ABOUT THE MARKET

The Anti-Aging market has been positioned as one of the most rapidly growing global markets, with its innovative and unparalleled scientific studies and research. In North America alone, the market is expected to expand from \$16.58 billion in 2020 to \$21.36 billion by 2025. The global market demonstrates a similar trend, with projected growth from \$191.5 billion in 2019 to \$421.4 billion by 2030.

This trend is specifically spurred by the growing population of retirees. A report by the United Nations (UN), estimates that the number of people aged 65 and above on earth will increase from 703 million in 2019 to 1.5 billion in 2050.

A4M maintains the largest global network of healthcare professionals and practitioners, thousands of members from over 100 countries—all of whom are committed to and involved with Anti-Aging medical care and research.

INDUSTRY STATISTICS

- There are **75.4 million** Baby Boomers living within the U.S.—this group is expected to remain as the largest revenue contributor in the industry.
- According to the American Society of Plastic Surgeons, more than **\$16 billion** has been spent on cosmetic procedures in 2019.
- Three out of five consumers take nutritional supplements on a regular basis.
- **113 million** individuals living within the U.S. (45%) suffer from at least one chronic disease—contributing to an increased demand for preventive services.
