

NAD+ GOLD®

NAD+ Gold® is our game-changing age management tonic. NAD+ is the celebrated 'anti-aging' molecule naturally present in every cell and critical for DNA repair, energy production and cell survival. This liposomal formula contains nicotinamide mononucleotide (NMN), a potent activator of NAD+, along with trimethylglycine (TMG) to support methylation and the action of NAD+.

NMN is a direct, stable precursor of NAD+. Supplementation with NMN can increase levels of NAD+ and support healthy cellular function throughout the body. When paired with liposomal delivery, NMN is easily absorbed into the bloodstream and converted directly to NAD+ for a fast-acting effect, providing the most powerful delivery method of this next-gen age management elixir.

Suggested Use: Take 2 pumps by mouth and hold in mouth for 30 seconds before swallowing. Increase frequency of use if needed or as directed by healthcare professional. Take on an empty stomach at least 10 minutes before meals. May be stirred into a small amount of water. Use within 90 days of opening. If pregnant consult physician before use.

Supplement Facts

Serving Size: 1 mL (2 pumps)	Amount	% Daily
Servings Per Container: 50	Per Serving	Value
NMN (β-Nicotinamide mononucleotide)	50mg	**
Trimethylglycine (as betaine)	50mg	**

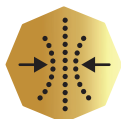

**Daily Value not established

Other Ingredients: Water, glycerin, ethanol, phospholipids (from purified sunflower seed lecithin), vitamin E (as tocopherols, and natural mixed tocopherols)

CHANGE THE WAY YOU AGE

Aging is associated with poor quality of both health and life and leaves us searching for a fountain of youth. Fortunately, science has shown us that increasing NAD⁺ may be the solution. NAD⁺ is essential for life and is known to extend lifespan, boost energy production, and promote health. Yet by middle age, our NAD⁺ levels plummet to half that of our youth. By supporting NAD⁺ production with supplemental NMN, youth is now within reach.

DE-AGE YOUR METABOLISM

NMN has been found to improve metabolism, rendering it more like that of someone 10-20 years younger. Emerging studies on supplemental NMN show positive effects on insulin sensitivity, skeletal muscle restoration, and protection against age-associated weight gain.

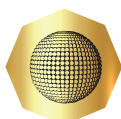

REVITALIZE THE BRAIN

In the brain, NMN has been found to support overall cognition, including memory and focus. It also has a protective effect on neurons and the integrity of the blood-brain barrier, helping to diminish brain aging.

BOOST ENDURANCE

NMN helps enhance stamina and endurance in exercise. It improves muscle function, supports blood flow throughout the body, and boosts energy production to provide a noticeable improvement in physical performance.

SUPERIOR ABSORPTION + EFFICACY

NAD⁺ Gold™ is delivered to the body using our state-of-the-art liposomal delivery technology offering quick and complete uptake through the cells of the mouth and directly into the bloodstream for fast-acting results you can feel.
