

# American Academy of Anti-Aging Medicine & Institute of Medical Aesthetics, Dubai

## **CERTIFICATE IN ADVANCED INJECTABLES**

Fillers | Toxins | PRP | Threads

Step 1: Online Step 2: Hands-on, Dubai Step 3: Assessment

Certified By

Organized by

Approved by

## **TRAINING & CERTIFICATION PROCESS**

Module 1	24hour Online Course
Module 4A	2-Day Basic Hands-on Botox & Fillers Practice Part A (at IMA, Dubai)
Module 4B	2-Day Advanced Hands-on Injectables Practice Part B (at IMA, Dubai)
Exam	MCQ Exam (21 Questions + 5 patient evaluations) 60mns Written Format
Cases	10 cases under supervision
Certification	Certification by A4M American Academy of Anti-Aging Medicine

### **SCHEDULE**

Module 1	Any time, online
Module 4A	2-3 August OR 4-5 October OR 22-23 November, 2018
Module 4B	24-25 November 2018
Examination	25 November, 2018
Graduation	December 2018

#### TRAINING LOCATION

**A4M Dubai / Institute of Medical Aesthetics** 

Dubai Healthcare City, Building 39, 1st Floor Dubai, UAE

**Module 1** 

## STUDYING ONLINE

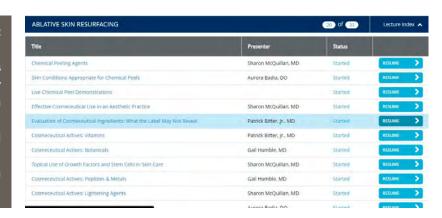

#### PREVIEW OF YOUR ONLINE ACCOUNT

A user friendly screen to view the video of the speaker and the Powerpoint lecture. You can play and pause at any time, just like a DVD.

#### Feature Highlights of online modules:

- Over 24hrs of videos and lectures covering all the fundamental theory
- Step by Step procedure guides with charts and live demonstrations
- Detailed review of products and devices
- CME Accredited (Upon completion of all modules)

#### **USEFUL PRINTABLE PDF HANDOUTS**

#### **Online Module I**

#### Advanced Facial Sculpting & Contouring with Botulinum Toxin A and Facial Fillers

#### Lectures overview

2       Neurotoxin Pharmacology       Sharon McQuillan, MD         3       Brow & Forehead Rejuvenation with Botulinum Toxin A       Denise Baker, MD         4       Periocular Rejuvenation Utilizing Botulinum Toxin A       Gail Humble, MD         5       Perioral Rejuvenation Using Neurotoxins       Gail Humble, MD         6       Relaxation of Platysmal Banding       Edward Zimmerman, MD         7       Live Neurotoxin Demonstrations       All Speakers         8       Botulinum Toxin A: Other Therapeutic Uses       Denise Baker, MD         9       Neuromodulators on the Horizon: World View       Gail Humble, MD         10       Neuromodulator Complication Management       Sharon McQuillan, MD         11       Choosing the Appropriate Filler       Denise Baker, MD         12       Using Hyaluronians for Facial Enhancement       Patrick Bitter, Jr, MD         13       Facial Sculpting with Calcium Hydroxylapatite       Sharon McQuillan, MD         14       Facial Sculpting Utilizing PMMA       Philip Werschler, MD         15       Facial Sculpting Utilizing PMMA       Philip Werschler, MD         16       Autologous Lipocyte Micronized Injection Demonstration       Edward Zimmerman, MD         17       Autologous Lipocyte Micronized Injection       Edward Zimmerman, MD         18	1	Facial Anatomy	Matt Stefanelli, MD

#### **Online Module I**

#### Advanced Facial Sculpting & Contouring with Botulinum Toxin A and Facial Fillers

#### Learning objectives

Learning objectives	
Upon completion of this module, the participants will:	
•	Have a thorough understanding of facial anatomy
•	Develop an understanding of ideal facial features including the proportions and dimensions that create beauty
•	Discuss the aging facial changes in both female and males patients of all cultures
•	Develop understanding of the pharmacology of the various Botulinum Toxins
•	Analyze the "best practice" standards for injection techniques for the treatment of frown lines, brow furrows, brow elevation, crow's feet, bunny lines, lip lines, nasolabial folds, marionette folds, aging jawline, and aging neck
•	Participate in an interactive session with leading experts performing live botulinum toxin Injections for aesthetic enhancement demonstrating all of the known applications
•	Understand the incidence, prevalence, and pathophysiology of hyperhidrosis
•	Understand the treatment of hyperhidrosis with botulinum toxin
•	Understand facial revolumizing to achieve a natural and youthful appearance
•	Understand the properties of the various facial fillers including autologous fat, cell augmented fat, the various collagens (Zyderm, Zyplast, Cosmoderm, Cosmoplast, Evolence), the various hyaluronans (Restylane, Perlane, Juvederm, Prevelle, Hydrelle), poly-L-Lactic acid (Sculptra), calcium hydroxylappetite (Radiesse), and silicone.
•	Learn how to choose the appropriate filler for individual aesthetic corrections
•	Learn the "best practice" injection techniques, products, and volumes for the aesthetic correction of global volume loss, temporal hollows, brows, tear troughs, cheeks, nasolabial folds, lips, jowls, prejowl depressions, jaw lines, and nasal deformities
•	Participate in an interactive session with leading experts performing live facial filler for facial aesthetic enhancements
•	Review the potential adverse events with the aesthetic use of both botulinum toxins and facial fillers and effective methods to avoid and treat these complications
•	Learn how to develop a successful aesthetic practice with pricing strategies, marketing strategies, scheduling and staffing

Curriculum Updated November 2017

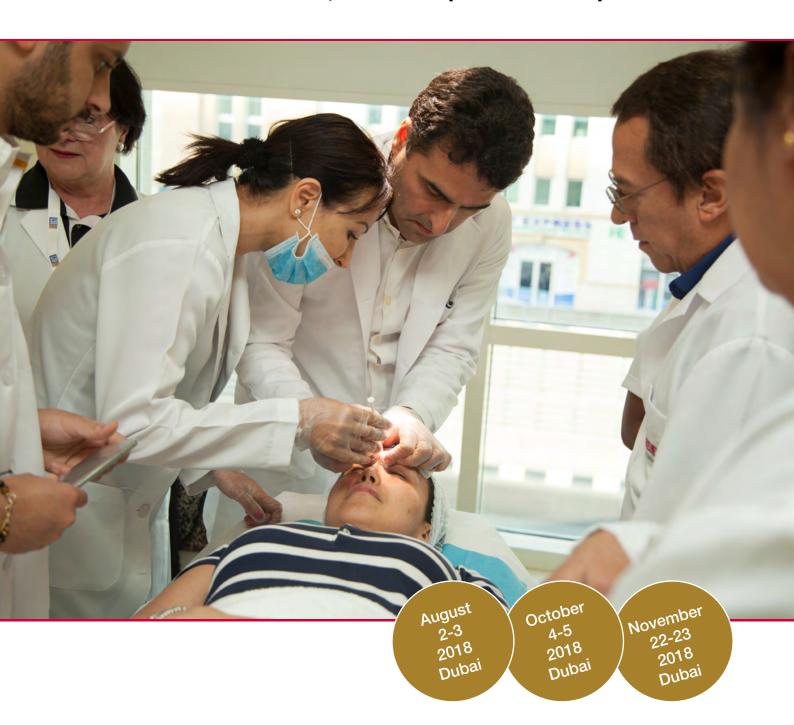

## 2 Day Hands-on Botox & Fillers

**Module 4A** 

## **MODULE 4, PART A (Basic Level)**

<b>Injectables Part A</b> (2 Days – 16 hours) Fillers, Botox & PRP			
DAY 1: DERMAL FILLERS			
	THE CONCEPT OF TOTAL FACIAL CONTOURING		
	What is beauty: Ideal facial proportions and facial geometry		
09.00 - 10.15	Enhancing facial shape: A combined strategy of lipolysis and volumizing with soft		
	tissue fillers		
	Restoration of an older face: Restoration techniques		
	Enhancement of beauty in younger faces		
	STRATEGIES TO ENSURE A SAFE INJECTION TECHNIQUE AND HOW TO AVOID COMPLICATIONS		
10.45 14.00	Overview of soft tissue fillers		
10.15 - 11.30	Lip augmentation		
	Blunt tip cannula use		
	How to avoid vascular occlusion		
	DISCUSSION AND COFFEE BREAK		
	LIP AUGMENTATION		
	Planning a lip augmentation procedure		
11.45 - 13.30	Injections techniques in lip augmentation - Live demonstration		
	HANDS-ON CASES LIP FILLER AUGMENTATION		
	Upper and lower lips		
GROUP LUNCH OFFERED ONSITE			
	HANDS-ON CASES DERMAL FILLER FOR FACIAL CONTOURING		
	Deep & subcutaneous injections with blunt tip cannula		
14.30 - 18.00	Infraorbital area		
	Zygomatic enhancement		
	Nasolabial folds or marionette lines		

Injectables Part A (2 Days – 16 hours) Fillers, Botox & PRP			
DAY 2: BOTOX / PRP
