Anti-Aging Therapeutics Compilation Brain Aging

Seventeen (17) chapters from the *Anti-Aging Therapeutics* textbook series, *volumes 5 through 10*, on the subject of Brain Aging, are presented in this Compilation. Additionally, *Brain Aging: Literature Review 2009*, compiled by Dr. Ronald Klatz, M.D., D.O., President, and Dr. Robert Goldman, M.D., Ph.D., D.O., FAASP, Chairman, respectively, of The American Academy of Anti-Aging Medicine (A4M), recaps the latest discoveries in Brain Aging Risk Factors and presents data supporting Nutritional Therapies and Lifestyle Choices for Prevention and Intervention of Aging-Related Cognitive Decline. Released as a Public Information Service by the A4M, we encourage you to share this Literature Review as a Patient Education Handout.

Each chapter is presented as a separate PDF file (printable). On this CD, double-click to select the file name corresponding to the article title and/or author you wish to read.
