ABOUT THE MARKET

The Anti-Aging market has been positioned as one of the most rapidly growing global markets, with its innovative and unparalleled scientific studies and research. In North America alone, the market is expected to expand from \$16.58 billion in 2020 to \$21.36 billion by 2025. The global market demonstrates a similar trend, with projected growth from \$191.5 billion in 2019 to \$421.4 billion by 2030.

This trend is specifically spurred by the growing population of retirees. A report by the United Nations (UN), estimates that the number of people aged 65 and above on earth will increase from 703 million in 2019 to 1.5 billion in 2050.

A4M maintains the largest global network of healthcare professionals and practitioners, thousands of members from over 100 countries—all of whom are committed to and involved with Anti-Aging medical care and research.

- **One page literature insert in physician's bag** is another form of advertising that enables conference attendees to see your company information.
- **The Lead Retrieval System** allows your company to scan the badges of conference attendees, generating their contact information into the system. Everything you gather from the lead retrieval system represents potential incoming business.
- **Notebook Sponsorship, Hand Sanitizer Sponsorship, Lanyard Sponsorship, and Pen Sponsorship** are ways to advertise your company name and logo on products that conference attendees use.
- **Exhibit Hall Entrance Logo Rug will broadcast your company information.** Be the first thing attendees see when walking into an exhibit hall with hundreds of booths.
