ISBN 978-1-934715-16-1 (print & CD-ROM)

Chapter	Title and Author	Page
1	Developments in Human Longevity: A State-of-the-Specialty Report <i>Ronald Klatz, M.D., D.O.; Robert Goldman, M.D., Ph.D., D.O., FAASP</i>	1
2	Healing the Mind and Body with Food: A Personal Experience <i>Tana Amen, BSN, RN**</i>	9
3	Arterial Inflammation, Autophagy, and Senescence: Relationship to Aging and Cardiovascular Disease <i>Bradley Field Bale, M.D.*</i>	17
4	Evoked Potentials and Neuropsychological Tests Validate Positron Emission Topography (PET) Brain Metabolism in Cognitively Impaired Patients <i>Eric R. Braverman, M.D.*; Kenneth Blum, Ph.D.; Uma J. Damle, BA; Mallory Kerner, BS, Kristina Dushaj, BA, and Marlene Oscar-Berman, Ph.D.</i>	25
5	Hormonal Correlations in Female Menopausal Patients as a Function of Somatic and Neurological Symptom Clusters: An Exploratory Development of a Multi-Hormonal Map for Bioidentical Replacement Therapy (MHRT) <i>Eric R. Braverman, M.D.*; Kenneth Perrine, Uma J Damle, Stella Savarimuthu, Swetha Yeldandi, Mallory Kerner, Kristina Dushaj, Elizabeth Mo, Pooja Reddy, Pavan Reddy, Mona Li, Danielle Stratton, Kenneth Blum, Ph.D.</i>	39
6	The Importance of Nitric Oxide for Sexual and Exercise Performance and its Role in Adenosine Triphosphate Production <i>Nathan S. Bryan, Ph.D.*</i>	49
7	Detoxify for Life <i>John Cline, M.D., BSc, IFMCP**</i>	59
8	The Role of Intravenous Magnesium EDTA (Mg Na ₂ EDTA) Chelation Therapy in Ameliorating and Preventing Chronic Diseases Associated with Aging <i>Martin Dayton, D.O., M.D.</i>	67
9	Chronic Disease and Obesity: The Role of Food Sensitivities <i>Tanie Tyles Dempsey, M.D., ABIHM*</i>	83

10	Dyslipidemia Truths and Myths <i>Mark Houston, M.D., MS, MSc. *</i>	91
11	New and Revolutionary Concepts in the Pathophysiology, Diagnosis & Treatment of Hypertension <i>Mark Houston, M.D., MS, MSc.**</i>	107
12	State-of-the-Art Subcutaneous Bioidentical Hormone Pellet Therapy <i>James J. Mahoney, D.O.**</i>	117
13	Should You Allow Your Child to Play Football? Update on Concussion Management, Prevention and Treatment <i>Joseph C. Maroon, M.D.**; Jeffrey Bost PAC; Christina Mathyssek, MS</i>	125
14	The Use of Platelet-Rich Plasma (PRP) Injections and Stem Cells in an Office Setting <i>Joseph Purita, M.D.*</i>	141
15	Parathyroid Hormone: The Forgotten Hormone in Anti-Aging Medicine <i>Ron Rothenberg, M.D.*; Kris Hart MN</i>	161
16	Testosterone Replacement Therapy <i>Ron Rothenberg, M.D.**; Kris Hart MN</i>	171
17	Learning How to Talk to Patients <i>Erica Schwartz, M.D.**</i>	181
18	Telomere Rejuvenation for Health & Longevity <i>C. Norman Shealy, M.D., Ph.D.</i>	187
19	Memory Maintenance and Cognitive Decline <i>Pamela W. Smith, M.D., MPH, MS**</i>	199
20	The Use of T3, Botanicals and Nutrition to Optimize Thyroid Function and Peripheral T4 to T3 Conversion & Promote Well-Being <i>Denis Wilson, M.D.**</i>	219

* Denotes speaker at Spring 2013 Session of the Annual World Congress on Anti-Aging Medicine & Regenerative Biomedical Technologies;

** Denotes speaker at Winter 2013 Session.
