# Welcome to AMWC SOUTHEAST ASIA 2025

*Uniting Aesthetics, Longevity & Innovation in One Vision*

It is our privilege to invite you to **AMWC Southeast Asia 2025**, bringing together dynamic aesthetic and anti-aging experts from across the region and around the world for an engaging and insightful event in Bangkok.

Guided by the **Dermatological Society of Thailand (DST)** and the **Aesthetic Multi-Specialty Society (AMS)**, this year's congress bridges regional expertise with international excellence. Informed by **audience feedback** and rooted in the realities of daily practice - where no single approach can meet the evolving needs of today's patients - the program embraces the **power of synergy**. It unites diverse disciplines, modalities, and perspectives to deliver truly personalized care, offering practical insights, holistic strategies, and the latest scientific advances.

Discover "**East Meets West: The Longevity Track powered by A4M**" - a curated journey into anti-aging and regenerative medicine, where traditional wisdom meets advanced science in pursuit of optimal healthspan.

Debuting this year, **The Catalyst Room** offers a stage for breakthrough ideas - where innovation comes to life through expert-led dialogue and the industry's forefront showcases its most exciting advancements.

On the vibrant **exhibition** floor, innovation is on full display through curated showcases and featured advancements, offering a chance to explore the newest solutions and connect with the teams behind today's most forward-thinking technologies.

At AMWC Southeast Asia, scientific excellence is more than a slogan - it's a lived commitment within a community built on warmth and meaningful connection. Whether you're joining us for the first time or returning to familiar faces, we hope you feel inspired, supported, and truly welcomed.

**Welcome to AMWC Southeast Asia 2025.**  
**Welcome to a congress built by us - but shaped by you.**

## ORGANIZATIONS

### DERMATOLOGICAL SOCIETY OF THAILAND

## VENUE

THE ATHENEE HOTEL, A LUXURY COLLECTION HOTEL  
61 Witthayu Rd, Lumpini, Pathum Wan, Bangkok 10330, Thailand

**International Scientific Directors**

**Jack KOLENDA**  
 Facial Plastic Surgeon Canada

**Joan VANDEPUTTE**  
 Plastic Surgeon  
 Belgium

**Heidi A. WALDORF**  
 Dermatologist  
 United States

**Country Host Scientific Directors**

**Ratchathorn PANCHAPRATEEP**  
 Dermatologist  
 Thailand

**Rattapon THUANGTONG**  
 Dermatologist  
 Thailand

**Penpun WATTANAKRAI**  
 Dermatologist  
 Thailand

**International Scientific Board**

**Vladlena AVERINA**  
 Dermatologist  
 Ukraine

**Dario BERTOSSI**  
 Facial Plastic Surgeon  
 Italy

**Paolo BONAN**  
 Dermatologist  
 Italy

**Ekaterina GUTOP**  
 Dermatologist  
 Armenia

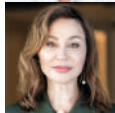

**Daniel KALBERMATTEN**  
 Plastic & Reconstructive  
 Surgeon, Switzerland

**Maria Cristina PUYAT**  
 Dermatologist  
 Philippines

**Jesper THULESEN**  
 Oculoplastic Surgeon  
 Denmark

**Ines VERNER**  
 Dermatologist  
 Israel

**Shiou-Han WANG**  
 Dermatologist  
 Taiwan

**Integrated Wellness Committee**

**Mart MAIPRASERT**  
 Aesthetic & Anti-aging Physician  
 Thailand

**Patana TENG-UMNUAY**  
 Internal Medicine  
 Thailand

**Pakpilai THAVISIN**  
 Aesthetic & Anti-aging Physician  
 Thailand

**President**

**Jinda ROJANAMATIN**  
 Dermatologist  
 Thailand

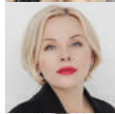

**Rataporn UNGPAKORN**  
 Dermatologist  
 Thailand

**Secretary General**

## Scientific Review Board

**Vanessa BIRD**  
Business Consultant  
London, United Kingdom

**Ekaterina GUTOP**  
Dermatologist  
Yerevan, Armenia

**Mart MAIPRASERT**  
Aesthetic & Anti-aging Physician  
Thailand

**Vasanop VACHIRAMON**  
Dermatologist  
Bangkok, Thailand

**Heidi A. WALDORF**  
Dermatologist  
New York, United States

**Paolo BONAN**  
Dermatologist  
Florence, Italy

**Daniel KALBERMATTEN**  
Plastic & Reconstructive  
Surgeon  
Geneva, Switzerland

**Ratchathorn PANCHAPRATEEP**  
Dermatologist  
Bangkok, Thailand

**Joan VANDEPUTTE**  
Plastic & Reconstructive  
Surgeon  
Oudenaarde, Belgium

**Rungsima WANITPHAKDEEDECHA**  
Dermatologist  
Bangkok, Thailand

**Lorenzo GARAGNANI**  
Hand Surgeon  
London, United Kingdom

**Jack KOLENDA**  
Facial Plastic Surgeon  
Oakville, Canada

**Tanongkiet TIENTHAVORN**  
Dermatologic Surgeon  
Bangkok, Thailand

**Nataya VORAVUTINON**  
Dermatologic Surgeon  
Bangkok, Thailand

## National Scientific Sub-Committee

**Natcha CHOTTAWORNSAK**  
Dermatologist  
Bangkok, Thailand

**Pintusorn KUNGVALPIVAT**  
Dermatologist  
Bangkok, Thailand

**Patlada INGGANINANDA**  
Dermatologist  
Bangkok, Thailand

**Thanya TECHAPICHETVANICH**  
Dermatologist  
Bangkok, Thailand

**Natthachat JURAIRATTANAPORN**  
Dermatologic Surgeon  
Bangkok, Thailand

**Nataya VORAVUTINON**  
Dermatologic Surgeon  
Bangkok, Thailand

## DST Organizing Committee

**Rataporn UNGPAKORN**  
Secretary-General

**Rattapon THUANGTONG**  
Scientific Director

**Chinmanat LEKHAVAT**  
Treasurer

**Jinda ROJANAMATIN**  
President

**Penpun WATTANAKRAI**  
Scientific Director

**Somsak TANRATTANAKORN**  
Registration

**Ratchathorn PANCHAPRATEEP**

*"All organizing committee of the Dermatological Society of Thailand are board certified dermatologists."*

# CONGRESS INFORMATION

## VENUE

**THE ATHENEE HOTEL, A LUXURY COLLECTION HOTEL**  
61 Witthayu Rd, Lumpini, Pathum Wan, Bangkok 10330,  
Thaïlande  
[www.marriott.com/en-us/hotels/bkkla-the-athenee-hotel-a-luxury-collection-hotel-bangkok](http://www.marriott.com/en-us/hotels/bkkla-the-athenee-hotel-a-luxury-collection-hotel-bangkok)

## LOCATION

- 30 minutes from Suvarnabhumi International Airport
- BTS sky-train stations: "Ploenchit" and "Siam" are linked via sky-walk

## REGISTRATION

Online registration, with secure credit card payment is available at [www.amwc-southeastasia.com](http://www.amwc-southeastasia.com)  
Access to the conference depends on your choice of pass.

- **Full Pass** - Aesthetic sessions & A4M sessions
- **Conference Pass** - Only aesthetic sessions
- **A4M Pass** - Only A4M sessions on May 20<sup>th</sup>
- **Post-congress courses** - Nov 22<sup>st</sup> at Rajavithi hospital
  - Full-face Injectables course - 1-day
  - Ultrasound in injectables course - 0.5 day
  - Thread Lifting course - 0.5 day

The registration fee to these passes includes:

- A badge, a congress bag, a conference book, all the congress documents
- Certificate of attendance with accreditation credits
- Coffee breaks and lunches offered on site

### **Cancellation policy:**

Please consult [www.euromedicom.com](http://www.euromedicom.com)

## GENERAL INFORMATION

### VISA

For most countries, no specific Visa is required to visit Thailand. If you require a visa invitation letter for inclusion with your entry VISA application, it can be downloaded from your account you're you are registered to the event. If you will need more information, please contact us at:

**registration@euromedicom.com**

### ACCOMODATION

Due to its convenience, the recommended hotel is The Athenee Hotel. However, the delegate may choose to stay at any hotel of their choices around the venue.

### INTERNATIONAL ACCREDITATION

- The Aesthetic & Anti-Aging Medicine World Congress (AMWC) Southeast Asia 2025, Bangkok, Thailand 20/11/2025 - 21/11/2025, has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 11.0 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

- AMWC Southeast Asia 2025 has been submitted for assessment through the conference vetting system under the MedTech Europe Code of Ethical Business Practice.

**Event reference:** EMT-25-02385

**Status:** Pre-cleared

# ADVANCED LIST OF CONFIRMED FACULTY

AGAN Cyril Mitchel - Aesthetic Physician - Pasig, Philippines  
ANNAEVA Leyla - Dermatologist - Wien, Austria  
ARAYA Diego - Maxillofacial Surgeon - Vina Del Mar, Chile  
ARAYASKUL Smith - Aesthetic Physician - Bangkok, Thailand  
AVERINA Vladlena - Dermatologist - Kyiv, Ukraine  
BETZER Hagai - Aesthetic Physician - Undefined, Israel  
BIRD Vanessa - Business Consultant - London, UK  
BONAN Paolo - Dermatologist - Florence, Italy  
CABUNAC Zeljka - Aesthetic & Anti-aging Physician - Beograd, Serbia  
CAPOTE Marilyn - Business Consultant - Gilbert (AZ), USA  
CHAKHACHIRO Adham - Aesthetic Physician - London, UK  
CHAWVAVANICH Prapawan - Dermatologist - Bangkok, Thailand  
CHENG Yu-Pin - Dermatologist - Taipei, Taiwan  
CHO Byong Seung - Company CEO - Seoul, South Korea  
CHOTTAWORNSAK Natcha - Dermatologist - Bangkok, Thailand  
CONADERA Jan Raymond - Clinic Manager - Pasig, Philippines  
CROZIER Gordon - Regenerative Medicine Specialist - Lake Mary (FL), USA  
CVETIC Jessica - Physician Assistant - San Diego (CA), USA  
DOAN Tien - Dermatologist - Ho Chi Minh, Vietnam  
DOUNGKAEW Atinuch - Aesthetic & Anti-aging Physician - Rayong, Thailand  
DUQUE Marisol - Integrative Medicine - Miami (FL), USA  
FARIAS NETO Arcelino - Maxillofacial Surgeon - Natal (RN), Brazil  
GABUEVA Elona - Aesthetic & Anti-aging Physician - Moscow, Russia  
GARAGNANI Lorenzo - Aesthetic Physician - London, UK  
GUPTA Prathamesh - Dental Surgeon - Mumbai, India  
GUTOP Ekaterina - Dermatologist - Yerevan, Armenia  
HEIDARIANNAINY Mehrnoosh - Dermatologist - North Vancouver (BC), Canada  
HEMRAJANI Priyanka - Cosmetic Dermatologist - New Delhi, India  
HUANG Chang-Ming - Dermatologist - Taipei, Taiwan  
HWANG Seung Gook - Aesthetic & Plastic Surgeon - Seoul, South Korea  
ITTHIPANICHPONG Yada - Dermatologic Surgeon - Bangkok, Thailand  
JALALI Arash - Aesthetic Physician - Vancouver (BC), Canada  
JANOVSKA Jana - Dermatologist - Riga, Latvia  
JURAIRATTANAPORN Natthachat - Dermatologic Surgeon - Bangkok, Thailand  
KALBERMATTEN Daniel - Plastic & Reconstructive Surgeon - Geneva, Switzerland  
KERSCHER Martina - Dermatologist - Hamburg, Germany  
KHAIRY Aml - Dermatologist - Cairo, Egypt  
KHANNA Bob - Dental Surgeon - Reading, UK  
KIRICHUK Svetlana - Cosmetologist MD - Moscow, Russia  
KOLENDA Jack - Facial Plastic Surgeon - Oakville (ON), Canada  
KOWITWIBOOL Kritsada - Facial Plastic Surgeon - Bangkok, Thailand  
KUPWIWAT Rosalyn - Dermatologic Surgeon - Bangkok, Thailand  
MAIPRASERT Mart - Aesthetic & Anti-aging Physician - Undefined, Thailand  
MANEEPTRASOPCHOKE Pitchaya - Dermatologist - Bangkok, Thailand  
MARTIN Elena - Aesthetic & Plastic Surgeon - Bucharest, Romania  
MCGLOIN Claudia - Registered Nurse (RN) - Sligo, Ireland  
MENON Nisha - Aesthetic Physician - Southend On Sea, UK  
MICHON Alain - Aesthetic & Anti-aging Physician - Ottawa (ON), Canada  
MONROE Valerie - Editor - New York (NY), USA  
MOTSIOS Dimitris - Dermatologic Surgeon - Marousi, Greece  
NARUPAVES Nuttorn - Hair Transplant Surgeon - Samutprakarn, Thailand  
NEESER Karl J. - Professor - Bangkok, Thailand  
NEFF Audrey - Business Consultant - Boca Raton (FL), USA  
NISCHWITZ Sebastian P. - Plastic & Reconstructive Surgeon - Graz, Austria  
NOKDHES Ya-Nin - Dermatologist - Bangkok, Thailand  
NORCHAI Phawit - Anti-aging Physician - Bangkok, Thailand  
PAKKAR-HULL Anoob - Aesthetic & Anti-aging Physician - Bradford, UK  
PAMELA Ruri D - Dermatologist - Jakarta Selatan, Indonesia  
PANCHAPRATEEP Ratchathorn - Dermatologist - Bangkok, Thailand  
PHAM Giang Thi Thanh - Cosmetic Dermatologist - Ho Chi Minh City, Vietnam  
PORUMB Diana Patricia - Nutritionist - Cluj-Napoca, Romania  
PUYAT Maria Cristina - Dermatologist - Pasig City, Philippines  
QURESHI Kamran Izhar - Cosmetic Dermatologist - Lahore, Pakistan  
RIBEIRO Mariana - Aesthetic Physician - Brasilia (DF), Brazil  
ROJANAMATIN Jinda - Dermatologist - Bangkok, Thailand  
ROSATI Cristina - General Surgeon - Genova, Italy  
RUBINSTEIN Adam - Aesthetic & Plastic Surgeon - Miami (FL), USA  
SALAHIA Sam - Aesthetic Physician - Dubai, UAE  
SAMPATTAVANICH Nattaporn - Dermatologist - Nonthaburi, Thailand  
SANPHASITVONG Wanviput - Anti-aging Physician - Bangkok, Thailand  
SHAH Falguni - Aesthetic Physician - Mumbai, India  
SOFRA Xanya - Neurophysiologist- Suffolk, UK  
SOMSUP Sarittha - Dermatopediatrist, Neuropediatrist - Bangkok, Thailand  
STANKOVIC Nenad - Aesthetic Physician - Beograd, Serbia  
SURA Agnieszka - Cosmetic Dermatologist - Warszawa, Poland  
TAHA Shatha - Aesthetic & Anti-aging Physician - London, UK  
TECHAPICHETVANICH Thanya - Dermatologist - Bangkok, Thailand  
TEKCHANDANI Sonia - Cosmetic Dermatologist - Mumbai, India  
TEOVSKA MITREVSKA Natasa - Dermatologist - Skopje, Macedonia  
THEODORAKOPOULOU Elina - Dermatologist - Athens, Greece  
THONGJAROENSIRIKUL Panwadee - Dermatologist - Bangkok, Thailand  
THUANGTONG Rattapon - Dermatologist - Bangkok, Thailand  
THULESEN Jesper - Oculoplastic Surgeon - Copenhagen, Denmark  
TIENTHAVORN Tanongkiet - Dermatologic Surgeon - Bangkok, Thailand  
TIENTHITI Sitt - Anti-aging Physician - Bangkok, Thailand  
TSIVTSIVADZE Mariam - Aesthetic & Plastic Surgeon - Tbilisi, Georgia  
VACHIRAMON Vasanop - Dermatologist - Bangkok, Thailand  
VANDEPUTTE Joan - Plastic & Reconstructive Surgeon - Oudenaarde, Belgium  
VERNER Ines - Dermatologist - Tel Aviv, Israel  
VORAVUTINON Nataya - Dermatologic Surgeon - Bangkok, Thailand  
WALDORF Heidi A. - Dermatologist - New York (NY), USA  
WANG Shiou-Han - Dermatologist - Taipei, Taiwan  
WANITPHAKDEEDECHA Rungsima - Dermatologist - Bangkok, Thailand  
WAQAS Falak - Cosmetic Dermatologist - Karachi, Pakistan  
WATTANAKRAI Penpun - Dermatologist - Bangkok, Thailand  
WU Francis - Dermatologist - Amstelveen, Netherlands  
YI Kyu-Ho - Anatomist & Aesthetic Physician - Seoul, South Korea  
ZHANG-NUNES Sandy - Oculoplastic Surgeon - Los Angeles (CA), USA

# Discover What Sets AMWC Southeast Asia 2025 Apart

## Scientific Excellence Driven by Your Voice

AMWC Southeast Asia 2025 combines the world-renowned scientific rigor and quality standards of AMWC with a program uniquely built from your feedback and clinical needs. Every session and insight is carefully selected through a rigorous, unbiased abstracts review process, ensuring a cutting-edge, evidence-based curriculum tailored to advance your practice.

## Global vision, Regional insight

Scientific collaboration with the **Dermatological Society of Thailand (DST)** and the **Aesthetic Multi-Specialty Society (AMS)** ensures a culturally attuned, world-class program. This partnership brings unique regional perspectives and patient specificities from Southeast Asia, blending them with international standards to deliver relevant, impactful education.

## Embracing Comprehensive Care

Focus on multi-disciplinary approaches in both aesthetics and longevity for truly personalized patient outcomes. Discover the **“East Meets West: The Longevity Track”** powered by **A4M**, a dedicated journey into anti-aging and regenerative medicine.

## The Catalyst Room: Innovation in Action

A dedicated platform where industry presents scientifically grounded research and evidence-based innovations, developed in collaboration with clinicians to advance clinical practice and improve patient outcomes, all upheld to the highest standards of scientific integrity on advancing clinical practice.

## Networking, Exploration & Exhibition

In an engaging and welcoming atmosphere, connect meaningfully with peers and pioneers, and discover the latest innovations showcased on the exhibition floor.

## ROOM 1

08:30 - 09:45

ID SESSION: 8213

**Injection Playbook: A Strategic Guide to Botulinum Toxin Success**

This session offers practical guidance on recognizing, managing, and recovering from vascular complications caused by dermal fillers. Learn evidence-based protocols and innovative treatment strategies to build confidence and competence in handling emergencies, ensuring patient safety and optimal outcomes.

- Facial equilibrium: The evolving role of OnabotulinumtoxinA from upper to lower face - A balanced protocol for real-world practice Arash JALALI
- Precision Targeting for Superior Results: An Ultrasound-Guided Approach to Botulinum Toxin Natthachat JURAIRATTANAPORN
- Masseter muscle and facial aesthetics Elona GABUEVA
- Novel Anatomical Guidelines on Botulinum Neurotoxin Injection for Nose including Ala Kyu-Ho YI
- Gingival smile: When botulinum toxin is the best choice Arcelino FARIAS NETO
- Diffusion characteristics, spread and migration of BoNTA formulations: How do they impact treatment strategies? Martina KERSCHER
- The art of toxin: Off-face techniques in practice Thanya TECHAPICHETVANICH

10:30 - 12:30

ID SESSION: 8217 **LIVE DEMO** **Profile Sculpt 360°: Full-Face Balance**

Achieving true facial harmony goes beyond isolated enhancements - it requires a strategic, full-face approach. This session explores how to balance the nose, chin, and forehead using non-surgical techniques to sculpt an ideal profile. Experts will share advanced injection strategies, anatomical insights, and key decision-making principles to ensure results that are both natural and transformative. Learn how to assess facial proportions dynamically, choose the right products for structural support and finesse, and create impactful yet subtle results that respect each patient's individuality.

- Two lines, no math. Deep, anterolateral midface augmentation along two axes Joan VANDEPUTTE
- Rhinomodelation with polycaprolactone - A safer and effective solution Kamran Izhar QURESHI
- Live Demo: Full face case 1 Jack KOLENDA
- Live Demo: Full face case 2 Jinda ROJANAMATIN
- Live Demo: Full face case 3 Ekaterina GUTOP

*Commercial names of medical devices/software/equipment may appear during demonstrations because they are linked to specific medical procedures. Other products in the market can be used to perform the aforementioned medical procedures. The educational provider does not endorse any particular product.*

14:00 - 15:30

ID SESSION: 8226 **LIVE DEMO** **Eye Elegance: The Key to a Fresh, Appealing Look**

The delicate eye area is often the first to reveal fatigue, aging, or stress - and one of the most challenging to treat. In this comprehensive session, experts unveil the latest techniques in periorbital rejuvenation, including tear trough correction, upper eyelid refinement, brow positioning, and skin quality restoration. Learn how to approach this complex zone with confidence, combining anatomy, product selection, and treatment synergy to achieve natural, refreshed results.

- Rational aesthetic interventions in the periocular region: Anatomy meets strategy Jesper THULESSEN
- Undereye fillers: Why I have not given up on hyaluronic acid Cyril Mitchel AGAN
- Eyes that speak volumes: IPL treatment for stunning look and soothing relief Sandy ZHANG-NUNES
- Scarless lower lid rejuvenation with blepharoplasty, nanolipofilling and skin resurfacing Elena MARTIN
- Tear trough swelling Cabunac ZELJKA
- Live Demo: Periorbital rejuvenation - Case 1 Demonstrator TBA
- Live Demo: Periorbital rejuvenation - Case 2 Demonstrator TBA

*Commercial names of medical devices/software/equipment may appear during demonstrations because they are linked to specific medical procedures. Other products in the market can be used to perform the aforementioned medical procedures. The educational provider does not endorse any particular product.*

## From Panic to Protocol: Turning Vascular Complications into Competence

This session offers practical guidance on recognizing, managing, and recovering from vascular complications caused by dermal fillers. Learn evidence-based protocols and innovative treatment strategies to build confidence and competence in handling emergencies, ensuring patient safety and optimal outcomes.

- A new international protocol on treating filler induced blindness Sandy ZHANG-NUNES
- Risk factor analysis for vascular occlusions after dermal filler injections: A systematic review and meta-analysis Adham CHAKHACHIRO
- Venous & lymphatic impairment by fillers: A novel ultrasound perspective on the neglected child of vascular complications Hagai BETZER
- From ischemia to recovery: High-dose intra-arterial hyaluronidase rescues limb after HA embolism Sebastian P. NISCHWITZ
- Hyperbaric chamber treatment to address vascular injection occlusion and necroses Daniel KALBERMATTEN
- Structured complication management in aesthetic medicine: A real-world protocol for safe practice and recovery Motsios DIMITRIS

## ROOM 2

### EAST MEETS WEST: THE LONGEVITY TRACK POWERED BY A4M

To obtain ABAARM Board Certification or ABAAHP Diplomate Certification with A4M, candidates must complete two live or online events. The AMWC event, along with the A4M track, will fulfill one of these two event requirements.

East Meets West: The Longevity Track powered by A4M bridges Eastern philosophies with Western medical innovation to explore the science of healthy aging. This one-day program offers practical, clinical insights into peptide therapies, hormonal optimization, and integrative strategies for skin health, weight management, and vitality.

**Gordon Crozier,  
DO**

Gordon Crozier, DO is recognized as a leader in both the research and application of integrative medicine and a pioneer in the field of genetics-based medicine. After graduating from Des Moines University & College of Osteopathic Medicine and Surgery in 1994 with a Doctorate of Osteopathy, he completed his internship and residency in Obstetrics and Gynecology at the Michigan State University Garden City Hospital Campus. Dr. Crozier went on from there to practice in the areas of hormone replacement and women's health. A board-certified physician in the state of Florida, Dr. Crozier is the Medical Director of Crozier Clinic in Orlando, where he is also a practicing physician.

Dr. Crozier combines his own life experience with his formal education to help patients from around the world. In addition to seeing patients at his private practice in Orlando, Florida, Dr. Crozier accepts patients remotely and travels around the world giving lectures on the power of natural treatments, genetics-based medicine, and integrative medicine.

**Marisol Duque,  
MD**

Marisol Duque, MD is a distinguished medical surgeon with over 18 years of unwavering dedication to providing exceptional care and trust to patients throughout Latin America and Europe. Specializing in Integrative Medicine, Bio-regenerative Medicine, Tissue Regeneration, Longevity, Homotoxicology, Neural Therapy, Anti-Aging, and Aesthetics, as well as Cardiovascular Health and Nutrition, Dr. Duque's expertise spans a wide spectrum of medical disciplines. With a rich history of successfully treating over 10,000 patients afflicted with diverse pathologies, Dr. Duque firmly advocates for the pivotal role of awareness and the cultivation of healthy habits as the foundation of effective medical intervention. She firmly believes that fostering a patient's understanding and practice of good habits serves as the primary form of medicine, empowering individuals to take charge of their health and well-being. Dr. Duque's medical practice seamlessly integrates both traditional and alternative approaches, offering comprehensive treatment programs tailored to address various health concerns including cardiovascular health, digestive health and metabolism, athletic performance optimization, and natural fertility cycle management, among others.

A trailblazer in the realms of natural anti-aging and tissue regeneration techniques, Dr. Duque has spearheaded the development of specialized medical programs aimed at addressing a myriad of skin and connective tissue pathologies through an integrative approach. Notably, she has pioneered a groundbreaking technique that mimics the body's innate capacity for regeneration, marking a new epoch in autologous intelligent biology. Driven by a passion for research, Dr. Duque has actively contributed to esteemed research groups affiliated with prestigious institutions such as George Washington University, Brown University, and Saint Laurents Institute, furthering the frontiers of medical knowledge and innovation.

08:30 – 09:45

ID SESSION: 8211

## Unlocking Human Potential: Peptides, Hormones & the Science of Longevity

**Speakers:** Gordon Crozier, DO

Explore the critical interplay between peptide therapies and hormonal balance in the context of aging. This session will highlight key clinical strategies for optimizing vitality, cognition, and cellular function, using a systems-based approach to longevity medicine.

### Key Takeaways:

- Understanding age-related hormonal decline and peptide-based interventions
- Synergistic effects of bioidentical hormones and peptides (e.g., growth hormone secretagogues, thymosins)
- Personalized protocols for vitality, immune support, and healthy aging
- Eastern adaptogens and Western hormone optimization—where they meet

— 09:45-10:30 - Coffee Break & Networking —

10:30 - 12:00

ID SESSION: 8216

## Beyond the Scale: Metabolic Reprogramming with Peptides for Weight Optimization

**Speakers:** Marisol Duque, MD

Weight loss isn't just about calories—it's about chemistry. This session delves into the clinical use of peptides to support metabolic health, fat loss, and body recomposition, integrating hormonal signals, gut-brain axis function, and inflammatory modulation.

### Key Takeaways:

- Mechanisms and clinical utility of peptides like semaglutide, CJC-1295, AOD-9604, MOTS-c
- Case-based strategies for managing insulin resistance and visceral adiposity
- Addressing weight regain and metabolic plateaus with peptide cycling
- Combining diet, movement, and Eastern philosophy for sustainable weight outcomes

— 12:00-14:00 - Lunch Break & Networking —

14:00 - 15:30

ID SESSION: 8223

## Inside-Out Longevity: The Microbiome, Brain-Skin Axis & Immune Resilience

**Speakers:** Gordon Crozier, DO

Dive into the interconnected world of the human biome—from the gut to the skin to the brain—and uncover how it influences inflammation, skin aging, mental clarity, and immune robustness. Special focus on SIBO, skin dysbiosis, and neuroinflammation.

### Key Takeaways:

- Mapping the gut-skin-brain-immune axis: latest insights and clinical markers
- Peptide therapies (BPC-157, thymosin alpha-1) for gut healing and neuroimmune support
- Integrating Ayurvedic and TCM approaches to microbiome harmony
- Addressing SIBO and dysbiosis in longevity-focused patients

— 15.30-16:15 - Coffee Break & Networking —

16:15 – 17:30

ID SESSION: 8229

## The Future of Rejuvenation: Microchannel Delivery & Peptide-Infused Skin Restoration

**Speakers:** Marisol Duque, MD

This aesthetics-forward session explores the use of microchanneling devices to deliver targeted peptides directly into the dermis for collagen induction, pigment modulation, and cellular renewal—enhancing both appearance and biological age.

### Key Takeaways:

- Microchannel delivery techniques: safety, depth, and formulation considerations
- Peptides for skin repair: GHK-Cu, PTD-DBM, Matrixyl, and more
- Clinical protocols for skin laxity, melasma, and scar remodeling
- Combining microneedling, exosomes, and East-West skin philosophy

# ROOM 3

08:30 - 09:45

ID SESSION: 8212

## Rethinking Hair Loss: Innovation & Integrative Strategies

Hair loss is a multifactorial condition demanding a comprehensive treatment approach. This session delves into the newest innovations- from regenerative medicine to device-based therapies - integrated with holistic patient care strategies. Discover how to combine modalities effectively and tailor treatments to individual patient profiles for improved hair density, quality, and scalp health.

- Combination of nanofat and longhair transplantation (nonshaven follicular unit extraction) improves hair re-growth in patients with androgenic alopecia and prevent shockloss Nuttorn NARUPAVES
- Surgical treatments of periorificial vitiligo and canities Yu-Pin CHENG
- Organic product for hair growth promoter Ratapon TUANGTHONG
- Hair transplant on non-AGA patients Ratchathorn PANCHAPRATEEP
- Combination of Erbium YAG laser and Platelet-Rich Plasma (PRP) for the treatment of hair disorders: A comprehensive approach to hair regeneration and restoration Natasa TEOVSKA MITREVSKA
- The efficacy and safety of adipose stem cell derived exosomes in severe alopecia areata Byong Seung CHO

10:30 - 12:00

ID SESSION: 8218

## Energy in Action: Practical Applications of Aesthetic Technologies

This session explores the practical implementation of advanced aesthetic technologies, emphasizing energy-based devices that are reshaping treatment possibilities. Discover evidence-based protocols and expert strategies for combining technologies to customize care for diverse patient needs. From skin rejuvenation to body sculpting, learn how to enhance safety, effectiveness, and patient satisfaction through thoughtful integration of these innovations. Expert case reviews and clinical insights will provide guidance on overcoming challenges and achieving reliable, impressive outcomes in everyday practice.

- The Hidden Variable in Monopolar RF: Clinical and Mathematical Insights into Return Electrode Positioning Shiou-Han WANG
- Optimizing Skin Tightening: Combination Biorevitalizer Priming + Monopolar RF Atinuch DUANGKAEW
- Nonablative Fractional 1927-nm Diode Laser for Periorbital Rejuvenation: A Prospective, Double-Arm, Open-Label Trial Chang-ming HUANG
- HIFU technology in safe and effective combinations Ekaterina GUTOP
- Evaluation of the Efficacy and Safety of Microwave Technology in Reducing Lower Face Laxity Rosalyn KUPWIWAT
- The Efficacy and Safety of the 675-nm Laser for Lip Rejuvenation Ya-Nin NOKDECH
- Treating Neck Wrinkles With Microneedle Bipolar Fractional Radiofrequency Prapawan CHAWVAVANICH
- Radiofrequency (RF) and microneedling non-invasive treatment for the reduction of submental fat (double chin) and improvement of skin laxity Natasa TEOVSKA MITREVSKA

14:00 - 15:30

ID SESSION: 8225

## What's New, What's Next in Regenerative Aesthetics

Regenerative aesthetics is reshaping the way we approach skin and tissue rejuvenation—moving from correction to restoration. This session explores the frontiers of biostimulatory techniques, autologous treatments, and bioengineered solutions. Experts will share updates on exosomes, PRP/PRF, peptides, and next-generation scaffolds, alongside clinical pearls on how to integrate these innovations into daily practice. Whether you're already offering regenerative options or looking to enter the field, this session will guide you through what's making an impact now—and what's on the horizon.

- Regeneration from decline to renewal: The science behind what damages our cells & how we can rebuild Mariam TSVTSIVADZE
- The collagen miracle and why it's not enough for youthful rejuvenation Xanya SOFRA
- Regenerative medicine & the future of aging: Can exosomes slow the clock? Anoob PAKKAR-HULL
- Decoding PRP protocols: Global inconsistencies and their Clinical impact Claudia McGLOIN

## Responsible Aesthetics: Smart Marketing with Integrity

**Moderators:** Heidi A. WALDORF, Vanessa BIRD

Reputation is the ultimate return on investment. Ethical decision-making isn't just the right thing to do - it's also the smartest business strategy. Learn practical approaches to building patient trust through transparent communication and responsible marketing while maintaining the highest clinical standards. Discover how aligning ethics with marketing not only strengthens your brand reputation but also drives sustainable growth and long-term patient loyalty in today's competitive aesthetic industry.

- Presentation to be announced Valerie MONROE
- Presentation to be announced Heidi A. WALDORF
- Your unique fingerprint. Defining your USP to stand out as an aesthetic injection Vanessa BIRD
- Training what really counts: How to elevate your aesthetic practice by emotional intelligence Sebastian P. NISCHWITZ
- The importance of the aesthetic wellness questionnaire (AWQ-10) in safeguarding patients seeking aesthetic treatments Jessica CVETIC
- From Profits to Principles: Reimagining the business of medical aesthetics Tanongkiet TIENTHAVORN

## ROOM 1

08:30 - 09:45

ID SESSION: 8234

**Lightening Round: Hot Topics & Rapid-fire Q&A****Moderators:** Heidi A. WALDORF

Fast, focused, and packed with insights&mdash;this high-energy session brings together top aesthetic experts to tackle today's most talked-about topics. From emerging trends and controversial treatments to evolving patient demands and practice challenges, each speaker delivers quick, impactful takes in a rapid-fire format. Stay sharp during the open Q&A where nothing is off the table&mdash;this is your chance to ask bold questions and get unfiltered answers in real time.

- AI & Imaging Tools in Aesthetics: Game-changer or Gimmick?
- Toxin Trends: Shorter-acting vs. Longer-lasting – What Are We Really Choosing?
- Biostimulators vs. Fillers: Are We Moving Beyond Volume?
- The rise of regenerative aesthetics: PRP, exosomes, nanofat – Hype or Hope?
- What's worth investing in now, and what's still too early?
- Threads & sutures 2.0: Are They finally delivering consistency?
- Melasma & pigmentation in 2025: Are we any closer to real control?

10:30 - 12:00

ID SESSION: 8240 **LIVE DEMO** **High-Demand Zones: Jawline, Midface & Perioral Rejuvenation**

This dynamic session will feature live demonstrations of the latest techniques for jawline, midface, and perioral rejuvenation&mdash;areas that patients increasingly request. Experts will showcase how to achieve natural contouring, volume restoration, and skin rejuvenation using a range of non-surgical treatments, including injectables and other treatment modalities. Attendees will gain valuable insights into overcoming challenges and tailoring treatments to create harmonious, youthful facial results.

- Augmenting the NLF: What's the safest technique for augmenting the pyriform area Jack KOLENDA
- M-Shaped lips: Aesthetic correction with hyaluronic acid fillers Aml KHAIRY
- The BOOMERANG JAW rejuvenation and augmentation technique for improved safety and natural results Alain MICHON
- Submental sculpting with RF-assisted lipolysis: Options and outcomes Nataya VORANUTINON
- Live Demo: From volume loss to natural lift - Midface and perioral correction Demonstrator to be announced
- Live Demo: Customizing lower contour Demonstrator to be announced

*Commercial names of medical devices/software/equipment may appear during demonstrations because they are linked to specific medical procedures. Other products in the market can be used to perform the aforementioned medical procedures. The educational provider does not endorse any particular product.*

14:00 - 15:30

ID SESSION: 8249 **LIVE DEMO** **Modern Faces, Fluid Identities**

In contemporary society, the traditional notions of gendered beauty&mdash;where certain facial features or treatments were deemed suitable only for males or females&mdash;are increasingly being challenged. This session will examine how aesthetic practices are adapting to a world where identity is fluid and transcends binary concepts. Through a live demonstration, participants will gain insight into techniques that prioritize individualized treatment, considering unique facial structures and personal expression rather than conforming to outdated gender norms.

- Flat lips: Definition, technique and changing patient expectations Sura AGNIESZKA
- Long-term outcomes of mandibular contouring with PEG-crosslinked hyaluronic acid in male patients: A retrospective ultrasound-based study Araya Bruna DIEGO
- How to reassess the returning patient for filler touch up and avoid the overfilled look Alain MICHON
- Live Demo: Injectable harmonization - Tailoring identity Demonstrator to be announced
- Live Demo: Building the masculine profile Demonstrator to be announced

Commercial names of medical devices/software/equipment may appear during demonstrations because they are linked to specific medical procedures. Other products in the market can be used to perform the aforementioned medical procedures. The educational provider does not endorse any particular product.

16:15 - 17:30

ID SESSION: XXX

## Synergistic Aesthetics: The Art of Combining Treatments

This session explores the cutting-edge strategies of integrating multiple aesthetic treatments to enhance results and address complex patient needs. This session will showcase innovative approaches where different modalities are combined to achieve superior outcomes, offering a comprehensive overview of how synergistic techniques can optimize aesthetic results. Attendees will gain insights into the practical applications, benefits, and considerations of blending treatments such as injectables, lasers, and energy-based devices, providing a deeper understanding of how to create tailored, effective treatment plans.

- Combining biostimulatory fillers with energy based devices for the best results Ines VERNER
- My 5 points for achieving patient satisfaction when using Aptos technique Leyla ANNAEVA
- Remodeling the neck using a multi-modal approach Falguni SHAH
- Combining fillers, biostimulators, and toxin for optimal injectable outcome in the lower face Nenad STANKOVIC
- Biosubcision technique: volume and gluteal contour without cellulite through subcision Mariana RIBEIRO
- Botulinum toxin and subcisions: complex glabellar approach Elena MARTIN
- Synergistic treatments in a layered approach to skin quality improvement Yada ITTHIPANICHPONG

## ROOM 2

08:30 - 09:45

ID SESSION: 8236

**Face First: Surgical Meets Subtle**

Discover how today's most forward-thinking experts are redefining facial rejuvenation by combining the precision of surgery with the finesse of minimally invasive techniques. This session explores innovative approaches such as pre-surgical fillers, hybrid facelifts, and advanced blepharoplasty methods tailored for Asian anatomy. Learn how to enhance patient outcomes, reduce morbidity, and create natural-looking results through seamless integration of surgical and subtle aesthetic interventions.

- Fillers and biostimulator injections prior to facelift surgery: A plastic surgeons perspective and recommendations **Sinno HANI**
- Hybrid Facelift - Combining superficial treatment **Daniel KALBERMATTEN**
- Asian short incision blepharoplasty **Kritsada KOWITWIBOOL**
- Nearly scarless necklifts **Adam RUBINSTEIN**

10:30 - 12:00

ID SESSION: 8238

**Strategic Suspension - Threads and Their Perfect Pairings**

Thread lifting has become a cornerstone for non-surgical facial rejuvenation - but it doesn't work in isolation. This session focuses on multi-modal strategies that combine threads with energy-based devices, skin tightening, and injectable treatments to elevate outcomes and patient satisfaction. Learn how top experts sequence, layer, and customize these tools for strategic tissue repositioning, volume support, and long-term maintenance - without the scalpel.

- Eyebrow lifting with sutures: surgical or percutaneous, vertical or superolateral? **Joan VANDEPUTTE**
- Alarplasty with PLCL Cog Threads **Prathamesh GUPTA**
- The true side of thread lifting: How it really works! **Mariam TSIVTSIVADZE**
- Beyond Lifting: A dual-modality approach combining PDO threads and nanografting for facial rejuvenation **Cristina ROSATI**
- Innovative Reverse-Oriented Cog Thread System for Minimally Invasive Facial Lifting **Wooram KIM**
- Personalized thread lift modifications for Asian beauty enhancement **Thanya TECHAPICHETVANICH**
- Dimpling in threadlifting: Preventing and managing this complication **Cyril Mitchel AGAN**

14:00 - 14:45

ID SESSION: XXXX

**Face Done, What About the Hands?**

While facial treatments dominate the spotlight, patients increasingly seek comprehensive, full-body solutions. This session uncovers the growing - yet often unspoken - demand for aesthetic care beyond the face, focusing on areas that frequently show early signs of aging or are commonly overlooked. Discover clinically effective and innovative strategies to rejuvenate the neck, décolleté, hands, arms, abdomen, and intimate zones - delivering visible, lasting results across the full aesthetic landscape.

- Scarless hand rejuvenation **Adam RUBIENSTEIN**
- Anatomical multi-layer approach to hand rejuvenation: the Anatomically Based (AB) hand injection techniques **Lorenzo GARAGNANI**

14:45-15:30

ID SESSION: 8248

**The Overlooked 90%: Elevating Aesthetics Beyond the Face**

While facial treatments dominate the spotlight, patients increasingly seek comprehensive, full-body solutions. This session uncovers the growing - yet often unspoken - demand for aesthetic care beyond the face, focusing on areas that frequently show early signs of aging or are commonly overlooked. Discover clinically effective and innovative strategies to rejuvenate the neck, décolleté, hands, arms, abdomen, and intimate zones - delivering visible, lasting results across the full aesthetic landscape.

- Body contouring (Deltoid) with the fillers **Kyu-Ho YI**
- High definition abdomen with non-surgical technique: evaluation of satisfaction and performance **Eduardo CHICARELLI**

- A prospective open label and a split-body study on the CaHA plus micronutrients for cellulite dimpling
- Calf reduction by botulinum toxin

Eleni THEODORAKOPOULOU

16:15 - 17:30

ID SESSION: 8256

### Key Takeaway - Back by Popular Demand: 5-Minute Pearls for Maximum Clinical Impact

Back by popular demand, this high-yield session returns after last year's success, delivering concise, 5-minute talks packed with real-world clinical tips. Each expert shares one focused, practice-tested pearl - no fluff, just actionable insights you can apply immediately.

From technique refinements to treatment pearls and effective marketing strategies, learn what's truly driving success in top practices - and how to implement these approaches right away. Perfect for busy practitioners, this quick-fire format maximizes learning in minimal time. Walk away with practical ideas to improve technique, enhance results, boost patient satisfaction, and elevate your practice's growth and reputation.

# ROOM 3

These two sessions on “Integrating Anti-Aging into Aesthetic Practice” are proudly presented in collaboration with the College of Integrative Medicine (CIM), Dhurakij Pundit University. This partnership highlights a shared vision of advancing integrative and aesthetic medicine to provide holistic solutions for anti-aging treatments. CIM is dedicated to Empowering Health, Enhancing Beauty, and Extending Life, aligning perfectly with the goals for these sessions.

08:30 - 09:45

ID SESSION: 8237

## Integrating Anti-Aging into Aesthetic Practice (CIM DPU Collaboration)

Today’s aesthetic patients expect more than surface-level improvements - they seek lasting, holistic results. For aesthetic physicians, understanding the fundamentals of anti-aging medicine is no longer optional. This session covers key concepts such as chronic inflammation, hormonal shifts, and gut-skin interactions that directly influence skin quality, healing, and treatment outcomes. Gain the essential knowledge to better evaluate your patients and enhance the effectiveness of your aesthetic interventions.

- Beyond the surface: How circadian biology shapes skin health and aesthetic outcomes Ruri D PAMELA
- The effectiveness of integrative hybrid therapies in clinical practice for accomplishing centenarian longevity Sarittha SOMSUP
- Metabolic syndrome induced accelerated skin ageing: The quest and its additional value in cardiovascular risk assessment Jana JANOVSKA
- The ultimate truth about UV-exposure and cutaneous malignant melanoma skin cancer Karl J. NEESER
- Hidden cause of obesity: Functional approaches before you start the GLP-1, Why GLP-1 Failure, Can I stop GLP-1 without YOYO effect? Mart MAIPRASERT
- How to apply holistic weight loss in aesthetic setting Phawit NORCHAI

10:30 - 12:00

ID SESSION: 8239 

## From Knowledge to Action: Applying Anti-Aging in Aesthetic Practice (CIM DPU Collaboration)

Discover how to put anti-aging insights into action. This session introduces practical tools and easy-to-implement strategies, from diagnostics to supplements and regenerative treatments, that help elevate your daily aesthetic outcomes. Learn how to assess and address internal factors like oxidative stress, inflammation, and hormonal imbalances that impact treatment results. By bridging aesthetic procedures with anti-aging protocols, you’ll be equipped to deliver more comprehensive, long-lasting results and meet the evolving expectations of today’s patients.

- Review of body of evidence for glutathione and NAD+ supplementation in IV and oral formulations Shatha TAHA
- Nutrition as anti-aging therapy: Dietary interventions that lower metabolic age Diana Patricia PORUMB
- Weight, Wellness, and the Face Wanviput SANPHASITVONG
- Facial volume management during rapid weight loss induced by GLP-1 agonists: Aesthetic tools and protocols Svitlana KIRICHUK
- Advanced glycation end products (AGEs) detoxification Sitt TIENHITI

14:00 - 15:30

ID SESSION: 8247

## Holistic Approaches to Scar Management

This session will explore holistic, multimodal strategies for scar management, combining cutting-edge technologies with patient-centered care. Experts will discuss how to integrate energy-based devices, regenerative injectables, microneedling, and topicals to treat various scar types, including acne, trauma, and surgical scars. Learn how to tailor treatments to individual needs for optimal results, using a combination of techniques for comprehensive scar revision and improved skin outcomes.

- Dual modality approach to acne scars in skin of colour Priyanka HEMRAJANI
- Multimodal techniques for keloid scars Cristina Puyat, Philippines
- Scar remodeling at a new depth: The science of 675 nm Natcha CHOTTAWORNSAK
- Tranexamic acid in acne treatment: From theory to reality Doan Thanh Thuy Tien
- Laser- assisted subcision with endolift technique for acne scar treatment Mehrnoosh HEIDARIANNAINY

## Beyond Spots: Advances in Pigmentation & Skin Optimization

Pigmentation disorders are among the most common—and challenging—esthetic concerns. This session explores the latest advances in diagnosing and treating pigmentation across all skin types, with a focus on achieving balanced tone and enhanced skin quality. From targeted technologies to combination protocols, learn how today's experts approach pigment correction as part of a broader skin optimization strategy.

- Melasma management: Rapid control and long-term treatment strategy Giang Thi Thanh PHAM
- Dual action peels for acne and pigmentation: Combining exfoliation, antibacterial action, and melanin inhibition Falak WAQAS
- The efficacy and safety of the 675-nm red laser in treating melasma in Asians Panwadee THONGJAROENSIRIKUL
- New 785 nm pico laser for challenge, complex hyperpigmentations Paolo BONAN
- PDRN fillers in Pigmentation Sonia TEKCHANDANI
- Cosmeceuticals and pigmentation or skin quality (topic to be confirmed) Francis WU

NEW

# THE CATALYST ROOM

## A NEW KNOWLEDGE HUB WITHIN THE CONGRESS

Where scientific thinking meets innovation - The Catalyst Room brings you the latest data, ideas, and evidence behind the tools, technologies, and treatments shaping the future of aesthetic and clinical practice.

### WHY ATTEND?

- Gain early insight into emerging technologies and treatments - supported by data, not marketing
- Hear science-backed presentations on innovations you're already using or considering
- Discover independent and industry-supported research that may influence your clinical decisions
- Learn how peers and KOLs interpret new findings and apply them in practice
- Challenge or validate your protocols with real data
- Understand the scientific rationale behind what you see in the exhibit hall

### KEY HIGHLIGHTS

- Only science-first content - No sales pitches
- A unique mix of voices: Clinicians, researchers, and industry
- Focused on evidence, protocols, and outcomes
- Designed for curious, data-driven clinicians
- Real-world applications from early-stage findings
- For doctors who ask: Where's the evidence?

### WHAT YOU'LL EXPERIENCE

- Clinically relevant topics for real-world practice
- Independent + industry-supported studies - all science, no sales
- Key updates on data, safety, protocols, and outcomes
- Exposure to emerging tools, technologies, and concepts

*"As clinicians, we're surrounded by innovation. The Catalyst Room invites us to pause, assess the evidence, and approach new products and technologies with clinical confidence."*

- Dr. Heidi Waldorf, Dermatologist & AMWC Southeast Asia 2025 Scientific Director

# THE CATALYST ROOM

## TENTATIVE PROGRAM - SUBJECT TO MODIFICATION

08:30 - 09:45

### THE NOW & NEXT: Real Trends, Real Impact

This session showcases timely insights, new data, and cutting-edge concepts that are shaping the aesthetic medicine landscape - today and tomorrow. Bridging clinical experience with industry-driven innovation, the session features a mix of peer-reviewed abstracts and presentations from companies introducing meaningful advances in techniques, technologies, and practice models. Designed to spotlight what truly matters in real-world aesthetics, this is where science meets market relevance - and where tomorrow's trends take the stage.

10:30-12:00

### INNOVATIONS IN SKIN REJUVENATION: The Next Frontier

This forward-looking session highlights the latest breakthroughs in skin rejuvenation – from clinical research to real-world application. Featuring a curated selection of scientific abstracts and industry-led innovations, the session offers a platform for both independent researchers and companies to share new data, technologies, and treatment strategies. Expect fresh perspectives on regenerative approaches, skin biology, delivery systems, and combination therapies that are shaping the future of skin rejuvenation. A unique opportunity to connect science, practice, and innovation.

14:00-15:30

### SMART DEVICES, SMARTER RESULTS: The Future of Non-invasive Procedures

Technology is transforming non-invasive aesthetic procedures at unprecedented speed - offering smarter solutions, better outcomes, and enhanced patient satisfaction. This session brings together cutting-edge clinical studies and industry-led innovations that are driving the next generation of non-invasive treatments. From AI-guided devices and energy-based platforms to smart sensors and personalized protocols, discover how technology is reshaping practice today and setting new standards for tomorrow. Featuring a curated mix of scientific abstracts and breakthrough developments from industry leaders.

16:15-17:30

### SKIN BOOST PROTOCOLS IN ACTION: Glow, Hydrate, Rejuvenate

As demand for radiant, hydrated skin continues to grow, so does the science behind skin booster treatments. This session showcases evidence-based protocols and real-world outcomes supported by clinical studies – with a spotlight on innovations and data presented by industry leaders. Explore how injectable hydrators, biostimulators, and advanced formulations are being used in practice to improve skin texture, elasticity, and overall glow. A results-driven session bridging practitioner insights with industry-sponsored research at the forefront of skin rejuvenation.

THURSDAY, 20 NOV

## TENTATIVE PROGRAM - SUBJECT TO MODIFICATION

09:00 - 09:45

### BIOSTIMULATION

Biostimulation is transforming the aesthetic landscape, offering regenerative solutions that go beyond volume restoration. This session explores the latest clinical strategies and scientific insights into collagen-stimulating injectables – including CaHA, PLLA, and emerging biostimulatory technologies. With a strong focus on data and protocols, the session features a curated mix of independent clinical research and industry-sponsored studies, offering a platform for companies to share their most up-to-date findings and innovations. Designed for practitioners who want to integrate evidence-based, long-term rejuvenation techniques into their daily practice.

10:30-12:00

### EXOSOMES. Innovation in Progress

Exosomes represent a cutting-edge frontier in regenerative medicine and aesthetic science, offering promising potential for skin rejuvenation and tissue repair. This session highlights the latest breakthroughs in exosome research, clinical applications, and emerging technologies. Featuring pioneering studies and innovations presented by leading industry developers alongside independent researchers, attendees will gain insight into how exosome-based therapies are evolving – from laboratory findings to real-world protocols. A forward-thinking platform to explore the promise and challenges of this rapidly advancing field.

14.00-15.30

### The Invisible Engine: How Experience-Driven Marketing Fuels Aesthetic Practice Growth

The most powerful form of marketing in aesthetic medicine isn't flashy or loud - it's subtle, consistent, and deeply human. It's the way your front desk answers the phone. The trust a patient feels in consultation. The quiet confidence of a doctor who educates instead of sells. These invisible forces shape perception, loyalty, and long-term growth far more than any ad campaign.

This session dives into five interconnected topics that reframe marketing as something you do every day, not just something you outsource or automate. With real-world insights from experienced practitioners and clinic owners, you'll learn how to strengthen every stage of the patient journey - from first click to long-term retention.

If you're ready to stop chasing quick wins and start building a brand that lasts, this session is your blueprint for experience-driven growth. Perfect for clinicians, managers, and anyone shaping the patient experience - from first impression to lifelong loyalty.

- The patient will see you now Marylin CAPOTE
- Why Patients Choose You: The Doctors Role in Marketing Menon NISHA
- Developing High-Value Membership & Loyalty Programmes Audrey NEFF
- The royal approach. What aesthetic practitioners can learn from the British monarchy to elevate patient loyalty Vanessa BIRD
- Celebrities, Influencers, Models or Real Clients: Who is best the ambassador for your clinic? Jan Raymond CONADERA

# NOVEMBER

## POST-CONGRESS COURSES

### VENUE

**Rajavithi Hospital, Building C, 12th floor**  
2 Phaya Thai Rd, Thung Phaya Thai, Ratchathewi, Bangkok  
**Public transport:** BTS - Victory Monument Station

Rajavithi Hospital, a premier government-run healthcare facility situated in the heart of Bangkok, Thailand is known for its comprehensive medical services and advanced healthcare technologies. It provides an ideal setting for this educational program.

### Full-Face Injectables: Interactive Demonstrations and Expert Techniques

08:30 - 17:30

FULL DAY

### Ultrasound for Injectables: From Anatomy Mapping to Safe Practice

08:30 - 12:30

HALF DAY

### The Thread Workshop: Planning, Placement & Precision

13:30 - 17:30

HALF DAY

# FULL-FACE INJECTABLES

## INTERACTIVE DEMONSTRATIONS AND EXPERT TECHNIQUES

### COURSE DESCRIPTION

Throughout the day, participants will engage in expert-led lectures covering facial anatomy as it relates to injectable treatments, patient assessment techniques, and advanced injection methodologies. Live demonstrations by leading physicians will provide invaluable insights into technique refinement and safety protocols, with opportunities for interactive discussion in small groups.

Designed to equip participants with practical skills and knowledge, this course serves as a valuable resource for both newcomers and experienced practitioners looking to enhance their expertise in full face rejuvenation procedures.

### COURSE OBJECTIVE

#### 1. COMPREHENSIVE LEARNING EXPERIENCE

- Gain in-depth knowledge through expert-led lectures on the latest techniques in full face rejuvenation, patient assessment, and safety protocols.
- Learn from multiple experts as they demonstrate advanced injection techniques across different facial zones.

#### 2. INTERACTIVE AND PRACTICAL INSIGHTS

- Engage in interactive discussions during live demonstrations, allowing for a deep dive into the nuances of each technique.
- Benefit from personalized feedback and practical tips from experts, enhancing your ability to deliver exceptional results in your practice.

#### 3. UNIQUE CLOSE OBSERVATION OPPORTUNITY

- Closely observe full face rejuvenation treatments performed by various experts in small groups.
- Witness different techniques and approaches for each facial zone, with ample opportunity to ask questions and discuss details in real-time.

## COURSE PROGRAM ROOM 1

07:30 - 08:30

Registration in front of the main lecture  
room 12<sup>th</sup> floor

08:30 - 09:30

### Foundations in Full Face Rejuvenation

- Clinically relevant facial anatomy for injectables
- Comprehensive patient assessment and customized treatment planning
- Is more better? Benefits of HA soft tissue filler on the psychological and social-related quality of life dimensions
- Strategic product selection essentials: Injectable fillers for full-face rejuvenation

09:30 - 10:30

### Injection Technique Deep Dive I: Upper Face, Midface & Tear Trough with Video Tutorials

- Temple injections: Techniques for filling and softening sharp contours
- Forehead shaping: Safe and effective approaches
- Periocular region: Addressing complex anatomy challenges  
Elevating the midface: Strategies for tear trough and malar enhancement
- Elevating the midface: Strategies for tear trough and malar enhancement

— 10:30 - 10:50 - Coffee Break —

10:50 - 11:50

### Injection Technique Deep Dive II: Non-Surgical Rhinoplasty, Lower Face, Chin and Perioral Area with Video Tutorials

- Non-surgical rhinoplasty: Techniques and safety
- Lower face & chin: Contouring and volume, superficial and deep restoration
- Lips and perioral area: Precision and natural results

11:50 - 12:10

### Complications Recognition and Management

- Vascular obstruction: Identification of high-risk zones and prevention strategies
- Other complications (granuloma, infection, discoloration etc...)

12:10 - 13:00

### Biostimulators, Combination Techniques & Video Demonstration

- Biostimulators and their role in rejuvenation
- Reshaping and biostimulating separately or all in one?
- Video demos highlighting safe and effective applications

— 13:00 - 14:00 - Lunch Break —

14:00 - 14:10

Participants will be divided into 10 small groups and assigned to designated treatment rooms.

14:10 - 17:30

### Live demonstrations & Interactive Discussion

Experience an afternoon of immersive learning and collaboration, where participants delve into the intricacies of full-face rejuvenation with injectables through close observation and interactive discussions with leading practitioners.

# ULTRASOUND FOR INJECTABLES: FROM ANATOMY MAPPING TO SAFE PRACTICE

08:30 - 12:30

ROOM 2

**Explore how ultrasound can elevate precision and safety in aesthetic injectables.**

This hands-on workshop begins with a focused lecture on facial anatomy and ultrasound basics.

Participants will rotate through stations to practice mapping and injection planning using real-time imaging. Learn to identify danger zones, optimize treatment depth, and enhance patient outcomes.

The session concludes with essential tips for complication recognition and ultrasound-guided management.

## Course Objective

- Understand the principles of aesthetic ultrasound
- Learn to identify critical anatomical landmarks on live models
- Gain hands-on experience with scanning and guided injection planning
- Recognize ultrasound's role in managing filler complications

**Rungsima Wanitphakdeedecha**  
Dermatologist  
Thailand

# THE THREAD WORKSHOP: PLANNING, PLACEMENT & PRECISION

13:30 - 17:30

ROOM 3

This workshop blends expert-led lectures with live demonstration stations to explore advanced thread lifting techniques. Participants will learn about thread types, facial anatomy, and personalized treatment strategies. Observation stations provide practical insights into thread placement and system comparison. The session concludes with key guidance on preventing and managing complications safely.

## Learning Objectives

- Understand different types of threads and their indications in aesthetic medicine
- Assess facial anatomy and plan thread vectors tailored to patient needs
- Demonstrate proper thread insertion techniques across multiple brands
- Compare handling characteristics and treatment approaches of different thread systems
- Identify common complications and apply strategies for prevention and management
