

REDEFINING MEDICINE

Module VI: Drivers of Immune System and Mitochondrial Dysregulation
Session Schedule

Immunology 101- A Review for Clinicians	Joseph Bellanti, MD	2 hr
The Effects of Hormones on Immune Dysregulation	Filomena Trindade, MD, MPH	2 hr
The Role of Mitochondrial Dysregulation in Chronic Disease: The Cell Danger Response Model	Neil Nathan, MD	2 hr
Chronic Inflammatory Response Syndrome	Andrew Heyman, MD, MHSA	2 hr
Mast Cell Activation Syndrome: The Forgotten Side of the Immune System	Leonard Weinstock, MD, FACG	2 hr
Environmental Toxins and their Impact on the Immune System with Focus on Treatment	Benoit Tano, MD	2 hr
Immunotoxic Metals: Diagnosis and Treatment with Special Emphasis on Autoimmunity	Lyn Patrick, ND	2 hr
Mold Toxicity and Its Role in Immune Dysregulation	Andrew Heyman, MD, MHSA	2 hr
Introduction to Lyme Disease and Other Chronic Illness	Andrew Pugliese, MD	2 hr
Brains on Fire: Lessons learned from PANS/PANDAS	Elisa Song, MD	2 hr
Redefining Chronic Pain: Etiologies, Immunology and Mitochondrial Dysfunction	Gary Kaplan, DO, DABFM, DABPM, FAAMA	2 hr
The Role of Central Sensitization and Neurogenic Inflammation in Myofascial Pain Syndrome	Jay Shah, MD	2 hr
