

# DR. SHADE'S LIVER SAUCE®

**Suggested Use:**  
Take 1 tsp as needed. Hold in mouth for 30 seconds before swallowing. May be mixed into water. Repeat to desired dosage or as directed by healthcare professional. Best taken on an empty stomach at least 20 minutes before meals.

Liver Sauce is a next-generation nutraceutical detox formula, carefully crafted to aid all three phases of purification and elimination. Our well-balanced blend combines powerful compounds and bitter botanicals, designed to “push” toxins from cells, help safeguard the hard-working liver, and activate bile flow to help alleviate side effects of toxin buildup in the body — all while supporting a healthy inflammatory response.

Most detoxification supplements activate only a few detox pathways while neglecting the critical role of bile flow and overlooking irritants triggered by toxin release. Quicksilver Scientific's Liver Sauce is different. Our multifaceted liver-support solution delivers comprehensive, end-to-end support for phased detoxification.

## Supplement Facts

Serv. Size: 5.0 mL (1 tsp.) Serv. Per Container: 20	Amount Per Serv.	Daily Value
<b>Sodium</b>	15mg	<2%
<b>R-Alpha Lipoic Acid</b>	60mg	**
<b>Proprietary Blend</b> Liquid extracts of Dandelion root, Gentian root, Solidago virgaurea aerial parts, Myrrh Oleo-gum-resin, and Essential Oil of Sweet Orange	750mg	**
<b>Proprietary Blend</b> of Dindolylmethane, Milk Thistle Seed Extract (80% Silymarin), Quercetin, and Luteolin Extract	60mg	**
<b>Phospholipids</b> (from purified sunflower lecithin)	180mg	**
** Daily Value (DV) not established % DV based on a 2000 calorie diet		

**Other Ingredients:** Ethanol, Glycerin, Water, Vitamin E (as Tocopherolan and Natural Mixed Tocopherols), Medium-Chain Triglycerides, and Acacia Gum

## WHAT'S INSIDE: A POWERFUL BLEND OF INGREDIENTS

---

The dandelion, gentian, solidago, and myrrh in Liver Sauce are bitter herbs critical for digestion and support bile flow, helping to jump-start toxin transformation and elimination. Milk thistle is known to offer liver-protective benefits, while R-lipoic acid activates detox, and potent phytochemicals aim to tame toxin-induced irritations at a cellular level.

## BILE FLOW: A VITAL ASPECT OF DETOXIFICATION

---

As the body's main detoxifying organ, the liver has many jobs including crucial bile production. Bile helps us digest dietary fats and transport toxins into the intestine for excretion. But modern-day stressors can impede healthy bile flow putting "toxic load" on the liver and body. Liver Sauce encourages healthy bile flow to support gentle toxin elimination.

## AID REDUCTION OF TOXIN-INDUCED IRRITATIONS

---

Toxins can significantly irritate cells and tissues, which in turn hinder detoxification, perpetuating a vicious cycle. The R-lipoic acid in Liver Sauce works as a buffer to support constructive antioxidant activity. In concert, DIM, quercetin and luteolin help support a healthy inflammatory response, allowing detox to progress.

## UNSURPASSED BIOAVAILABILITY

---

Many botanicals and phytochemicals have poor oral bioavailability, requiring high doses to help detox. Quicksilver Scientific's liposomal technology significantly enhances nutrient absorption, making Liver Sauce a go-to detox support formula for effective toxin elimination.
