

**Suggested Use:** Take 1 teaspoon by mouth twice daily. Hold in mouth 30 seconds before swallowing. Repeat to desired dosage or as directed by a healthcare professional. Take on an empty stomach, at least 10 minutes before meals. Use within 60 days of opening. If pregnant, consult a physician before use.

Without healthy, intact membranes, the biological “brain” of our cells break down, leading to whole-body dysfunction. Membrane Mend is an everyday blend that includes a master cell fortifier, plant-based essential fatty acids, vitamin E, and an age-defying antioxidant — all working together to promote the health and resilience of membranes throughout the body.

Modern life is rife with factors that compromise cell membrane integrity, including environmental toxins, infectious agents, and occasional life stressors. Membrane Mend is designed to nourish protective cell membranes with the same compound they are made of — phosphatidylcholine (PC) — directly supporting cell longevity, inflammatory balance, and energy production.

## Supplement Facts

Serving Size: 5 mL (1 tsp.)	Amount	% Daily
Servings Per Container: 20	Per Serving	Value
Natural Astaxanthin (from <i>Haematococcus pluvialis</i> extract)	7mg	**
DeltaGold® Tocotrienols	10mg	**
Aliflower® (refined <i>Buglossoides arvensis</i> ) seed oil	150mg	**
Phosphatidylcholine (from purified sunflower seed lecithin)	460mg	**

\*\*Daily Value not established

**Other Ingredients:** Water, glycerin, ethanol, tocopherols, natural citrus oils, antioxidants (rosemary extract, natural tocopherols, ascorbyl palmitate)

## FEED THE “BRAIN” OF YOUR CELLS

---

The high-grade PC and Ahiflower® fatty acid complex in our Membrane Mend sync perfectly to help build and repair membranes — the brain of our cells. We need this smart barrier to maintain a healthy, energy-producing environment and keep out unwanted molecules, ions, and oxidative threats.

## SUPPORT CELLULAR LONGEVITY

---

With age comes natural but unwanted changes, including potentially harmful inflammatory activity. This hallmark of aging happens within our cells, too. The powerful antioxidant effects of astaxanthin, vitamin E, and fatty acids in Membrane Mend work fluidly to help balance inflammation at a cellular level.

## UNCOVER ENERGY POTENTIAL

---

Mitochondria, the mini but mighty energy factories of our cells, have their own biological membranes, another pathway for Membrane Mend to lend supplemental support. Because these powerhouses create ATP, the energy “currency” used by every cell and tissue in the body, we need mitochondrial membranes to remain intact and functioning well at all times.
