

DR. SHADE'S NANOMOJO®

Suggested Use: Take 2 pumps twice daily or as directed by a healthcare professional. Hold in mouth 30 seconds before swallowing. May be mixed into water. Best taken on an empty stomach at least 10 minutes before meals. Once opened use within 60 days.

NanoMojo is a powerful adaptogen blend to support stress resilience and hormonal balance in both men and women. Adaptogenic herbs are botanicals that support the body's response to daily stressors while acting on multiple systems — in this case, brain, energy, and hormone health.

Part of a trio of proprietary products crafted by master herbalist Dan Moriarty and enhanced by Quicksilver Scientific's advanced liposomal delivery, this 19-herb endurance elixir provides sustainable energy — more energizing “yang” — without overstimulating. It's safe for long-term use and perfect for high-demand situations.

ANCIENT ADAPTOGENIC BOTANICALS

The medicinal herbs American ginseng, astragalus, and rhodiola come together to help address high mental and physical demands by fortifying adrenal health and vitality. Tribulus and epimedium (horny goat weed) are also included to help nourish endocrine function, alongside 14 other powerful adaptogenic botanicals.

SUSTAINED ENERGY WITHOUT OVERSTIMULATION

Plant-based NanoMojo encourages hormonal balance, with potential downstream benefits for libido, fertility, and prostate health in men. Designed to promote a reservoir of natural endurance, this product is safe to use regularly — or as a workhorse any time you need a fast-acting, sustainable resilience reset.

UNSURPASSED BIOAVAILABILITY FOR HERBS

The absorption of many botanicals is limited in the gut. NanoMojo is different. Unlike dry herbs, this highly absorbable, liposomal adaptogenic tonic is fast acting for results you can feel.
