

REDEFINING MEDICINE®

# EXHIBITOR OPPORTUNITIES

## Connecting You to the Leaders in Integrative Medicine

Much has changed in the past year, but the need for advanced clinical medical education most assuredly has not. While our community of clinicians seeks new clinical approaches, advanced tools, and valuable resources to optimize their practices, 2021 offers a valuable opportunity for exhibitors to meet these needs.

Through our expanding calendar of virtual events for this year, you can better target and thus reach various customer personas that match your ideal, high-value client. Connect directly with these leads through a number of our valuable exhibiting opportunities listed below:

2021
