

REDEFINING MEDICINE

Module VII Autoimmune Diseases and Inflammation

Autoimmunity and Hormones	Filomena Trindade, MD, MPH	3 hr
Inflammation: Pain-Gut Connection	Heather Tick, MA, MD, CCFP	1 hr
Central and Peripheral Sensitization and Inflammation Stress and Pain	Heather Tick, MA, MD, CCFP	1 hr
New Solutions for Pain Control	Heather Tick, MA, MD, CCFP	1 hr
A Metabolic Approach to Vitiligo	Pamela Smith, MD, MPH, MS	1 hr
Low Dose Naltrexone Exciting Clinical Applications	Sahar Swidan, PharmD, BCPS, ABAAHP, FMNM	1 hr
Advanced Clinical Management of Inflammation	Sahar Swidan, PharmD, BCPS, ABAAHP, FMNM	2 hr
A Metabolic Approach to Lupus and Interstitial Cystitis	Pamela W. Smith, MD, MPH, MS	2 hr
Autoimmune Disease: Cutting Edge Approaches to Understanding, Diagnosing and Treating a 21st Century Epidemic with Case Histories	Todd LePine, MD	4 hr
The Inflammatory Cascade	Filomena Trindade, MD, MPH	1 hr
Metal Hypersensitivity (MELISA, Metals and Autoimmunity)	Lyn Patrick, ND	1 hr
Immunotoxicity – Toxicant-induced Cytokine Imbalances	Dorothy Merritt, MD	1 hr
The Role of Environmental Toxicant Chemicals in Autoimmunity	Dorothy Merritt, MD	1 hr
Glutathione Regulation in Autoimmunity and Oxidative Stress	Dorothy Merritt, MD	1 hr
Avoidance- Guidance for Patients in Elimination of Everyday Chemical Exposures	Lyn Patrick, ND	1 hr
Protocols- Nutrient, Botanical Supplementation for Toxicant Elimination in Autoimmunity	Lyn Patrick, ND	1 hr
A Metabolic Approach to Rheumatoid Arthritis	Pamela W. Smith, MD, MPH, MS	1 hr
