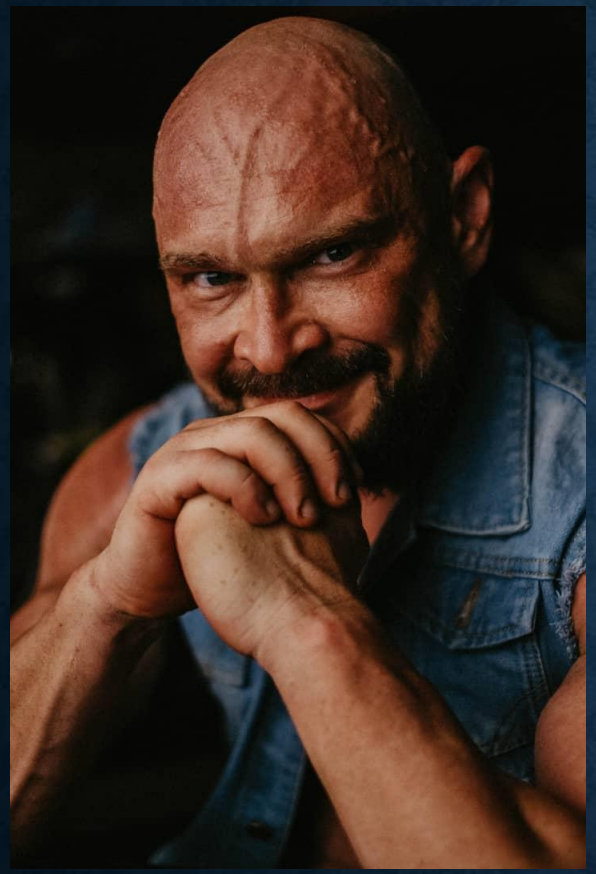

Prof. Dr. Dato Sri' Mike Chan, PhD pioneered cellular therapy and stem cell research in Europe since the 1980's and spearheaded 2 renowned Swiss and German companies which was known for its anti-ageing, regenerative medicine and cellular therapies. He initiated educational programs for physicians and distribution networks in more than 70 countries. He is one of the world's largest researcher, developer and providers of Swiss cellular therapy products in the field of anti- aging, regenerative, nutritional and biological medicine at its height.

Prof Dato Sri
Dr. Michelle Wong

Topic: Is there Any Correlation between Autistic Spectrum Disorder (ASD) & Parkinson's Disease Despite Apparent Differences in Etiological Mechanisms?

Prof. Dr. Dato Sri' Michelle Wong, ND, PhD is the Co-Founder, Technical Advisor and on- going Researcher of the following organizations – FCTI Research Group (Germany & Asia), Stellar Biomolecular Research (Germany), Baden Research Laboratories (Germany & Asia), European Wellness Academy (Switzerland, Germany & Asia), European Wellness Center (Germany) and 2M Consultancy Sdn Bhd (Malaysia).

Prof Dr.
Dmytro Klokol

Topics:

i. Programmatic Approach to Health Management and Wellness Paradigms in Anti-Aging and Longevity Medicine

ii.Hormonal Optimization Protocols in Men from the Perspective of Anti-Aging and Longevity

Prof Dr Dmytro Klokol, MD, PhD, is a Medical Doctor with a post-graduate specialization in General Surgery, minimally-invasive surgery and surgical endoscopy.

He has served as licensed practitioner under two Ministry of health in 2 different countries across the globe. He has over 20 years of service and over 10 years in Precision Medicine application.

He has a PhD in Surgery completed at the Institute of Emergency and Reconstructive Surgery (Academy of Medical Sciences, UA). Upon his PhD completion, he joined the Department of Surgery as an Associate Professor. He has a special interest in Aesthetic, Regenerative, Anti-Aging Medicine, as well as, Stem Cell Research and Cell Therapy.

Asst. Prof. Dr. Pansak Sugkraroek

Topic: Anti-Aging and Regenerative Medicine; Hormone Management Assistant

Professor Pansak Sugkraroek is a well known Gynecologist as well as Health expert in Integrative Wellness Medicine.

He had given lectures for Female and Male Hormones in Anti-aging &Regenerative Medicine both Nationally and Internationally. Graduated from Mahidol University Thailand with prestige award he join Ramathibodi Medical School and finished his job with the title of Director of Reproductive Biology Units and Assistant Professor in Obstetrics and Gynecology. He also appointed as Director of Fertility center and Medical Director of Vitallife scientific wellness center at Bumrungrad International Hospital . His expertise in the field of Reproductive Endocrinology and Hormone therapy led him to gain experience in Fertility problems, Menopause and Andropause and be one of Founding members of International Society for Studying of the Aging Male support by WHO since 1998.

Dr Kobkul Sudsuansri

Topic: The Role of Enzyme, Prebiotics, Probiotics, and Postbiotics in Anti-aging

Now she works as a founder and managing director of Thai Cell Fix Co.

Dr. Kobkul Sudsuansri received her B.Sc and M.Sc from Mahidol University Thailand, Ph.D. in Chemistry from the University of Cincinnati, USA, and industrial Post-doctoral from the University of Rouen and Elf Atochem France.
After her Post-doctoral in France, she worked as communication director for the Regenerative and Anti-aging Laboratory in Paris for more than 15 years. Then she came back and forth between Thailand and France and started her job as a Regenerative and Anti-aging Laboratory Consultant for N-Health Asia, and lecturer in Regenerative and Anti-aging medicine for Mae Fah Luang University and Dhurakij Pundit University in Thailand.

Ltd. and CelFix Polyclinic– official distributor in Thailand and South East Asia for Institute of Research Development and Pathology human from France and Genova Diagnostic Laboratory from USA.
Her interests are focused on Regenerative and Anti-aging Medicine: the role of genetics, nutrition, gut health, oxidative stress, and impaired detoxification in chronic diseases neurodevelopmental, neuropsychiatric, neurodegenerative disorders, and cancers including the important role of epigenetic regulation.

Prof Dr Roni Moya

Topic:

i. Mitochondrial and Lymphocytes Nano Peptides with Frozen Xenogeneic Cell in Treating Autoimmune Pulmonary Chronic Inflammation

ii. Mitochondrial Cell Therapy in Anti-aging Practice

Prof Dr Roni Moya completed his PhD in Biomedicine & Immunology at the Gulbenkian Institute of Science & the University of Coimbra, Portugal, his MSc. in Molecular & Cellular Immunology & Biology from the University of Coimbra, Portugal, and his MSc. in Advanced Clinical Nutrition & Food Sciences from the University of Barcelona, Spain., as well as his BSc. in Biomedicine at the University of Mogi das Cruzes, Sao Paulo. That was just the beginning of his journey in the anti-ageing and wellness industry as his passion led him to pursue his specialization in Anti-Aging Medicine at the University of Sevilla, Spain.

Dr. Athasit Amornthanomchoke

Topic: Stem cell therapy in the treatment of erectile disorder: back to the basic and go to the future

He has experience of Anti-Aging Medicine and Regenerative medicine more than 15 years. He was pioneer doctor who first set up Anti-Aging clinic at Vejthani Hospital name “Vejthani Q Life” He is interested in the field of nutrition, hormone optimization, chelation therapy and detoxification. He has long experience to treat male patients who suffer from testosterone deficiency or andropause. Most of them also developed erectile dysfunction. Since he graduated “Stem cell Fellowship” program from A4M on 2018. He truly believed in cell therapy will be the future innovative treatments for regenerating damage organs and reversing aging process. He applied cell therapy as one of the alternative modalities for treating erectile dysfunction of his patients. After he worked with Vejthani more than 18 years, then he made a great decision to join Vitallife at Bumrungrad hospital and Vitallife at Bangkrachao (RAKxa) since Feb 2022. Currently he is a clinical program director who design the protocol of wellness program for Vitallife at Bangkrachao (RAKxa). He is an important member of professional team who set up sexual health clinic at Vitallife, Bumrungrad hospital.

Dr. Chaitchai Sribundit

Topic: Updated Management in Heavy Metal Toxicity for Anti-Aging

Dr. Chatchai is the founder of Absolute Health Group. During over 31 years of his experience as a leading integrative medical doctor, and healthcare business owner, he develops and expand Absolute Health Regenerative Clinics and currently has 11 clinics throughout Thailand, one in Laos, one in Cambodia, and an office in Absolute Health China.

His main interest covers ie. lifestyle modification, diet, toxin accumulation and detoxification, bio-identical hormone replacement, integrative immunotherapy, functional medicine, nonsurgical therapy for musculoskeletal pain and degeneration, oxidation therapy, metabolic cancer therapy, repurposing drugs in oncology, systemic enzyme therapy, personalized medicine and nutraceuticals, regenerative medicine, culinary medicine, neural therapy von Hunike whole-genome sequencing, nutrigenetic, nutrigenomics.

Currently, Absolute Health Group also owns 2 nutraceuticals factories, 2 organic farms, one organic medical cannabis farm which is the largest organic cannabis farm in Asia, 3 organic and healthy restaurants, 2 nutrition supplement distribution companies, one customized pharmacy, a cancer vaccine production facility.

Dr. Chatchai is a special lecturer at 2 universities, he is on the advisory board of the Thai Chelation Therapy Association, Thai Cell Therapy Association, and Integrative Medicine Association of Thailand.

Prof Dr
Thomas Skutella

Topic:

i. Age Reversal Effects of Rejuvenating Peptides in Preventing Senescence

ii. Regeneration by Partial Reprogramming and Directed Differentiation

Prof Skutella has completed his MD at Frankfurt, Germany, and postdoctoral studies at Max Planck Institute for Psychiatry, Munich, and the Institute of Anatomy, Charite, Berlin. He was director of the Center for Regenerative Medicine, Tübingen, Germany and is at present head of a department in the Institute for Anatomy and Cell Biology, Heidelberg, Germany.

Dr Volodymyr Chernykh

Topic:

i. Role of extracellular matrix in cutaneous aging and dedicated treatments

ii. Stem cell extracts as an effective tool for stimulating hair growth and hair structure improvement

Dr Volodymyr Chernykh, MD completed his specialization in Dermatology and subspecialized in Aesthetic Dermatology after completing his Medical Degree. He discovered his strong inclination and passion towards Anti-Aging Medicine and started to participate in professional trainings and master-classes in Aesthetics. He subsequently pursued a certification course in Regenerative Medicine at Utrecht University in the Netherlands in 2018 and also obtained his Good Clinical Practice (GCP) certificate from the American National Institute of Health (USA) in July 2019

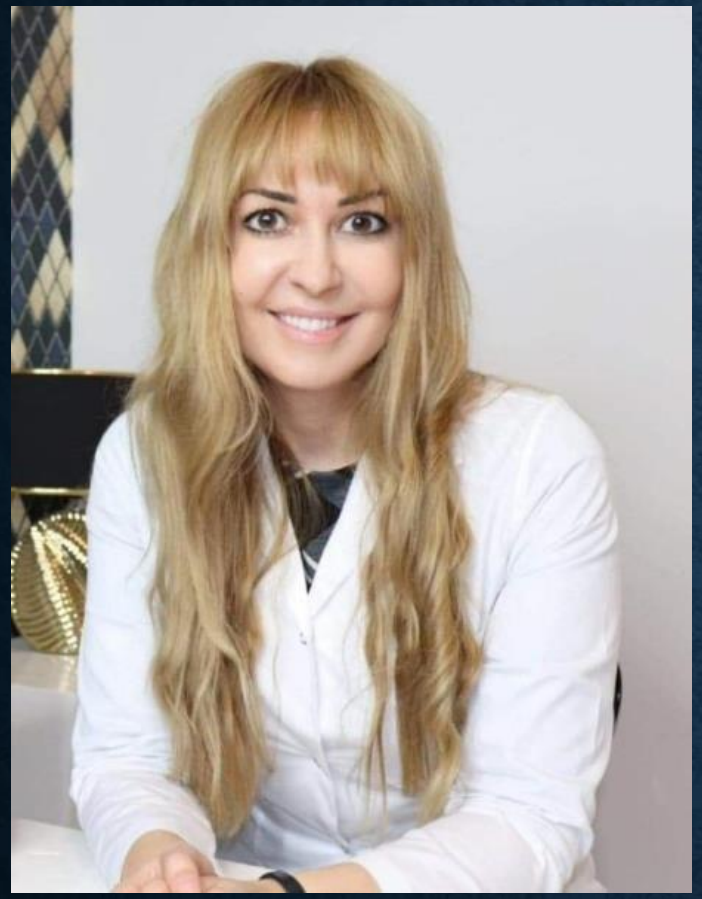

Dr. Akaluck Thammasunthorn

Topic: HA filler complication, how to avoid, and manage.

"Dr. Akaluck Thammasunthorn (Dr. Ake) is a talented aesthetic surgeon specialized in minimal invasive facial recontouring and rejuvenation using advanced injecting techniques of Injectable Fillers and Botulinum Toxin.

He has more than 20 years of medical aesthetics experience and has toured throughout Thailand and neighboring countries giving training more than 500 medical doctors. He presently is a medical director and aesthetic surgeon of Apex Medical Center Bangkok, Thailand.

He also has been awarded by The Allergan Medical Institute to be a Thailand national and Asia pacific regional faculty since 2015.As a national expert in the advanced use of botulinum toxin, dermal fillers and non-surgical treatment, Dr Ake consults and mentors colleagues nationwide on his latest pioneering therapies which harness HA based facial volumizers to help restore lost scaffolding, volume and elasticity."

Dr Anna Galęba

Topic: Premature skin aging - what we can do, to look long time young, health and attractive.

Dr Anna Galęba, MD PhD, won the Best Regenerative Aestheticians Award in 2019. She is an International Aesthetic Trainer (trained more than 2,500 doctors of aesthetic and anti-aging medicine from Poland and abroad and about 500 cosmetologists from the basic of cosmetology). She has vast experience as a Participant, Workshop Moderator, Chairman, Organizing Committee and President of the session at Congresses of Aesthetic Medicine in Poland and in the world (including World Aesthetic Medicine Congresses) – USA, South Africa, India, Malaysia. Italy, Brazil, Thailand, UAE. Dr Galeba is also the author of tens publications in reputable medical journal and medical books in Poland and abroad about aesthetic and anti-aging medicine, dermatology and management in healthcare.

Dr.Wanviput Sanphasitvong

Topic: Nutraceuticals for Anti-aging: Updated trends in Supplements for youthful life

"Education Doctor of Medicine, Faculty of medicine. Chulalongkorn University (Class 56) Certificate of family medicine (Post graduation): Faculty of medicine. ChiangmaiUniversityDiplomate in Anti-aging medicine granted by A4MAmerican Board of Anti-Aging and Regenerative Medicine (ABAARM)Fellowship of Anti-aging Functional and Regenerative Medicine (FAARFM) Mini MM 26 (Mini Master of Management for high level executive in healthadministration, Mahidol University) (Class 26,2018)Thai Board of Preventive medicine, Public health (2019) Work ExperiencesApril 2006 – April 2008May 2008 – Feb 2009 August 2009- Present August 2012-201520162017-2019 2017-Present April 2022-PresentOther CertificationStraight Pediatric Internship. Department of Pediatrics. Faculty of Medicine. Chiangmai UniversityDoctor in aesthetic clinic. Bangkok.Doctor at Vitallife wellness center. Bumrungrad InthernationalAssistant Medical Director of Vitallife wellness center. Visiting Lecturer at Mae fah Luang University.

TV HOST in Public health program“ER Easy Room/ Channel 5 Thailand”Guest lecturer at Faculty of Pharmacy, Mahidol University. Holistic health and WellnessGuest Lecturer at anti aging department (exercise and weight) , DPUDoctor at health screening center, Bumrungrad InternationalCertificate in integrative sport medicines (IFSM) Certificate in brain health (A4M)Director certification Program from IOD class143/2011 American Board in Nutrition Wellness (2013)Ameican Board in Nutrition Wellness from IFNW, ANCB (2015)Certificate in Functional Food for Chronic Diseases from IFNW amd Functional Food Center (2016)Sports Medicine and Dance medicine conference at Harvard Medical school (2018)Lifestyle medicine conference and CHEF Coaching program at Harvard Medical school (2019)Rehab Pilates, Merrithew 2020

Certificate in lifestyle nutrition for metabolic diseases, IFNW 2021 Certificate for Design Thinking, College of Innovation Thammasat 2022 Development Administrator in Digital Era from NIDA DAD6/2022Other interests and works Feature on local TV Program about health and wellness 1 in10 ambassador for Pond’s age miracle 2013 Dancer for Bodyslam Fest live in rajmankala 2019 Public speaker for corporate and public event for health tips. Contributor for Marie Claire, column wellness Guru, The Standard , Index Living Mag."

Dr Simon Yefimov

Topic: Mobility preservation in older adults with age-related muscular- skeletal system pathologies: regenerative medicine multimodal approach

Dr Simon Yefimov, MD holds a Medical Degree and a postgraduate specialization in Radiology.He is a skilled X-ray and ultrasound specialist. During hospital practice, he has taken part in numerous medical scientific conferences beingvery dedicated to his interest in science. As a further career development, Dr Simon has chosen regenerative medicine and sciences research. Together with cell-based therapies for tissues regeneration and rejuvenation, a bigpart of his work is dedicated to evaluation and treatment of musculoskeletal degenerative diseases and pain management by means of ultra-sound guided minor interventions.

Assoc. Prof. Surapote Wongyai

Topic: The Current of Thai Herbs for Anti-aging College of Oriental Medicine, Rangsit University, Thailand

Education:
He received a B. Pharm. (Pharmacy) from Chiang Mai University in 1981, M.Sc. (Pharmacy) from Mahidol University in 1986, Doctorate degree, Dr.rer.nat., from the University of Innsbruck, Austria in 1991.

Experiences:
Dr.Wongyai has published numerous research articles in the field of herbal medicinal products research and development and pharmaceutical chemistry. He is the Founding Dean of College of Oriental Medicine at Rangsit University, Thailand, and he is now a lecturer in herbal medicinal products development in this college.
Dr.Wongyai was formerly an expert in research and development of herbal medicinal products at the International Center for Science and High Technology/United Nation Industrial Development Organization (ICS/UNIDO), Trieste, Italy. He was previously a member of a committee at the Thai FDA for the registration of developed herbal drugs and he was also appointed as a Thai FDA expert in the ASEAN scientific committee for ASEAN harmonization of Traditional Medicine and Health Supplements (TMHS).

Prof Dr Yuriy Nalapko

Topic:

i. Precision Medicine in the Management of Metabolic Syndrome

ii. Mitochondria as the Target of the Biomolecular Medicine

Prof Dr Nalapko,MD PhD, graduated from one of the biggest medical schools in Eastern Europe. During his student years, he started his scientific investigations in the area of the long influence of high temperature on the nervous system of animals and humans. After completing his Medical Degree, he entered the post-graduate specialization in Anesthesiology and Intensive Care. At the same time, he joined the scientific clinical research group and completed his Philosophy Doctor's dissertation. That study was devoted to polytrauma patients with brain injury. In 1997, he obtained a Ph.D. in Clinical Medicine and in 1999, a Ph.D. in Anesthesiology and Intensive Care.

Dr. Nalinee Sutthipisal

Topic : Energy Healing: Medicine for Body, Mind, and Spirit for Anti-aging Process

Nalinee Sutthipisal, M.D. 1st Class Hons.(Chulalongkorn Univ.) is a Dermatologist, ermatologist of the Department of Dermatology and Esthetics Institute, Samitivej Sukhumvit Hospital, Bangkok, Thailand10110. CEO of Acantus Clinic (Energy medicine clinic), Nonthaburi, Thailand 11120.

She is currently a committee of the Thai Society of Cosmetic Dermatology and Surgery and a VicePresident of The Thai Association of Anti-Aging and Regenerative Medicine Association (TAARM)Her skills and qualifications are skin allergy and Holistic care with Energy Medicine Botulinum toxin, Filler injections, Laser & light therapy and Skin allergy.

With more than 30 years of professional experiences in Aesthetics and Holistic care, she has been invited to speak at many national and international seminars."

Dr. Nichamon Samantarat

TOPIC : Naturopathic Medicine for Longevity and Rejuvenation

Is one of the pioneer US-licensed naturopathic doctors in Thailand. She earned her doctorate degree in naturopathic medicine from Bastyr University, B.Sc. in biochemistry, and pre-medicine from the University of Winnipeg, Canada.

She is a member of the American Association of Naturopathic Physicians and the California Naturopathic Doctors Association. Dr. Nicha has many years of working experience in Thailand's healthcare industry and aims to serve patients in South East Asia.

Dr. Nicha's clinical interests include hormone imbalance, autoimmune disorders, allergies, and other chronic and complex conditions. She treats patients through comprehensive approaches, including clinical nutrition, medical exercise, lifestyle counseling, botanical, medicine, nutraceuticals, IV therapy, hydrotherapy, and physical medicine. Her goal is to assist patients in achieving optimal health physically, emotionally, and mentally.

Dr.Nicha is a founder of the Naturopathic Integrative Center for Health & Education or NICHE Natural Health. She is also a wellness business consultant, university lecturer, speaker, and health columnist.

Dr. Khongkwan Kate Fujitnirun

Topic: The Use of Stem Cell in Aesthetic Medicine Education

Background

- Medical Degree, Srinakarinwirot University, Thailand
- American Board of Laser Surgery, ABLS; USA
- Certificate of Added Qualification in Cosmetic Laser Procedures, The American Board of Cosmetic Laser Surgery, ABLS; USA
- Diplomate in Dermatology, Cardiff University, UK
- Certificate in Stem Cell & Regenerative Medicine, Harvard University, USA
- Diplomate American Board of Anti-aging Medicine, A4M. USA
- Diplomate American Board in Aesthetic Medicine, USA
- Certificate of Training Gold Thread Implantation, USA
- Certificate of Training Gold PGA Advance Technique, Korea
- Certificate of Acupuncture Medicine, Harvard Medical School, USA
- Diplomate American Board of Anti-aging Medicine, A4M. USA
- Certificate of FUE Hair, KKCS; South Korea
- Certificate training of Bio Hair Transplantation, Italy

Work Experience

- CEO KKC CLINIC
- CEO DOCTORKATE INTERGROUP CO., LTD.
- CEO MORKHONGKWAN KKC CO., LTD.
- CEO SKINCARE GROUP CO., LTD.
- Co-Founder of KKC CLINIC, Vientiane Laos

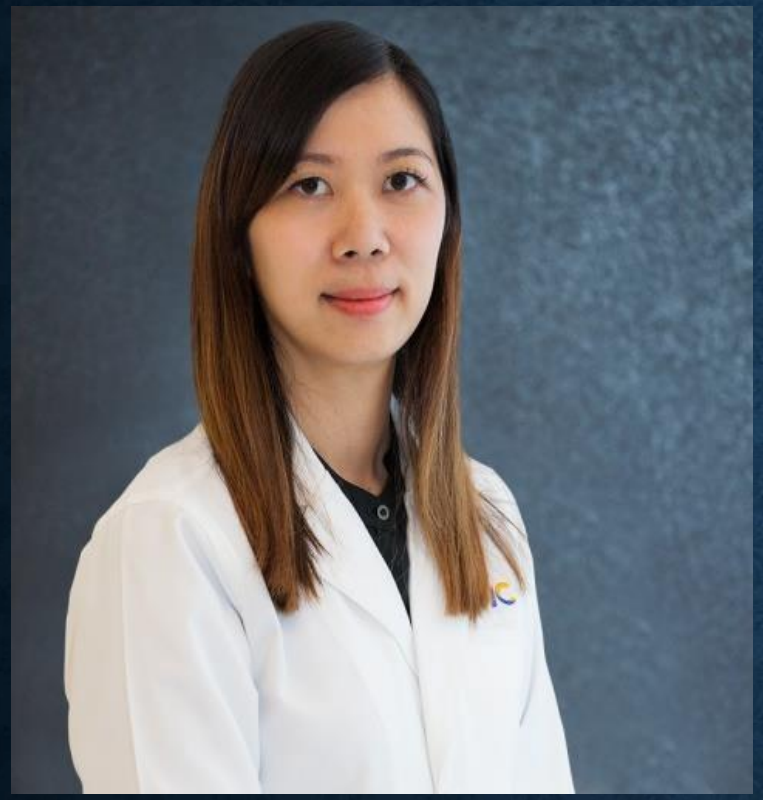

Dr Glen Alvin

Topic:

i. Cell Therapy: The New Approach to Dermatology and Dermatologic Surgery

ii. Peptides : A Novel Treatment option for Eyelash and Hair Growth

Glen G.K. Alvin, MD received his Medical Degree from Padjadjaran University, Bandung, West Java, Indonesia and obtained his postgraduate specialization Diploma in Dermatology from Manila University, Philippines. He has previously served at the Department of Dermatology in Kuala Terengganu General Hospital, Terengganu, Malaysia and the Department of Dermatology in Queen Elizabeth General Hospital, Sabah, Malaysia. He has been a Reviewer for the International Journal of Dermatology since 2012 and has published several publications.

Dr. Patricia Pan

Topic: Liver peptides: the secret to de-age your body

Dr Patricia Pan is a researcher in clinical & environmental biology, animal cell culture and medical biotechnology, with specialty in Gene Expression Profiling and Immunology. She is an ardent advocate of safe and best practices in the application of biological properties in consumer products, and now trains medical professionals on safety and product usage in the field of Regenerative Medicine. She spent numerous years lecturing and training medical laboratory technology students in the capacity of tutor, lecturer, and Head of School in Medical Laboratory Technology.

Dr Emon (Emmy) Pattaramongkorkarn

Topic : How Functional Medicine is Driving Change in Anti-Aging and Rejuvenation

Is a certified by the Board of Antiaging Medicine from the World Society of Antiaging Medicine and is continuing her advancement in the specialty. She is currently studying MSc in Integrative Medicine and Wellness.

Dr Emon trained with Dr Johannes Wessolly in Germany and deepened her medical experience in antiaging and regenerative with further study at Dhurakjit Pundit University.
Her area of interest includes hormone intervention, stem cell rejuvenation, alternative cancer therapy, and chronic disease intervention such as auto-immune diseases.

Dr. Pilant Anantaranonkun

Topic : Immune System Medicine and Functional Wellness for Anti-aging

Dr. Pilant is a locally born, internationally educated compassionate practitioner of integrative medicine, based in Thailand. Deeply rooted for the love & respect of nature's provision, she survived debilitating degenerative dis-eases through making the most out of both science & arts of time-tested medicine: unfastening medical integration beyond intellect, more so through humble intuition.

Thus, besides veritable comprehension of various medical disciplines, there comes the blooming empathy for people’s suffering from being a patient herself. Professionally, Dr. Pilant acquired a PhD in neuroscience (Mahidol University, Thailand) in 2009 at the age of 29 while journeying through different prospects of medicine. Her multidisciplinary trainings include cellular & molecular research, (University of Nebraska Medical Center, USA), naturopathic medicine–applied nutrition, nutritional & western herbal medicine (Australasian College of Natural Therapy, Australia), functional immunotherapy (Innovative & Integrative Medical Association, Thailand), acupuncture & moxibustion (Nanjing University of Chinese Medicine, China), traditional medicine, and other complementary & alternative modalities e.g. subtle energy therapeutics, reiki, cranio-sacral therapy and positive psychotherapies, pursued internationally.

Passionate in sharing for mankind, Dr. Pilant also serves globally as a writer and speaker in wellness, alternative & integrative medicine. A director & in-house clinician of BVRC Functional Wellness Integrative Clinic, Dr. Pilant humbly walks a simple life and sacred practice amidst natures in Huahin, Thailand.
