VERSION 1

designing a well world™

This last year, we've witnessed a greater understanding across the health-care industry of how holistic and preventative medicine can bolster our global community. We commend you, the health-care practitioner, for a steadfast dedication to your patients and for your ability to provide quality care in the most difficult of circumstances.

The pandemic shed light on a number of challenges, some commercial and some societal. From business, manufacturing, and industry perspectives, the pandemic severed supply and distribution channels causing significant delays in access to raw materials and supplies. Despite these challenges felt across many industries, which included the dietary supplement arena, our team at Designs for Health remained committed to quickly and effectively resolving these challenges, by finding solutions to overcome logistical hurdles and identifying opportunities to enhance our operational efficiencies.

Throughout it all, we managed to persevere and continued to produce and deliver products into the hands of providers and patients. This commitment to consistency and reliability remains a vital mission for us all, and it ensures we support you with tools designed to effectively improve your patient outcomes.

At the beginning of 2021, we recalibrated our efforts and production processes and laid out a roadmap for continued innovation in product development. A consistent theme and brand pillar for us at Designs for Health is that we focused on innovation by examining emerging trends in nutritional science. In the last year, we successfully launched 22 new, unique, and efficacious formulas that support aspects of cellular function, healthy aging, respiratory health, immune resilience, and children's wellness.

Education is at the very foundation of our inception as a company.

To provide a platform for direct patient support, we invested in upgrades and improvements to Well World®, the only HIPAA-compliant virtual dispensary and

patient-engagement solution designed for integrative health-care providers, functional medicine practitioners, and their patients.

Education is at the very foundation of our inception as a company, so we furthered our efforts in this crucial area, delivering new e-learning courses, developing our Dietary Supplement Specialist Certification Program, producing new educational tools for product reference and discernment, and reinstating our annual clinical education conference, CASI (Clinical Application of Scientific Innovation). After a year-long hiatus, we were excited to return to the CASI Functional & Lifestyle Medicine Symposium, our flagship CEU-accredited event, where world-renowned thought leaders delivered exceptional educational content.

Beyond clinical education, we generated new business and practice management support resources, including a new business supplement newsletter and patient marketing hub, to foster practice viability and scalability. As part of our efforts to advance the future of medicine, we expanded our academic advocacy through deepened partnerships with several institutions and continued to support research initiatives that examine an array of nutritional compounds and their influence on human health.

Designs for Health formulas will remain the highest in quality and efficacy, leveraging novel compounds and superior delivery technologies, being guided by evidence from the scientific literature.

These efforts will continue as we fix our vision toward the years ahead with new initiatives on the horizon. We will continue to expand the capabilities and functionality of Well World. Our educational efforts will continue to empower clinicians with the latest clinical and practical knowledge. Designs for Health formulas will remain the highest in quality and efficacy, leveraging novel compounds and superior delivery technologies, being guided by evidence from the scientific literature.

From our humble beginnings to our audacious aspirations of changing the very nature of health care, we strive each day to live by our mission of designing a well world™. Thank you for your continued loyalty and partnership in helping us to achieve this mission. We value you and the work you do each day and look forward to a year of health and prosperity.

Yours in health,

Jonathan Lizotte

Founder, Chairman & CEO

designing a well world™

Our Vision

Our culture of innovation, education, and operational excellence delivers practitioner-rooted health and wellness solutions of the highest quality and efficacy. Our people, passion, and products leverage the latest science and technologies to inspire people to lead healthier lives.

We believe ...

- in giving everyone the opportunity to live their healthiest life.
- in being a source of education and support for our practitioners.
- in allowing patients to take charge of their health.
- in disrupting the status quo of delivering health-care solutions.
- in leading a paradigm shift to natural and integrative medicines.
- in developing health products without compromise.

Our Purpose

- To lead the wellness movement
- To transform the health-care ecosystem
- To embrace the continuous pursuit of innovative, Science-First™ solutions
- To design a more well world for our practitioners and their patients

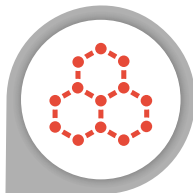

We are ...

- visionaries and designers of a more well world.
- educators and innovators driven by a higher purpose.
- holistic activists rooted in and united by science.

Our Brand Defined

Our brand pillars are the foundational elements of our collective vision, mission, and leadership in the wellness movement. As holistic activists, we transform the health-care ecosystem by building and refining our brand from the core of these pillars. They are a snapshot of who we are as a brand — yesterday, today, and into the future.

Science-First™

Guided by science through clinical research, we design **leading-edge solutions** and implement innovative new approaches that result in more holistic pathways to wellness. We hold ourselves to the **highest standards** of integrity — from the way we source our ingredients through leading suppliers who share our vision to our **commitment to quality testing** our raw materials and finished goods — our dedication to quality is unsurpassed.

Partnership

We are a progressive force in integrative medicine. We challenge boundaries and seek solutions for health-care practitioners where none seem apparent.

Our customers are partners in health, wellness, and success. We are committed to providing a wide range of tools and services designed to accelerate practice growth. We are proud to **partner with industry-leading organizations** to continually advocate for higher standards in supplementation, education, and the practice of functional medicine for the betterment of all.

Wellness

Our mandate is to help practitioners restore, maintain, and preserve the health and wellness of all people and our world. Healthy bodies and minds drive us to **designing a well world™** for all, where wellness becomes more accessible than ever before.

Knowledge

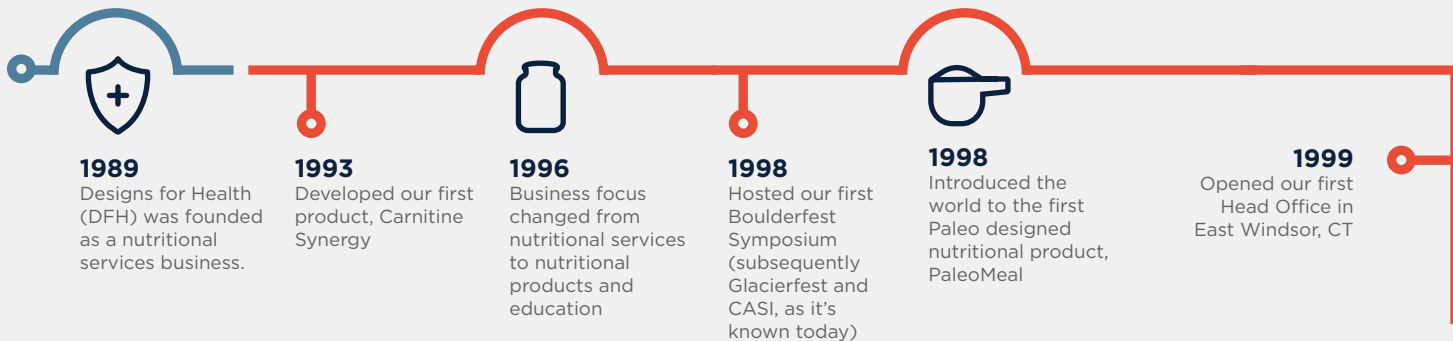

Educating others through world-class events, articles, online courses, and webinars is at the heart of what we do. We deliver **evidence-based clinical education** and industry-leading business-building content in collaboration with subject matter experts and key opinion leaders in the natural and functional medicine fields. **Knowledge is the guiding force** of our research. Sharing and learning from that knowledge is critical to our continued success.

Innovation

We **spearhead innovation** in product formulations, education, and clinical services to our practitioners and their patients. Our goal is to support practitioners with innovative solutions that harness nutritional and herbal medicine **backed by science**, and provide novel, tailored dispensing options for all.

As new science emerges and health-care practices evolve, the need for continued practitioner development is essential to providing the very best in patient care and maintaining a resilient practice.

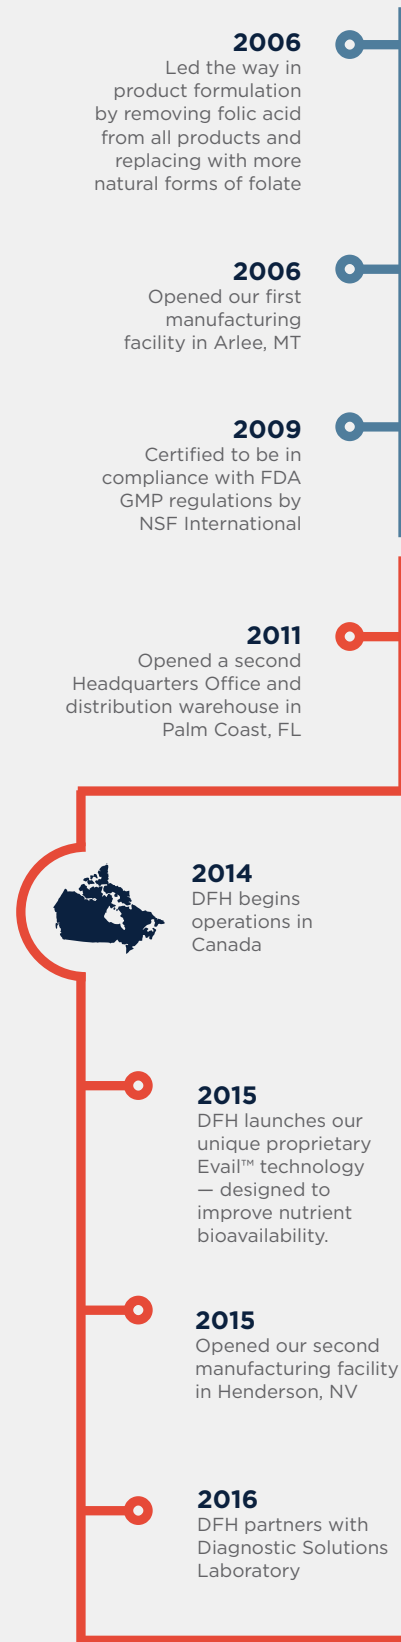

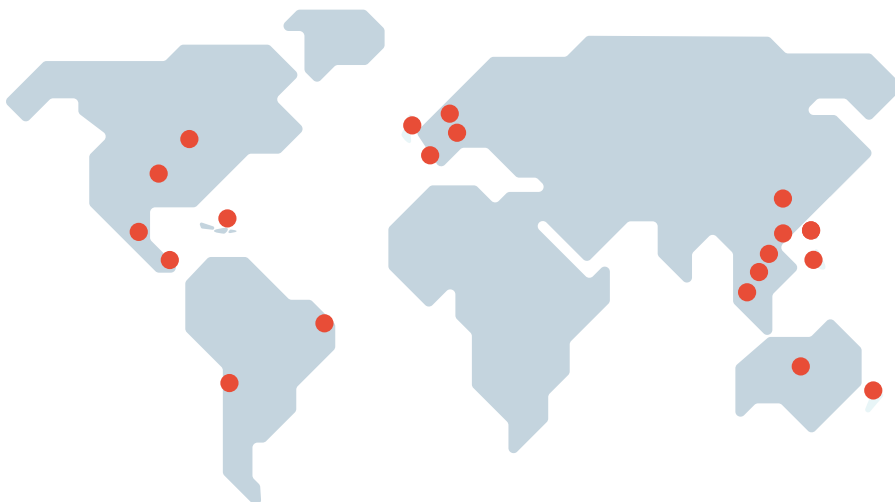

Created by Practitioners for Practitioners

Created by practitioners for practitioners, Designs for Health began in 1989 as a small educational services company with deep roots in natural medicine — and big ambitions to revolutionize the industry. More than 30 years later, we're pioneering new approaches to nutritional science, breaking barriers in quality standards, and completely transforming the health-care ecosystem.

Through a robust product pipeline and a diverse portfolio of more than 320 nutritional products, paired with uncompromising support and commitment to our practitioners, we're leading the charge in the natural and integrative medicine movement as we design a more well world for all.

Designs for Health® Global Markets

Our Mission

Our mission is to bring wellness to humanity through evidence-based integrative medicine.

We are visionaries for health — rooted in and united by science. We transform boundaries, break barriers, set new standards, and disrupt the status quo. We believe in science-based nutrition and natural medicine, developing health products without compromise and advancing the way education and technology support wellness for all.

We will keep discovering. We will keep connecting. We will keep fearlessly advocating to improve the quality of life for everyone through integrative medicine, so that one day, natural medicine and the science of nutrition stand at the forefront of the health-care landscape.

Here, holistic thinking comes first. Functional medicine becomes conventional medicine. Supplements and lifestyles converge.

**We design a new paradigm.
We design a well world.**

2018

Once again, DFH led the way in product innovation by transitioning away from tocopherols and by introducing delta- and gamma-tocotrienols

2018

Launched DFH in Australia

2018

DFH partnered with American River Nutrition

2019

Transitioned all products and shipping materials to sustainable packaging

2021

Dietary Supplement Specialist (DSS) Certification Program launched

2021

Continued to pave the way in product innovation by transitioning all relevant formulas to only use MK4 as the most bioavailable form of vitamin K2

2021

DFH distributed and recommended in over 20 countries

2021

Fifth distribution center introduced in Fort Worth, TX

2020

Gained NSF Certified for Sport on select products

2019

Launched Well World® — our virtual dispensary and patient engagement tool

2019

Introduced geranylgeraniol (GG)

Meet Our Leadership Team

Jonathan Lizotte
Founder, Chairman & CEO

Jonathan Lizotte is the Founder, Chairman and CEO of Designs for Health (DFH). Throughout the years, he has guided and directed the company to ensure that its mission and vision are realized. With over 30 years in the integrative medicine field and nutritional supplement industry, Jonathan is an expert in the business of nutritional supplement products. Under Jonathan's leadership, DFH has become one of the fastest growing, most respected manufacturers and distributors of nutritional supplements worldwide.

Phil Lizotte
Vice Chair

Phil joined Designs for Health in 2006, after a rewarding career in the construction industry, where over the course of 28 years he built two companies into very successful enterprises. As Vice Chair of DFH, Phil's experience in building organizations and coordinating their resources has been a major asset in the development of DFH from a company with only one distribution center into an organization with five distribution centers and two manufacturing facilities.

Gail Lizotte
Vice Chair

As one of the founding members of Designs for Health, Gail Lizotte oversaw many aspects of the company's operations across several senior roles throughout her 30-year career with the company. Passionate about people and making a difference, Gail quickly became the go-to person for any employee-related initiatives across all DFH facilities. With her steady presence and her ability to connect with people, Gail continues to be an enormous part of the heart of DFH.

Roger Koehler
President

Named President at Designs for Health in 2017, Roger Koehler is instrumental to the ongoing growth of the brand and furthering its mission of establishing DFH as the leading innovator for the industry. Roger oversees all operational aspects of DFH and has a track record as a results-oriented executive leader in manufacturing, quality, supply chain, product management, and engineering. Raised in a family that has operated a chiropractic practice for over 65 years, Roger is passionate about the functional medicine industry.

Daniel Samson
Chief Revenue Officer

Daniel Samson has almost 30 years of professional experience within the health-care industry where he held multiple executive positions in sales, marketing, and business development. He joined the DFH team in 2014 to lead DFH's Canadian operation, where he was also responsible for international business and new market entries. In 2020, Daniel was appointed as the Chief Revenue Officer to oversee commercial operations in the U.S. and drive future growth through his passion of delivering results and building high performance work teams.

Neal Mercado
Chief Marketing Officer

Neal Mercado joined Designs for Health in 2018. With over 20 years of experience in the global vitamin and dietary supplements industry, he is responsible for the development and implementation of global marketing and innovation expansions that continually drive company growth. Since joining DFH, he has transformed and refined our Education, Marketing, and Product Development functions to ensure DFH continues to lead the way in delivering the highest quality supplements for health-care practitioners.

Michael Charland
Chief Financial Officer

Michael Charland, Chief Financial Officer, joined Designs for Health full time in 2018 as a senior executive experienced in developing and executing business strategies for both early stage companies and established Fortune 500 organizations alike. In his role, Michael brings a wealth of knowledge and guides the organization through strategic planning, financial modeling, financial controls, best practice implementation, business planning, and reporting.

Stephen Carruthers
General Counsel

After several years serving as outside counsel to Designs for Health, Steve joined the company as its General Counsel in 2012 leading DFH's legal and compliance functions. Prior to joining DFH, Steve was engaged in private practice in Connecticut for over 20 years. During this time, he focused on corporate and transactional matters for small- and medium-sized businesses, including mergers and acquisitions, debt and venture capital financing, and commercial real estate.

Tom Bertolino
Chief Information Officer

Tom Bertolino joined Designs For Health as Chief Information Officer in 2021. In this role, Tom leads the global master IT strategic plan and provides executive leadership for internal and external IT resources. Before joining Designs For Health, Tom worked for 16 years at Anheuser-Busch in various logistics and IT roles and was elected to ABI's multi-year Leadership Development Program. For the last 8 years, he successfully led a software product development team at Cass Information Systems.

Rachael Pileggi
Chief Human Resources Officer & Chief Compliance Officer

Rachael Pileggi joined Designs for Health in 2018 as an attorney for the company and leader in the Legal department. In her current role, Rachael is a strategic HR business partner and leader of the HR function. She also oversees the implementation, management, and effectiveness of the company's compliance programs. Before joining Designs for Health, Rachael worked as an advertising/marketing, FDA regulatory, and general commercial attorney for Fortune 500 and Russell 2000 public companies.

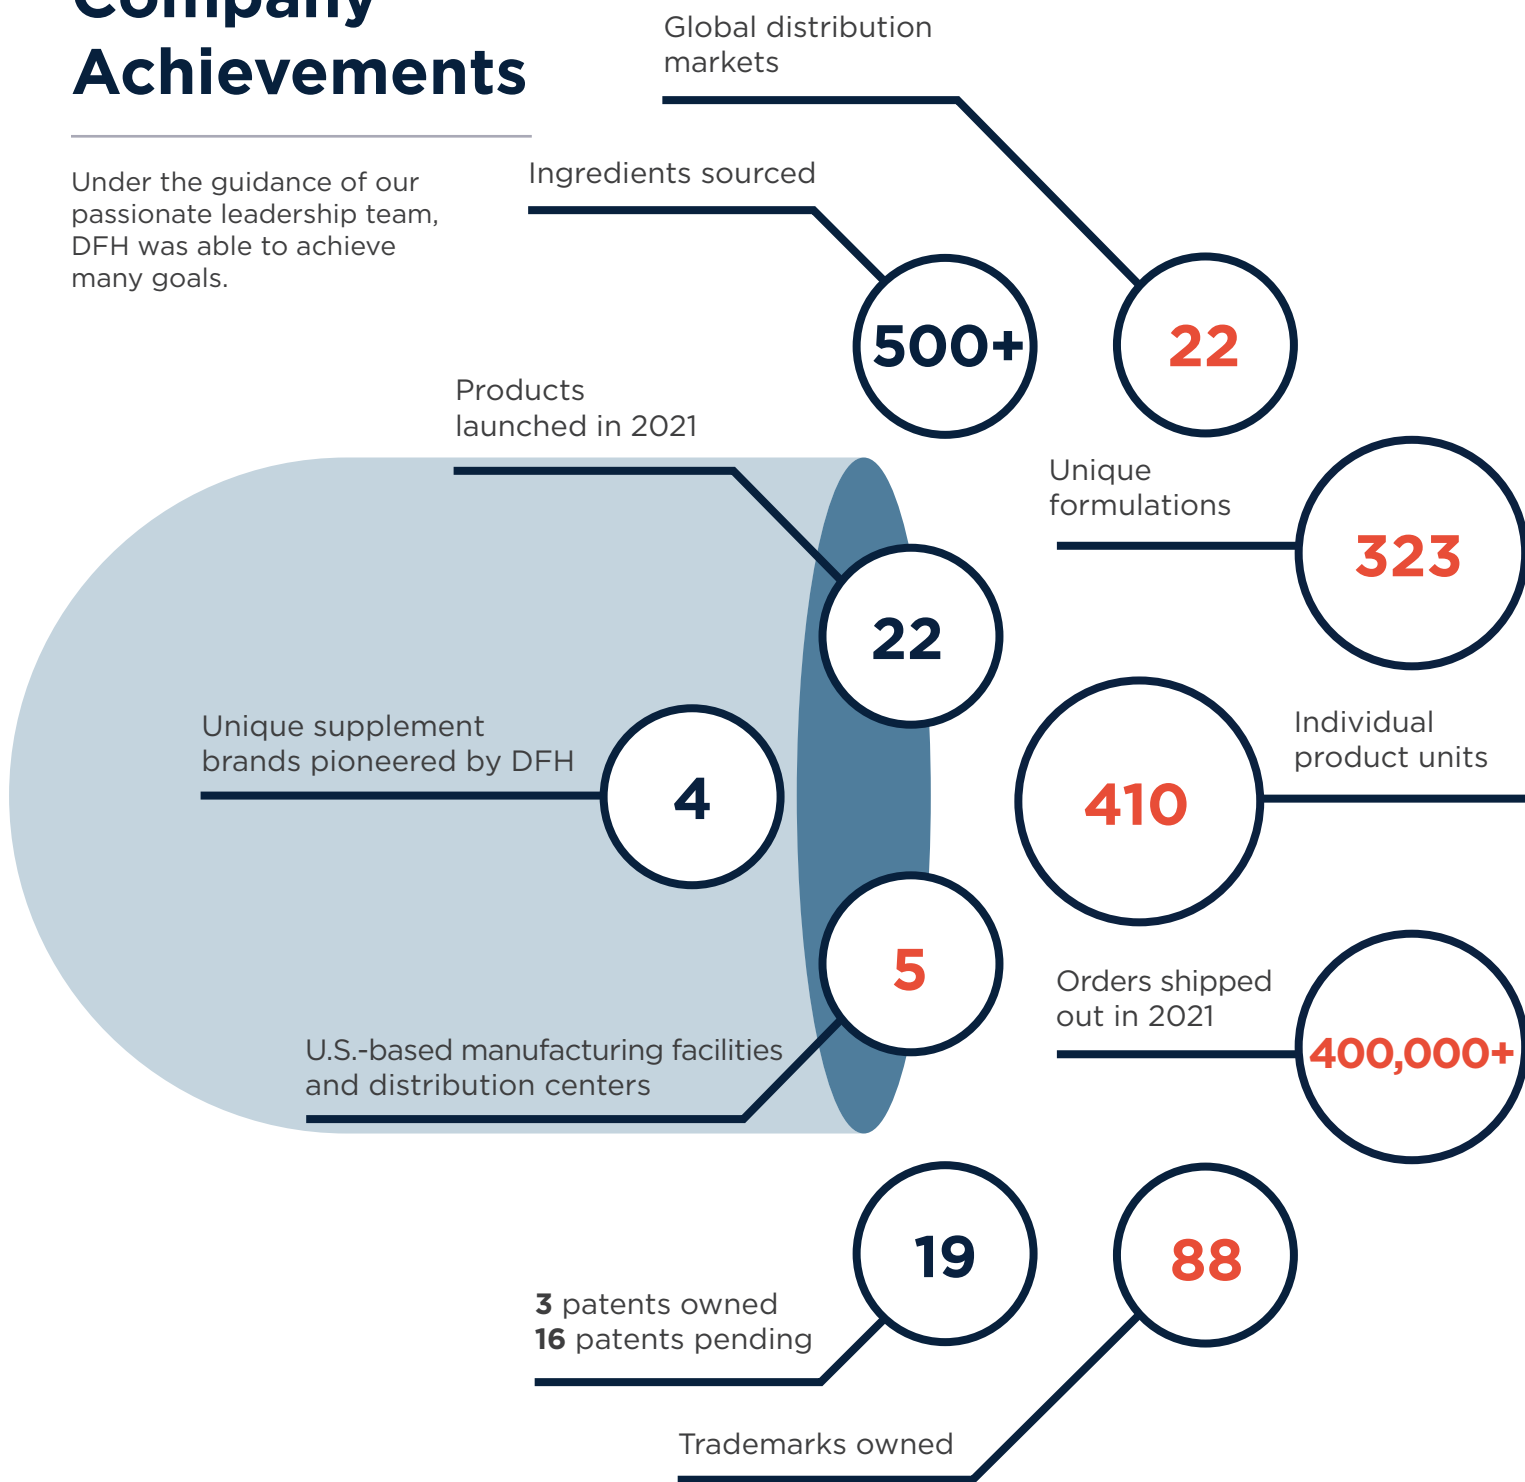

Peter Barraket
Managing Director Australia & New Zealand

Peter Barraket is an energetic and transformational leader with a proven track record of delivering results. He has more than 20 years' experience as a Senior Executive in the nutraceuticals industry having worked for leading Australian and New Zealand brands across the health food, vitamins, and dietary supplements sectors. He joined Designs for Health in 2018, leading the Australian operation, by developing it into one of the fastest growing practitioner-only brands in the Australian market at the time.

Company Achievements

Under the guidance of our passionate leadership team, DFH was able to achieve many goals.

Industry Firsts

First to launch ComboCap® technology in the practitioner market*

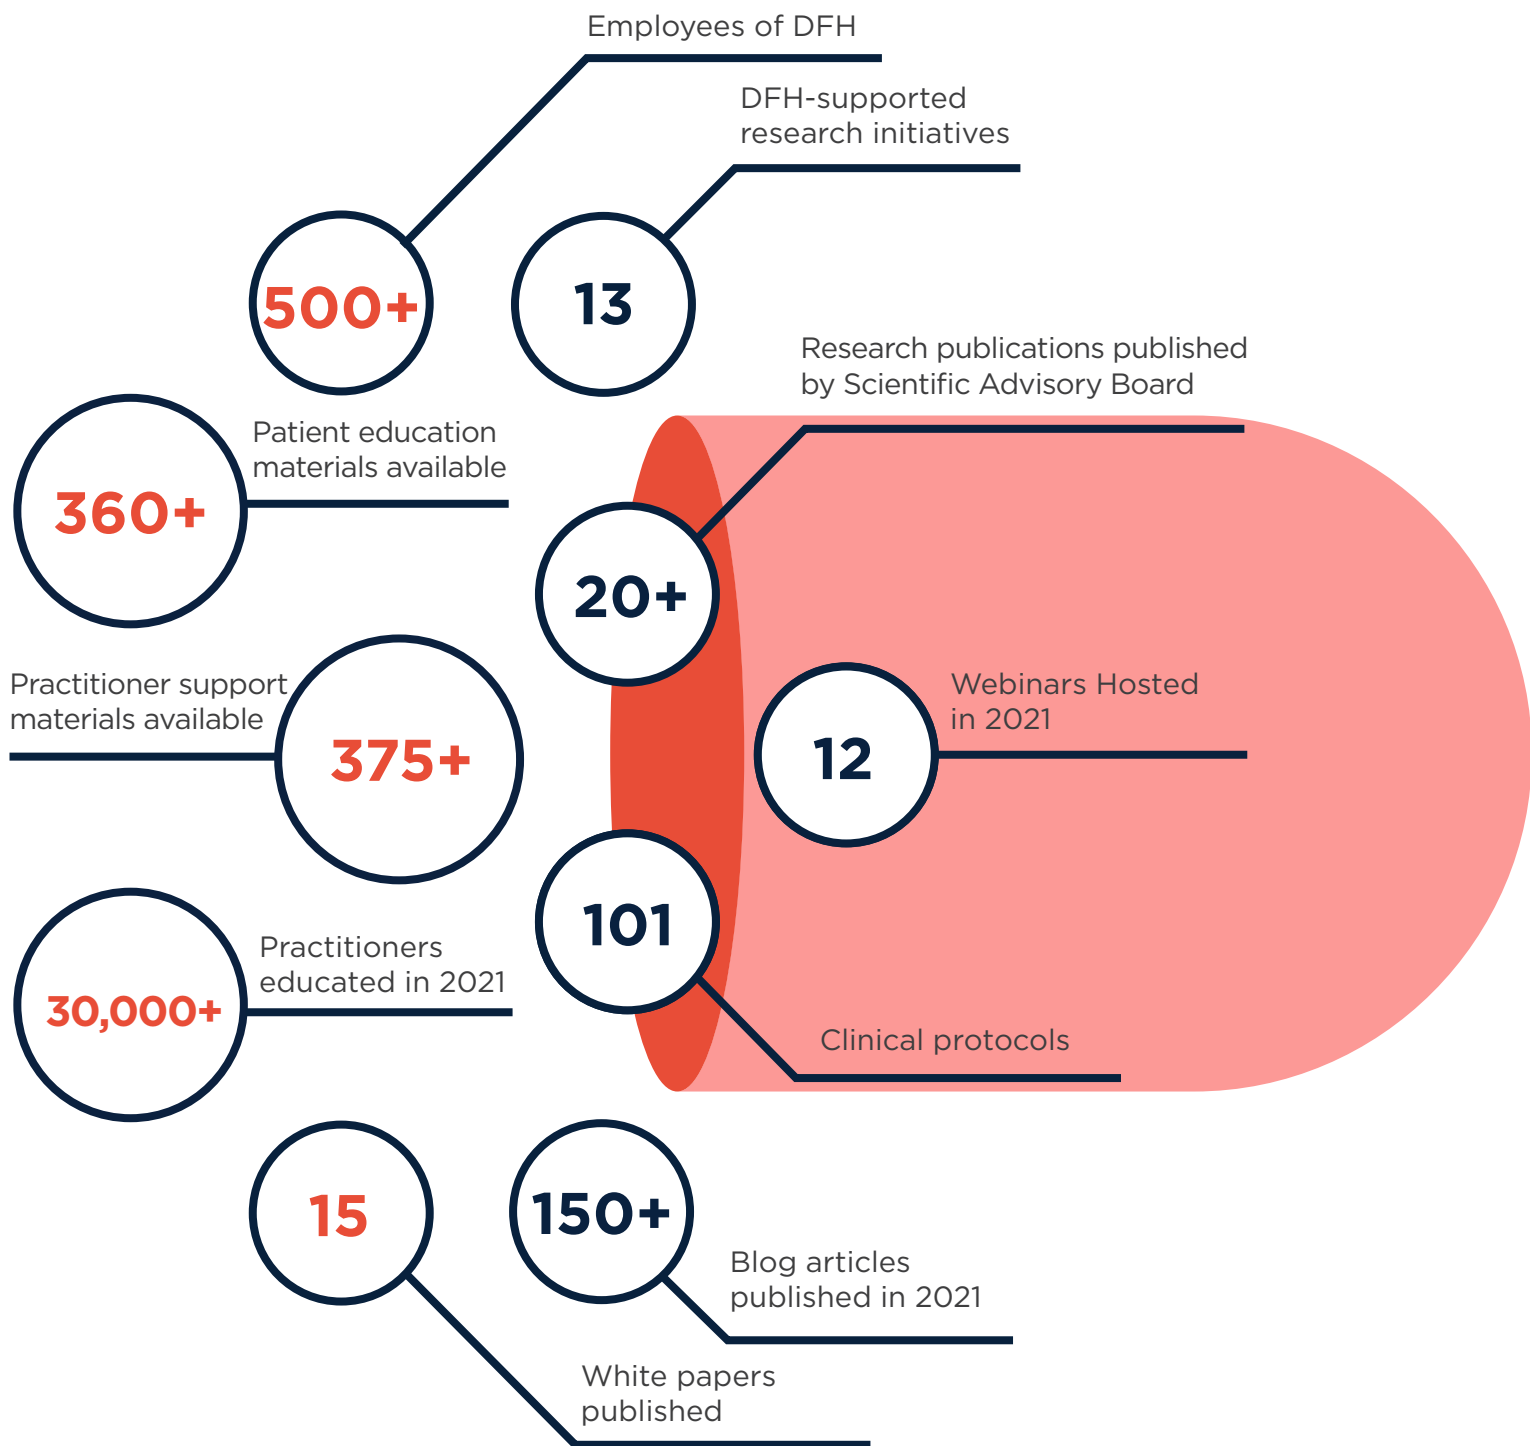

First to offer annatto tocotrienols as delta- and gamma-tocotrienol isomers at the 300 mg serving based on clinical studies

First to provide endogenous and exogenous CoQ10 in DuoQuinol™**

*ComboCap is a trademark of ComboCap, Inc.

**DuoQuinol is a trademark of American River Nutrition, LLC

First to introduce geranylgeraniol as a new dietary ingredient in the practitioner market

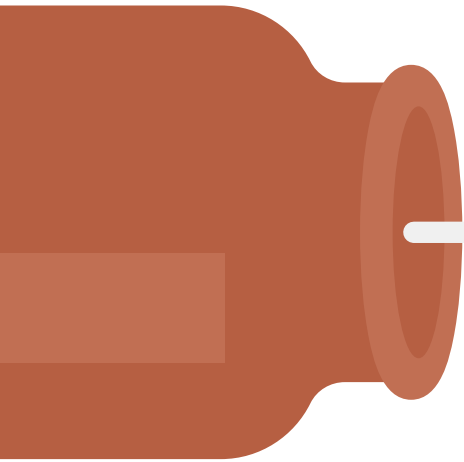

First to offer Fortibone, collagen peptides clinically proven to increase bone mineral density, in the practitioner market

First to offer butyrate, in a non-salt form, within the practitioner market

Innovation Roadmap

At Designs for Health, we are dedicated to providing practitioner-only formulas that are backed by science, with a respected point of difference that are effective in helping practitioners achieve desired results. Each formulation is guided by key principles along every step of our innovation process.

Formulation

Our Product Development team formulates unique products with our Science-First™ philosophy in mind. Our efficacious formulas are grounded in scientifically validated evidence — through scientific data, clinical trials, or empirical evidence — to ensure results in treatment recommendations for patients.

Ingredient Selection

Ingredient selection and safety assurance are key factors in our product development process. We choose high-quality extracts sourced from around the world with demonstrable results that adhere to stringent quality control procedures and validation. We strictly do not include artificial flavors, artificial colors, or artificial sweeteners in any of our products, and we maintain an extensive list of excipients that will not be used.

Quality Testing

Our raw materials and final formulations undergo third-party testing to ensure potency, purity, and validation that every product meets the label claims.

Packing & Packaging

DFH only uses sustainably conscious amber glass bottles, polyethylene terephthalate (PET) tubs and closures, cardboard shippers and eco-friendly paper, hexel-wrap, and filler material for all packing and packaging needs.

A dark blue circle with a diagonal line from the top-left to the bottom-right, divided into two shades of blue. It is connected by a light gray line to the Manufacturing circle on its right.

Sourcing

DFH only partners with ingredient and packaging suppliers that have been assessed and pass our stringent quality audit standards. A supplier evaluation is completed as part of our quality sourcing programs to ensure quality, identity, potency, and purity of ingredients is known. DFH will not accept suppliers of raw materials where testing methodologies are not substantiated and cannot be validated.

A light blue circle with a diagonal line from the top-left to the bottom-right, divided into two shades of light blue. It is connected by a light gray line to the Sourcing circle on its left and another light gray line to the Warehouse & Distribution circle on its right.

Manufacturing

All DFH products are manufactured in North America. DFH-operated, U.S.-based manufacturing facilities are GMP-certified by NSF International, demonstrating that our products are produced utilizing the highest standards of manufacturing. Any third-party contract manufacturers we use must also meet the regulatory requirements and pass DFH's own strict audit criteria.

Warehouse & Distribution

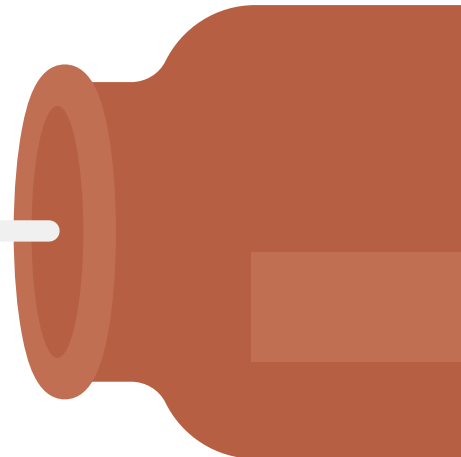

DFH maintains five distribution facilities across the U.S. that optimize systems and technologies to drive efficiencies, ensuring the right product gets to the right location with minimum delays. We have implemented digital infrastructures that monitor the chain of custody for all our products to allow tracking from the manufacturer to the consumer.

Customer Satisfaction

Practitioners choose and recommend Designs for Health because of our research-based and quality-tested formulas. We continue to pioneer new approaches to nutritional medicine through a robust innovation pipeline, paired with uncompromising support and commitment to our practitioners' ever-evolving needs.

Our Science Team

As part of our mission to provide practitioners with the most advanced, evidence-based formulas, Designs for Health product development is governed by an esteemed team of clinicians who consult with our Scientific Advisory Board of world-renowned integrative health and medicine experts.

David M. Brady
ND, DC, CCN, DACBN, IFMCP, FACN
Chief Medical Officer

Dr. Brady has over 30 years of experience as an integrative practitioner and over 25 years in health sciences academia. He is a licensed naturopathic medical physician in Connecticut and Vermont, is board certified in functional medicine and clinical nutrition, a fellow of the American College of Nutrition, and completed his initial clinical training as a doctor of chiropractic. Dr. Brady has been the chief medical officer of DFH since 2003 and has been a guiding presence in product formulation and design, clinical education and support, quality control oversight and strategic partnerships for the company. He also is a founder and serves as the chief medical officer for Diagnostic Solutions Labs, and is the former long-term vice president of the Division of Health Sciences and director of the Human Nutrition Institute at the University of Bridgeport in Connecticut, where he continues to serve as professor emeritus of nutrition. He has appeared on the plenary speaking panel of some of the largest and most prestigious conferences in the field including IFM, ACAM, A4M, ACN, IHS, AANP, AIHM, and many more. He is in clinical practice at Whole Body Medicine in Fairfield, CT, specializing in functional, nutritional and naturopathic medicine.

Michael Jurgelewicz
DC, DACBN, DCBCN, CNS
Director, Product Development & Clinical Support

Dr. Jurgelewicz is involved in the research, coordination, and execution of new product development and product reformulation and as clinical and technical support for Designs for Health. He has been studying nutrition and wellness for the past 17 years and is an adjunct clinical instructor for the renowned Master of Science in Human Nutrition program at the University of Bridgeport. He has a B.S. degree in Health & Wellness, a B.S. degree in Anatomy, and is a Doctor of Chiropractic. Dr. Jurgelewicz is Board Certified in Nutrition by the American Clinical Board of Nutrition, a Diplomate of the Chiropractic Board of Clinical Nutrition, and a Certified Nutrition Specialist. He is also a member of the American Clinical Board of Nutrition's Item Writer's Committee and is the author and contributor to several professional publications. Dr. Jurgelewicz specializes in functional medicine in the management of a variety of chronic health conditions.

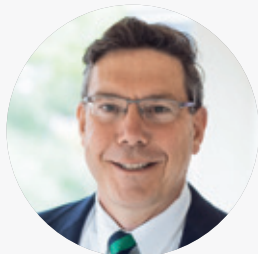

Barrie Tan, PhD
Chief Science Officer

Dr. Barrie Tan earned his doctorate in chemistry (University of Otago, New Zealand; 1979), and he became a professor of chemistry and food science/nutrition (University of Massachusetts, Amherst; 1982-1992). His research expertise includes lipid-soluble nutrients (carotenoids, E vitamers, CoQ10, and omega-3s). Dr. Tan was the first to introduce tocotrienol's benefits to the nutrition industry, and he developed the first-ever tocopherol-free tocotrienol product derived from annatto. Today, his research focuses on lipid-soluble nutrients that impact chronic conditions. Dr. Tan is the senior editor of "Tocotrienols: Vitamin E Beyond Tocopherols" (2013), and he continues to collaborate with numerous universities worldwide to further tocotrienol research.

The Designs for Health Difference

Designing our efficacious, science-based formulas requires unique expertise and care. Our team of product development experts analyzes the latest studies and research to ensure meaningful quantities of therapeutic elements for our formulas using proven-effective delivery systems and technologies. DFH makes no sacrifices in the pursuit of excellence because, for us, effective, high-quality product design has always been synonymous with scientific integrity.

Formula Differentiators

- **Use of allulose — a non-nutritive sweetener with 1/10th the calories of sugar and no impact on blood glucose**
- **No artificial flavors or sweeteners used in our formulas**
- **Proprietary Evail™ emulsification technology designed to enhance bioavailability and absorption of bioactive ingredients**
- **Use of the TruTG™ form of omega-3**
- **Inclusion of vitamins K1 and K2 with vitamin D formulas to support the synergistic and effective combination of vitamins D and K together**
- **Use of MK4 as the preferred vitamin K2 isomer**
- **Use of only highly researched, identified probiotic strains**
- **Use of tocotrienols instead of tocopherols for vitamin E**
- **Inclusion of geranylgeraniol: a precursor to CoQ10**
- **Use of methylated B vitamins for increased availability and enhanced methylation support**

Our Quality and Efficacy Promise

At DFH, we have several key programs in place that ensure the highest quality formulations across our extensive, evidence-based product line.

Science-First™ Formulations

Our Science-First™ philosophy guides the development of our formulas that infuse quality, evidence, and science to provide practitioners with products and resources that meet the needs and demands of their patients.

Quality Assurance

Our raw materials and final formulations undergo third-party testing to ensure accurate identification and potency, and to screen for unwanted contaminants.

Compliance

DFH is GMP-certified by NSF International, demonstrating our products are produced utilizing the highest standards of manufacturing.

In-House Manufacturing

We manufacture the majority of our products in our U.S.-based manufacturing facilities, so we control what goes into our formulas.

Certifications and Recognition

Clinical Education Support

Designs for Health embodies our practitioner-centered mission with a variety of educational support programs.

Ongoing Clinical Education

Practitioners have access to our ongoing clinical education programs that include e-learning courses, clinical tools, an extensive resource library, weekly educational blog content, and new science research articles.

Education and Product Materials

Our educational team develops evidence-based technical sheets, patient education sheets, white papers, clinical protocols, category brochures, product reference charts, and more — all accessible online to support our practitioners.

Webinars

Monthly webinars feature health experts and renowned researchers sharing the latest in research and functional medicine practices.

Educational Partners

We partner with industry-leading organizations and academic institutions to support students in their burgeoning careers and continually advocate for higher standards in supplementation, education, and the practice of functional medicine.

Scientific Advisory Board

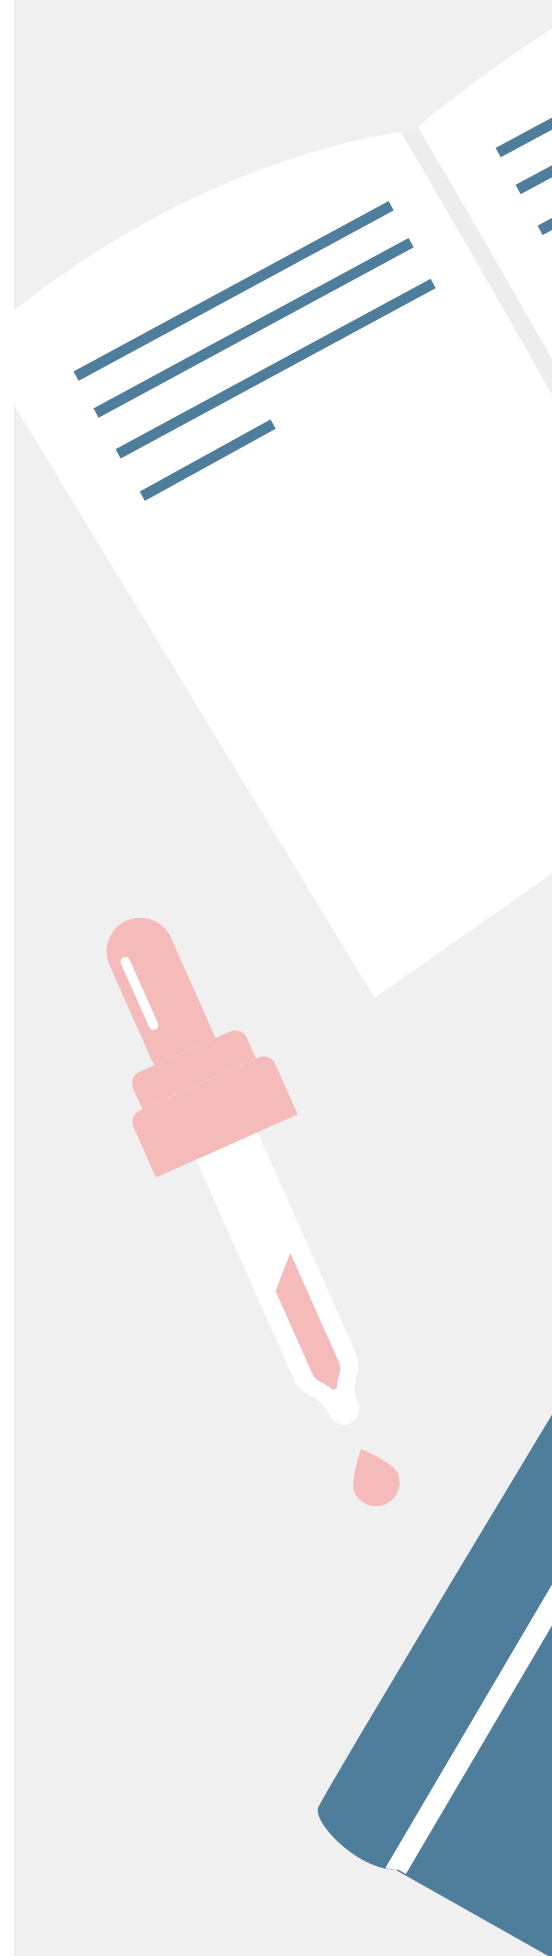

Our scientific advisory board is comprised of clinicians, researchers, and experts in their fields working with DFH to consult and support our education and product innovations.

Clinical Applications of Scientific Innovation (CASI)

CASI is our CEU-accredited, annual research and clinical education symposium, hosting world-renowned researchers, clinicians, and thought leaders in functional medicine and integrative health.

Practice Building Tools and Education Support

As part of our practitioner-centered mission, we offer specialized tools and education to support our practitioners in the growth of their practice.

DFH Rewards Program

An exclusive DFH customer benefits program tailored to help health-care practitioners earn rewards for their business while helping patients on their wellness journey. This industry-leading program is designed to help practitioners' practice revenue grow.

Well World®

A fully integrated digital health platform that simplifies the process of program management and patient engagement. Well World® offers virtual dispensing, patient tracking to improve compliance, nutrition and lifestyle plans, and practice-building tools to generate more revenue.

The Business Supplement™

A monthly newsletter serving as a practitioner's play-book to business building success, including patient marketing assets, social media content, and educational material that are ready to use.

Product Fulfillment Tools and Services

DFH offers multiple dispensing solutions to meet practitioners' needs. Whether ordering over the phone through our Customer Experience team or using our patient-direct online e-scripting and virtual dispensary solutions, we have a service to help every practice grow and earn revenue on every sale. All of this is offered with minimal inventory headaches for practitioners and direct fulfillment services to the patients.

Product Reference Material and Categories

Designs for Health offers expertly-formulated products developed to support a range of health protocols and clinical interventions. To provide clinical context and targeted application, we manufacture our unique formulations with physiological and condition-specific categories in mind.

The following reference materials together with the product category index of our full range of nutritional supplements, have been provided to assist practitioners in navigating our product suite and bring insight into how our products can work synergistically for optimal results.

Product Description	Unique omega-3 formulation combines a 1:1 ratio of EPA to DHA with a standardized full-spectrum of phytocannabinoids found in the hemp extract providing a synergistic effect.**	Gamma-linolenic acid (GLA) derived from the oil of borage seeds to promote smooth and healthy skin and female hormone balance**	A dose of omega-3 in a pleasant-tasting liquid form.	Emulsified fish oil products with superior bioavailability in three delicious flavors.**	This krill oil formulation contains EPA, DHA, phospholipids, and astaxanthin in potent 2-serving softgels**
Formulation Highlights	<ul style="list-style-type: none"> • 920 mg of total fatty acids containing 200 mg of EPA, 200 mg of DHA, and 100 mg of hemp oil per 1-softgel serving • PhytO-3™ proprietary blend of fatty acids • Hemp oil derived from the whole plant contains 10 mg of phytocannabinoids • Omega-3 fatty acids may enhance absorption of phytocannabinoids 	<ul style="list-style-type: none"> • 240 mg of GLA per 1-softgel serving • Contains GLA from borage oil (<i>Borago officinalis</i>) 	<ul style="list-style-type: none"> • 1,200 mg of essential fatty acids (EFA) per 5 mL serving • Contains 725 mg of EPA and 475 mg of DHA • Pleasant lemon flavor • Contains vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols) to protect from oxidation <div> <ul style="list-style-type: none"> • Carry the TruTG™ seal containing fish oil in its triglyceride (TG) form and are 90% to 100% TG-bound omega-3 oils — 40% to 50% higher than the industry standard for TG fish oil concentrate products • All molecularly distilled — removing fishy odor and taste — and filtered to ensure purity and to maximize the removal of metals, pesticides, polychlorinated biphenyls (PCBs), and other contaminants </div>	<ul style="list-style-type: none"> • OmegAvail™ Citrus Sorbet and Key Lime Smoothies provide 910 mg of EPA and 590 mg of DHA in each 1-tablespoon serving • OmegAvail™ Mango Peach Smoothie provides 660 mg of EPA and 420 mg of DHA in each 1-tablespoon serving • Uses proprietary emulsification technology that reduces the size of fish oil molecules, to promote enhanced absorption and easier digestion • Three great-tasting flavors 	<ul style="list-style-type: none"> • 880 mg krill oil containing 352 mg phospholipids, 105 mg of EPA and 48 mg of DHA per 2-softgel serving • Cold-extracted virgin krill oil, the purest form available • Contains 12 mg of astaxanthin, a powerful antioxidant derived from microalgae • Contains phospholipids, consisting primarily of phosphatidylcholine which may enhance the absorption of astaxanthin
Clinical Target(s)	• Brain, neurological, and neurodevelopment support**	• Omega-6 fatty acids support healthy skin and female hormone balance**	<ul style="list-style-type: none"> • Convenient for those who require higher levels of supplementation.** • High-potency repletion • Titrated dose • Preference of liquid rather than pill form, or inability to swallow capsules and/or softgels 	<ul style="list-style-type: none"> • High-potency repletion • Titrated dose • Malabsorption issues in the small intestine for those who require high bioavailability • Preference of liquid rather than pill form, pill-fatigue, or inability to swallow capsules and/or softgels 	<ul style="list-style-type: none"> • Brain and cellular membrane support** • Supports healthy response to oxidative stress**

OmegAval™ Hi-Po

Omega-3 fatty acid (FA), providing 1,500 mg of EPA and DHA per 2-softgel serving at a 1:1 ratio (750 mg each).

- **1,500 mg of EFA per 2-softgel serving**
- **Contains a 1:1 ratio of EPA and DHA (750 mg each)**

OmegAval™ Synergy

Unique omega 3-6-7-9 formula contains a blend of essential and non-essential fatty acids for a spectrum and balance of high-quality, health-promoting fatty acids.**

- **450 mg of omega-3, 160 mg of omega-6, 85 mg of omega-7, and 400 mg of omega-9 fatty acids per 2-softgel serving**
- Balanced blend of omega 3-6-7-9
- Borage oil provides omega-6 gamma-linolenic acid (GLA) and omega-9 fatty acids
- Certified virgin organic macadamia nut oil provides omega-7 and omega-9 fatty acids

OmegAval™ TG1000

A non-GMO fish oil containing an impressive 1,000 mg of omega-3 oils per softgel serving, making it an ideal choice for clinically relevant or targeted dosing.**

- **662 mg of EPA and 250 mg of DHA, along with other omega-3 fatty acids per 1-softgel serving**
- **100% sourced from certified sustainable U.S.-caught wild Alaskan fish, also processed in the U.S.**

OmegAval™ Ultra

Concentrated omega-3 product, providing 600 mg of EPA and 400 mg of DHA in each 2-softgel serving.

- **600 mg of EPA, 400 mg of DHA, and 200 mg of other omega-3 fatty acids from fish oils per 2-softgel serving**

OmegAval™ Ultra DHA

Highly concentrated DHA formulation, providing 500 mg of DHA plus 110 mg of EPA to help support optimum DHA status.**

- **500 mg of DHA and 100 mg of EPA per 1-softgel serving**
- Provides the DHA that modern diets may lack

OmegAval™ Ultra With Vitamins D3, K1, and K2

A novel fish oil product containing the same omega-3 oil found in our OmegAval™ Ultra, with the added benefit of vitamins D and K, plus lipase for enhanced absorption.**

- **600 mg of EPA and 400 mg of DHA, along with vitamins D3, K1, and K2 per 2-softgel serving**
- **Contains clinically relevant doses of vitamin D (1,000 IU) and vitamin K (525 mcg as vitamin K1 and 25 mcg as vitamin K2)**
- Vitamins D and K may ensure the health benefits from fish oil are optimized

- Carry the TruTG™ seal containing fish oil in its triglyceride (TG) form and are 90% to 100% TG-bound omega-3 oils — 40% to 50% higher than the industry standard for TG fish oil concentrate products
- All molecularly distilled — removing fishy odor and taste — and filtered to ensure purity and to maximize the removal of metals, pesticides, polychlorinated biphenyls (PCBs), and other contaminants
- Contains vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols) to protect from oxidation
- Contains lipase, a digestive enzyme to maximize absorption and to help avoid a fishy aftertaste

- High-potency repletion
- **Optimal for supporting the foundational needs of EPA and DHA for long-term supplementation.****

- **Omega-6 fatty acids support healthy skin and female hormone balance****
- Omega-7 and omega-9 fatty acids support healthy hair, skin, and nails, a healthy immune system, and normal blood glucose metabolism**

- Flexible dosing
- **High-potency repletion**

- High-potency repletion
- **May be an ideal choice when a more aggressive application of omega-3 is desired.****

- **Brain, neurological, and neurodevelopment support****
- **Ideal for pregnant and lactating women**

- **Bone health support****
- Fat-soluble vitamins D and K paired with fatty acids to support absorption

Magnesium

PRODUCT REFERENCE CHART

	Magnesium Bisglycinate Chelate   	Magnesium Malate 	MagCitrade™ Powder 	IonicMag™ 500 
Product Description	<p>One of the best absorbed forms of magnesium is a stable chelate with glycine that bypasses normal modes of absorption in the intestine, and it avoids competition that occurs between minerals for absorption.**</p>	<p>Highly bioavailable form of magnesium bound to malic acid, which may be especially beneficial for individuals who experience occasional low energy and fatigue**</p>	<p>Magnesium powder that helps promote bowel relaxation when fiber alone is not enough**</p>	<p>Highly bioavailable liquid ionic magnesium (500 mg) along with a full spectrum of other trace and ultra trace elements, easily titrated based on taste and dietary requirements**</p>
Formulation Highlights	<ul style="list-style-type: none"> • Magnesium Chelate contains 200 mg of magnesium per two-tablet serving • Magnesium Chelate powder contains 300 mg of elemental magnesium per scoop of great-tasting powder • Magnesium Buffered Chelate contains 150 mg of elemental magnesium per capsule • Highly absorbable form of magnesium • Stable chelate formed between glycine and magnesium prevents unfavorable gastrointestinal symptoms • Offers superior absorption in the intestine and avoids competition among other nutrients • Supports metabolism and energy production, healthy bone mass, muscle function, physical and mental relaxation, neurological health, healthy blood glucose metabolism, kidney function, heart health, and blood vessel function** 	<ul style="list-style-type: none"> • 360 mg magnesium as dimagnesium malate per two-capsule serving • Malic acid helps support energy production by playing a role in the process of deriving adenosine triphosphate (ATP) from food • Helps generate energy from all fuel sources, including carbohydrates, fats, and ketones • Supports cardiovascular function, healthy carbohydrate tolerance, and bone health** 	<ul style="list-style-type: none"> • 300 mg magnesium in each 1 teaspoon serving • Convenient powder delivery • Great tasting lemon flavor • Mixes well with water or juice • Sweetened with organic stevia leaf extract • No fructose, sucrose, or artificial sweeteners 	<ul style="list-style-type: none"> • 500 mg ionic magnesium per 5 mL (one teaspoon) serving • Highly concentrated natural ionic mineral blend • Full spectrum of other trace and ultra trace elements • Contains ionically charged trace minerals extracted from Western North America's Great Salt Lake, the world's oldest inland sea • Innovative solar evaporation technology used in manufacturing without the use of chemicals or dyes • Convenient liquid delivery designed to be mixed with water
Clinical Target(s)	<ul style="list-style-type: none"> • Individuals with digestive disorders for whom prevention of unfavorable gastrointestinal symptoms may support delivery of magnesium • Individuals who have been on long-term proton-pump inhibitors (PPIs) or other stomach-acid reducing drugs • Individuals concerned with bone health, cardiovascular function, diabetes, and insulin resistance • Individuals experiencing chronic headaches, migraines, constipation, and kidney stones 	<ul style="list-style-type: none"> • Individuals who experience occasional low energy and fatigue • Individuals with issues related to blood glucose levels, carbohydrate tolerance, bone health, blood pressure, and cardiovascular function 	<ul style="list-style-type: none"> • Individuals experiencing constipation • Individuals who prefer powder over pill form or who are unable to swallow capsules and/or softgels 	<ul style="list-style-type: none"> • Individuals predisposed to suboptimal levels of micronutrients due to mineral depletion in soil • Individuals with malabsorption issues in the small intestine who require the ionized form of minerals • Patients who prefer liquid over pill form, who have pill-fatigue, or who are unable to swallow capsules and/or softgels

MagneGel™

Highly absorbable transdermal gel containing pure 100% natural solution of magnesium chloride, reducing the time needed for absorption in support of proper muscle relaxation, stress tolerance, and immune function**

- **100% natural solution of magnesium chloride**
- **Convenient topical gel delivery**
- Features genuine Zechstein Inside® magnesium, the purest and most pristine source of natural magnesium salts in the world
- Ultra pure and untouched by pollutants, protected at depths of 5,000-6,500 feet in the seabed for the past 250 million years
- Supports proper muscle relaxation and quality of sleep
- Magnesium is absorbed transdermally

- **Topical application, ideal for use after exercise or when experiencing muscle tension**
- Magnesium deficiency or insufficiency due to stress, exercise, excessive sweating, certain medications, and certain conditions such as diabetes and heart disease
- Long-term supplementation

TriMag Supreme™

Unique blend of three highly bioavailable forms of magnesium to support cardiovascular health in a naturally sweetened powder**

- **300 mg elemental magnesium per 5 grams (one scoop) dose**
- Three unique forms of highly bioavailable magnesium including magnesium orotate, magnesium glycerophosphate, and a patented version of magnesium bisglycinate chelate
- Forms of magnesium unique to this formula designed to support cardiovascular health**
- Delicious, lightly sweetened citrus flavor
- Naturally sweetened with citric acid and monk fruit
- Easy-to-mix powder
- Unlikely to cause negative gastrointestinal side effects

- **Individuals with low magnesium levels, or those who require support in cardiovascular health or recovery and relaxation**
- Individuals who prefer powder over pill form, who have pill-fatigue, or who are unable to swallow capsules and/or softgels
- Those with digestive disorders for whom prevention of unfavorable gastrointestinal symptoms may support delivery of magnesium

TriMag Supreme™ Night

Blend of three highly bioavailable forms of magnesium and a natural botanical blend to support relaxation and restful sleep in a delicious powder**

- **300 mg elemental magnesium per 6 grams (one scoop) dose**
- Also contains a natural botanical blend designed to support relaxation, sleep quality, and duration**
- Three unique forms of highly bioavailable magnesium including magnesium orotate, magnesium glycerophosphate, and a patented version of magnesium bisglycinate chelate
- Delicious lavender and lemon flavor
- Supports muscle relaxation, stress relief, restful sleep, and a calm mood
- Easy-to-mix powder
- Unlikely to cause negative gastrointestinal side effects

- **Individuals with trouble sleeping or those who require support with muscle relaxation**
- Individuals who prefer powder over pill form, who have pill-fatigue, or who are unable to swallow capsules and/or softgels
- Those with digestive disorders for whom prevention of unfavorable gastrointestinal symptoms may support delivery of magnesium

NeuroMag™

Magnesium chelated to threonic acid, superior to other forms of magnesium at transporting across the blood brain barrier, and ideal for neuropathologies associated with magnesium deficiency**

- **144 mg magnesium as magnesium L-threonate per 3-capsule serving**
- Uses the unique, patented, chelated mineral Magtein®, which contains magnesium that is chelated to threonic acid
- Able to transport magnesium ions across lipid membranes, including brain cells.
- Superior to other forms of magnesium at transporting across the blood brain barrier
- May be a useful strategy to support cognitive abilities and decrease common age-related memory decline**
- Capsule delivery

- **For neuropathologies associated with magnesium deficiency such as concerns about age-related memory loss, and mental disorders including anxiety, phobias, and post-traumatic stress disorder**
- For magnesium depletion due to stress, sweating, alcohol consumption, and certain medications

Multivitamin and Multiminerals

PRODUCT REFERENCE CHART

	Complete Mineral Complex	DFH Complete Multi™	Metabolic Synergy™	Primal Multi™	Twice Daily Multi
Product Description	Multimineral complex free of iron to support mineral repletion	Comprehensive multivitamin and mineral complex available in the following options: <ul style="list-style-type: none"> Free of copper and iron With copper With copper and iron 	Nutritional support to encourage normal blood glucose metabolism and insulin sensitivity**	Multivitamin, mineral, and phytonutrient blend formulated based on the nutrient intakes found in an optimal evolutionary human diet	Twice daily multivitamin and mineral
Formulation Highlights	<ul style="list-style-type: none"> Chelated minerals for enhanced absorption and bioavailability 200 mg calcium as DimaCal® Di-Calcium Malate per 3-capsule serving 200 mg of Magnesium as Di-Magnesium Malate per 3-capsule serving 20 mg of zinc per 3-capsule serving Iodine, selenium, copper, manganese, chromium, molybdenum, potassium, boron, and vanadium for additional support Dairy-free, gluten-free, soy-free, Non-GMO, and vegetarian 	<ul style="list-style-type: none"> Nutrient levels at or above the Recommended Daily Allowance (RDA) and Adequate Intake (AI) per serving to optimize nutrient status, address common insufficiencies, and promote overall health Delta- and gamma-tocotrienol vitamin E isomers as DeltaGold® Blend of vitamins K1 and K2 Bioavailable B vitamins, including methylated forms of folate and B12 Chelated bioavailable minerals Includes boron, biotin, quercetin, rutin, hesperidin, lecithin, and trimethylglycine <div> DFH Complete Multi™ WITH COPPER </div> <ul style="list-style-type: none"> 2 mg copper as TRAACS® copper (bisglycinate chelate) per serving <div> DFH Complete Multi™ WITH COPPER AND IRON </div> <ul style="list-style-type: none"> 2 mg copper as TRAACS® copper (bisglycinate chelate) per serving 8 mg of highly bioavailable and tolerable iron as Ferrochel® (ferrous bisglycinate chelate) per serving 	<ul style="list-style-type: none"> 250 mg of carnosine per 6-capsule serving for anti-glycation effects** Taurine, a conditionally essential amino acid shown to reduce advanced glycation end-products 100 mg R-lipoic acid per 6-capsule serving provides support for the mitochondria and glucose metabolism** High doses of common inadequate nutrients per serving for intensive metabolic support, including natural and bioavailable B vitamins, and vitamins C, A, and D Bioavailable chelated minerals, including magnesium, zinc, manganese, molybdenum, selenium, and chromium 	<ul style="list-style-type: none"> Formulation corresponding to amounts found in a whole-food, nutrient-dense evolutionary diet for optimal health Naturally occurring or bioidentical ingredients Contains phytonutrients including lutein, lycopene, resveratrol, wild blueberry, broccoli seeds/sprouts, and citrus bioflavonoids Vitamin C from ascorbic acid and acerola cherry Vitamin A from a mixture of natural carotenoids from sustainable palm oil and retinyl palmitate Chelated minerals for enhanced bioavailability 	<ul style="list-style-type: none"> Delta- and gamma-tocotrienol vitamin E isomers as DeltaGold® Blend of vitamins K1 and K2 Bioavailable B vitamins, including methylated forms of folate and B12 Bioavailable chelated zinc, manganese, molybdenum, chromium, and boron No magnesium, calcium, iron, or copper to allow for more flexible and personalized protocols based on need 1,000 IU of vitamin D per serving
Clinical Target(s)	Mineral support and repletion	Optimal micronutrient support WITH COPPER: Copper deficiency** Micronutrient support and repletion WITH COPPER AND IRON: Pre- and peri-menopause Anemia** Malabsorption syndromes Iron deficiency**	Metabolic syndrome** Type 2 diabetes** Pre-diabetes** Insulin resistance**	Antioxidant support** Ideal for individuals following a paleo diet	Convenient basic nutritional support

Prenatal Pro™ 	Prenatal Essential Packets 	Twice Daily Essential Packets 	Vitavescence™ 	Women's Twice Daily Essential Packets 
<p>Multivitamin/mineral complex with a broad nutrient foundation to support a healthy pregnancy and optimal fetal development**</p>	<p>Essential nutrients to support a healthy pregnancy in a convenient twice daily packet.**</p>	<p>Essential nutrients in convenient twice daily packets</p>	<p>Comprehensive multivitamin and mineral in a powdered form</p>	<p>Essential nutrients to support female health in a twice-daily package</p>
<ul style="list-style-type: none"> • Tocopherol-free form of vitamin E isomers • Bioidentical form of folate with superior bioavailability compared with folic acid • Chelated minerals for enhanced bioavailability • Vitamin A from a mixture of natural carotenoids from palm oil and retinyl palmitate • Chelated iron as Ferrochel® ferrous bisglycinate chelate, a highly bioavailable form with enhanced tolerability • Iodine and selenium to support thyroid function** and neuropsychological development of the fetus** 	<p>Each packet contains:</p> <ul style="list-style-type: none"> • 2 Prenatal Pro™ capsules providing a broad nutrient foundation to support a healthy pregnancy and optimal fetal development** • 1 OsteoForce™ tablet featuring a vitamin and mineral complex to support bone health • 1 OmegaAvail™ Ultra softgel 2-softgel serving provides 600 mg EPA (omega-3), 400 mg DHA (omega-3), • Contains fish (Alaska pollock) 	<p>Each packet contains:</p> <ul style="list-style-type: none"> • 1 Twice Daily Multi™ capsule providing essential vitamins and minerals • 1 Calcium Malate capsule A 2-capsule serving of Calcium Malate provides 500 mg of di-calcium malate and 100 IU of vitamin D3 • 1 Magnesium Malate capsule A 2-capsule serving of Magnesium Malate provides 360 mg di-magnesium malate • OmegaAvail™ Synergy softgel A 2-softgel serving provides 270 mg EPA (omega-3), 180 mg DHA (omega-3), 160 mg GLA (omega-6), 85 mg palmitoleic acid (omega-7) 400 mg oleic acid (omega-9) • Contains fish (Alaska pollock) and tree nuts (macadamia nuts) 	<ul style="list-style-type: none"> • Essential vitamins and minerals • Includes alpha-lipoic acid, N-acetyl cysteine, green tea, rosemary, and grape extract (skin and seeds) • Chelated minerals for enhanced bioavailability • It contains 680 mcg DFE Folate (as Quatrefolic®, a glucosamine salt 5-methyltetrahydrofolate [MTFH]) per serving • Natural fruit punch flavor sweetened with stevia leaf • One serving equivalent to 5 to 6 capsules • Highly absorbable and bioavailable 	<p>Each packet contains:</p> <ul style="list-style-type: none"> • 1 Twice Daily Multi™ capsule providing essential vitamins and minerals • 2 OsteoForce™ tablets featuring a vitamin and mineral complex to support bone health • 1 OmegaAvail™ Synergy softgel 2-softgel serving provides 270 mg EPA (omega-3), 180 mg DHA (omega-3), 160 mg GLA (omega-6), 85 mg palmitoleic acid (omega-7) 400 mg oleic acid (omega-9) • 2 femGuard+Balance™ capsules featuring vitamins and herbs to support hormonal balance and estrogen metabolism** • Contains fish (Alaska pollock) and tree nuts (macadamia nuts)

Probiotics

PRODUCT REFERENCE CHART

ProbioMed™ 50

ProbioMed™ 100

ProbioMed™ 250

ProbioMed™ Kids

ProbioMed™ Infants

Product Description

Combines 10 scientifically researched strains at clinically significant dosages totaling 50 billion CFU**

Combines 10 scientifically researched strains at clinically significant dosages totaling 100 billion CFU for continuous higher potency replenishment**

Combines 10 scientifically researched strains at clinically significant dosages totaling 250 billion CFU for intensive re-colonization due to intestinal microbiome depletion**

Features 11 diverse, highly researched *Lactobacillus* and *Bifidobacterium* probiotic strains and the friendly yeast, *Saccharomyces boulardii* (*S. boulardii*) to nurture children's developing digestive and immune systems**

Synergistic combination of 7 diverse, clinically relevant probiotic strains, human milk oligosaccharides, and an infant enzyme blend ideal for formula-fed infants**

Formulation Highlights

• **50 billion CFU of:** *Bifidobacterium lactis* (UABla-12™); *Lactobacillus acidophilus* (DDS®-1); *Lactobacillus plantarum* (UALp-05™); *Lactobacillus casei* (UALc-03™); *Bifidobacterium breve* (UABr-11™); *Bifidobacterium bifidum* (UABb-10™); *Bifidobacterium longum* (UABl-14™); *Lactobacillus salivarius* (UALs-07™); *Lactobacillus rhamnosus* (GG); *Lactobacillus paracasei* (UALpc-04™)

• Features delayed-release technology for optimal survivability from stomach acid and properly timed release of the probiotics in the lower gastrointestinal tract

• Specific strain identification for transparency

• Shelf stable probiotics, manufactured with CFU overage to guarantee potency for the duration of shelf life

• Dairy-free

• Non-GMO

• Convenient one-capsule dose

• State-of-the-art desiccant-lined bottles protect probiotics from exposure to light, air and moisture

• **100 billion CFU of:** *Bifidobacterium lactis* (UABla-12™); *Lactobacillus acidophilus* (DDS®-1); *Lactobacillus plantarum* (UALp-05™); *Lactobacillus casei* (UALc-03™); *Bifidobacterium breve* (UABr-11™); *Bifidobacterium bifidum* (UABb-10™); *Bifidobacterium longum* (UABl-14™); *Lactobacillus salivarius* (UALs-07™); *Lactobacillus rhamnosus* (GG); *Lactobacillus paracasei* (UALpc-04™)

• Features delayed-release technology for optimal survivability from stomach acid and properly timed release of the probiotics in the lower gastrointestinal tract

• Specific strain identification for transparency

• Shelf stable probiotics, manufactured with CFU overage to guarantee potency for the duration of shelf life

• State-of-the-art desiccant-lined bottles protect probiotics from exposure to light, air, and moisture

• Dairy-free

• Non-GMO

• Convenient one-capsule dose

• **250 billion CFU of:** *Bifidobacterium lactis* (UABla-12™); *Lactobacillus acidophilus* (DDS®-1); *Lactobacillus plantarum* (UALp-05™); *Lactobacillus casei* (UALc-03™); *Bifidobacterium breve* (UABr-11™); *Bifidobacterium bifidum* (UABb-10™); *Bifidobacterium longum* (UABl-14™); *Lactobacillus salivarius* (UALs-07™); *Lactobacillus rhamnosus* (GG); *Lactobacillus paracasei* (UALpc-04™)

• Specific strain identification for transparency

• Shelf stable probiotics, manufactured with CFU overage to guarantee potency for the duration of shelf life

• Novel, single serving stick packs, lined with a moisture, oxygen, and light resistant film to preserve viability

• Dairy-free

• Non-GMO

• **10 billion CFU of:** *Saccharomyces boulardii*; *Lactobacillus paracasei* (Lpc-37); *Lactobacillus plantarum* (Lp-115); *Bifidobacterium infantis* (Bi-26); *Bifidobacterium lactis* (HN019); *Lactobacillus rhamnosus* (GG); *Bifidobacterium bifidum* (Bb-06); *Bifidobacterium longum* (BI-05); *Lactobacillus casei* (Lc-11); *Lactobacillus salivarius* (Ls-33); *Lactobacillus gasseri* (Lg-36)

• State-of-the-art desiccant-lined bottles protect probiotics from exposure to light, air, and moisture

• Delicious, chewable delivery format for increased compliance

• Sweetened with monk fruit

• Free of artificial flavors, colors, or sweeteners

• Free of common allergens, including dairy, gluten, and soy

• Shelf-stable — significant overage of strains ensures long shelf life and delivery of stated CFU count

• **5 billion CFU of:** *Bifidobacterium infantis* (Bi-26); *Lactobacillus fermentum* (LF61); *Lactobacillus gasseri* (Lg-36); *Lactobacillus plantarum* (Lp-115); *Bifidobacterium lactis* (BI-04); *Lactobacillus rhamnosus* (GG); *Lactobacillus salivarius* (Ls-33)

• Provides infant-specific nutritional requirements found in human breast milk, including human milk oligosaccharides

• Infant enzyme blend includes protease, alpha galactosidase, and lactase

• Delivered as an unflavored, easy-to-mix powder

• Portable, travel-sized stick packets

• No artificial flavors, ingredients, or sweeteners

• Shelf-stable — significant overage of strains ensures long shelf life and ensures delivery of stated CFU count

• Contains milk

Clinical Target(s)

• Healthy immune and inflammatory responses**

• **High-potency maintenance for healthy microbiota balance****

• **Acute gastrointestinal and immune challenges****

• Healthy immune and inflammatory responses**

• Clinically effective for continuous replenishment and stabilization of microbiota**

• Acute gastrointestinal and immune challenges**

• Healthy immune and inflammatory responses**

• During and post antibiotic therapy**

• **Therapeutic dosage formula for intensive re-colonization due to intestinal microbiome depletion****

• Shifts in microbiome that occur throughout childhood

• Disruptions to the intestinal microbiome, such as antibiotic use in early life, dietary shortfalls, and childhood infections**

• **Ideal for children ages 4 and over**

• **Formula-fed infants**

• **Infants delivered by cesarean section** (C-section) who may have a reduced abundance of *Bifidobacterium spp*

FloraMyces™

Contains the nonpathogenic yeast, *Saccharomyces boulardii*, which possesses probiotic activity that supports gastrointestinal health and immune function**

Probiotic Supreme DF™

High dose, dairy-free probiotic divided among eight different microbial strains**

Probiotic Synergy™

Contains five stable and viable human origin strain probiotics in a higher potency powder form that can easily be mixed in liquids and includes the prebiotic fiber inulin**

Probiotic Synergy™

Delivers eight probiotic species using patented technology designed to optimize delivery of viable organisms over an extended time frame**

ProbioSpore™

Broad-spectrum, spore-based probiotic used to optimize gastrointestinal health.**

Probiophage DF™

Dairy-free bacteriophage/probiotic combination formula to support the proliferation of beneficial bacteria in the intestinal tract**

•500 mg of: *Saccharomyces boulardii*

- Increases protection of the digestive mucosa and production of secretory immunoglobulin A**
- Does not require refrigeration and has the ability to survive passage through the harsh gastric environment, withstanding high acidity, bile, and heat
- Dairy-free
- Lactose-free
- Non-GMO

•15 billion CFU of:

- Bifidobacterium lactis* (BI-04); *Lactobacillus acidophilus* (La-14); *Lactobacillus casei* (Lc-11); *Lactobacillus salivarius* (Ls-33); *Lactobacillus rhamnosus* (Lr-32); *Bifidobacterium breve* (Bb-03); *Bifidobacterium longum* (BI-05); *Streptococcus thermophilus* (St-21)
- Offered in a caplet form with patented delivery system to ensure maximum potency and viability**
- Dairy-free
- Non-GMO

•20 billion CFU of:

- Bifidobacterium lactis* (SD-5219); *Lactobacillus acidophilus* (SD-5844); *Lactobacillus paracasei* (DSM-21717); *Lactobacillus plantarum* (SD-5275); *Bifidobacterium longum* (SD-5870)
- Includes the prebiotic fiber, inulin, which benefits gastrointestinal health through its ability to modulate gut microbiota**
- Powder is easily mixed into liquids

•5 billion CFU of:

- Bifidobacterium lactis* (SD-5859), *Lactobacillus acidophilus* (SD-5212), *Lactobacillus reuteri* (SD-5865), *Lactobacillus rhamnosus* (SD-5839), *Bifidobacterium breve* (SD-5206), *Bifidobacterium longum* (SD-5844), *Streptococcus thermophilus* (SD-5849)
- Probiosphere shape ensures maximum protection against stomach acid
- Designed for extended release over 10-12 hours
- Dairy-free
- Non-GMO

•10 billion CFU of:

- Bacillus subtilis* (DE111®); *Bacillus coagulans* (Lactospore®); *Bacillus coagulans* (SNZ1969); *Bacillus coagulans* (Lacris-15); *Bacillus clausii* (CSI-08)
- Highly viable strains, *Bacillus* probiotic spores are resistant to heat and ambient humidity thus no refrigeration is required
- Clinically relevant doses of three different *Bacillus* species and five different strains to help stimulate normal microflora in the gut**

- Combines four types of phages, as the proprietary bacteriophage blend PrePhage™, providing 15 mg per capsule

- Probiotic blend (5 billion CFU): *Bifidobacterium bifidum*; *Lactobacillus acidophilus*; *Bifidobacterium longum*; *Lactobacillus rhamnosus*; *Bifidobacterium breve*; *Lactobacillus casei*; *Streptococcus thermophilus*
- Delayed-release capsule to increase intact delivery
- Prebiotics in this formula are not fermented and therefore produce no gas or bloating

•Microbiome health during antibiotic therapy**

•Traveler's diarrhea, antibiotic-associated diarrhea, and inflammatory bowel diseases**

- Host support during *Clostridioides difficile* infection**
- Inhibits colonization of harmful bacteria**

- Repopulation of intestinal flora**

- After antibiotic therapies or colitis, candidiasis, dysbiosis, or various other gastrointestinal conditions, and overall digestive function**

•Sensitivity to dairy-based probiotics

- Occasional constipation and diarrhea**

•Gastrointestinal conditions including irritable bowel syndrome, colitis, candidiasis, and dysbiosis**

- Microbiome health during antibiotic therapy**

- Stimulate normal microflora in the gut**

- After antibiotic therapies or colitis, candidiasis, dysbiosis, or various other gastrointestinal conditions, and overall digestive function**

•Sensitivity to dairy-based probiotics

- Microbiome health during antibiotic therapy**

- Gastrointestinal discomfort, including constipation and diarrhea**
- May improve regularity and gut microbiome diversity**
- Stimulate normal microbiota of the gut**

•Targets *Escherichia coli*, the most prevalent infecting organism**

- For growth and activity of beneficial bacteria**
- Women's urinary tract health**

Protein Support

PRODUCT REFERENCE CHART

MycoPure™

WheyCool™

PurePaleo™

PurePea™

Organic PurePea™ Plus

Product Description

Vegetarian and vegan-friendly shiitake mushroom fermented plant-based protein with additional immune support**

Instantized whey protein derived from organic, non-GMO New Zealand grass-fed cows

Dairy-free, paleo-friendly, pure protein powder derived from beef

Vegetarian and vegan-friendly pea-based protein powder

Organic, vegetarian, vegan, and allergen-friendly pea-based protein powder with a blend of greens, vegetables, and fruits with antioxidant properties

Formulation Highlights

- Complete source of protein including essential amino acids and branched-chain amino acids
- Fermented to remove anti-nutrients and optimize digestibility
- Protein availability similar to whey and soy isolates
- Includes Organic Immune Assist™, a blend of medicinal mushrooms to support a healthy immune system**
- Rich in antioxidants
- Non-GMO and sustainable

- Good source of essential amino acids and glutathione precursors, including cysteine, glycine, and glutamine
- Good source of the branched-chain amino acid leucine
- Improved digestibility due to being instantized with non-GMO sunflower lecithin
- Superior Protein Digestibility-Corrected Amino Acid Score (PDCAAS)
- Does not contain soy

- Sourced from HydroBEEF™, highly concentrated beef protein from hormone-free, grass fed, non-GMO Swedish cows
- Naturally hydrolyzed to enhance assimilation for high protein usability
- Includes naturally derived vitamins and minerals
- Beef-derived peptides including collagen specific amino acids
- No artificial sweeteners

- Dairy-free, yellow pea-based protein produced by natural fermentation with no chemical solvents
- Well-balanced amino acid and branched-chain amino acid profile similar to whey

- USDA-certified organic, non-GMO, North American grown yellow pea-based vegan protein
- Easily absorbed plant-based protein
- A proprietary blend of greens, vegetables, and fruits with no grains, alfalfa, gluten, fructose, or artificial sweeteners
- Phytonutrient-rich blend

Clinical Target(s)

- **Immune health****
- Supporting a normal inflammatory response**
- Antioxidant support**

- Body composition
- **Lean muscle tissue****

- **Joint and connective tissue integrity****
- **Lean muscle tissue****

- Detoxification
- Normal lipid metabolism**
- **Vegetarian and vegan nutritional support**

- Joint and connective tissue integrity**
- **Antioxidant support****

WheyMeal™

Whey-based nutrient-dense meal supplement promoting the optimal intake of macronutrients and micronutrients

- Provides optimal intake of protein, fats, carbohydrates, vitamins, and minerals
- Whey sourced from non-GMO, grass-fed cows from New Zealand
- Improved digestibility due to being instantized with non-GMO sunflower lecithin
- Does not contain soy
- Contains supportive micronutrients including methylated folate, creatinine, fiber, conjugated linoleic acid (CLA), and chelated minerals

• **Weight management**

PaleoMeal®

Nutrient-dense meal supplement with optimal intake for macronutrients and micronutrients **derived from beef protein**

- Provides optimal intake of protein, fats, carbohydrates, vitamins, and minerals
- Sourced from HydroBEEF™, highly concentrated beef protein from hormone-free, grass fed, non-GMO Swedish cows
- Higher content of collagen specific amino acids proline and glycine
- Contains supportive bioavailable micronutrients, including activated B vitamins and chelated minerals

• **Weight management for individuals following a paleo diet**

VegeMeal™

Pea protein-based vegan and vegetarian friendly, nutrient-dense meal supplement with optimal intake for macronutrients and micronutrients

- Vegetarian, dairy-free, gluten-free protein sourced from non-GMO North American grown peas
- Easily digested
- Optimal intake of protein, fat, vitamins, and minerals
- Contains supportive nutrients including fiber, creatinine, conjugated linoleic acid (CLA), and chelated minerals
- Natural form of activated and bioavailable folate
- Vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols)

• Nutritional support for vegans and vegetarians
• **Weight management for individuals following a vegan or vegetarian diet**
• **Individuals with a dairy or lactose intolerance**

VegeCleanse™

Vegetarian and vegan-friendly protein powder with nutrients and botanicals to support normal detoxification.**

- 14 g per serving of organic pea protein
- Provides amino acids and nutrients to support phase I and phase II detoxification
- Nutrients to support glutathione synthesis and cycling
- Active forms of the B vitamins to support methylation
- Milk thistle and nutrients to support healthy liver function**
- Antioxidant support

• Provides amino acids and nutrients to **support phase I and phase II detoxification**

PaleoCleanse Plus™

Beef bone broth protein with nutrients and botanicals to support normal detoxification.**

- 18 g per serving of easy-to-digest beef bone broth protein as HydroBeef™
- Provides amino acids that support phase I and phase II detoxification
- Nutrients to support glutathione synthesis and cycling
- Active forms of the B vitamins to support methylation
- Glucomannan fiber to support the excretion of toxins
- Grain-free, dairy-free, gluten-free

• **Detoxification**

Phytocannabinoid Formulas

PRODUCT REFERENCE CHART

Cannab-FS™ 300

Cannab-FS™ 450/900

Cannab-FS™ 600

Cannab-600™ THC Free

Product Description

300 mg, full-spectrum
phytocannabinoids in
liquid form

450 mg or 900 mg,
full-spectrum
phytocannabinoids in
a softgel delivery

600 mg, full-spectrum
phytocannabinoids in
liquid form

600 mg, THC-free (<0.02%),
broad-spectrum
phytocannabinoids
in liquid form

Formulation Highlights

- **Yields 10 mg active phytocannabinoids per 1 mL serving**
- Full-spectrum phytocannabinoids with <0.3% THC
- Infused in a base of organic cold-pressed hemp seed oil
- Contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

- **Each softgel yields 15 mg of active phytocannabinoids**
- Full-spectrum phytocannabinoids with <0.3% THC
- Infused in a base of organic cold-pressed hemp seed oil
- Contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

- **Yields 20 mg active phytocannabinoids per 1 mL serving**
- Full-spectrum phytocannabinoids with <0.3% THC
- Infused in a base of organic cold-pressed hemp seed oil
- Contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

- **Yields 20 mg active phytocannabinoids per 1 mL serving**
- Broad-spectrum phytocannabinoids
- **THC-free (contains <0.02% of THC [limit of detection])**
- Infused in a base of organic cold-pressed hemp seed oil
- Contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

Cannab-FS™ 500 Roll-On

Topical, roll-on delivery with 500 mg, active, full-spectrum phytocannabinoids

- **500 mg, full-spectrum phytocannabinoids with <0.3% THC per bottle**
- Temporary local cooling and heating sensation
- Peppermint scent
- Rolls on clear
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

Roll-on delivery for targeted and localized application

Liposomal Cannab-FS™ 400

400 mg, full-spectrum phytocannabinoids in a liposomal delivery system for enhanced bioavailability

- **16 mg active phytocannabinoids per serving**
- Full-spectrum phytocannabinoids with <0.3% THC
- Tocotrienols and phospholipids from sunflower lecithin to preserve the phytocannabinoids
- Natural citrus oils for taste enhancement
- **Liposomal technology for optimal absorption and bioavailability**
- Contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

Mood support**
Occasional anxiety**
Brain fog**
Chronic pain support**
GI function**
Immune support**

Cannab-PEA 300™

Palmitoylethanolamide (PEA) plus 300 mg, full-spectrum phytocannabinoids

- **300 mg of PEA and 10 mg, full-spectrum phytocannabinoids per capsule**
- **Innovative ComboCap® delivery system**
- PEA is an endogenous endocannabinoid receptor agonist
- Synergistic effect of PEA and phytocannabinoids
- Full-spectrum phytocannabinoids with <0.3% THC
- Contains natural terpenes aromatic compounds from the hemp plant that work synergistically with phytocannabinoids
- Hemp flowers derived from American farms grown under the Farm Bill and compliant with strict hemp regulations

Joint pain support**
Neuropathic pain support**
Chronic pain support**
Migraine support**
Endometriosis support**
Fibromyalgia support**

CannabOmega™

Unique omega-3 formulation with a standardized full-spectrum of phytocannabinoids

- **920 mg of total fatty acids containing 200 mg of EPA, 200 mg of DHA, and 100 mg of hemp oil per 1-softgel serving**
- PhytO-3™ proprietary blend of fatty acids
- Hemp oil derived from the whole plant contains 10 mg of phytocannabinoids
- Omega-3 fatty acids enhance absorption of phytocannabinoids
- The unique combination of a 1:1 ratio of EPA to DHA with a standardized full-spectrum of phytocannabinoids found in the hemp extract, provide a synergistic effect.**

Brain, neurological, and neurodevelopment support**

Vitamin D

PRODUCT REFERENCE CHART

	ADK Evail™ 	D-Evail™ Synergy 	D-Evail™ Supreme 	D-Evail™ 10K 	Emulsi-D3 Synergy™ 
Product Description	5,000 IU of vitamin D with efficacious amounts of vitamins A, K, and E in one convenient softgel to support the balance of fat-soluble vitamins in the body**	2,000 IU of vitamin D3 with vitamins K1, K2, and GG for comprehensive bone, immune, and arterial support**	Highly bioavailable and clinically useful dose of vitamin D3 with vitamins K1, K2, and GG to support bone, immune, and arterial health**	High-dose vitamin D3 with vitamins K1, K2, and GG to support bone, immune, and arterial health**	2,000 IU of concentrated and highly bioavailable liquid vitamin D3 per serving combined with vitamins K1 and K2 for synergistic bone, immune, and arterial support**
Formulation Highlights	<ul style="list-style-type: none"> • 5,000 IU vitamin D3 • 1,515 mcg RAE vitamin A • 1,000 mcg vitamin K1 and 50 mcg vitamin K2 as MK-4 • 50 mg vitamin E isomers as DeltaGold® delta- and gamma-tocotrienols • 5 mg geranylgeraniol, an endogenous precursor to MK-4 • Formulated with the Evail™ emulsification technology that includes medium-chain triglycerides (MCTs) and quillaja extract for enhanced bioavailability • Softgel delivery 	<ul style="list-style-type: none"> • 2,000 IU vitamin D3 • 1,000 mcg vitamin K1 and 50 mcg vitamin K2 as MK-4 • 5 mg geranylgeraniol, an endogenous precursor to MK-4 • Formulated with the Evail™ emulsification technology that includes MCT and quillaja extract for enhanced bioavailability • No petrochemicals or synthetics • Softgel delivery 	<ul style="list-style-type: none"> • 5,000 IU vitamin D3 • 1,000 mcg vitamin K1 and 50 mcg vitamin K2 as MK-4 • 5 mg geranylgeraniol, an endogenous precursor to MK-4 • Formulated with the Evail™ emulsification technology that includes MCT and quillaja extract for enhanced bioavailability • No petrochemicals or synthetics • Softgel delivery 	<ul style="list-style-type: none"> • 10,000 IU vitamin D3 • 1,000 mcg vitamin K1 and 50 mcg vitamin K2 as MK-4 • 5 mg geranylgeraniol, an endogenous precursor to MK-4 • Formulated with the Evail™ emulsification technology that includes MCT and quillaja extract for enhanced bioavailability • No petrochemicals or synthetics • Softgel delivery 	<ul style="list-style-type: none"> • 2,000 IU vitamin D3 per 1 dropperful serving • 250 mcg vitamin K1 and 25 mcg vitamin K2 as MK-7 • Innovative natural emulsion technology that allows for quick and complete dispersion in liquid • Emulsion technology provides enhanced bioavailability • Convenient and easily mixable • Pleasant tasting • Ability to titrate up or down as needed • Free of preservatives and synthetic surfactants
Clinical Target(s)	<ul style="list-style-type: none"> • Those with fat malabsorption conditions • Vitamin D deficiency or insufficiency where higher doses are required • Individuals who do not get adequate sunlight exposure • Individuals who do not get adequate dietary sources of fat-soluble vitamins 	<ul style="list-style-type: none"> • Lower dosage option for maintaining optimal blood levels of vitamin D • Long-term supplementation • Individuals who do not get adequate sunlight exposure and/or dietary sources of vitamins D and K 	<ul style="list-style-type: none"> • Vitamin D deficiency or insufficiency where higher doses are required • Individuals who do not get adequate sunlight exposure and/or dietary sources of vitamins D and K 	<ul style="list-style-type: none"> • Situations where more aggressive vitamin D repletion is recommended • Short-term supplementation • Individuals who do not get adequate sunlight exposure and/or dietary sources of vitamins D and K 	<ul style="list-style-type: none"> • Ideal for children aged 4+ years old

Hi-Po Emulsi-D3™

A high potency liquid vitamin D3 formula that offers a broad range of dosage and titration possibilities to support bone, immune, and arterial health**

Liposomal D Supreme

Highly absorbable and bioavailable vitamin D3 combined with vitamins K1 and K2 for comprehensive bone, immune, and arterial health support**

Vitamin D Supreme

5,000 IU of vitamin D3 per capsule and vitamin K in both K1 and the MK-7 form of K2 for optimal bone and arterial health and for helping maintain immune balance**

Vitamin D Synergy

Clinically useful doses of vitamin D3 and vitamin K1 to support bone, immune, and arterial health**

•2,000 IU vitamin D3 per 1 drop serving

- Concentrated natural emulsion that allows for quick and complete dispersion in liquid and enhanced bioavailability
- Ability to titrate up as needed
- Pleasant tasting
- Free of preservatives and synthetic surfactants

•2,500 IU vitamin D3 per 1 pump serving

- 200 mcg vitamin K1, 100 mcg vitamin K2 as MK-4, and 25 mcg vitamin K2 as MK-7
- Formulated with smaller sized liposome particles resulting in increased oral and cellular uptake and transmucosal absorption in the mouth, and enhanced absorption throughout the rest of the gastrointestinal tract
- Ability to titrate up as needed
- Free of preservatives and synthetic surfactants
- Pleasant citrus flavor

•5,000 IU vitamin D3 per 1 capsule serving

- 500 mcg vitamin K1 and 50 mcg vitamin K2 as MK-7
- Vegetable capsule delivery
- Available in three bottle sizes for more convenient prescribing options

•2,000 IU vitamin D3 per 1 capsule serving

- 200 mcg vitamin K1
- Vegetable capsule delivery

•Individuals who prefer a liquid over a pill form or those who are unable to swallow capsules and/or softgels, such as the elderly

- Situations where more aggressive vitamin D repletion is recommended
- Individuals who do not get adequate sunlight exposure

•Those with digestive disorders and malabsorption issues for whom bypassing the gastrointestinal tract may support efficient delivery of vitamin D

- Vitamin D deficiency or insufficiency where higher dosing and titration may be required
- Individuals who do not get adequate sunlight exposure and/or dietary sources of these two vitamins

•Vitamin D deficiency or insufficiency where higher doses are required

- Situations where more aggressive vitamin D repletion is recommended
- Individuals who do not get adequate sunlight exposure
- Individuals who do not get adequate dietary sources of fat-soluble vitamins
- Those with fat malabsorption conditions
- Those with conditions associated with improper inflammatory responses

•Long-term supplementation as a maintenance dose

- Lower dosage option for maintaining optimal blood levels of vitamin D
- Individuals who do not get adequate sunlight exposure and/or dietary sources of vitamins D and K

New Units of Measure and Conversion Factors for Impacted Nutrients

Nutrient	Old Unit of Measure	New Unit of Measure	Conversion Factors
Vitamin A/ Beta-carotene	International Units (IUs)	mcg retinol activity equivalents (mcg RAE)	Multiply IU of Vitamin A by 0.30 to calculate mcg RAE.
	1000 IU	300 mcg RAE	
	5000 IU	1,500 mcg RAE	
Vitamin D	International Units (IUs)	mcg cholecalciferol (mcg)	Multiply IU of Vitamin D by 0.025 to calculate mcg.
	1000 IU	25 mcg	
	5000 IU	125 mcg	
Vitamin E	International Units (IUs)	mg α -tocopherol (mg)	Multiply IU of Vitamin E forms below to calculate mg. Naturally occurring = 0.67* Synthetic = 0.45
	1000 IU	670 mg*	
	5000 IU	3,350 mg*	
Folate	Micrograms (mcgs)	mcg dietary folate equivalents (mcg DFE)	Multiply mcg of Folate forms below to calculate mcg DFE. Naturally occurring = 1 L-5-MTHF = 1.7*
	500 mcg	850 mcg DFE*	
	1000 mcg	1700 mcg DFE*	
Niacin	Milligrams (mgs)	mg niacin equivalents (mg NE)	Multiply mg of Niacin forms below to calculate mg NE. Niacin = 1* Tryptophan = 0.167
	500 mg	500 mg NE*	
	750 mg	750 mg NE*	

What is retinol activity equivalents (RAE)?

RAE takes into account the different retinol activity of various forms of vitamin A, whether naturally occurring in foods (dietary) or supplemented.

What is dietary folate equivalents (DFE)?

The term DFE was introduced by the National Academy of Medicine to take into account the differences in bioavailability between the naturally occurring folates in the diet and synthetic folic acid used to fortify certain foods and supplements (DFH does not use synthetic folic acid.).

5-HTP Supreme™

HTU060 | 60 vegetarian capsules

5-HTP Supreme™ is a synergistic formula of 5-hydroxytryptophan (100 mg) and vitamin B6 (20 mg) per serving for supporting overall neurotransmitter metabolism by providing precursors of serotonin. 5-HTP readily enters the blood-brain barrier; however, conversion into serotonin requires the cofactor vitamin B6, which is included in this formula. 5-HTP Supreme™ may be used during the day to support a healthy mood and normal appetite, or it may be used at bedtime to support sleep.** This formula can be used in place of 5-HTP Synergy™ when higher doses of 5-HTP are recommended.

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Warning: Not recommended for use by pregnant or lactating women, or by those taking selective serotonin reuptake inhibitor (SSRI) or monoamine oxidase inhibitor (MAOI) medications.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Vitamin B-6 (as Pyridoxal-5-Phosphate)	20 mg 1176%
5-HTP (5-Hydroxytryptophan)	100 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), L-leucine.

5-HTP Synergy™

HTP090 | 90 vegetarian capsules

5-HTP Synergy™ is a synergistic formula of 5-hydroxytryptophan (50 mg) and vitamin B6 (10 mg) per serving for supporting overall neurotransmitter metabolism by providing precursors of serotonin. 5-HTP readily enters the blood-brain barrier; however, conversion into serotonin requires the cofactor vitamin B6, which is included in this formula. 5-HTP Synergy™ may be used during the day to support a healthy mood and normal appetite, or it may be used at bedtime to support sleep.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Warning: Not recommended for use by pregnant or lactating women, or by those taking selective serotonin reuptake inhibitor (SSRI) or monoamine oxidase inhibitor (MAOI) medications.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Vitamin B-6 (as Pyridoxal-5-Phosphate)	10 mg 588%
5-HTP (5-Hydroxytryptophan)	50 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate, L-leucine.

7-Keto®

KET060 | 60 vegetarian capsules

7-Keto® is a registered trade name for the compound 3-acetyl-7-oxo-dehydroepiandrosterone (DHEA), a stabilized form of 7-oxo-DHEA. Once ingested, acetyl-7-oxo-DHEA is cleaved to 7-oxo-DHEA, a DHEA metabolite naturally found in the body. Supplementation with 7-Keto® may counteract the decline in 7-oxo-DHEA levels that occur during the normal aging process.** Although 7-oxo-DHEA is similar to DHEA, it does not convert into estrogenic or androgenic hormones.

Recommended Use: Take 1 capsule twice per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
3-Acetyl-7-oxo-dehydroepiandrosterone (7-Keto®)	100 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), sunflower lecithin, silicon dioxide, vegetable stearate.

Acetyl L-Carnitine

ALC090 | 90 vegetarian capsules

Acetyl L-Carnitine is the acetylated ester of the amino acid L-carnitine, which plays an important role in the transfer and utilization of long-chain fatty acids that are used in the production of energy. It supports the biosynthesis of acetylcholine, which is the most abundant neurotransmitter in the body, regulating activities of vital organs and blood vessels, and the communication between nerves and muscles.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Warning: This product should not be taken by those with epilepsy or seizure disorders.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Acetyl L-Carnitine HCl	800 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), stearates (vegetable source), silicon dioxide.

Acnutrol™

ACN180 | 180 vegetarian capsules

Acnutrol™ is formulated to provide comprehensive support for healthy skin by focusing on the internal healing process and overall skin health.** The key ingredients are pantothenic acid and carnitine. Pantothenic acid plays a significant role in maintaining keratinocytes, the predominant cell type in the skin's epidermis. It also promotes normal lipid metabolism and may affect the skin's balance of oils. Carnitine helps pantothenic acid work more efficiently in lipid metabolism and is necessary for normal cellular repair.** Additional skin-supportive nutrients include zinc, copper, selenium, chromium, niacin, biotin, and vitamins B6, A, D, and E.

Recommended Use: Take 6 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Other Ingredients: Cellulose (capsule), stearates (vegetable source), silicon dioxide.

ADK Evail™

ADK060 | 60 softgels

ADK Evail™ provides a synergistic combination of fat-soluble vitamins featuring 125 mcg (5,000 IU) of vitamin D, along with efficacious amounts of vitamin A, vitamin K (including K1 and K2), and vitamin E isomers (as DeltaGold® tocotrienols) in one convenient softgel serving. ADK Evail™ is manufactured using the Designs for Health Evail™ technology, a process that utilizes quillaja extract and a patented form of geranylgeraniol (as GG-Gold®) extracted from annatto seeds, to promote maximum nutrient absorption and delivery in the body. This formula is designed to help support the balance of fat-soluble vitamins in the body, and to help promote bone, heart, and immune health.**

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Vitamin A (as Palmitate)	1515 mcg RAE 167%
Vitamin D (as Cholecalciferol)	125 mcg (5000 IU) 625%

Other Ingredients: Bovine gelatin, purified water, glycerine, medium chain triglycerides, annatto (color), beeswax, quillaja extract.

Adrenal Complex

ADC120 | 120 capsules
ADC240 | 240 capsules

Adrenal Complex is a glandular-based product designed to support overall adrenal function.** Fortified with N-acetyl tyrosine, vitamin C, and a comprehensive spectrum of B vitamins, it is ideal for those under stress due to its ability to help promote normal cortisol metabolism and catecholamine production (dopamine, norepinephrine, and epinephrine).**

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 120

Amount Per Serving	% Daily Value
Vitamin C (as Ascorbic Acid)	100 mg 111%
Thiamin (Vitamin B-1) (as Thiamine HCl)	2 mg 167%

N-Acetyl-L-Tyrosine	50 mg *
Adrenal Cortex Glandular	50 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, bovine gelatin (capsule), vegetable stearate.

Adrenotone™

ADP090 | 90 vegetarian capsules
ADP180 | 180 vegetarian capsules

Adrenotone™ is a combination of standardized adaptogenic herbs and nutrients that are known to contribute to rejuvenating the adrenals. This product is designed to help support healthy cortisol metabolism, hypothalamic and pituitary function (HPA axis), and catecholamine production (dopamine, norepinephrine, and epinephrine).**

Recommended Use: Take 3 capsules per day with meals or as directed by your health-care practitioner. (Divided dosing recommended.)

Warning: Consult your health-care practitioner before using if you are pregnant or lactating or if you have hypertension or diabetes, or have had kidney or liver disorders. Discontinue use and consult your health-care practitioner if you experience sleeplessness, headache, or heart palpitations.

Supplement Facts

Serving Size 3 capsules
Servings Per Container 60

Amount Per Serving	% Daily Value

Licorice (<i>Glycyrrhiza glabra</i>)(root)	20 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

AllerGzyme™

AGZ060 | 60 vegetarian capsules

AllerGzyme™ is a synergistic combination of enzymes that help break down hard-to-digest proteins. It is designed to minimize the adverse effects from occasional consumption of gluten, dairy, soy, egg, whey, casein, almond, peanut, rice, pea, and fish proteins in individuals who are sensitive to them.** This product is not intended for those with celiac disease or food allergies, but rather, for individuals with milder sensitivities and intolerances, who experience unpleasant symptoms after indulging in the above mentioned foods.

Recommended Use: Take 1 capsule with each protein-containing meal per day or as directed by your health-care practitioner.

Warning: Not for use by those with celiac disease. Consult your health-care practitioner before use if you have or suspect you have a sensitivity or intolerance to gluten.

Supplement Facts

Serving Size 1 capsule

Allicillin™

ALLS60 | 60 softgels

Allicillin™ softgels contain Garlicillin™, a blend of garlic oil and parsley oil with specified levels of garlic sulfides and ajoene, the most bioactive compound formed from garlic. These softgels are enteric-coated to reduce the strong garlic odor and repeating that may occur from supplementing with garlic. The parsley oil further helps as a natural breath freshener.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Garlicillin™	200 mg *
[Garlic oil (<i>Allium sativum</i>)(bulb) and parsley oil (<i>Petroselinum crispum</i>)(seed) blend containing 20 mg garlic diallyl sulfide, diallyl disulfide, diallyl trisulfide and ajoene]	

*Daily Value not established.

Other Ingredients: Olive oil, bovine gelatin, glycerine, purified water, yellow beeswax, pharmaceutical glaze, sunflower lecithin, sodium alginate, annatto (color).

Aloe/200x™

ALO060 | 60 vegetarian capsules

The name Aloe/200x™ refers to the fact that it takes 200 pounds of the aloe vera inner gel fillets to make 1 pound of this nourishing aloe extract. This concentrated aloe is made with the intent to retain as much of the plant's natural makeup as possible. This is done by never filtering the product, thus preserving the natural components, and by never letting the product reach a temperature higher than 99° Fahrenheit. This low-heat dehydration system ensures that the long polysaccharide chains remain intact, as they are found in nature. The longer the polysaccharide chain, the more effective it is at supporting immune function.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Aloe Vera Extract	500 mg *
(Aloe barbadensis)(leaf)(200:1)	

*Daily Value not established.

Amino Acid Supreme™

AASPD | 360 g (12.7 oz)

Amino Acid Supreme™ is a balanced, amino acid formula in a great tasting fruit punch flavored powder. It provides essential amino acids in their free form, which makes them immediately available for absorption and allows them to be set for metabolic use much more readily and rapidly than amino acids contained in dietary protein. Alpha-ketoglutarate and vitamin B6 (as pyridoxal-5-phosphate) are included for optimal absorption and efficacy. Amino Acid Supreme™ contains zero grams of sugar and is sweetened with stevia.

Recommended Use: Mix 12 grams (approximately one scoop) in 8 to 10 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 12 grams (approx. one scoop)
Servings Per Container 30

Other Ingredients: Natural flavors, partially hydrolyzed guar gum, stevia leaf extract (*Stevia rebaudiana*), citric acid, beet powder (color).

Amino Acid Synergy

☐ AAS120 | 120 vegetarian capsules

Amino Acid Synergy is useful as a general supplement for individuals whose diets may be insufficient in quality protein, such as athletes who require additional amino acids to maintain or achieve greater lean body mass or for individuals who have confirmed amino acid deficiencies from metabolic testing. Amino Acid Synergy provides a mixture of essential amino acids in the free-form, meaning they are immediately available for absorption and can be put to metabolic use much more readily and rapidly as compared with amino acids contained in dietary protein.

Recommended Use: Take 4 capsules per day between meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 4 capsules
Servings Per Container 30

Other Ingredients: Cellulose (capsule), vegetable stearate.

Amino-D-Tox™

☐ AMT090 | 90 vegetarian capsules
AMT180 | 180 vegetarian capsules

Amino-D-Tox™ is useful for preparing the liver for phase II detoxification. It does not contain botanicals, minerals, or B vitamins that would also upregulate phase I detoxification, which may result in intermediate metabolites that could cause sensitivity reactions. Providing nutritional support for phase II detoxification helps conjugate toxins and prepare them for safe elimination from the body.**

Recommended Use: Take 6 capsules per day between meals or as directed by your health-care practitioner.

Annatto-E™ 150

○ ANT150 | 30 softgels
ANT15L | 60 softgels

Annatto-E™ 150 is a unique tocopherol-free, tocotrienols-only product featuring tocotrienols sourced from the annatto tree. Annatto is the richest known source of tocotrienols, containing 100% tocotrienols (90% delta-isomers and 10% gamma-isomers), with no tocopherols.

Annatto-E™ 150 contains 150 mg per softgel of delta- and gamma-tocotrienols. Commercial vitamin E supplements are typically rich in tocopherols and low or absent in tocotrienols; however, tocotrienol fractions have unique beneficial effects across a variety of tissues that make them desirable for supporting many aspects of health. Research indicates that tocopherols — especially alpha-tocopherols — may interfere with key clinical effects of tocotrienols, so it may be best to take tocotrienols alone, without tocopherols.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Vitamin E Isomers (as DeltaGold® delta and gamma tocotrienols)	150 mg *

*Daily Value not established.

Other Ingredients: Bovine gelatin, water, glycerine.

Annatto-E™ 300

ANT300 | 30 softgels
ANT30L | 60 softgels

Annatto-E™ 300 is a unique tocopherol-free, tocotrienols-only product, featuring tocotrienols sourced from the annatto tree. Annatto is the richest known source of tocotrienols, containing 100% tocotrienols (90% delta-isomers and 10% gamma-isomers), with no tocopherols.

Annatto-E™ 300 contains 300 mg per softgel of delta/gamma tocotrienols. Commercial vitamin E supplements are typically rich in tocopherols and low or absent in tocotrienols; however, tocotrienol fractions have unique beneficial effects across a variety of tissues that make them desirable for supporting many aspects of health. Research indicates that tocopherols — especially alpha-tocopherol — may interfere with key clinical effects of tocotrienols, so it may be best to take tocotrienols alone, without tocopherols.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

*Daily Value not established.

Other Ingredients: Bovine gelatin, water, glycerine.

Annatto-E™ GG

ANTEG6 | 60 softgels

Annatto-E™ GG is a combination of two ingredients per softgel: 150 mg of annatto tocotrienols, a unique tocopherol-free, tocotrienols-only product featuring tocotrienols sourced from the annatto tree, along with 150 mg of geranylgeraniol (GG), a compound that plays critical roles in numerous biological processes affecting organs and tissues throughout the body. The tocotrienols in this product are provided as DeltaGold®, a patented tocotrienol formula from American River Nutrition, and geranylgeraniol, which is present as GG-Gold®, a patented form of GG extracted from annatto seeds.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Vitamin E Isomers (as DeltaGold® delta and gamma tocotrienols)	150 mg *
Trans-Geranylgeraniol (as GG-Gold®)	150 mg *

*Daily Value not established.

Annatto-E™ Liquid

ANTLIQ | 1 fl oz (30 mL)

Annatto-E™ Liquid is a unique tocopherol-free, tocotrienols-only product featuring tocotrienols sourced from the annatto tree. Annatto is the richest known source of tocotrienols, containing 100% tocotrienols (90% delta- and 10% gamma-isomers) with no tocopherols. Annatto-E™ Liquid contains 150 mg per 6-drop serving of delta- and gamma-tocotrienols. Commercial vitamin E supplements are typically rich in tocopherols and low or absent in tocotrienols; however, tocotrienol fractions have unique beneficial effects across a variety of tissues making them desirable for supporting many aspects of health. Research indicates that tocopherols — especially alpha-tocopherol — may interfere with key clinical effects of tocotrienols, so it may be best to use tocotrienols alone, without tocopherols.

Recommended Use: Take 6 drops per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 6 drops
Servings Per Container 111

Other Ingredients: Medium chain triglycerides.

Annatto-E™ Synergy

ANT60 | 60 softgels

Annatto-E™ Synergy is a unique tocopherol-free, tocotrienols-only product containing 125 mg of tocotrienols along with 1 g of black cumin seed oil (*Nigella sativa*) per 2-softgel serving. The synergistic combination of tocotrienols and black cumin make it most efficacious for supporting a healthy inflammatory response, healthy lipid metabolism, and defense against oxidative stress.** The tocotrienols are extracted from the South American annatto bean and contain 90% delta-tocotrienol and 10% gamma-tocotrienol. For best results, this product should not be taken within 6 hours of taking a vitamin E supplement containing D-alpha tocopherol.

Recommended Use: Take 2 softgels per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 softgels
Servings Per Container 30

Amount Per Serving	% Daily Value
Black Cumin Seed Oil (<i>Nigella sativa</i>)(seed)	1 g *
Vitamin E Isomers (as DeltaGold® delta and gamma tocotrienols)	125 mg *

Annatto-GG™ 150

ANTG60 | 60 softgels

Annatto-GG™ 150 is a unique product that provides 150 mg of geranylgeraniol (GG), a compound that plays critical roles in numerous biological processes affecting organs and tissues throughout the body. It features GG-Gold®, a patented form of GG extracted from annatto seeds. By introducing an external source of GG, Annatto-GG™ 150 may help compensate for the natural decline in GG synthesis during aging, in addition to the decreased production of GG associated with the use of common prescription drugs.**

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Trans-Geranylgeraniol (as GG-Gold®)	150 mg *

*Daily Value not established.

Other Ingredients: Bovine gelatin, purified water, glycerine.

Arthroben® Green Apple

ARBUNF | 330 g (11.6 oz)

Arthroben® is a highly absorbable powder designed to support healthy connective tissue and joint mobility.** It supplies the collagen peptides Fortigel® and Verisol®, and the flavonoids baicalin from *Scutellaria baicalensis* and catechins from *Acacia catechu*.

Arthroben® provides key building blocks for cartilage, ligaments, and skin, and is formulated to help maintain healthy joints.** It contains no artificial sweeteners, mixes easily in water, and is available in green apple and lemon-lime flavors, and also in an unflavored/unsweetened version.

Recommended Use: Mix 14 grams (approximately one scoop) in 8 ounces of water per day or as directed by your health-care practitioner.

ArthroSoothe™

🍷 ARS120 | 120 capsules

ArthroSoothe™ provides joints with nutritional support for lubrication, free movement, and healthy function.** Joints, cartilage, ligaments, tendons, and synovial fluid (for joint lubrication) undergo a continuous, but slow turnover and remodeling process. This is affected by many physiological factors, such as diet, supplements, activity, stress, gut health, immune status, infections, aging, hormones, toxic load, and/or various medications.

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner. (Divided dosing recommended.)

ArthroSoothe™ Cream

 ASCPMP | 3 oz (85 g)

This soothing topical cream can be used for occasional joint and muscle discomfort. It is a wonderful complement to our encapsulated ArthroSoothe™ product. Topical application provides tissue warming and surface-cooling effects utilizing a complex and complete formulation.

Directions: Massage into skin, as needed for relief. Can be repeated several times a day as desired.

TOPICAL. NOT INTENDED FOR ORAL USE.

Ingredients: Aloe vera gel, deionized water, esterified fatty acid complex, emu oil, capric/caprylic triglycerides, herbal blend (white willow bark, capsicum, arnica, chamomile, calendula, witch hazel), polysorbate 60, glucosamine, chondroitin, glyceryl monostearate, methylsulfonylmethane (MSM), glycerine, menthol, cajeput oil, cetyl myristoleate, carbomer, hyaluronic acid, vitamin E, triethanolamine, balsam of Peru oil, phenoxethanol, oil of oregano, peppermint oil, tea tree oil, eucalyptus oil, and carnosine.

ArthroSoothe™ Supreme

 ARSSUP | 120 capsules

ArthroSoothe™ Supreme offers ideal nutritional support for joint health and function.** This synergistic formula contains powerful joint-supportive nutraceutical compounds including glucosamine sulfate, green-lipped mussel, methylsulfonylmethane (MSM), trans-resveratrol, quercetin, N-acetyl-L-cysteine (NAC), and a blend of the plant extracts: *Scutellaria baicalensis* and *Acacia catechu*.

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner.

Astaxanthin

 AST060 | 60 softgels

Astaxanthin is an extremely powerful carotenoid from the microalgae *Haematococcus pluvialis*, which is one of the richest sources of natural astaxanthin. It is reddish in pigment and it is what gives crustaceans, such as krill, lobster, shrimp, and salmon, their vibrant pink color. Astaxanthin is a uniquely structured, long-chain molecule that enables it to provide superior membrane protection, and it is considered to be substantially stronger than all other well-researched antioxidants. Its impressive antioxidant properties benefit the body in many ways, which include offering support for cardiovascular, gastrointestinal (GI), skin, and eye health.** The astaxanthin in this product is extracted directly from microalgae using a solvent-free technology that ensures maximum control and purity, and allows for optimal bioavailability and stability.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Natural Astaxanthin (as AstaREAL®) (from <i>Haematococcus pluvialis</i> algae extract)	6 mg *

Other Ingredients: Olive oil, bovine gelatin, glycerine, purified water.

B-Supreme

BSP060 | 60 vegetarian capsules
 BSP090 | 90 vegetarian capsules
 BSP120 | 120 vegetarian capsules

B-Supreme is a powerful combination of B vitamins supplied mostly in their coenzymated forms, so that the body does not have to phosphorylate them to be used in biochemical reactions. This formula also includes the patented folate derivative Quatrefolic®, which is an innovative form of folate that has demonstrated high bioavailability, solubility, and long-lasting stability. Trimethylglycine (TMG) and choline are also included to support methylation.

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

BCAA Powder

BCA270 | 270 g (9.5 oz)

BCAA Powder combines the branched-chain amino acids (BCAA) — leucine, isoleucine, and valine — along with the amino acid, L-glutamine for a synergistic effect in building muscle tissue and supporting the immune system.** BCAAs are unique in that they are a direct source of energy for skeletal muscles while also serving as intermediates in the ATP-producing citric acid cycle. They stimulate the building of protein in muscle, help reduce muscle breakdown during exercise, and regulate protein metabolism throughout the body.**

Recommended Use: Mix 9 grams (approximately one scoop) into 10 to 12 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 9 grams (approx. one scoop)
Servings Per Container 30

Amount Per Serving	% Daily Value
L-Leucine	2.5 g *
L-Glutamine	2 g *
L-Isoleucine	1.2 g *
L-Valine	1.2 g *

*Daily Value not established.

Other Ingredients: Natural flavors, certified organic stevia leaf extract (*Stevia rebaudiana*), citric acid, malic acid, silicon dioxide, sunflower lecithin.

Berb-Evail®

BEV060 | 60 softgels

Berb-Evail® contains 400 mg of the plant alkaloid berberine (from *Berberis aristata*) per softgel for the primary purpose of supporting healthy blood sugar metabolism and normal insulin sensitivity. Berberine has also been shown to exhibit potential antimicrobial properties.** Berb-Evail® is manufactured using Designs for Health's Evail™ technology, and it is an all-natural formulation that improves the absorption and delivery of berberine. This process uses a proprietary blend of medium-chain triglyceride (MCT) oil, non-soy derived lecithin, and tocotrienols, without the use of potentially harmful surfactants.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Berberine (as Berberine HCl)(<i>Berberis aristata</i>)(root)	400 mg *

*Daily Value not established.

Other Ingredients: Medium chain triglycerides, softgel ingredients (bovine gelatin, glycerine, purified water, annatto [color]), quillaja extract, DeltaGold® tocotrienols.

Berberine Synergy™

BER060 | 60 vegetarian capsules

Berberine Synergy™ supplies berberine combined with alpha lipoic acid to help support optimal blood sugar and insulin metabolism, cardiovascular health, and liver health.** Berberine is an alkaloid compound found in the roots, rhizomes, stems, and bark of several plants commonly used in botanical and Chinese medicine, such as goldenseal, Oregon grape, barberry, and *Berberis aristata*. Lipoic acid is best known for its antioxidant properties and its ability to support healthy insulin metabolism and sensitivity.** It is also a key cofactor for mitochondrial enzymes involved in cellular metabolism and energy (ATP) production.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

*Daily Value not established.

Other Ingredients: Dicalcium phosphate, vegetable stearate, microcrystalline cellulose, silicon dioxide.

Betaine HCL

 BHC120 | 120 capsules

Betaine HCL provides 750 mg of betaine hydrochloride per capsule along with pepsin, a key protein digestive enzyme produced in the stomach. This product is ideal for those who are looking to support their stomach's digestive function. Taking 1 capsule before a meal aids digestion, especially the digestion of protein-containing foods, and it helps with the assimilation of nutrients.** This product is not recommended for anyone who has been diagnosed with any type of ulcer or gastritis, or those who have an overproduction of acid.

This product is in capsule form to ensure the delivery of betaine hydrochloride (HCL) and pepsin to the stomach where they are needed to initiate digestion.

Recommended Use: Take 1 capsule per day before a meal or as directed by your health-care practitioner.

Warning: Do not take this product if you have a history of gastritis or ulcers, or if you are taking acid-reducing medications.

Supplement Facts

Brain Vitale™

 BVCN60 | 60 vegetarian capsules
BVC120 | 120 vegetarian capsules

Brain Vitale™ is a unique formulation designed to optimize brain function and support healthy cognition, mood, and memory.** It contains a comprehensive array of brain-supportive nutrients, including acetyl-L-carnitine, L-alpha-glycerylphosphorylcholine, phosphatidylserine, *Ginkgo biloba* (standardized to contain 24% ginkgo flavonglycosides and 5.4% terpene lactones), and citicoline. Also included is a unique coffee fruit concentrate extracted from the whole coffee cherry, including the flesh of the berry that surrounds the coffee bean and contains several distinctive compounds not found in the coffee beans themselves.

Brain Vitale™ provides building blocks for brain phospholipids, crucial structural components of the synapses of neurons, and it is formulated to help assist with various aspects of brain health, such as cell energy production, mitochondrial support, and antioxidant protection.**

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using if you are pregnant or lactating, or if you have or are taking prescription medications, especially blood thinners or anticoagulants.

BroccoProtect™

☞ BPT090 | 90 vegetarian capsules

BroccoProtect™ is a synergistic blend of specially cultivated broccoli seed extract and broccoli sprout concentrate providing sulforaphane glucosinolate and myrosinase enzyme for maximal conversion to broccoli's beneficial compound, sulforaphane. It is offered in a delayed-release capsule to further optimize this conversion and maximize bioavailability. BroccoProtect™ is designed to help support detoxification, the body's antioxidant status, and cellular health, as well as offer cardiovascular and neuronal protection.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Broccoli Blend	500 mg *
Broccoli Seed Extract, Broccoli Sprout Concentrate (<i>Brassica oleracea italica</i>) [providing 23 mg sulforaphane glucosinolate, 4 enzyme units of myrosinase, and 3 mg sulforaphane]

Other Ingredients: Cellulose (capsule), sunflower lecithin, microcrystalline cellulose, stearates (vegetable source), silicon dioxide.

Cal/Mag 1:1

CD CAM011 | 180 vegetarian capsules

Cal/Mag 1:1 provides calcium and magnesium in equal amounts, with 200 mg of each mineral per serving of 2 capsules. Although the most commonly recommended dietary ratio of calcium to magnesium is 2:1, magnesium depletion has become very common in the U.S. Many components of the modern lifestyle increase magnesium loss, including stress (physical or emotional), alcohol or coffee consumption, exercise, excessive sweating, and certain medications, such as birth control pills, various antibiotics, and common diuretics. These factors cause many individuals to require compensation for extra magnesium.

Recommended Use: Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 90

Amount Per Serving		% Daily Value
Calcium (as DimaCal® Di-Calcium Malate)	200 mg	15%
Magnesium (as Di-Magnesium Malate)	200 mg	48%

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

Cal/Mag 2:1

CD CAM021 | 180 vegetarian capsules

Cal/Mag 2:1 offers calcium and magnesium in the standard 2 to 1 ratio. It has long been understood that these two minerals work synergistically and their benefits are enhanced when taken together.

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 90

Amount Per Serving		% Daily Value
Calcium (as DimaCal® Di-Calcium Malate)	300 mg	23%
Magnesium (as Di-Magnesium Malate)	150 mg	36%

Other Ingredients: Cellulose (capsule), vegetable stearate.

Calcium D-Glucarate

CD CDG060 | 60 vegetarian capsules

Calcium D-Glucarate is calcium bound to D-glucaric acid, which is a natural compound produced in small amounts by the human body and is abundantly found in various plant foods, such as broccoli, cabbage, kale, apples, oranges, and grapefruit. Research shows that D-glucaric acid derivatives, such as calcium D-glucarate help support the body's natural elimination of toxins and excess steroid hormones.** Unlike glucuric acid, calcium D-glucarate is available as a supplement. Oral supplementation of calcium D-glucarate is an ideal way to provide the body with an efficient, slow-release source of its active metabolite, D-glucaro-1, 4-lactone.

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving		% Daily Value
Calcium (as Calcium D-Glucarate USP)	150 mg	12%
Calcium D-Glucarate USP	1.2 g	*

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

Calcium Malate

CD CMC120 | 120 vegetarian capsules

Calcium Malate provides di-calcium malate, which is calcium bound to malic acid, for excellent absorption in the body. Malic acid is a naturally occurring compound found in apples and other fruits and vegetables that helps to support energy production by playing a role in the process of deriving adenosine triphosphate (ATP) from food.

Recommended Use: Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 60

Vitamin D (as Cholecalciferol)	2.5 mcg (100 IU)	13%
Calcium (as DimaCal® Di-Calcium Malate)	500 mg	38%

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, stearates (vegetable source).

Cannab 600™ THC Free

💧 CB600F | 1 fl oz (30 mL)

Cannab 600™ THC Free provides 600 mg per bottle of broad-spectrum phytocannabinoids, which are the beneficial compounds naturally found in the aerial parts of hemp. This product is offered in liquid form, infused in a base of organic cold-pressed hemp seed oil, and yields 20 mg of active phytocannabinoids per 1 mL serving (1 dropperful). Cannab 600™ also contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids, complementing their health-promoting properties.** Additional terpenes are also included for taste enhancement. This product is considered "THC Free" because it contains less than 0.02% (limit of detection) of the phytocannabinoid tetrahydrocannabinol (THC).

Recommended Use: Take 1 mL (1 dropperful) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner prior to use if you are pregnant or breastfeeding. Hemp-derived phytocannabinoid products are not for sale outside the U.S. or to the states of Hawaii, Idaho, Louisiana, Mississippi, and South Dakota.

Cannab-FS™ 500 Roll-On

CBFROL | 1.7 fl oz (50 mL)

Cannab-FS™ 500 Roll-On is a custom-made topical formula delivered as a clear roll-on that offers targeted and localized relief in doses of 500 mg of active full-spectrum phytocannabinoids per travel-sized, portable bottle. This formula creates a temporary cooling/heating sensation and is provided in a pleasant peppermint scent. Contains <0.3% THC.

Recommended Use: Shake well. Apply product onto targeted areas of the body. Breathe deeply to experience aroma. Use on clean, dry skin.

Warning: Not for use on wounds or broken skin. Discontinue if irritation occurs. Consult your health-care practitioner prior to use if you are pregnant or breastfeeding, or if you have a medical condition.

Hemp-derived phytocannabinoid products are not for sale outside the U.S. or to the states of Hawaii, Idaho, Louisiana, Mississippi, and South Dakota.

Ingredients: Water (Aqua), Butyrospermum Parkii (Shea) Oil, Caprylic/Capric Triglyceride, Shea Butter Ethyl Esters, Glycerine, Acrylates Copolymer, Cannabis Sativa (Hemp) Seed Oil, Menthol, Cannabis Sativa (Hemp) Flower Extract, Salix Alba (Willow) Bark Extract, Mentha Piperita (Peppermint) Oil, Arnica Montana Flower Extract, Bixa Orellana Leaf Extract, Jacaranda Mimosifolia Flower Extract, Kalanchoe Pinnata Leaf Extract, Cocos Nucifera (Coconut) Oil, Deoxyribonuclease, Aloe Barbadensis Leaf Juice Powder, Glucose Oxidase, Acrylates/Palmeth-25 Acrylate Copolymer, Sodium Hydroxide.

It also contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids, which are the beneficial compounds naturally found in the aerial parts of hemp, complementing their health-promoting properties. Additional terpenes are also included for taste enhancement. In this product, 100% of the hemp flowers come from American farms grown under the Farm Bill. Contains <0.3% THC. Cannab-FS™ 600 provides 600 mg per bottle of full-spectrum phytocannabinoids and yields 20 mg of active phytocannabinoids per 1 mL serving (1 dropperful).

Recommended Use: Take 1 mL (1 dropperful) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner

Warning: Consult your health-care practitioner prior to use if you are pregnant or breastfeeding.

Hemp-derived phytocannabinoid products are not for sale outside the U.S. or to the states of Hawaii, Idaho, Louisiana, Mississippi, and South Dakota.

Cannab-FS™ 900

CBF900 | 60 softgels

Cannab-FS™ 900 provides 900 mg of full-spectrum phytocannabinoids per bottle. Full-spectrum phytocannabinoids are the beneficial compounds naturally found in the aerial parts of hemp. It is infused in a base of organic cold-pressed hemp seed oil, with each, easy-to-swallow softgel yielding 15 mg active phytocannabinoids. Cannab-FS™ 900 also contains natural terpenes, aromatic compounds from the hemp plant that work synergistically with phytocannabinoids, complementing their health-promoting properties. In this product, 100% of the hemp flowers come from American farms grown under the Farm Bill. Contains <0.3% THC.

Recommended Use: Take 1 softgel per day with a meal or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner prior to use if you are pregnant or breastfeeding.

CannabOmega™

☐ CBOM60 | 60 softgels

CannabOmega™ is a unique omega-3 formulation, combining a 1:1 ratio of eicosapentaenoic/docosahexaenoic (EPA/DHA), along with standardized phytocannabinoids found in hemp oil. The omega-3 fatty acids found in this product are best known for their neuro-supportive properties and their roles in brain health, including support for healthy mood and cognition.** CannabOmega™ also provides synergistic support for cardiovascular, metabolic, and immune health.** The fish oils in this product are in the triglyceride (TG) form for superior absorption and bioavailability. Contains <0.3% THC.

Recommended Use: Take 1 softgel twice per day or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner prior to use if you are pregnant or breastfeeding.

Hemp-derived phytocannabinoid products are not for sale outside the U.S. or to the states of Hawaii, Idaho, Louisiana, Mississippi, and South Dakota.

CarminaGest™

☐ CMAGST | 120 vegetarian capsules

CarminaGest™ is a powerful digestive support formula containing herbal bitters designed to optimize healthy digestion and help reduce occasional gastrointestinal discomfort after meals, such as gas, bloating, and excessive fullness.** This product is ideal for individuals who are sensitive to supplementation with hydrochloric acid (HCl) (i.e., stomach acid) and for vegetarians and vegans who may benefit from digestive support, but who prefer to avoid animal-sourced digestive enzymes. (Many digestive support products contain enzymes and bile of animal origin, and CarminaGest™ is completely free of these ingredients and contains solely plant-based compounds.)

Recommended Use: Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Supplement Facts

CarniClear™

🚰 CCL8OZ | 8 fl oz (237 mL)

CarniClear™ is a supersaturated liquid carnitine. It is ideal when economical, high-dose carnitine supplementation is desired for supporting fat metabolism, energy levels, and endurance.** Vitamin B5 (as pantothenic acid) is included to enhance the function of carnitine in fat metabolism. This product is an excellent choice for individuals who consume little or no meat and is best taken on an empty stomach.

Recommended Use: Take 5 mL (approximately 1 teaspoon) per day or as directed by your health-care practitioner.

Cocommune™ Bar

CCBARC | 1 case of 18 bars

Cocommune Bar™ is a delicious, nutrition-packed functional food bar. It is made up of a dark chocolate coating and a moist and creamy coconut filling. It is sweetened with allulose, as well as erythritol and stevia, all of which have minimal effects on blood sugar and insulin levels. Each bar has just 3 grams net carbs with 2 grams total sugars, making this product suitable for anyone watching their carbohydrate intake. It also features natural fats from coconut and cocoa butter along with 7 grams of fiber including prebiotic fiber from inulin and larch arabinogalactan.

CogniAid™

COG060 | 60 vegetarian capsules

CogniAid™ is an herbal formula designed to help support healthy cognition, mood and memory.** This product supplies herbs and extracts that have been shown to work through a variety of mechanisms, including helping to maintain proper synthesis of the neurotransmitter acetylcholine, as well as supporting healthy neurons and nerve impulse transmission.**

CogniAid™ contains Memophenol™ (a grape and wild blueberry complex), alongside NooGandha™ (a high-concentration, full-spectrum ashwagandha extract), huperzine-A (a naturally occurring alkaloid compound), ginseng, and the Ayurvedic herb Bacopa (*Bacopa monnieri*).

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Colon Rx™

CRX060 | 60 vegetarian capsules

Colon Rx™ uses two research-backed ingredients to help improve bowel motility and tonicity in people with occasional constipation.** Magnesium hydroxide, a well-known ingredient that works by osmosis, draws water from surrounding tissues to the intestines; this local increase of water not only softens the stool, but it also has a positive influence on the volume of the feces, which promotes intestinal motility.** In the Ayurvedic tradition, Triphala, a classic formula, consists of three fruits, Amalaki, bibhitaki, and haritaki. Amalaki (known as Indian gooseberry or amla) is considered one of the best rejuvenating herbs. In addition to its laxative effects, Haritaki also has astringent properties and balances Vata. Bibhitaki is an excellent rejuvenative, with both laxative and astringent properties. It balances the Kapha dosha. Colon Rx™ can be used for short periods of time as a fast-acting mild laxative for occasional constipation or as a daily bowel tonic.**

Recommended Use: Take 2 capsules with 8 ounces of water at bedtime or as directed by your health-care practitioner.

Curcum-Evail®

 CUR030 | 30 softgels
CUR060 | 60 softgels
CUR120 | 120 softgels

Curcum-Evail® is a highly bioavailable curcuminoid formulation. It contains a unique combination of three bioactive, health-promoting curcuminoids: curcumin, bisdemethoxycurcumin, and desmethoxycurcumin, along with turmeric oil. The three curcuminoids are the strongest, most protective, and best-researched constituents of the turmeric root. Curcum-Evail® is manufactured utilizing the Designs for Health Evail™ process, which helps to optimize the absorption rate of the curcuminoids while reducing their absorption time. This proprietary process uses naturally sourced ingredients, including turmeric oil, sunflower lecithin, and vitamin E, without the use of synthetic/harsh surfactants.

Recommended Use: Take 1 softgel per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Curcum-Evail® Chewables

 CURC60 | 60 soft chews

Curcum-Evail® Chewables provide a unique combination of health-promoting curcuminoid compounds that are delivered in delicious, mango-nectarine-flavored chews, making this product suitable for all ages. Curcumin is made up of a crystalline structure that makes it difficult for the body to absorb effectively. Curcum-Evail® Chewables are designed to overcome this difficulty through two unique characteristics: (1) They are manufactured using a novel, proprietary Evail™ process, and (2) they are offered in a chewable delivery format. The Designs for Health Evail™ technology uses naturally sourced ingredients that improve the absorption and delivery of curcumin without using synthetic or harsh surfactants. Curcum-Evail® Chewables contain no artificial sweeteners and are sweetened with allulose and stevia leaf extract.

Recommended Use: Take 1 chew per day or as directed by your health-care practitioner.

D-Evail™ 10K

 DEU060 | 60 softgels

D-Evail™ 10K is our highest potency vitamin D product, providing a clinically relevant serving of 10,000 IU (250 mcg) of vitamin D in a highly absorbable form alongside vitamins K1 (as phytonadione) and K2 (as MK-4), and geranylgeraniol (GG) to support bone, immune, and cardiovascular health.** Research suggests that combined supplementation of both vitamins D and K may be more supportive than either vitamin alone for both bone and cardiovascular health.** This product uses the Designs for Health Evail™ technology that combines quillaja extract with medium-chain triglycerides (MCT) for improved nutrient bioavailability.**

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Warning: Due to the inclusion of vitamin K in this product, use caution when prescribing D-Evail™ products for patients who are taking Coumadin, warfarin, or other anticoagulant medications.

Trans-Geranylgeraniol (as GG-Gold®)	5 mg *

*Daily Value not established.

Other Ingredients: Bovine gelatin, purified water, glycerine, medium chain triglycerides, annatto (color), DeltaGold® tocotrienols, beeswax, quillaja extract.

D-Evail™ Synergy

DSY060 | 60 softgels

D-Evail™ Synergy provides a clinically relevant serving of 50 mcg (2,000 IU) of vitamin D in a highly absorbable form alongside vitamins K1 and K2 (as MK-4) and geranylgeraniol (GG) to support bone, immune, and cardiovascular health.** Research suggests that combined supplementation of both vitamins D and K may be more supportive than either vitamin alone for both bone and cardiovascular health.** This product uses Designs for Health's Evail™ technology that combines quillaja extract with medium-chain triglycerides (MCTs) for improved nutrient bioavailability.**

Recommended Use: Take 1 softgel daily with a meal or as directed by your health-care practitioner.

Warning: Due to the inclusion of vitamin K in this product, use caution when prescribing D-Evail™ products for patients who are taking Coumadin, warfarin, or other anticoagulant medications.

D-Ribose

RIB150 | 150 g (5.3 oz)

D-Ribose synthesizes adenine nucleotides, which are required by cardiac muscle and other tissue to make adenosine triphosphate (ATP), the primary source of energy used by all cells to maintain normal health and function. D-Ribose may be ideal for athletes and weekend warriors or to help support cardiovascular health and energy levels.**

Recommended Use: Take 5 grams (approximately one scoop) per day or as directed by your health-care practitioner.

Detox Original 14 Day Program with PurePea™

 **DETOX14UNF | Unflavored**
DETOX14VAN | Vanilla

The Detox Original 14 Day Program with PurePea™ has been created to support the body's natural two-phase detoxification process. This is accomplished by providing the nutrients needed to support and balance phase I and phase II metabolic pathways, high levels of antioxidants for safe detoxification, and a comprehensive array of herbal hepatics and cholagogues to promote healthy liver function and elimination.**

One Kit Contains:

- 1 PurePea™ Unflavored OR PurePea™ Vanilla
- 1 VegeCleanse™ powder
- 1 Amino-D-Tox™ 90 capsules
- 1 Detox Antiox™ 30 capsules
- 1 14-Day Detox-Cleanse Program Patient Guide
- 1 Blender bottle
- 1 Reusable bag made from recyclable materials

Detoxification Support Packets

 **DETSUP | 60 packets**

We are inundated with toxins on a daily basis. Our ability to maintain health in a toxic environment is dependent on our body's ability to detoxify. We recommend these packets as the starting point for detoxification programs for anyone who needs regular detoxification support or for those who want extra help before procedures, such as dental amalgam removal or heavy metal chelation.

Recommended Use: Take 1 packet per day or as directed by your health-care practitioner.

Each packet contains:

- 1 Detox Antiox™ capsule
- 1 LV-GB Complex™ capsule
- 3 Amino-D-Tox™ capsules

DFH Complete Multi™ Free of Copper + Iron

CMF120 | 120 vegetarian capsules

DFH Complete Multi™ is a full-spectrum multivitamin with Albion-chelated minerals for maximum absorption and bioavailability. This powerhouse multivitamin supplies supportive nutrients that are not normally found in regular multivitamins, such as delta- and gamma-tocotrienols, trimethylglycine (TMG), and fruit bioflavonoids. This formula also contains natural mixed carotenoids, a full spectrum of vitamin K forms, and levels of B vitamins, based on evolutionary intake of these nutrients, which support healthy cell replication and are higher than the Recommended Dietary Allowance (RDA) and Reference Daily Intake (RDI) values. This copper and iron-free version is appropriate for men and postmenopausal women.**

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner.

Warning: If taking a blood thinning medication, consult a health-care practitioner before using.

DFH Complete Multi™ with Copper

CCM120 | 120 vegetarian capsules

DFH Complete Multi™ with Copper is a full-spectrum multivitamin with Albion-chelated minerals for maximum absorption and bioavailability. This powerhouse multivitamin supplies supportive nutrients that are not normally found in regular multivitamins, such as delta- and gamma-tocotrienols, trimethylglycine (TMG), and fruit bioflavonoids. This formula also contains natural mixed carotenoids, a full spectrum of vitamin K forms, and levels of B vitamins, based on evolutionary intake of these nutrients that support healthy cell replication and are higher than recommended daily allowance/recommended dietary intake (RDA/RDI) values. This product contains 2 mg of copper, as copper glycinate chelate, a stabilized mineral chelate from Albion Minerals that reduces the risk of free copper in the body that can cause oxidative stress. This multivitamin is iron-free and iodine-free.

Recommended Use: Take 4 capsules per day (2 with each meal) or as directed by your health-care practitioner.

Warning: If taking a blood thinning medication, consult a health-care practitioner before using.

DGL Synergy™

DGL090 | 90 chewable tablets

DGL Synergy™ is a fast-acting, chewable formula of deglycyrrhizinated licorice (DGL) that offers support for the gastric mucosa.** It contains a standardized high-quality form of DGL, the amino acid glycine, and calcium in the form of calcium glycerophosphate.

DGL Synergy™ has a pleasant licorice flavor with zero grams of sugar and it does not contain fructose. It is sweetened with the polyols xylitol and mannitol, and the plant extract luu han guo.

Recommended Use: Chew 2 tablets before a meal per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 tablets
Servings Per Container 45

Amount Per Serving	% Daily Value
Calcium (from Calcium Glycerophosphate)	100 mg 8%
Deglycyrrhizinated Licorice (DGL) (Glycyrrhiza glabra)(root)	500 mg *
Glycine	200 mg *

*Daily Value not established.

Other Ingredients: Xylitol, mannitol, cellulose, vegetable stearate, luu han guo extract (fruit).

DHEA 5 mg

☐ DHE180 | 180 vegetarian capsules

DHEA 5 mg supplies 5 mg of dehydroepiandrosterone (DHEA) for the synthesis of important hormones and for a variety of potential physiological responses, such as healthy aging, ongoing energy and vitality, and a balanced stress response, as well as muscle integrity and fat metabolism.** This low-dose DHEA can be slowly titrated upwards as needed.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Do not use if pregnant, nursing, or planning to become pregnant. If using any hormonal products, consult your health-care practitioner before using DHEA.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
DHEA (Dehydroepiandrosterone)	5 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), L-leucine.

DHEA 25 mg

☐ DHEA60 | 60 vegetarian capsules

DHEA 25 mg supplies 25 mg of dehydroepiandrosterone (DHEA) per capsule for the synthesis of important hormones and for a variety of potential physiological responses, such as healthy aging, ongoing energy and vitality, and a balanced stress response, as well as muscle integrity and fat metabolism.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Do not use if pregnant, nursing, or planning to become pregnant. If using any hormonal products, consult your health-care practitioner before using DHEA.

Supplement Facts

Serving Size 1 capsule

DHEA (Dehydroepiandrosterone)	25 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), L-leucine.

Digestzymes™

☐ DIG060 | 60 capsules
DIG090 | 90 capsules
DIG180 | 180 capsules

Digestzymes™ is comprised of a proprietary blend of digestive enzymes along with betaine hydrochloride (HCl) to support the optimal digestion of proteins, fats, and carbohydrates. This product contains the special protease dipeptidyl peptidase IV (IDVPP), which aids in the breakdown of the peptides gluteomorphin (from gluten) and casomorphin (from casein). Digestzymes™ also includes the enzyme lactase, which helps break down the dairy sugar, lactose. The use of Digestzymes™ before meals may be helpful for patients who experience gas and bloating after eating, occasional constipation, or a feeling of fullness after eating only a small quantity of food.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Betaine HCl	200 mg *
GastroENZ™ Proprietary Blend (Ox Bile Extract, Peptidase (DPPIV), Amylases, Pepsin, Proteases, Glucoamylase, Lactase, Invertase, Lipase)	180 mg *

* Daily Value not established.

Other Ingredients: Capsule (hypromellose, water), microcrystalline cellulose, medium chain triglycerides.

DIM-Evail™

 DIM060 | 60 softgels
 DIM120 | 120 softgels

DIM-Evail™ provides 100 mg per softgel of diindolylmethane (DIM), a compound that helps support healthy estrogen metabolism.** Due to its crystalline structure, absorption of DIM is minimal when given orally. For this reason, DIM-Evail™ has been manufactured utilizing the Designs for Health Evail™ process, which improves the absorption of DIM. This process utilizes a proprietary blend of medium-chain triglyceride (MCT) oils, non-soy-derived lecithin, and tocotrienols, without the use of potentially harmful surfactants. Research tells us that a low level of the 2-hydroxyestrone and a high level of 16 alpha-hydroxyestrone are not desired. DIM works by helping to increase 2-hydroxyestrone and therefore it improves the 2:16 hydroxyestrone ratio.**

Recommended Use: Take 1 softgel per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Diindolylmethane (DIM)	100 mg *

* Daily Value not established.

Other Ingredients: Medium chain triglycerides, softgel ingredients (bovine gelatin, glycerine, purified water, annatto [color]), quillaja extract, DeltaGold® tocotrienols.

DopaBoost™

 DPB060 | 60 vegetarian capsules

DopaBoost™ is designed to support the body's natural production of dopamine, one of the body's primary catecholamines. Dopamine is essential for the normal functioning of the central nervous system, and it is associated with attention, learning, movement, balance, and mood regulation.* The primary ingredient in DopaBoost™ is *Mucuna pruriens*, a botanical that naturally contains L-Dopa, the metabolic precursor to dopamine, which can cross the blood-brain barrier. Additional ingredients include epigallocatechin gallate (EGCG), acetyl-L-tyrosine, quercetin, and vitamin B6, all selected for their synergistic roles in the production and regulation of dopamine.*

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Vitamin B-6 (as Pyridoxal-5-Phosphate)	5 mg 294%
N-Acetyl-L-Tyrosine	750 mg *
Mucuna Extract (<i>Mucuna pruriens</i>)(seed)[standardized to contain 60% L-Dopa (3, 4 Dihydroxy-L-Phenylalanine)]	425 mg *
Green Tea Extract (<i>Camellia sinensis</i>)(leaves) [standardized to contain 95% polyphenols and 45% EGCG]	100 mg *
Quercetin	100 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), vegetable stearate.

EGCG

 EGC060 | 60 vegetarian capsules

EGCG (epigallocatechin gallate) is a key active component of green tea (*Camellia sinensis*) leaves. It is valued for its antioxidant properties and has been studied extensively for weight loss through the promotion of fat metabolism, and for its role in supporting overall health and wellness.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Epigallocatechin gallate (EGCG) [from decaffeinated green tea (<i>Camellia sinensis</i>) leaf extract]	225 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

Electrolyte Synergy™

ELS240 | 240 g (8.5oz)

Electrolyte Synergy™ is a complete and balanced electrolyte formula to help promote optimal hydration, especially after excessive sweating. It contains potassium, sodium, chloride, and magnesium, the main electrolytes found in the body. D-ribose is included because of its importance in healthy cardiac function, exercise recovery, and energy production, whereas taurine helps to regulate cellular electrolyte flow. Electrolyte Synergy™ also contains vitamin C, along with the synergistic compounds, quercetin and citrus bioflavonoids. Vitamin C supports the cardiovascular system by helping to build healthy collagen, which is one of the main structural components of blood vessels.**

Electrolyte Synergy™ can be mixed into any beverage or sports bottle, or it can be mixed with water and placed in an ice rack to make popsicles. This product has a delicious natural lemon-orange flavor, and its sweetness comes from a small amount of stevia.

Recommended Use: Mix 8 grams (approximately one scoop) into 10 to 12 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 8 grams (approx. one scoop)
Servings Per Container 30

Emulsi-D3 Synergy™

EMDK2Z | 2 fl oz (59 mL)

Emulsi-D3 Synergy™ is a concentrated, highly bioavailable liquid vitamin D formulation offering 50 mcg (2,000 IU) per 1 mL (one full dropper), along with 250 mcg of vitamin K1 and 25 mcg of vitamin K2. This is a convenient, pleasant-tasting, and easily mixable formula. Both vitamins D and K are essential for bone and arterial health, and for maintaining immune function. Vitamins K1 and K2 support the deposition of calcium into the bone instead of soft tissue, such as the arterial walls and kidneys.**

Recommended Use: Take 1 mL per day or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin, or other anticoagulant medications.

Supplement Facts

Serving Size 1 mL
Servings Per Container about 59

Amount Per Serving	% Daily Value
Vitamin D (as Cholecalciferol)	50 mcg (2000 IU) 250%
Vitamin K (as d-Calcium Pantothenate)	275 mcg 229%
(as Vitamin K1 Phytonadione)	
250 mcg; Vitamin K2 Menaquinone-7 25 mcg)	

Other Ingredients: Vegetable glycerine, purified water, tocopherol.

EndoTrim™

END120 | 120 vegetarian capsules

EndoTrim™ is a comprehensive endocrine-balancing formula that focuses on healthy insulin, leptin, and cortisol function to support normal fat metabolism and maintenance of lean body mass. The addition of *Coleus forskohlii*, *Garcinia cambogia*, and epigallocatechin gallate (EGCg) may also help to maintain lean body mass and support basal metabolic rate. This unique array of nutrients and botanicals is also useful for promoting normal appetite and supporting normal blood glucose metabolism.**

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner. (Divided dosing recommended.)

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate, silicon dioxide.

EssentiaGreens™

ESSGRN | 285 g (10 oz)

EssentiaGreens™ is a greens powder densely packed with high oxygen radical absorbance capacity (ORAC) valued vegetables, cleansing alkalizing grass juices, and a proprietary blend of fruits and berries. Besides being phytonutrient-rich, the orange-cranberry flavor tastes wonderful, thanks to the inclusion of inulin, a natural polysaccharide prebiotic fiber, along with a splash of stevia. This adds a subtly sweet flavor to EssentiaGreens™, as inulin does not impact blood sugar levels the same way as many other sweeteners.** Inulin is a soluble fiber that dissolves easily in water, making EssentiaGreens™ simple to mix into any beverage.

Recommended Use: Mix 10 grams (approximately one scoop) in water per day or as directed by your health-care practitioner.

FemGuard + Balance™

FGB120 | 120 vegetarian capsules

FemGuard + Balance™ supports classic herbal hormonal balancing in the form of vitex, polygonum, and black cohosh, along with diindolymethane (DIM) and chrysin for protection and support of beneficial estrogen aromatase activity. Calcium-D-glucarate promotes the proper elimination of excess estrogens. Resveratrol and epigallocatechin gallate (EGCg) from green tea are included for their antioxidant properties. Vitamins B6, B12, and folate promote proper cell differentiation. Magnesium and calcium are also included to help support bone and hormone health.**

Recommended Use: Take 4 capsules per day or as directed by your health-care practitioner.

Warning: Do not use if pregnant or nursing.

Ferrochel®

Ⓛ FEC120 | 120 vegetarian capsules

Ferrochel® iron chelate is a potent iron supplement that is extremely well tolerated by the gastrointestinal system. Ferrochel® is a premier chelate from Albion Advanced Nutrition that has a very high absorption rate. It is safe for use by pregnant and lactating women, teenagers, and adults. Unlike most iron preparations, it will not result in constipation or gastric upset.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6 years of age. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

FloraMyces™

Ⓛ FLM060 | 60 vegetarian capsules

FloraMyces™ is the nonpathogenic yeast, *Saccharomyces boulardii*, which possesses probiotic activity that supports gastrointestinal health and immune function.** This formula contains 500 mg or 10 billion viable cells at the time of manufacture of *S. boulardii* per serving. This strain does not require refrigeration and has the ability to survive passage through the harsh gastric environment, withstanding high acidity, bile, and heat. Benefits of *S. boulardii* may include protection of the digestive mucosa and normal production of secretory immunoglobulin A (IgA). This strain has also been the most studied strain for its potential use in the prevention of antibiotic-associated diarrheas and as a general supplement for optimum gastrointestinal health.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Saccharomyces boulardii	500 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

Foresterol™

Ⓛ FOR090 | 90 softgels

Foresterol™ contains a phytosterol mixture of plant sterols and stanols shown to be effective in supporting healthy cholesterol metabolism in the body.** This mixture is from the non-GMO tall oil of the coniferous pine tree and mainly consists of four major phytosterols: beta-sitosterol, campesterol (in the free sterol form, not as sterol esters), campestanol, and sitostanol.

Recommended Use: Take 1 softgel three times per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Plant sterols/stanols (from coniferous trees)	600 mg *

*Daily Value not established.

Other Ingredients: Bovine gelatin, purified water, glycerine, turmeric (natural color).

GastroMend-HP™

GHM060 | 60 vegetarian capsules
GHM120 | 120 vegetarian capsules

GastroMend-HP™ is a blend of botanical extracts that support a healthy gastric microbial balance and help maintain a healthy gastric mucosa. This formula may be helpful for occasional heartburn, bloating, or upset stomach.**

Recommended Use: Take 4 capsules per day between meals (divided dosing recommended) or as directed by your health-care practitioner.

Glycine Powder

GLY180 | 180 g (6.3 oz)

Glycine Powder contains the amino acid glycine in a pure powder form for flexible dosing and patient convenience. Glycine is a conditionally essential amino acid used for structural protein synthesis, detoxification pathways, neurotransmitter function, brain health, sleep support, and healthy blood sugar metabolism.** It is a primary constituent of collagen, making up over one-third of the total amino acids in this key structural component of blood vessels, skin, bones, cartilage, tendons, ligaments, and other connective tissue. Glycine powder mixes well in water or any other beverage and may be beneficial in supporting normal muscle tissue repair post-workout.**

Recommended Use: Take 3 grams (approximately one scoop) with water or any other beverage per day or as directed by your health-care practitioner.

Supplement Facts

GPC

GPC060 | 60 vegetarian capsules

GPC, or glycerophosphocholine, is a supportive nutrient for the brain, kidneys, muscles, testes, and other organs, and it is a building block for cell membrane phospholipids.**

Without the presence of this nutrient in the brain, individuals could not think, sleep, or remember. Designs for Health's GPC comes in both capsule (each capsule contains 300 mg) and liquid form (containing 600 mg per 2 dropperfuls). The maintenance dosage of GPC is 300 mg to 600 mg per day, with a higher dosage in the range of 600 mg to 1,200 mg per day. The typical oral dose of GPC used in most trials is 1,200 mg per day in divided doses to maintain high blood levels throughout 24 hours.

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Biotin (as d-Biotin)	1000 mcg 3333%		
Zinc (as Zinc Bisglycinate Chelate)	30 mg 273%		
Copper (as TRAACS® Copper Bisglycinate Chelate)	2 mg 222%		

Other Ingredients: Cellulose (capsule), vegetable stearate, silicon dioxide.

H-S-N Complex™

HSN360 | 360 g (12.7 oz)

H-S-N Complex™ powder is formulated to supply the body with specific proteins, vitamins, and other substrates required to help support connective tissue.** Healthy connective tissue depends on the availability of nutrients that contribute to its physical structure, as well as those that serve as cofactors in the biochemical reactions that regulate normal tissue anabolism and catabolism.

Recommended Use: Mix 12 grams (approximately one scoop) in 8 to 10 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 12 grams (approx. one scoop)
Servings Per Container 30

Other Ingredients: Natural lemon flavor, certified organic stevia leaf extract (*Stevia rebaudiana*), tapioca dextrin. Contains shellfish (crab and shrimp).

Hepatatone Plus™

HEP120 | 120 vegetarian capsules

Hepatatone Plus™ is formulated to help support healthy liver function and structure.** This synergistic blend of hepatoprotective nutrients includes the fungus *Cordyceps sinensis* and reishi mushroom, both of which have immune supportive properties, and help to support a balanced inflammatory response. It also contains N-acetyl-cysteine (NAC), which helps protect the body from oxidative stress and upregulates the formation of glutathione, the predominant antioxidant found in the liver.**

Recommended Use: Take 4 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 4 capsules
Servings Per Container 30

Cordyceps (CordycepsPrime™) (<i>Cordyceps sinensis</i>)(mycelium)[standardized to contain 8% cordycepic acid and 0.28% adenosine]	500 mg *	Burdock Extract (<i>Arctium lappa</i>)(root)	250 mg *
Milk Thistle (<i>Silybum marianum</i>)(seed) [standardized to contain 80% silymarin]	500 mg *		

Other Ingredients: Cellulose (capsule), vegetable stearate, silicon dioxide.

Hi-Po Emulsi-A™

HIPOEA | 1 fl oz (30 mL)

Hi-Po Emulsi-A™ is a high-potency formula that delivers concentrated vitamin A in a convenient liquid form. Just one drop of this unique product provides 5,000 IU of vitamin A, as retinol palmitate (1,500 mcg retinol activity equivalents [RAE]), allowing for flexibility in titration and ease of use. Vitamin A plays a critical role in immune function and is well known for promoting eye health, thyroid function, and red blood cell function.**

Recommended Use: Take 1 drop (5,000 IU) per day or as directed by your health-care practitioner.

Warning: Not for use by children. Do not exceed the recommended dose or use long-term without medical supervision. Excess vitamin A may cause reproductive harm or organ damage.

Supplement Facts

Serving Size 1 drop

Servings Per Container 1,100

Amount Per Serving	% Daily Value
Vitamin A (as Palmitate)	1,500 mcg RAE 167%

Other Ingredients: Glycerine, purified water, vitamin E.

Hi-Po Emulsi-D3™

EMD1OZ | 1 fl oz (30 mL)

Hi-Po Emulsi-D3™ is a concentrated, highly bioavailable liquid vitamin D formulation offering a broad range of dosage and titration possibilities. Unlike most other liquid vitamin D products available, Hi-Po Emulsi-D3™ is a convenient, pleasant-tasting and easily mixable formula. A natural emulsion technology allows for the production of 2,000 IU per drop that quickly and completely disperses in liquid. This cutting-edge technology provides enhanced bioavailability, utilizing only naturally derived ingredients that are free of preservatives and synthetic surfactants. Presented in a 1-ounce glass bottle, Hi-Po Emulsi-D3™ makes dosing vitamin D convenient. It can be dropped into any beverage or simply on the tongue, and it provides accurate dosing one drop at a time.

Recommended Use: Take 1 drop per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 drop

Servings Per Container 1,000

Amount Per Serving	% Daily Value
Vitamin D (as Cholecalciferol)	50 mcg (2,000 IU) 250%

Other Ingredients: Vegetable glycerine, water, tocopherol.

HistaEze™

HIS120 | 120 vegetarian capsules

HistaEze™ is a synergistic blend of nutrients that provides natural support to help balance the immune response during environmental challenges.** It features Tinofend®, a patented and clinically researched extract derived from the plant *Tinospora cordifolia*, which has been shown to regulate key immune mediators and support the activity of macrophages. Tinofend® supports the immune response by promoting a balance of phagocytic white blood cells and eosinophils.** HistaEze™ also contains quercetin, nettle leaf, and vitamin C, which have been historically used during allergy season to support immune balance.** Additionally, bicarbonate salts are included for their role in maintaining normal histamine metabolism.**

Recommended Use: Take 4 capsules per day or as directed by your health-care practitioner. (Divided dosing recommended.)

Supplement Facts

Serving Size 4 capsules

Servings Per Container 30

Amount Per Serving	% Daily Value
Vitamin C (as Ascorbic Acid)	500 mg 556%
Sodium (from sodium bicarbonate)	80 mg 3%

Guduchi (as Tinofend®) (<i>Tinospora cordifolia</i>)(stem)	900 mg *
Nettle Extract (<i>Urtica dioica</i>)(leaf)	600 mg *
Quercetin	600 mg *
Bicarbonate Salts (as Potassium Bicarbonate 300 mg and Sodium Bicarbonate 300 mg)	600 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

Homocysteine Supreme™

 HYS060 | 60 vegetarian capsules
 HYS120 | 120 vegetarian capsules

Homocysteine Supreme™ contains synergistic nutrients, including folate in the bioidentical, bioactive form, 5-methyltetrahydrofolate, known to facilitate the efficient metabolism of homocysteine. Homocysteine Supreme™ maintains a healthy homocysteine pathway, allowing for the normal production of its necessary and important end products. These include the sulfur-containing amino acids taurine and cysteine, and the neurotransmitters norepinephrine and dopamine. An optimally functioning homocysteine pathway provides methyl and sulfur groups for biochemical reactions, such as detoxification, healthy immune function, ideal joint and cartilage structure, and brain and cardiovascular health.**

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Other Ingredients: Cellulose (vegetarian capsule), dicalcium phosphate, tricalcium phosphate, vegetable stearate.
Contains fish (tuna, mackerel).

IB Synergy™

 IBS060 | 60 vegetarian capsules

IB Synergy™ offers comprehensive support for intestinal health while targeting the brain-gut connection.** It is designed to target the enteric nervous system, which is the nervous system that controls the gastrointestinal (GI) tract. Considered to be the body's "second brain," it is made up of a self-contained, complex network of neurons, neurotransmitters, and proteins embedded in the lining of the GI system. It is responsible for all aspects of the digestive process, from the esophagus to the stomach and the small and large intestines, and it works to regulate normal digestive activity.

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Immune Support Packets

ISPK30 | 30 packets

These packets contain a comprehensive arsenal of immune-supportive nutrients, helping the body maintain a strong response.** Products that comprise these packets were selected for their abilities to support the body's overall healthy immune response, providing the body with efficacious amounts of vitamin D (balanced with vitamins A, E, and K, the remaining fat-soluble vitamins), vitamin C, zinc, and a wide array of antioxidants.**

Recommended Use: Take 1 packet per day or as directed by your health-care practitioner.

Warnings: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin or other anticoagulant medications. Not recommended for pregnant or lactating women.

Immunitone Plus™

IMP120 | 120 vegetarian capsules

Immunitone Plus™ is an herbal formula designed to support a healthy immune system.** It contains herbs that help support normal natural killer (NK) cell activity and the balance of cytokines, which are the regulatory proteins released by immune cells as part of a normal immune system response.** The standardized herbs in this formula contain optimal and consistent amounts of the most active ingredients.

Immunitone Plus™ is suitable for long-term use and for all age groups.

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner.

Warning: Not recommended for pregnant or lactating women.

Immuno-Zn™ Lozenge

IZL090 | 90 lozenges

Immuno-Zn™ Lozenge is a combination of zinc and elderberry delivered in a fast-melting lozenge with a delicious mixed berry flavor to support overall immune health.** Each lozenge provides 25 mg of zinc (as zinc gluconate combined with zinc citrate) and 100 mg of elderberry fruit (*Sambucus nigra*), and it has zero grams of sugar. The lozenge delivery system is ideal for targeted absorption and may help support the upper gastrointestinal tract (i.e., throat) and upper respiratory tract health.*

Recommended Use: Take 1 lozenge per day and let dissolve slowly in mouth, or take as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 lozenge

Amount Per Serving	% Daily Value
Zinc (as Zinc Gluconate and Zinc Citrate)	25 mg 227%
Elderberry Extract (<i>Sambucus nigra</i>)(fruit)	100 mg *

*Daily Value not established.

Other Ingredients: Xylitol, mannitol, vegetable stearate, natural berry flavor, malic acid, and luo han guo extract (fruit).

ImmunoBerry™ Liquid

IBL4OZ | 4 fl oz (118 mL)

ImmunoBerry™ Liquid provides immune support in a pleasant-tasting liquid.** Research suggests that certain herbs, mushrooms, and other natural compounds may have the ability to support normal immune functions, such as natural killer (NK) cell activity, cytokine synthesis, and the T-cell- and B-cell-mediated responses.** Ingredients, such as elderberry, shiitake, and wild cherry bark, are known for their beneficial effects for maintaining a healthy immune system.** ImmunoBerry™ Liquid is sweetened with glycerine, tastes great, and is ideal for both children and adults.

Recommended Use: Take 1 mL (approximately 35 drops) per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 mL (approx. 35 drops)

Beta 1,3/1,6 Glucan	25 mg *

*Daily Value not established.

Other Ingredients: Vegetable glycerine, deionized water, natural raspberry and berry flavor.

ImmunoMod-A™

IMM120 | 120 vegetarian capsules

ImmunoMod-A™ has been formulated to help balance a healthy inflammatory response, which is necessary to help maintain optimal immune function in the body.** It features ParActin®, an extract of the herb *Andrographis paniculata*, which has been shown to help modulate immune, inflammatory, and oxidative pathways. This product also contains the monosaccharide N-acetyl-D-glucosamine, along with curcumin, a polyphenolic compound extract from the spice turmeric. Both of these compounds help to support a healthy inflammatory response.** Together, the ingredients in ImmunoMod-A™ work to support the proper expression of NF-κβ and its related downstream cytokines to help maintain a healthy, balanced immune response.**

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 4 capsules

Servings Per Container 30

Insomnitrol™ Chewables

INSC60 | 60 chewable tablets

Insomnitrol™ Chewables are great-tasting, lemon-flavored tablets formulated to support quality sleep and to promote the calming of brain activity. The product features melatonin, a multifunctional hormone involved in the circadian (day/night) biological rhythms, and 5-hydroxytryptophan (5-HTP), a precursor to the neurotransmitter serotonin. These tablets also contain vitamin B6, inositol, and L-theanine for additional help in supporting the body's natural ability to fall asleep and stay asleep.**

Recommended Use: Chew 2 tablets per day 30 to 60 minutes before bedtime or as directed by your health-care practitioner.

Iodine Synergy™

IOD120 | 120 vegetarian capsules

Iodine Synergy™ contains potassium iodide for supporting normal thyroid function, including balanced production of thyroid hormones and the health of breast and prostate tissue.** Potassium iodide is a weak salt and easily splits apart in the gut, leaving free iodide ions to join together forming I₂ iodine. The selenium in this product works synergistically with iodine to support the normal conversion of T₄ into T₃ and supplies antioxidant protection to the thyroid gland.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

IonicMag™ 500

IMG500 | 8 fl oz (236 mL)

IonicMag™ 500 contains 500 mg of liquid ionic magnesium harvested from the Great Salt Lake. This concentrated liquid form of magnesium is highly bioavailable and can be easily titrated based on taste and dietary requirements.

Recommended Use: Mix 5 mL (approximately 1 teaspoon) with 16 ounces of water or as directed by your health-care practitioner. Can increase or decrease the amount of water for desired concentrate and taste.

K+2 Potassium

KPC120 | 120 vegetarian capsules

K+2 Potassium is a uniquely formulated potassium product composed of potassium bicarbonate and potassium bound to the amino acid glycine, which gives the product optimum potency, stability, and tolerability. This alkalizing formula provides nutritional support to help maintain healthy blood pressure already within the normal range.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Potassium (as Potassium Bicarbonate, Potassium Glycinate Complex)	300 mg	6%

Other Ingredients: Cellulose (capsule), vegetable stearate.

Keto-Nootropic™

 KET540 | 540 g (1.2 lbs)

Keto-Nootropic™ is a powerful blend of exogenous ketones (in the form of beta-hydroxybutyrate salts) and a patented American ginseng extract, delivered in a delicious and easy-to-dose powdered drink mix. This nootropic formula is intended to support healthy cognitive function, sharp focus, and mental acuity.** It is a fast-acting, readily available, carbohydrate-free fuel source for muscles and the brain, yielding immediate and sustained energy fuel. Keto-Nootropic™ also contains citric acid and malic acid, and Krebs cycle intermediates that may help facilitate mitochondrial energy generation.** This product offers the benefits of elevated ketones without carbohydrate restrictions.

Recommended Use: Mix 18 grams (approximately one scoop) in 10 to 12 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Other Ingredients: Citric acid, malic acid, stevia leaf extract (*Stevia rebaudiana*), natural flavors, silicon dioxide.

Kidney Korrekt™

 KID060 | 60 vegetarian capsules

The ingredients in Kidney Korrekt™ have been shown to support healthy kidney function.** Champignon is an extract of the *Agaricus bisporus* mushroom, also known as the white or button mushroom. It has been shown to help the body maintain a healthy ratio of creatinine in the blood versus the urine. Red ginseng, a specially formulated form of *Panax ginseng*, also supports healthy kidney function and displays kidney-protective properties. Astragalus provides support for healthy glucose metabolism and kidney function.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, dicalcium phosphate, vegetable stearate, silicon dioxide.

KreAlkalyn Pro

 KREP60 | 60 vegetarian capsules

KreAlkalyn Pro contains an impressive 900 mg of buffered creatine monohydrate per capsule. Many of the unpleasant side effects of high-dose creatine supplementation (i.e., nausea, diarrhea, cramps, and bloating) are not from the creatine, but from the waste metabolite creatinine. Since Kre-Alkalyn® is the only creatine with a pH above 12, it will not convert to creatinine in liquids, including the bloodstream. This results in less of the aforementioned side effects and more creatine delivered to the muscle and other tissues. This means better results at much lower doses (no more "loading") when compared with regular creatine powder.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Kre-Alkalyn® (as Buffered Creatine Monohydrate)	1.8 g *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), vegetable stearate.

KTO®-BAR

KTOBAR | 1 case of 12 bars

KTO®-BAR is a convenient, nutritious, functional food bar specifically formulated for ketogenic and low carb diets. Each delicious coconut chocolate flavored bar provides 15 grams of fat and 10 grams of protein with a generous 6 grams of fiber and only 2 net carbs, making it an ideal snack or source of energy on the go for those following keto diets or anyone reducing their sugar intake and looking for a go-to nutritional bar with ingredients they can trust.

Note: Allulose has no impact on blood glucose or insulin levels when consumed in reasonable amounts. The FDA requires allulose to be listed as part of the Total Carbohydrate on food labels, but not as a sugar, and thus allulose does not contribute to the "Net Carbohydrates" when considering its dietary impact. For more information, please visit designsforhealth.com/allulose

KTO®-C8 100

KTOC8L | 16.2 fl oz (480 mL)

KTO®-C8 100 is 100% pure caprylic acid sourced exclusively from coconut oil. Each 1-Tablespoon serving provides 14 grams of caprylic acid convenient for adding to coffee or tea, using in shakes and smoothies, or incorporating into recipes as needed. Caprylic acid is a medium-chain fatty acid with 8 carbon atoms, hence its chemical shorthand, C8. Medium-chain fatty acids have unique properties that distinguish them from other fatty acids by giving them the utility for adding to ketogenic diets and for incorporating them into other dietary approaches.

Recommended Use: Mix 16 mL (approximately 1 Tablespoon) into 8 to 12 ounces of liquid per day or as directed by your health-care practitioner.

KTO®-C8 Chews

KTOC8C | 60 soft chews

KTO®-C8 Chews are a novel delivery system for medium-chain triglycerides that can be enjoyed by ketogenic dieters as well as anyone looking for the boost that these special fats provide while keeping sugar intake low. Each strawberry-watermelon flavored chew provides 500 mg of medium-chain triglycerides (MCTs) as pure caprylic acid (C8). The chews are sweetened with allulose and stevia extract and contain fiber from inulin, giving them just 2 grams of net carbs per chew. They are delicious tasting and appropriate for people of all ages.

Recommended Use: Take 1 chew per day or as directed by your health-care practitioner.

Contains tree nuts (coconut).

Made in a facility that processes peanuts, tree nuts, soy, dairy, eggs, wheat, fish gelatin, and shellfish.

KTO®-Collagen DF

 KTO360 | 600 g (1.32 lbs)

KTO®-Collagen DF is a delicious dairy-free and keto-friendly powder featuring collagen peptides and healthy monounsaturated fatty acids (MUFAs) from macadamia nut powder and medium chain triglycerides (MCTs) from caprylic acid (C8). Each 2-scoop serving of this stevia-sweetened vanilla-flavored powder provides 16 g of fat (7 g from C8 and the remainder from macadamia nut powder), 14 g of collagen peptides, and only 5 g of net carbohydrates.

Recommended Use: Mix 40 g (approximately two scoops) in 8 to 10 ounces of water or as directed by your health-care practitioner.

KTO®-ElectroPure™

 KTOELE | 4.1 fl oz (120 mL)

KTO®-ElectroPure™ is an exciting electrolyte blend designed specifically for health- and performance-oriented ketogenic dieters. Each 3 mL serving provides 75 mg of magnesium and 300 mg of chloride sourced from ionic trace minerals, 150 mg of sodium (from seawater), and 150 mg of potassium (as potassium chloride). Ionic minerals are readily absorbed, which allows for rapid replenishment. This concentrated formula is convenient for adding to water or other beverages and can be used by individuals who may benefit from increased electrolyte intake, even while not following a ketogenic or reduced carb diet.

Recommended Use: Mix 3 mL (approximately ½ teaspoon) with 20 ounces of water for a quick hydration boost, or as directed by your health-care practitioner. Can increase or decrease the amount of water for desired concentration and taste.

L-5-MTHF 850 mcg DFE (500 mcg)

CD MTH500 | 120 vegetarian capsules

L-5-MTHF provides 500 mcg (850 mcg DFE) of natural, biologically active folate. Folate is essential for cell division and growth and for proper homocysteine metabolism.** This formula provides folate in the bioidentical, bioactive form, 5-methyltetrahydrofolate (L-5-MTHF). L-5-MTHF (the "L" signifying that it is the all-natural [6S] isomer) is the active circulating form of folate found in the body and one of the several forms found in food. In nature, it is found only as this [6S] isomer, which is why Designs for Health uses L-5-MTHF (as Quatrefolic®), the natural isomer, rather than the mixed (or racemic) form. This innovative form of folate has demonstrated high bioavailability and solubility as well as long-lasting stability. Quatrefolic® L-5-MTHF is superior to folic acid for helping maintain optimal serum folate.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
L-Arginine	750 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), vegetable stearate.

L-Glutamine

LGL120 | 120 vegetarian capsules

L-Glutamine capsules supply the amino acid L-glutamine, which is essential for the health of the immune system and the digestive tract. In the gut, it promotes the health and function of the mucosal cells for normal healing and repair. L-Glutamine also supports optimal muscle growth and strength, and it has been shown to be particularly useful in helping to maintain muscle tissue, as it can be used as a substrate for protein synthesis and an anabolic precursor for muscle growth.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

L-Glutathione Power™

GLT050 | 50 g (1.8 oz)

L-Glutathione is one of the most powerful antioxidants naturally produced in the body. It protects virtually every tissue. Chronic exposure to toxins may deplete glutathione levels, and therefore many people may benefit from increased intake of this important antioxidant. This formula is suitable for vegetarians and is ideal for those who would like to provide their bodies with additional assistance to help reduce the harmful effects of heavy metals, free radicals, and other toxins. This powdered, reduced glutathione has excellent absorbability. Hold L-Glutathione Power™ in the mouth for several seconds before swallowing to allow for mucosal absorption. Consider adding lime juice to improve palatability.

Recommended Use: Take 1 gram (approximately one scoop) per day in water or as directed by your health-care practitioner.

L-Tyrosine

TYR120 | 120 vegetarian capsules

Tyrosine is a non-essential amino acid synthesized in the body from the amino acid phenylalanine. It is a precursor from which the body makes dopamine, which is then converted to norepinephrine and then to epinephrine. This formula provides 1,200 mg of L-tyrosine, along with vitamin C for its role as a cofactor in neurotransmitter production. Tyrosine is ideally taken on an empty stomach or 2 hours before a protein-containing meal to avoid competition with other amino acids for absorption.

Recommended Use: Take 2 capsules per day on an empty stomach or as directed by your health-care practitioner.

Liposomal B Supreme

LPOBSP | 1.7 fl oz (50 mL)

Liposomal B Supreme provides B vitamins (thiamin, riboflavin, niacin, pantothenic acid, B6, folate, biotin, and B12) formulated with liposomal technology. Liposomes are spheres made of phospholipids — the primary building blocks of cell membranes. Owing to this structure, liposomes bond easily with cell membranes to facilitate intracellular delivery of their nutrient cargo. Thanks to this enhanced delivery system, nutrients delivered in liposomal form offer superior absorption and bioavailability. Each 1 mL serving (approximately 2 pumps) of this citrus-flavored formula provides efficacious amounts of B vitamins with betaine (trimethylglycine) to facilitate methylation, which converts these nutrients into their “activated” forms.

Recommended Use: Take 1 mL (approximately 2 pumps) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Liposomal Cannab-FS™ 400

🔹 LPOCFS | 1.7 fl oz (50 mL)

Liposomal Cannab-FS™ 400 provides 400 mg of full-spectrum phytocannabinoids per bottle, yielding 16 mg of active phytocannabinoids per serving. This product contains natural terpenes, which are aromatic compounds from the hemp plant that work synergistically with phytocannabinoids, complementing their health-promoting properties.** Tocotrienols and phospholipids (from sunflower lecithin) are included to help preserve the phytocannabinoids, and natural citrus oils are included for taste enhancement. Liposomal Cannab-FS™ 400 is formulated by using cutting-edge liposomal technology for optimal absorption and bioavailability, making it an ideal choice for situations in which rapid uptake of phytocannabinoids is desired. Contains <0.3% THC.

Recommended Use: Take 2 mL (approximately 4 pumps) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner prior to use if you are pregnant or breastfeeding.

Hemp-derived phytocannabinoid products are not for sale outside the U.S. or to the states of Hawaii, Idaho, Louisiana, Mississippi, and South Dakota.

Liposomal Cat's Claw Synergy

🔹 LPOCAT | 1.7 fl oz (50 mL)

Liposomal Cat's Claw Synergy provides a unique blend of cat's claw, monolaurin, vitamin D, and other ingredients formulated with liposomal technology. Liposomes are spheres made of phospholipids — the primary building blocks of cell membranes. Owing to this structure, liposomes bond easily with cell membranes to facilitate intracellular delivery of their nutrient cargo. Thanks to this enhanced delivery system, nutrients delivered in liposomal form offer superior absorption and bioavailability.

Each 1 mL serving (approximately 2 pumps) of this formula provides a proprietary blend of ingredients, including cat's claw, monolaurin, lemon balm extract, mint oil, vitamin D, and other compounds to support a healthy immune system.**

Recommended Use: Take 1 mL (approximately 2 pumps) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Warning: If pregnant, consult your health-care practitioner before use.

Serving Size 1 mL (approx. 2 pumps)

Servings Per Container 50

Amount Per Serving	% Daily Value
Vitamin D (as Cholecalciferol)	25 mcg (1000 IU) 125%
Proprietary Blend	350 mg *
Cat's Claw Extract (bark), Phospholipids (from Sunflower Lecithin), Monolaurin (as Glycerol Monolaurate), Lemon Balm Extract (leaf), Lemon Balm Oil (leaf), Natural Mint Oil, Rose Flower Oil	

*Daily Value not established.

Other Ingredients: Glycerine, water, ethanol, medium chain triglycerides, tocopherol, natural mixed tocopherols.

Liposomal D Supreme

🔹 LPODSP | 1.7 fl oz (50 mL)

Liposomal D Supreme provides vitamins D and K formulated with liposomal technology. Vitamin D is needed for a healthy immune system, and vitamins D and K act synergistically to support healthy bones and proper calcium balance in the body.** Liposomes are spheres made of phospholipids — the primary building blocks of cell membranes. Owing to this structure, liposomes bond easily with cell membranes to facilitate intracellular delivery of their nutrient cargo. Thanks to this enhanced delivery system, nutrients delivered in liposomal form offer superior absorption and bioavailability. Each 0.5 mL serving (1 pump) of this citrus-flavored formula provides 2,500 IU of vitamin D3 and 325 mcg of vitamin K (as both K1 and K2).

Recommended Use: Take 0.5 mL (approximately 1 pump) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin, or other anticoagulant medications.

Supplement Facts

Serving Size 0.5 mL (approx. 1 pump)

Servings Per Container 100

Amount Per Serving	% Daily Value
Vitamin D	62.5 mcg (2500 IU) 313%
(as Cholecalciferol)	
Vitamin K	325 mcg 271%
(as Vitamin K1 Phytonadione 200 mcg; Vitamin K2 Menaquinone-4 [MK-4] 100 mcg; Vitamin K2 Menaquinone-7 [MK-7] 25 mcg)	

Other Ingredients: Water, glycerine, ethanol, tocopherol, phospholipids (from sunflower lecithin), natural citrus oils, natural mixed tocopherols.

Liposomal Glutathione

🔹 LPOGLT | 1.7 fl oz (50 mL)

Liposomal Glutathione provides 100 mg of reduced glutathione in each 1 mL serving (approximately 2 pumps). This product is formulated using liposomal technology, which results in superior delivery, absorption, and bioavailability. Liposomal delivery bypasses proteolytic degradation in the gastrointestinal (GI) tract and is uniquely effective for reaching and interacting with target tissues. Thus, this technology helps to overcome the absorption challenges typically faced with oral glutathione supplementation.

Glutathione is one of the most powerful antioxidants produced by the body. It helps protect cells against oxidative stress from dietary and environmental free radicals, and those resulting from normal metabolic processes.** Glutathione protects vulnerable DNA from damage, while also serving as a key factor in proper detoxification.** Liposomal Glutathione is offered in a lemon-peppermint-flavored formulation.

Recommended Use: Take 1 mL (approximately 2 pumps) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 mL (approx. 2 pumps)
Servings Per Container 50

Amount Per Serving	% Daily Value
Glutathione (reduced)	100 mg *

*Daily Value not established.

Other Ingredients: Water, glycerine, phospholipids (from sunflower lecithin), ethanol, tocopherol, natural citrus and mint oils.

Liposomal NeuroCalm™

🔹 LPONEU | 1.7 fl oz (50mL)

Liposomal NeuroCalm™ is a unique blend of gamma-aminobutyric acid (GABA) and L-theanine to support mental calm and a healthy response to stress.** The ingredients are formulated with liposomal technology. Liposomes are spheres made of phospholipids — the primary building blocks of cell membranes. Owing to this structure, liposomes bond easily with cell membranes to facilitate intracellular delivery of their nutrient cargo. Thanks to this enhanced delivery system, nutrients delivered in liposomal form offer superior absorption and bioavailability. Each 2 mL serving (4 pumps) of this formula provides 250 mg of GABA and 100 mg of L-theanine.

Recommended Use: Take 2 mL (approximately 4 pumps) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 mL (approx. 4 pumps)
Servings Per Container 25

Amount Per Serving	% Daily Value
gamma-Aminobutyric acid (GABA)	250 mg *
L-Theanine	100 mg *

*Daily Value not established.

Other Ingredients: Water, glycerine, ethanol, phospholipids (from sunflower lecithin), tocopherol, natural mixed tocopherols.

Liposomal NMN Synergy™

🔹 LPONMN | 1.7 fl oz (50 mL)

Liposomal NMN Synergy™ is a potent formula containing 50 mg of nicotinamide mononucleotide (NMN) and 50 mg of trimethylglycine (TMG) per serving to support healthy aging and cellular function.** NMN is a direct and stable precursor to nicotinamide adenine dinucleotide (NAD+), a widely studied coenzyme present in all living cells and critical for energy production, DNA repair, and cell survival. TMG is a methyl donor that supports the action of NMN. Liposomal NMN Synergy™ is the only NAD+ precursor using liposome delivery for enhanced bioavailability.

Recommended Use: Take 1 mL (approximately 2 pumps) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner. Take on an empty stomach at least 10 minutes before meals. May be stirred into a small amount of water.

Supplement Facts

Serving Size 1 mL (approx. 2 pumps)
Servings Per Container 50

Amount Per Serving	% Daily Value
β-Nicotinamide Mononucleotide (NMN)	50 mg *
Trimethylglycine (as Betaine Anhydrous)	50 mg *

*Daily Value not established.

Other Ingredients: Water, glycerine, ethanol, phospholipids (from sunflower lecithin), tocopherol, natural mixed tocopherols.

Liposomal Vitamin C

LPOVTC | 4 fl oz (120 mL)

Liposomal Vitamin C provides this key foundational nutrient formulated with liposomal technology. Liposomes are spheres made of phospholipids — the primary building blocks of cell membranes. Owing to this structure, liposomes bond easily with cell membranes to facilitate intracellular delivery of their nutrient cargo. Thanks to this enhanced delivery system, nutrients delivered in liposomal form offer superior absorption and bioavailability. Each 5 mL serving (approximately 1 teaspoon) of this lemon-flavored formula provides 1,000 mg of vitamin C, as sodium ascorbate. The 130 mg of sodium per serving helps to further facilitate the absorption of vitamin C.

Recommended Use: Take 5 mL (approximately 1 teaspoon) and hold in mouth for 30 seconds before swallowing or as directed by your health-care practitioner.

Supplement Facts

Serving Size 5 mL (approx. 1 teaspoon)
Servings Per Container 24

Amount Per Serving	% Daily Value	
Vitamin C (as Sodium Ascorbate)	1000 mg	1111%
Sodium (as Sodium Ascorbate)	130 mg	6%

Other Ingredients: Water, glycerine, ethanol, phospholipids (from sunflower lecithin), natural citrus oils (flavoring).

Lipotrienols RYR™

LPT060 | 60 vegetarian capsules

Lipotrienols RYR™ is a powerful combination of natural substances designed to provide nutritional support for cardiac and vascular health.** This formula includes vitamin E isomers as delta- and gamma-tocotrienols, organic red yeast rice extract (*Monascus purpureus*), and lycopene.**

Recommended Use: Take 2 capsules per day in the evening with food or as directed by your health-care practitioner. For best results, do not take within 6 hours of taking a vitamin E supplement containing D-alpha-tocopherol.

This product may contain soy.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value	
Organic Red Yeast Rice (<i>Monascus purpureus</i>)	1.2 g	*
Vitamin E Isomers (as DeltaGold® delta and gamma tocotrienols)	100 mg	*
Lycopene	20 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), silicon dioxide, vegetable stearate.

Lithium Synergy

LSC120 | 120 vegetarian capsules

Lithium orotate is lithium bound to orotic acid, which improves its bioavailability. It is believed that some of the nutritional benefits of lithium come from its ability to support the synthesis and recycling of inositol, a primary component of the phosphoinositol signaling pathway. Research also shows that lithium supports the health and function of the hippocampus.**

The addition of vitamin B12 and trimethylglycine (TMG) to Lithium Synergy helps support healthy methylation pathways, and vitamin B12 is also needed for the synthesis of S-adenosyl-L-methionine (S-AMe).

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Warning: This product should not be used to replace any anti-depressant medication, including prescription forms of lithium, unless used under the direction of a qualified health-care practitioner. Lithium Synergy should not be used by individuals with significant renal or cardiovascular diseases, severe debilitation, dehydration, or sodium depletion, or by individuals who are taking diuretics or angiotensin-converting enzyme (ACE) inhibitors. Consult your doctor before use if you are taking anti-hypertensive drugs, anti-inflammatory drugs, analgesic drugs, or insulin. Lithium should not be used by pregnant women and breastfeeding mothers. Serum lithium levels should be monitored by a qualified health-care provider during use.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Vitamin B-12 (as Methylcobalamin [MecobalActive®])	250 mcg	10417%
Trimethylglycine (TMG)	200 mg	*
Lithium (as Lithium Orotate)	5 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), dicalcium phosphate, vegetable stearate, silicon dioxide.

LV-GB Complex™

LGC090 | 90 capsules

LV-GB Complex™ is a comprehensive formula designed to support bile flow for the normal processing and elimination of toxins through the specific combination of nutrients and herbs in this formula. By supporting liver and gallbladder function, LV-GB Complex™ assists with the elimination of fatty substances from the liver, with the digestion and assimilation of fats and fat-soluble vitamins.**

Recommended Use: Take 3 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 3 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value	Amount Per Serving	% Daily Value
Vitamin A (as Mixed Carotenoids)	1500 mcg RAE 167%	Taurine	100 mg *

Other Ingredients: Microcrystalline cellulose, cellulose (vegetarian capsule), sunflower lecithin, vegetable stearate.

MagCitrade Powder

MGL240 | 240 g (8.5 oz)

MagCitrade Powder provides 300 mg of magnesium in each 1-teaspoon serving, as a convenient delivery system in a great-tasting, lemon-flavored powder. It mixes well in water and is very easy to titrate when higher doses are needed. MagCitrade Powder helps promote bowel relaxation when fiber alone is not enough. This product also supports the ability to fall asleep, and it can be taken along with our Inositol Powder for a restful night's sleep.**

Recommended Use: Take 4 grams (approximately one scoop) per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 4 grams (approx. one scoop)
Servings Per Container 60

Amount Per Serving	% Daily Value
Magnesium (as Magnesium Citrate)	300 mg 71%

Other Ingredients: Natural flavor, tapioca dextrin, certified organic stevia leaf extract powder (*Stevia rebaudiana*), silicon dioxide.

MagneGel™

MGD8OZ | 8 oz (227 g)

MagneGel™, Designs for Health's transdermal magnesium gel, is a pure, 100% natural solution of magnesium chloride. This primary ingredient comes from high-quality magnesium salt derived from the depths of the earth's interior — all from the ancient Zechstein seabed in Europe.

Ultra-pure and untouched by pollutants, this magnesium salt was protected at depths of 5,000 to 6,500 feet in the Zechstein seabed for the past 250 million years.

This transdermal delivery system is highly efficient, allowing for rapid assimilation in the body.

Directions: Massage into the arms and/or legs, as needed, to provide a large area for absorption.
TOPICAL. FOR EXTERNAL USE ONLY.

Ingredients: Water, magnesium chloride, hydroxypropyl starch phosphate.

Magnesium Buffered Chelate

 MGC060 | 60 vegetarian capsules
 MGC120 | 120 vegetarian capsules
 MGC240 | 240 vegetarian capsules

Magnesium Buffered Chelate contains highly absorbable magnesium with each capsule providing 150 mg of elemental magnesium. This product should not cause any of the unfavorable gastrointestinal (GI) symptoms associated with magnesium supplementation due to the very stable chelate formed between two glycine molecules and each magnesium ion via a patented process.

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 60

Amount Per Serving	% Daily Value
Magnesium	300 mg 71%
(as TRAACS® Magnesium Bisglycinate Chelate Buffered - from Magnesium Bisglycinate Chelate and Magnesium Oxide)	

Other Ingredients: Cellulose (capsule), vegetable stearate.

Magnesium Chelate

 MAG120 | 120 tablets

Magnesium bisglycinate chelate is a highly absorbable and bioavailable form of elemental magnesium chelated to two molecules of the amino acid glycine. This product provides 200 mg of magnesium in each 2-tablet serving. It should not cause any of the unfavorable gastrointestinal (GI) symptoms that are sometimes associated with magnesium supplementation due to the very stable chelate formed between two glycine molecules and each magnesium ion via a patented process. Magnesium is an essential mineral that serves as an enzyme cofactor for more than 300 biochemical reactions in the body, including those of glycolysis, the first step in harnessing energy from carbohydrates.

Recommended Use: Take 2 tablets twice per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 tablets
Servings Per Container 60

Amount Per Serving	% Daily Value
Magnesium	200 mg 48%
(as Magnesium Bisglycinate Chelate)	

Other Ingredients: Cellulose, stearates (vegetable source).

Magnesium Chelate Powder

 MCP150 | 150 g (5.3 oz)

Magnesium bisglycinate chelate is one of the best-absorbed forms of magnesium. Each 5 gram (1 teaspoon) serving provides 300 mg of elemental magnesium in a great-tasting, orange flavored product. This product should not cause any of the unfavorable gastrointestinal (GI) symptoms associated with magnesium supplementation due to the very stable chelate formed between two glycine molecules and each magnesium ion via a patented process. This product is sweetened with stevia.

Recommended Use: Take 5 grams (approximately one scoop) of powder mixed in 8 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 5 grams (approx. one scoop)
Servings Per Container 30

Amount Per Serving	% Daily Value
Magnesium	300 mg 71%
(as TRAACS® Magnesium Bisglycinate Chelate)	

*Daily Value not established.

Other Ingredients: Citric acid, partially hydrolyzed guar gum, natural flavor, β-carotene (color), PhytoSweet® blend [Rebadioside M, steviol glycosides (from *Stevia rebaudiana* leaf)].

Magnesium Malate

 MMC120 | 120 vegetarian capsules
 MMC240 | 240 vegetarian capsules

Magnesium Malate is a highly bioavailable form of magnesium. It contains di-magnesium malate, which is magnesium bound to malic acid. Magnesium is one of the most critical minerals in the human body that is involved in hundreds of enzyme reactions. Malic acid is a compound found naturally in apples and other fruits and vegetables, and it is included in this product because of its role in the Krebs cycle, which is the energy-producing system in the body.

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 60

Amount Per Serving	% Daily Value
Magnesium	360 mg 86%
(as Di-Magnesium Malate)	

Other Ingredients: Cellulose (capsule), vegetable stearate.

MCT Colada™

💧 MCT16Z | 16 oz (454 g)

MCT Colada™ contains emulsified medium-chain triglycerides (MCTs) with a great-tasting natural pineapple-coconut flavor. Its emulsification allows for unparalleled absorption, and it will completely disperse when mixed into any liquid. Medium-chain triglycerides are a unique form of fat requiring less energy and fewer enzymes to be digested into its derivatives, medium-chain fatty acids (MCFA), and monoglycerides. MCTs have some very impressive health benefits, which may include support for cognitive health, athletic performance (fuel for intense exercise), and metabolic function.**

Recommended Use: Take 11 grams (approximately 2 teaspoons) per day or as directed by your health-care practitioner. Can be taken alone or mixed in yogurt, juice, or other beverages.

Supplement Facts

Serving Size 11 grams (approx. 2 teaspoons)
Servings Per Container about 41

Amount Per Serving	% Daily Value
Calories	60
Total Fat	6 g 8%*
Saturated Fat	6 g 30%*
Total Carbohydrate	2 g 1%*
Medium Chain Triglycerides (from coconut and/or palm oil)	6 g †

*Percent Daily Values are based on a 2,000 calorie diet.

†Daily Value not established.

Other Ingredients: Water, glycerine, gum arabic, natural flavors, citric acid, xanthan gum, guar gum, d-alpha tocopherol, stevia leaf extract (*Stevia rebaudiana*), potassium sorbate, ascorbyl palmitate.

Melatonin

📦 MEL060 | 60 vegetarian capsules

Melatonin is a hormone secreted by the pineal gland. As a supplement, it is useful for regulating sleep and the body's daily rhythmic cycle, making it ideal for jet lag. Melatonin also acts as an important antioxidant in the body as an effective scavenger of free radicals. Various factors may cause melatonin levels to become low, such as inadequate dietary intake of its precursor tryptophan, low levels of serotonin, normal aging, insufficient exposure to natural light, and certain medications. Melatonin may support a healthy immune and stress response.**

Recommended Use: Adults take 1 capsule per day 20 minutes before bedtime or as directed by your health-care practitioner.

Warning: If pregnant or using prescription drugs, consult your health-care practitioner. Do not take this product if you suffer from an autoimmune disease, depression, diabetes, or any endocrine disorders. Do not use this product while operating a motorized vehicle or heavy machinery.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Melatonin	3 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), L-leucine.

Melatonin SRT™

📦 MELSR6 | 60 scored tablets

Melatonin SRT™ provides 6 mg of the hormone melatonin in a sustained-release tablet. As a supplement, melatonin is useful for regulating sleep and the body's daily rhythmic cycle.**

Various factors may cause melatonin levels to become low, such as inadequate dietary intake of its precursor tryptophan, low levels of serotonin, normal aging, insufficient exposure to natural light, and certain medications. Due to melatonin's relatively short half-life in the body, a sustained-release formula may be more suitable for those who experience difficulty staying asleep throughout the night.

Recommended Use: Adults take 1 tablet per day 20 minutes before bedtime or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 tablet

Amount Per Serving	% Daily Value
Melatonin	6 mg *

*Daily Value not established.

Other Ingredients: Dicalcium phosphate, cellulose gum, stearates (vegetable source), silicon dioxide, ethylcellulose.

Metabolic Synergy™

MS180 | 180 vegetarian capsules
MS360 | 360 vegetarian capsules

Metabolic Synergy™ helps maintain healthy glucose and insulin metabolism while supporting the conversion of carbohydrates to be used for energy by providing nutrients for the tricarboxylic acid cycle (TCA).** The chromium, zinc, selenium, manganese, and molybdenum are provided as true chelates for maximum absorption and bioavailability. This formula also contains optimal levels of R-lipoic acid, taurine, and carnosine to support healthy glucose metabolism.**

Recommended Use: Take 6 capsules with a meal or as directed by your health-care practitioner.

Metal-X-Synergy™

MXS090 | 90 vegetarian capsules

Metal-X-Synergy™ is a natural formula designed to support the body's natural clearance of toxic metals, including aluminum, arsenic, cadmium, lead, and mercury, without many of the common side effects found with the use of harsh synthetic chelating agents. The array of ingredients in Metal-X-Synergy™ work together to decrease the total heavy metal burden through supporting the body's natural detoxification and clearance processes and antioxidant defense.*

Recommended Use: Take 6 capsules per day with meals or as directed by your health-care practitioner. (Divided dosing recommended.) It is recommended that Metal-X-Synergy™ be taken 2 hours before or after any medications or other supplements.

Milk Thistle

MLK090 | 90 vegetarian capsules

Milk Thistle is an herb traditionally used for detoxifying the liver by promoting the flow of bile and helping to protect hepatocytes.** Designs for Health's Milk Thistle is standardized to 80% silymarin. Milk thistle may help protect the liver from the normal and inevitable exposure to toxins.** The inclusion of sunflower lecithin provides improved absorption and additional lipotropic liver support.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), sunflower lecithin, silicon dioxide, vegetable stearate.

Mito-PQQ™

MIT060 | 60 vegetarian capsules

Mito-PQQ™ is designed to help support optimal mitochondrial biogenesis, which is critical for the promotion of healthy aging, optimal energy production, and protection from reactive oxygen species (oxidative stress). Mito-PQQ™ features pyrroloquinoline quinone (PQQ), a water-soluble, vitamin-like compound, and *Rhodiola rosea*, a popular adaptogen. PQQ is an enzyme cofactor possessing antioxidative, neuroprotective, and cardioprotective properties that encourage mitochondrial biogenesis. *Rhodiola rosea* helps support the adrenal glands. Research shows that *Rhodiola rosea* is a powerful herb for enhancing mitochondrial energy production and helps defend against free radicals in the nervous system and the mitochondria.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

Mitochondrial NRG™

MHN120 | 120 vegetarian capsules

Mitochondrial NRG™ is a formulary blend of nutrients, nutraceuticals, botanicals, and Krebs cycle intermediates designed to support efficient mitochondrial metabolism and energy (adenosine triphosphate [ATP]) production for increased vitality.** Mitochondrial NRG™ was designed to support the function of the mitochondria, "the powerhouse of the cell." This formula may be appropriate for anyone wishing to promote overall cellular and tissue vitality and health, including those wanting to increase energy output for athletic performance.**

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner. (Divided dosing recommended.)

Monolaurin-Avail™

MLA120 | 120 vegetarian capsules

Monolaurin-Avail™ is an encapsulated formula of monolaurin (glycerol monolaurate), a form of lauric acid, which is the predominant fatty acid in coconut and palm kernel oils and is also present in human breast milk (as 3.5% to 6.6% of the total calories). This product is designed to offer potent support for immune health without adverse effects on the beneficial intestinal flora. It contains vitamin C for added immune support and sunflower lecithin to enhance the absorption of the monolaurin.**

Recommended Use: Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Mood-Stasis™

MOD030 | 30 vegetarian capsules

Mood-Stasis™ is a unique blend of vitamins and botanicals that work synergistically to support a calm and positive mental outlook.** It is formulated with saffron and scelletium extracts along with methylated forms of vitamin B12 and folate that have been shown to support a normal stress response.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are pregnant, breastfeeding, or taking an anti-depressant or anxiety medication.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Folate (as Quatrefolic® [6S]-5-methyltetrahydrofolate, glucosamine salt)	1360 mcg DFE 340%
Vitamin B-12 (as Methylcobalamin)(MecobalActive®)	2000 mcg 83333%

Saffron Extract (Safr'Inside™) (Crocus sativus)(stigma) [standardized to contain 3% crocins] 30 mg *

Scelletium Extract (Zembrin®) (Scelletium tortuosum)(aerial parts)[standardized to contain a minimum of 0.38% total alkaloids] 25 mg *

Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate, silicon dioxide.

MSM

MSM090 | 90 vegetarian capsules
MSM240 | 240 vegetarian capsules

MSM capsules and powder contain the sulfur-supplying compound methylsulfonylmethane (MSM), which modulates histamine release and a healthy inflammatory response. MSM has the ability to support collagen production, which is the primary constituent of cartilage, skin, and connective tissue.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Amount Per Serving	% Daily Value
Methylsulfonylmethane (MSM)	1 g *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), vegetable stearate.

MycoPure™

 MYPCHC | 630 g (1.4 lbs)

MycoPure™ is a plant-based protein powder (from pea and rice) fermented with shiitake mushrooms. This product also features Immune-Assist™, a blend of medicinal mushrooms that offer robust immune support.** Shiitake fermented protein contains all 9 essential amino acids, has a high branched-chain amino acid (BCAA) composition, and it has a Protein Digestibility Corrected Amino Acid Score (PDCAAS) of 1.00, making it a superior form of plant-based protein that rivals the quality of animal proteins. In addition, the fermentation of plant proteins removes anti-nutrients and optimizes the digestibility and nutritional profile.

Recommended Use: Mix 42 grams (approximately one scoop) in 8 to 12 ounces of water or any other beverage per day, or as directed by your health-care practitioner.

MycoSupreme™

 MYC090 | 90 vegetarian capsules

MycoSupreme™ is a full-spectrum blend of 8 mushroom extracts used to support immune health.** One serving contains 225 mg of each mushroom by utilizing the whole mushroom parts and the extracellular compounds that they naturally produce. MycoSupreme™ possesses a wide range of beneficial actions, including the support of a healthy immune response, a healthy response to stress, cardiovascular health, and detoxification.**

Medicinal mushrooms provide a source of polysaccharides, including beta-glucans. Beta-glucans have been reported to have antioxidant properties and may support blood glucose and lipid metabolism.** The mushrooms in MycoSupreme™ are 100% American grown and DNA-verified to ensure quality and consistency.

Recommended Use: Take 3 capsules per day with a meal or as directed by your health-care practitioner.

MyoSedate™

MY120 | 120 vegetarian capsules

MyoSedate™ is a blend of calming herbs and minerals designed to support healthy muscle relaxation. This product contains valerian root, passionflower, and skullcap, which may promote quality sleep without causing drowsiness or sleep hangover. The addition of calcium and magnesium, as minerals involved in muscle contraction and relaxation responses, provide further comprehensive support for healthy muscle relaxation.**

Recommended Use: Take 3 capsules per day with meals or as directed by your health-care practitioner.

N-Acetyl-Cysteine

NAC120 | 120 vegetarian capsules

N-Acetyl-L-Cysteine (NAC) is an amino acid that is a precursor to glutathione, the body's most powerful antioxidant, which helps promote optimal detoxification. NAC is heavily researched for its role in optimizing lung health, and it is also used to support recovery after workouts. NAC is also beneficial to help protect against normal exposure to heavy metals.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule	
Amount Per Serving	% Daily Value
N-Acetyl-L-Cysteine	900 mg *
*Daily Value not established.	

Other Ingredients: Cellulose (capsule), stearates (vegetable source), microcrystalline cellulose.

Natto-Serrazime™

NTS120 | 120 capsules

Natto-Serrazime™ is a blend of two health-promoting proteolytic enzymes, Nattozimes® and Serrazimes®, derived from the fungi *Aspergillus oryzae* and *Aspergillus melleus*. This formula is designed to support the body's ability to breakdown and remove damaged cellular debris, tissue, and specific protein structures that are produced during the natural inflammatory process in response to trauma or injury.** These proteolytic enzymes may help maintain healthy joints, support healthy circulatory, respiratory, and immune function, and promote a normal inflammatory response.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Nattozimes® (4,516 FU) exo/endo proteases	129 mg *
Serrazimes® (20,000 U) exo/endo proteases	33 mg *

*Daily Value not established.

Other Ingredients: Rice bran, hypromellose, microcrystalline cellulose, water.

NeuroCalm™

NEUCLM | 60 vegetarian capsules

NeuroCalm™ is designed to promote the activity of gamma-aminobutyric acid (GABA) and serotonin, which may help support healthy moods, cravings, and feelings of calm, satiety, and satisfaction.** NeuroCalm™ contains PharmaGABA®, a form of GABA manufactured through a fermentation process, which is considered more effective than chemically produced synthetic forms. Support for the production of calming neurotransmitters is also provided by L-theanine and taurine.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

NeuroMag™

CD NEUMAG | 90 vegetarian capsules

Several studies indicate that synaptic connections in the brain hippocampus — a critical region for learning and memory — decline during the normal process of aging. NeuroMag™, which uses the unique, patented, chelated mineral Magtein®, contains magnesium that is chelated to threonic acid (magnesium L-threonate). It is superior to other forms of magnesium at getting through the blood-brain barrier because it is able to transport magnesium ions across lipid membranes, including those of brain cells. Researchers at MIT concluded that elevating brain magnesium content through supplementation with magnesium L-threonate may be a useful strategy to support cognitive abilities and potentially help mitigate common age-related memory decline.**

Recommended Use: Take 3 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 3 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value	
Magnesium	144 mg	34%
(from 2 g Magtein® Magnesium L-Threonate)		

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

NeuroRenew™

CD NEURNW | 120 vegetarian capsules

NeuroRenew™ is a comprehensive formula designed to support healthy nerve function. It contains lipoic acid and several members of the vitamin B family, including B1 (as benfotiamine), B6, B12, and folate. Acetyl L-carnitine is also included in this formula, as it supports brain health and promotes the production of acetylcholine, an important neurotransmitter that works to regulate communication between nerves and muscles.**

Recommended Use: Take 4 capsules per day or as directed by your health-care practitioner. (Divided dosing recommended.)

Supplement Facts

Serving Size 4 capsules

Niacin CRT™ 500 mg NE

⊖ NCRT60 | 60 tablets

Niacin CRT™ 500 mg NE contains 500 mg of NE niacin (as nicotinic acid) in a unique wax-matrix tablet that utilizes the latest controlled-release technology (CRT). This technology delivers niacin in a continuous, controlled rate over a 6 to 8 hour period throughout the tablet's transit time in the bowel. Flushing sometimes happens with time-release niacin, as there can be fairly large surges of niacin released intermittently. However, flushing is less likely with controlled-release niacin. This product may be beneficial for healthy lipid management.

Recommended Use: Take 1 tablet per day with a meal or as directed by your health-care practitioner.

Warning: If you are pregnant or nursing, consult your health-care practitioner before taking this product.

Supplement Facts

Serving Size 1 tablet

Amount Per Serving	% Daily Value	
Niacin (as Nicotinic Acid)	500 mg NE	3125%

Other Ingredients: Vegetable waxes (rice bran, carnauba), stearates (vegetable source), silica.

Niacin CRT™ 750 mg NE

⊗ NCT750 | 60 tablets

Niacin CRT™ 750 mg NE contains 750 mg of NE niacin (as nicotinic acid) in a unique wax-matrix tablet that utilizes the latest controlled-release technology (CRT). This technology delivers niacin in a continuous, controlled rate over a 6 to 8 hour period throughout the tablet's transit time in the bowel. Flushing sometimes happens with time-release niacin, as there can be fairly large surges of niacin released intermittently. However, flushing is less likely with controlled-release niacin.

This higher serving size of 750 mg NE may be more convenient for those with a greater need for lipid management.

Recommended Use: Take 1 tablet per day with a meal or as directed by your health-care practitioner.

Warning: If you are pregnant or nursing, consult your health-care practitioner before taking this product.

Supplement Facts

Serving Size 1 tablet

Amount Per Serving	% Daily Value	
Niacin (as Nicotinic Acid)	750 mg NE	4688%

Other Ingredients: Vegetable waxes (rice bran, carnauba), stearates (vegetable source), silica.

NOx Synergy™

📦 NOX210 | 210 g (7.4 oz)

NOx Synergy™ is a synergistic formula designed to optimize nitric oxide (NO) levels in the body. The ingredients in this formula work to help promote the synthesis and discourage the degradation of nitric oxide, which is beneficial for cardiovascular function, circulation, and muscular performance.**

Recommended Use: Mix 7 grams (approximately one scoop) in 8 to 10 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

*Daily Value not established.

Other Ingredients: Natural flavor, citric acid, stevia leaf extract (Stevia rebaudiana).

NRF2 Modulator

📦 NRF060 | 60 vegetarian capsules

NRF2 Modulator was formulated to activate the Nrf2 genetic pathway. The Nrf2 pathway is a mechanism of defense against oxidative stress (an imbalance between potentially damaging free radicals and antioxidants). This pathway regulates the production of important molecules that impart antioxidant activity, such as glutathione. It also regulates the production of detoxification enzymes. NRF2 Modulator supports the activation of this pathway to promote redox balance and a healthy inflammatory response.*

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value

*Daily Value not established.

Other Ingredients: Cellulose, quillaja extract, vegetable stearate, silicon dioxide.

OcuForce™

OCF060 | 60 vegetarian capsules

OcuForce™ provides a broad spectrum of nutrients specifically selected to support the function of the eyes.**

This product has mixed carotenoids along with preformed vitamin A sourced from palm tree fruit. This product also includes significant levels of riboflavin and methylcobalamin, which are crucial for healthy homocysteine metabolism. It also has clinically relevant doses of lutein and zeaxanthin esters from plant sources, along with bilberry extract that is standardized to 25% anthocyanidins and taurine is included for its role in supporting retinal health.**

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

OcuForce™ Blue

OCB060 | 60 vegetarian capsules

OcuForce™ Blue provides a targeted blend of macular-supportive nutrients and antioxidants formulated to help promote the natural ability of the eyes to filter blue light and reduce symptoms associated with extended screen-time exposure.**

This formula is a synergistic combination of lutein and zeaxanthin isomers (as Lutemax® 2020), maqui berry extract (as MaquiCare™), ginkgo, bilberry, astaxanthin (as AstaREAL®), and vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols) designed to help protect the eyes from blue light damage.** OcuForce™ Blue is ideal for the teenage years through late adulthood or for anyone with prolonged exposure to blue light from screens who is seeking a preventative approach to help maintain healthy vision.**

Recommended Use: Take two capsules per day with meals or as directed by your health-care practitioner.

Oil of Oregano

ORG060 | 60 softgels
ORG120 | 120 softgels

Oil of Oregano may support the health of the gastrointestinal tract by promoting intestinal cleansing and a healthy balance of gut bacteria.** This product is standardized to contain carvacrol and thymol, the primary bioactive phenolic compounds in oregano. Each softgel provides 36 mg of carvacrol and thymol from an impressive 60% to 75% carvacrol oregano oil. The oil of oregano in this product is emulsified with olive oil as a carrier to avoid irritation to the gastrointestinal mucosal lining.

Recommended Use: Take 1 softgel per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Oregano Oil (<i>Origanum vulgare</i>)(leaf) (36 mg carvacrol and thymol from 60-75% carvacrol oregano oil)	60 mg *

OmegAvail™ Smoothies

OmegAvail™ Smoothies are delicious tasting, potent fish oil products. They are manufactured using a proprietary emulsification technology that significantly reduces the size of fish oil molecules, resulting in enhanced absorption and easy digestion. These novel products are ideal for children and those who prefer not to swallow softgels. They have the taste of a fruit smoothie without any oily taste or texture. OmegAvail™ Smoothies are very convenient to use, as they quickly dissolve for easy mixing in water, juice, or blended beverages. They may also be taken alone.

OmegAvail™ Citrus Sorbet and Key Lime Smoothies provide 910 mg of eicosapentaenoic acid (EPA) and 590 mg of docosahexaenoic acid (DHA) in each 1-tablespoon serving. OmegAvail™ Mango Peach Smoothie provides 660 mg of EPA and 420 mg of DHA in each 1-tablespoon serving. OmegAvail™ Lemon Drop Smoothie provides 1,100 mg of EPA and 720 mg of DHA in each 2-teaspoon serving.

As with all of our OmegAvail™ products, OmegAvail™ Smoothies carry the TruTG™ seal, which means the fish oils are delivered in the form found in nature and are made with superior triglyceride (TG) potency. Our fish oils are molecularly distilled and filtered to ensure purity and to maximize the removal of heavy metals, pesticides, solvents, PCBs, and other contaminants.

Recommended Use (OAS16Z): Take 11 grams (approximately 2 teaspoons) per day or as directed by your health-care practitioner. Can be taken alone or mixed in yogurt, juice, or other beverages.

OmegAvail™ Synergy

○ OVS060 | 60 softgels
○ OVS180 | 180 softgels

OmegAvail™ Synergy has a unique omega 3-6-7-9 formula that contains a blend of omega-3 fats (eicosapentaenoic acid [EPA]/docosahexaenoic acid [DHA]) in the TruTG™ form, the omega-6 gamma-linoleic acid (GLA) from borage oil, the omega-7 fat palmitoleic acid, and omega-9 fat oleic acid from certified-virgin/organic macadamia nut oil.

Recommended Use: Take 2 softgels per day with meals or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before use if you are taking blood thinner medication or if you are planning to have surgery.

Contains fish (Alaska pollock) and tree nuts (macadamia nuts).

OmegAvail™ TG1000

○ OV1000 | 60 softgels

OmegAvail™ TG1000 is a highly potent, non-GMO fish oil containing an impressive 1,000 mg of omega-3 oils per softgel, making it an ideal choice for clinically relevant dosing. Each softgel contains 662 mg of eicosapentaenoic acid (EPA) and 250 mg of docosahexaenoic acid (DHA), along with other omega-3 fatty acids. As with all Designs for Health fish oil products, OmegAvail™ TG1000 contains the triglyceride (TG) form of fish oil for superior absorption and bioavailability.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before use if you are taking blood thinner medication or if you are planning to have surgery.

Organic PurePea™ Plus

OPGVAN | 510 g (1.1 lb)

Organic PurePea™ Plus is an organic protein, nutrient-dense functional food powder. Its protein source is a natural pea protein isolate made from USDA-certified organic, non-GMO, North American grown yellow peas. It is a true vegan protein that has high bioavailability and excellent digestibility, and it offers a high level of functionality, along with nutritional benefits. This product also includes proprietary blends of greens, vegetables, and fruits. We work closely with our certified organic growers to ensure the optimal preservation of enzymes and beneficial phytonutrients in these ingredients. They are harvested at their peak of potency and immediately concentrated and dried by utilizing proprietary cool-temperature processes that preserve their energetic and nutritional integrity. Organic PurePea™ Plus is ideal for individuals who are following a healthy lifestyle, seeking support for sustained energy, mental clarity, and overall well-being.** This is an alternative for people who have allergies to milk and milk products and who must avoid casein or whey proteins, and for those who have lactose intolerance. This product is free of grains, alfalfa, gluten, fructose, and artificial sweeteners, and it is available in a great-tasting vanilla-strawberry flavor.

Recommended Use: Mix 34 grams (approximately 2 scoops) in 10 to 12 ounces of water or any other beverage per day, or as directed by your health-care practitioner.

OsteoForce™ Supreme

OSS180 | 180 vegetarian capsules

OsteoForce™ Supreme features the identical comprehensive array of bone-supportive nutrients found in our standard OsteoForce™, with the addition of vitamin K2 and the Milk Basic Protein (MBP®) and an increased level of vitamin D (50 mcg). MBP® is a multifunctional protein present in trace amounts in human and bovine milk whose main role is to assist the body in its ability to support healthy bone density.** MBP® is derived from the whey portion of milk protein, which is often well-tolerated, even by those with allergies/sensitivities to lactose or casein. Those with whey allergies/sensitivities may want to support their bone health with our standard OsteoForce™.

Recommended Use: Take 6 capsules per day with meals or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin, or other anticoagulant medications.

P-5-P

CD P5P120 | 120 vegetarian capsules

Vitamin B6 is found in three forms: pyridoxine hydrochloride, pyridoxal, and pyridoxamine, all of which must be converted into activated pyridoxal-5-phosphate (P-5-P) by the liver. P-5-P is the form of vitamin B6 the body ultimately uses and is necessary for a wide range of actions, including the production of gamma-aminobutyric acid (GABA), for the conversion of 5-HTP to serotonin, and also for the decarboxylation of levodopa (L-Dopa) to dopamine. Vitamin B6 is also needed for glucose production and amino acid and lipid metabolism.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Vitamin B-6 (as Pyridoxal-5-Phosphate)	50 mg 2941%

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

P.B. Meal™

PBMBCC | 1 case of 12 bars

P.B. Meal™ is a great tasting peanut butter/dark chocolate food bar that features a balanced macronutrient blend of protein, carbohydrates, fats, and fiber for sustained energy and hunger control. It contains a mixture of high biological value proteins from whey isolate and concentrate as well as easy-to-digest rice protein concentrate.

P.B. Meal™ contains a natural blend of fast, medium, and slow-releasing carbohydrates. Its primary sweetener is allulose, and as with all of our bars, it is fructose and sucrose-free.

Note: Allulose has no impact on blood glucose or insulin levels when consumed in reasonable amounts. The FDA requires allulose to be listed as part of the Total Carbohydrate on food labels, but not as a sugar, and thus allulose does not contribute to the "Net Carbohydrates" when considering its dietary impact. For more information, please visit designsforhealth.com/allulose

PaleoBar™

PPCBAR | 1 case of 12 bars

PaleoBar™ is a great-tasting chocolate flavored nutrition bar that features a Paleo profile. It offers 10 grams of protein, 8 grams of fiber, and a healthy fat profile stemming from coconut oil and sunflower seed butter. It yields only 8 grams net carbs; thus it minimally impacts blood sugar levels. The protein blend in PaleoBar™ uniquely combines bone broth protein isolate, hemp protein, and pumpkin seed protein. Together, these three Paleo proteins create a comprehensive and complementary amino acid profile. With a total of 210 calories, Pure PaleoBar™ is a perfect choice for between meal snacks or as a pre- or post-workout nourishment.

PaleoCleanse Plus™ Detox Program

Chocolate Flavor

  PPC14D | 14 day program kit

PaleoCleanse Plus™ is a comprehensive, science-based nutrition program designed to support effective detoxification. The main protein source is HydroBEEF™, a highly concentrated, pure bone broth protein isolate produced through an exclusive proprietary process that allows the protein to be hydrolyzed into more peptides, resulting in easier absorption and assimilation. Everything you need is consolidated into packets to make the program easy to follow and ensure that you do not miss any necessary nutrients.

Each kit contains:

- 28 - Single serving drink mix packets (PaleoCleanse Plus™)
- 28 - Capsule packets (Amino-D-Tox™ and Detox Antiox™)

Recommended Use: Mix 35 grams (one packet) in 10 to 12 ounces of liquid and take 1 capsule packet twice per day or as directed by your health-care practitioner. Use a shaker bottle or blender, and shake or mix well. For best blending results, liquid should be at room temperature.

PaleoFiber®

PAFUNF | 300 g (10.6 oz)

PaleoFiber® is the ultimate fiber product. It is a comprehensive product that contains 12 different types of fiber and none of the allergenic proteins or harsh, irritating components commonly found in other fiber products on the market. This product was designed with the features of the Paleolithic diet in mind, for which human physiology may be best adapted. PaleoFiber® could be a useful tool to help support proper weight management, glucose metabolism, and lipid metabolism.**

Recommended Use: Take 5 grams (approximately one scoop) per day or as directed by your health-care practitioner. Consume extra water when taking PaleoFiber®.

Supplement Facts

Serving Size 5 grams (approx. one scoop)
Servings Per Container 60

Amount Per Serving	% Daily Value
Calories	20
Total Carbohydrate	4 g 1%*
Dietary Fiber	3 g 11%*

*Percent Daily Values are based on a 2,000 calorie diet.

Ingredients: Acacia gum, cellulose, guar gum, cranberry seed powder, carrot fiber, inulin, orange fiber, glucomannan, apple pectin, psyllium husk, flax seed, prune powder.

PaleoFiber® RS

PAFRST | 300 g (10.6 oz)

PaleoFiber® RS contains two forms of resistant starch (RS) type II: organic green banana flour and organic potato starch powder. RS is a type of starch that is resistant to digestion, as enzymes in the gastrointestinal (GI) tract are inactive against it. Once RS reaches the large intestine, it is fermented into short-chain fatty acids, which are used as fuel for both beneficial microbes and enterocytes of the GI tract. PaleoFiber® RS benefits GI health through its ability to support microbial balance and proper intestinal permeability and integrity. Additionally, this formula may help support optimal blood sugar and insulin metabolism, normal appetite, and cardiovascular health.**

Recommended Use: Take 10 grams (approximately one scoop) per day or as directed by your health-care practitioner. Best if mixed into liquid using a blender or shaker bottle. Can also be mixed into food such as yogurt or gluten-free cereal. Due to the nature of resistant starch, consider starting with a smaller dose and titrating up to a full serving, depending on your tolerance.

PaleoGreens®

PaleoGreens® is a great-tasting Designs for Health greens powder made with over 90% organic ingredients. The vegetable, fruit, and berry ingredients are brightly colored and non-oxidized, and the powders are protected from heat, UV light, and moisture from start to finish. These greens have a Paleo profile; they contain no grains, legumes, alfalfa, gluten, fructose, or artificial sweeteners. Unlike other greens products, we never add inexpensive fillers or bulking agents such as fiber, whole grasses, pectin, rice bran, and/or flax, which account for 40% to 60% of the content of most other greens products. We work closely with our certified organic growers to ensure the optimal preservation of enzymes and beneficial phytonutrients in every ingredient. These ingredients are harvested at their peak of potency and are immediately concentrated and dried utilizing proprietary cool-temperature processes that preserve their energetic and nutritional integrity.

Recommended Use: Mix 9 grams (approximately one scoop) in water per day or as directed by your health-care practitioner.

PaleoMeal®

PaleoMeal® is a nutrient-dense meal supplement with complete protein, healthy fats, a very low glycemic impact, and nutrients predominantly in their bioidentical forms. It features HydroBEEF™, a highly concentrated beef protein sourced from animals raised in Sweden without hormones, and fed a diet entirely free of GMO grains, grasses, hay, and/or ensilage. The protein is produced through an exclusive hydrolysis and ultra-filtration process that enables the protein to be hydrolyzed or “split” into a high concentration of functional peptides. Delivering protein in the form of peptides allows for easier absorption and assimilation. PaleoMeal® is the perfect choice to complement any meal that may be lacking in calories and nutrients, or as a quick, convenient, nutrient-dense snack. It is free of sucrose, fructose, and artificial sweeteners, and is sweetened with stevia leaf extract.

Ingredients: Bone broth protein (HydroBEEF™), cellulose, medium chain triglycerides, natural flavors, glucomannan, steviol glycosides (from *Stevia rebaudiana* leaf).

Recommended Use: Mix 32 grams (approximately one scoop) in eight ounces of water or any other beverage per day, or as directed by your health-care practitioner.

PaleoMeal® Plus

PMPC15 | Net Wt. 1.1 lbs (492 g)
PMPC30 | Net Wt. 2.2 lbs (984 g)

PaleoMeal® Plus is a nutrient-dense meal supplement with complete protein, fats, a very low glycemic impact, and nutrients that are predominantly in their bioidentical forms. It also features organic fruit and vegetable juice powders rich in polyphenols to support antioxidant status and promote a healthy inflammatory response.**

PaleoMeal® Plus is available in a delicious caramel flavor and features HydroBEEF™, a highly concentrated beef protein produced through an exclusive hydrolysis and ultra-filtration process that enables the protein to be hydrolyzed or “split” into a high concentration of functional peptides. Delivering protein in the form of peptides allows for faster absorption and assimilation.

Recommended Use: Mix 33 grams (approximately 2 scoops) in 8 ounces of water or any other beverage per day, or as directed by your health-care practitioner.

PaleoReds®

PLR270 | 270 g (9.5 oz)

Physicians and nutritionists recommend a diet rich in brightly colored fruits and vegetables because they contain phytonutrients that act as antioxidants to ward off free radical damage. From polyphenols in apples to natural vitamin C from the Amazonian acerola cherry, PaleoReds® combines more than a dozen fruits and vegetables and their phytonutrients from the red/purple group to help support optimal health. For our PaleoReds® powder, we have chosen the highest quality, phytonutrient-rich ingredients, with 87% certified-organic and all of which meet stringent standards. The grape skin extract is standardized to resveratrol and the pomegranate is standardized to ellagic acid. This great-tasting fruit and berry formula is ideal for patients who need phytonutrients, yet who are sensitive to synthetic vitamin C made from corn.

Recommended Use: Mix 9 grams (approximately one scoop) in water per day or as directed by your health-care practitioner.

PaleoZyme™

CD PZM090 | 90 vegetarian capsules

PaleoZyme™ is a Paleo-friendly, low-allergenic enzyme formulation designed to support healthy digestion.** This product is specifically formulated to aid in the digestion of protein, carbohydrates, and fats. The synergistic actions of pancreatic amylase, protease, and lipase, along with bromelain provide enhanced digestion of proteins, fats, and carbohydrates. Ox bile is included to help support the emulsification of fats. The enteric coating protects the enzymes from being denatured by stomach acid, preserving their activity for the duodenum, where pancreatic enzymes are normally released and activated.** PaleoZyme™ does not contain grains, legumes, or dairy, making it ideal for those with sensitivities to these food groups and for those who prefer to maintain a strict Paleo diet.

Recommended Use: Take 1 capsule three times per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Pancrelipase (providing)	333 mg *
Pancreatic Lipase	8,000 USP Lipase *
Pancreatic Protease	33,333 USP Protease *
Pancreatic Amylase	33,333 USP Amylase *
Desiccated Ox Bile	50 mg *
Bromelain	33 GDU *

*Daily Value not established.

Other Ingredients: Tapioca dextrin, delayed release capsule (hydroxypropyl methylcellulose [HPMC], water, gellan gum), medium chain triglycerides.

Pantothenic Acid

CD PAA120 | 120 vegetarian capsules

Pantothenic acid is water-soluble vitamin B5. After absorption, it is converted to pantothenine. Pantothenic acid is a component of coenzyme A, which is required to generate energy from fats, carbohydrates, and proteins. Coenzyme A (CoA) is also required to synthesize fats, cholesterol, acetylcholine, melatonin, and steroid hormones.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Pantothenic Acid (as d-Calcium Pantothenate)	500 mg 10000%

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, stearates (vegetable source).

PerioBiotic™ Silver

🦷 PBSSPM | 4 oz (113 g)

PerioBiotic™ Silver is a probiotic toothpaste with purified silver and CoQ10. It features Dental-Lac™, a probiotic providing *Lactobacillus paracasei*, which has been shown in studies to help support oral microbial balance. It also contains purified silver, which has been shown to help inhibit the adhesion of the cavity-forming bacteria *Streptococcus mutans*. It also contains CoQ10, which may help support gum health and activity against reactive oxygen species.**

This spearmint-flavored toothpaste is fluoride-free, sodium lauryl sulfate (SLS)-free, and saccharin-free. It is also free of BPAs, parabens, synthetic colors, gluten, and synthetic sweeteners. PerioBiotic™ Silver may help maintain dental and oral health and may support oral microbial balance.**

Directions: Apply PerioBiotic™ Silver toothpaste onto a soft bristle toothbrush. Brush thoroughly after meals for at least 1 minute. Spit out the excess solution, and for maximum benefits do not rinse to allow for longer contact of the ingredients to the teeth and gums.

Ingredients: Glycerin, Water, Hydrated Silica, Calcium Carbonate, Coco-Betaine, Cellulose Gum, Xylitol, Xanthan Gum, Rebaudioside A, Mentha spicata (Spearmint) Leaf Oil, Menthol, Quillaja saponaria Extract, Sodium Bicarbonate, Maltodextrin, Ubiquinone, DentalLac™ (Lactobacillus Paracasei), Vitis vinifera (Grape) Seed Extract, Hydrolyzed Gardenia florida Extract, Purified Silver.

PharmaGABA®

PGAB60 | 60 chewable tablets

PharmaGABA® is naturally sourced, bioidentical gamma-aminobutyric acid (GABA). It is made via a process in which the amino acid glutamic acid (glutamate) is fermented using *Lactobacillus hilgardii*, the beneficial bacteria also used to ferment many foods including the vegetables in kimchi, the famous Korean dish. PharmaGABA® provides 200 mg of GABA per serving (2 tablets). The chewable tablet delivery allows for rapid and efficient absorption and assimilation. GABA is a naturally occurring amino acid in the brain, and it is a major inhibitory neurotransmitter in the central nervous system. GABA serves as a critical calming agent for the body, helping to combat occasional stress and anxiety.**

Recommended Use: Chew 2 tablets per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 tablets
Servings Per Container 30

Plant Enzyme Digestive Formula

CD PEF090 | 90 vegetarian capsules

Plant Enzyme Digestive Formula is a digestive support formula ideal for vegetarians. It may be beneficial for occasional gas, bloating, irregularity, or a feeling of fullness after eating small amounts of food.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before use if you are pregnant, nursing, taking medication, or have a medical condition.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
PhytoENZ™ Proprietary Blend	105 mg *
Amylase, Protease SP, Protease, Diastase, Lactase, Glucoamylase, Alpha-Galactosidase, Beta-Glucanase, Acid Protease, Phytase, Cellulase, Hemicellulase, Invertase, Lipase	

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

PrebioMed™ XOS

CD PRBM60 | 60 vegetarian capsules

PrebioMed™ XOS is a synbiotic blend of 1 gram of xylooligosaccharide (XOS) prebiotics and 10 billion colony-forming units (CFUs) of *Bifidobacteria* probiotics for supporting a healthy microbiome and optimizing gastrointestinal health.** This unique combination helps stimulate the growth of health-promoting bacterial strains with a newly researched prebiotic that offers superior effectiveness in small quantities to minimize common side effects of prebiotics. It also includes five of the most highly researched *Bifidobacteria* strains chosen for their exceptional survivability through the gastrointestinal tract and their ability to attach to the intestinal walls.**

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Xylooligosaccharide (PreticX™)	1 g *
Probiotic Blend	84 mg (10 billion CFU) *
<i>Bifidobacterium lactis</i> (UABla-12™)

<i>Bifidobacterium infantis</i> (UABi-13™)	
<i>Bifidobacterium bifidum</i> (UABb-10™)	
<i>Bifidobacterium longum</i> (UABl-14™)	

*Daily Value not established.

Other Ingredients: Delayed release capsule (hydroxypropyl methylcellulose, gellan gum), vegetable stearate, silica.

Pregnenolone CRT

PCRT60 | 60 tablets

Pregnenolone CRT™ is a precursor to a variety of hormones, including dehydroepiandrosterone (DHEA), progesterone, estrogens, testosterone, cortisol, and aldosterone, which are important for healthy hormone balance.** Additionally, pregnenolone is found in high levels in the brain where it is neuroprotective, with anxiolytic properties that may support healthy cognitive function and memory.**

Pregnenolone CRT™ features controlled-release technology that provides a very slow (10 to 12 hour) continuous release of pregnenolone, helping to eliminate the spikes or surges that may be associated with other delivery systems. Ultimately, this CRT™ technology more closely mimics the way pregnenolone is normally released within the body.

Recommended Use: Take 1 tablet per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 tablet

Amount Per Serving	% Daily Value
Lecithin (from soy)	100 mg *
Pregnenolone	30 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, hydroxypropyl methylcellulose, pectin, sodium carbonate, silicon dioxide, stearates (vegetable source), hydroxypropyl cellulose, calcium silicate.

Prenatal Pro™

PRE120 | 120 vegetarian capsules

Prenatal Pro™ provides optimal supplementation for pregnant women, lactating women, and women wishing to become pregnant. The earlier that supplementation begins, the better, because women need adequate nutrient stores to meet the greater nutrient demands for a growing baby. This prenatal multivitamin provides folate in the bioidentical, bioactive form, 5-methyltetrahydrofolate (L-5MTHF) in place of synthetic folic acid. L-5MTHF is the active circulating form of folate found in the body and one of the several forms found in food.

The minerals contained in Prenatal Pro™ provide superior absorption compared to those found in standard prenatal vitamins.** These minerals are dosed at levels to help achieve optimal results, such as:

- Calcium and magnesium for healthy bone formation**
- Ferrochel® chelated iron in the most bioavailable form on the market, and it is non-constipating**
- Significant levels of chelated zinc may help reduce the risk of preterm babies**
- Iodine helps support healthy brain development**

Recommended Use: Take 4 capsules per day with meals or as directed by your health-care practitioner.

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children who are 6 years of age and younger. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

Prenatal Pro™ Essential Packets

PREPKT | 60 packets

We recommend starting these packets prior to trying to get pregnant to help ensure optimized nutrient levels before conception. Two packets should be consumed daily throughout the entire pregnancy and post-pregnancy (particularly if lactating) to nourish the mother and to deliver needed nutrition to the baby, too.

Each kit contains:

- 2 Prenatal Pro™ capsules
- 1 OsteoForce™ capsule
- 1 OmegaVail™ Ultra softgel

Recommended Use: Take 2 packets per day with a meal or as directed by your health-care practitioner.

Warning: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6 years of age. Keep this product out of the reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

PreTrain NRG™

🥄 PRTNRG | 180 g (6.3 oz)

PreTrain NRG™ powder is a specific pre-workout formula providing beneficial nutrients to help support focus, power, and mental energy in athletes.** There is no question that intense, prolonged training exerts significant stress on the central nervous system; thus, providing nutrients that optimize brain function may be highly beneficial to the performance of an athlete. PreTrain NRG™ features tyrosine, acetyl L-carnitine, and caffeine to help with focus and energy, while creatine is included to support strength.** Adenosine-5'-triphosphate (as Peak ATP®) is an important compound in this formula, which helps to support strength, power, and recovery, and reduce fatigue resulting from exercising and/or weight training.** PreTrain NRG™ powder has a pleasant tasting, natural strawberry flavor and is sweetened with stevia leaf extract.

Recommended Use: Mix 9 grams (approximately one scoop) in 8 ounces of water and consume 30 to 45 minutes before a workout or as directed by your health-care practitioner.

Supplement Facts

Primal Multi™

📦 PLM120 | 120 vegetarian capsules

Primal Multi™ is a first-of-its-kind multivitamin, mineral, and phytonutrient blend specifically formulated to mimic the nutrient intakes found in an optimal evolutionary human diet. The levels of nutrients provided by Primal Multi™ were devised based on the concept of evolutionary adaptation of human physiology corresponding to a whole food, nutrient-dense diet.

The ingredients in Primal Multi™ have been sourced as naturally occurring or bioidentical. In addition to key vitamins and minerals, this formula includes select phytonutrients proven to have beneficial effects for health** (such as lutein, lycopene, resveratrol, wild blueberry, broccoli seed/sprout, citrus bioflavonoids, and more), which were likely consumed in greater quantities in the evolutionary past than they are in the modern diet.

Recommended Use: Take 4 capsules per day or as directed by your health-care practitioner. (Divided dosing recommended.)

Warning: If taking a blood thinner medication, consult a health-care practitioner before use.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, sunflower lecithin, vegetable stearate, silicon dioxide.

ProbioMed™ 50

PBM050 | 30 vegetarian capsules

ProbioMed™ 50 is a highly potent, shelf-stable, dairy-free probiotic formulation containing 50 billion CFU per serving. It consists of 10 of the most highly researched probiotic strains, with each strain and specific CFU count being fully disclosed. These are robust strains that are capable of surviving the harsh journey to the intestines and are able to attach to the intestinal walls, where they can grow and function effectively to support gastrointestinal health.** The survivability of the strains is further assisted by delayed-release technology and unique moisture-resistant, desiccant-lined packaging. This novel packaging removes the need for refrigeration, making ProbioMed™ 50 convenient for travelers and anyone on the go.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

ProbioMed™ 250

PBM250 | 14 stick packs

ProbioMed™ 250 is our most highly potent, shelf-stable, dairy-free probiotic formulation containing 250 billion CFU per serving. It consists of 10 of the most highly researched probiotic strains, with each strain and specific CFU count being fully disclosed. These are robust strains that are capable of surviving the harsh journey to the intestines and are able to attach to the intestinal walls, where they can grow and function effectively to support gastrointestinal health.**

ProbioMed™ 250 is offered in the novel, single-serving stick packs that are lined with moisture-resistant, oxygen-resistant, and light-resistant film to preserve viability. They do not require refrigeration, which makes them convenient for travelers and anyone on the go.

Recommended Use: Mix 1 stick pack (2 grams) into 8 to 10 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 stick pack (2 grams)

Amount Per Serving	% Daily Value
Probiotic Blend	1.3 g (250 billion CFU) *
<i>Bifidobacterium lactis</i> (UABla-12™)	89.2 billion CFU *

<i>Lactobacillus salivarius</i> (UALs-07™)	14.8 billion CFU *
<i>Lactobacillus rhamnosus</i> (GG)	15.0 billion CFU *
<i>Lactobacillus paracasei</i> (UALpc-04™)	15.0 billion CFU *
<i>Bifidobacterium bifidum</i> (UABb-10™)	3.0 billion CFU *
<i>Bifidobacterium longum</i> (UABI-14™)	3.0 billion CFU *

*Daily Value not established.

Other Ingredients: Potato maltodextrin, silica.

ProbioMed™ Infant

PBMINF | 30 g (1.06 oz)

ProbioMed™ Infant is a synergistic probiotic combination delivering 5 billion colony-forming units (CFUs) per serving. It includes seven diverse, well-researched *Lactobacillus* and *Bifidobacterium* probiotic bacteria strains, human milk oligosaccharides, and a digestive enzyme blend modeled after human breast milk constituents. This custom blend is ideal for formula-fed infants, and it is designed to gently promote gastrointestinal microbial balance, immune function, and digestive health.** This product is formulated in unflavored, powder-filled sticks that are easy to mix into liquids.

Recommended Use: Mix 1 stick pack (1 gram) into breast milk, infant formula, milk, or juice per day, or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 stick pack (1 gram)

*Daily Value not established.

Other Ingredients: Fructooligosaccharides, human milk oligosaccharides (2'-fucosyllactose), medium chain triglycerides. **Contains milk.**

ProbioMed™ Kids

PBMKID | 30 chewable tablets

ProbioMed™ Kids is a custom, synergistic probiotic formula offering 10 billion colony-forming units (CFUs) per dose. It includes 11 diverse, well-researched strains, including *Lactobacillus* and *Bifidobacterium* probiotic bacteria strains and the nonpathogenic yeast strain, *Saccharomyces boulardii* (*S. boulardii*). The amounts of each strain are clearly disclosed, and the formulation is designed to promote gastrointestinal microbial diversity in children.** The delicious chewable tablets are a natural mixed-berry flavor (free of artificial sweeteners) and it is sweetened with monk fruit.

Recommended Use: Children ages 4 years of age and older: Chew 1 tablet per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 tablet

Amount Per Serving	% Daily Value
Children's Probiotic Blend	123 mg (10 billion CFU) *
<i>Saccharomyces boulardii</i>	0.5 billion CFU *
<i>Lactobacillus paracasei</i> (Lpc-37)	1.0 billion CFU *

<i>Bifidobacterium longum</i> (Bl-05)	0.5 billion CFU *
<i>Lactobacillus casei</i> (Lc-11)	0.5 billion CFU *
<i>Lactobacillus salivarius</i> (Ls-33)	0.5 billion CFU *
<i>Lactobacillus gasseri</i> (Lg-36)	0.5 billion CFU *

*Daily Value not established.

Other Ingredients: Dextrates, natural mixed berry flavor, stearates (vegetable source), citric acid, silica, monk fruit extract.

Probiommune™

PBIO60 | 60 lozenges

Probiommune™ lozenges support immune health in children.** This great-tasting, orange-flavored formula combines the Immuno-LP20™ strain of *Lactobacillus plantarum* and Wellmune® (beta-glucan from the yeast organism, *Saccharomyces cerevisiae*) to support the body's immune response.** These strains are particularly beneficial for helping support nasopharyngeal health in children and adolescents.**

Recommended Use: For children weighing up to 75 lbs, take 1 lozenge per day; for children weighing more than 75 lbs, take 1 lozenge twice per day, or as recommended by your health-care practitioner. Allow lozenge to dissolve slowly and completely in the mouth and swallow.

Supplement Facts

Serving Size 1 lozenge
Servings Per Container 60

Amount Per Serving	% Daily Value
Baker's Yeast Beta Glucan (Wellmune®) (Proprietary strain of <i>Saccharomyces cerevisiae</i>)	125 mg *
<i>Lactobacillus plantarum</i> L-137 (Immuno-LP20®)	25 mg *

*Daily Value not established.

Other Ingredients: Xylitol, mannitol, natural flavor and color, vegetable stearate, malic acid, luo-han-guo (fruit extract).

Probiophage DF™

PBDF60 | 60 vegetarian capsules
 PBDF20 | 120 vegetarian capsules

Probiophage DF™ is a specialized bacteriophage formulation combining four types of phages (as the proprietary bacteriophage blend PrePhage™) along with seven strains of probiotics. This product is designed to support the proliferation of beneficial bacteria throughout the small and large intestines to promote healthy gastrointestinal and immune functions.** This dairy-free formulation is featured in a delayed-release capsule to increase intact delivery to the small intestine by protecting these organisms from stomach acid.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Proprietary Probiotic Blend 295 mg (5 billion CFU)	*
(Lactobacillus acidophilus, Bifidobacterium bifidum, Bifidobacterium longum, Lactobacillus rhamnosus, Bifidobacterium breve, Lactobacillus casei, Streptococcus thermophilus)

Other Ingredients: Delayed release capsule (hydroxypropyl methylcellulose [HPMC], water, gellan gum), medium chain triglycerides.

ProbioSpore™

PBS060 | 60 vegetarian capsules

ProbioSpore™ is an industry-leading broad-spectrum, targeted, spore-based probiotic used to optimize gastrointestinal (GI) health.** Spore-based strains such as *Bacillus* are vital to the food chain, as they have the intrinsic ability to produce a multitude of enzymes, secretory proteins, antimicrobial compounds, vitamins, and carotenoids.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, capsule (hypromellose, water), medium chain triglycerides, silicon dioxide.

Probiotic Supreme DF™

PROS60 | 60 caplets

Probiotic Supreme DF™ is a higher dose, dairy-free alternative to our Probiotic Synergy™, delivering 15 billion organisms per dose in a caplet form, and using the same advanced patented delivery system to ensure the highest number of live organisms to the intestinal tract. As probiotics are meant to be released over an extended time frame of 10 to 12 hours, effective dosing is delivered only once per day. This also ensures delivery throughout the entire intestinal tract.

Recommended Use: Take 1 caplet per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 caplet

Amount Per Serving	% Daily Value
Proprietary Probiotic Blend 300 mg (15 billion CFU)	*
(B. lactis BI-04, L. acidophilus La-14, L. casei Lc-11, L. rhamnosus Lr-32, L. salivarius Ls-33, B. breve Bb-03, B. longum BI-05, S. thermophilus St-21)	

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, hydroxypropyl methylcellulose, pectin, vegetable stearate, silicon dioxide, sodium carbonate, guar gum, turmeric (color).

Probiotic Synergy™

PRO060 | 60 spheres

Probiotic Synergy™ is designed to offer support for proper flora in the gastrointestinal tract.* It uses patented delivery and shelf stability technology to ensure maximum potency and viability. This is achieved using the latest techniques designed to protect fragile probiotic organisms from harsh stomach acid and deliver the highest number of live organisms to the intestinal tract.*

Recommended Use: Take 1 sphere per day with a meal or as directed by your health-care practitioner.

Probiotic Synergy™ powder

PRO120 | 120 g (4.2 oz)

Probiotic Synergy™ in powdered form contains 5 stable and viable strains — carefully selected to be acid tolerant and to provide excellent adherence to the gut wall.

This product provides 20 billion live organisms in each 2-gram serving. This product contains inulin, a prebiotic fiber that benefits gastrointestinal health through its ability to balance gut microbiota.**

Inulin has a subtly sweet flavor, adding to the already palatable taste of this powder, and because inulin is a soluble fiber, it dissolves easily, making it even simpler to mix Probiotic Synergy™ powder into water, juice, or other liquids.

Recommended Use: Take 2 grams (approximately ½ teaspoon) per day or as directed by your health-care practitioner.

Progest-Avail™

PAV30M | 1 fl oz (30 mL)

Progest-Avail™ is a topical progesterone serum providing 20 mg of bio-identical progesterone in each 1 mL serving. It consists of a super-micronized form of progesterone in a proprietary triglyceride carrier that facilitates better absorption than conventional creams. This serum also contains a sugar-based complex (dimethyl isosorbide) that increases progesterone solubility, facilitates proper penetration through the skin at an efficient rate, and helps preserve the potency of the progesterone. Progest-Avail™ does not contain parabens, mineral oil, and petroleum.

Directions: Apply 1 mL (20 mg USP progesterone) 1 to 2 times per day to smooth skin areas, such as the wrists, inner arms, thighs, throat, neck, abdomen, or chest, or as directed by your health-care practitioner.

TOPICAL FOR EXTERNAL USE ONLY

Ingredients: Caprylic/capric triglyceride (from coconut), dimethyl isosorbide, USP bio-identical progesterone (ultra-micronized), and vitamin E.

Prostate Supreme™

PRS060 | 60 capsules
PRS120 | 120 capsules

Prostate Supreme™ provides comprehensive support for optimum prostate health and function.** This formulation supports a healthy balance of hormones involved in prostate health and provides targeted nutritional support and compounds with antioxidant properties. Prostate Supreme™ is appropriate for men 45 years of age and older to help maintain healthy prostate function.**

Note: If a patient's dihydrotestosterone (DHT) levels are normal, low, or unknown, consider Prostect™ as an alternative product, as it does not include saw palmetto, which will not reduce DHT.

Recommended Use: Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Supplement Facts

*Daily Value not established.

Other Ingredients: Gelatin (capsule), dicalcium phosphate, silicon dioxide, vegetable stearate.

Prostect™

PRST60 | 60 vegetarian capsules

Prostect™ is uniquely formulated to support a healthy prostate and urinary function in men.** It is composed of three ingredients with synergistic and complementary actions with a standardized cranberry extract, a proprietary pollen extract, and a standardized pomegranate concentrate. Unlike classic saw palmetto-based formulas, Prostect™ is not intended to affect the body's levels of dihydrotestosterone (DHT), which is the active form of testosterone.

Recommended Use: Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Supplement Facts

ProtectZyme™

PTZ060 | 60 vegetarian capsules

ProtectZyme™ is a unique combination of digestive support compounds designed to minimize the adverse effects from occasional consumption of gluten, dairy, soy, and egg proteins in individuals who have sensitivities to these foods, in addition to curbing the detrimental effects of consuming excessive amounts of starchy foods and sucrose. However, it will not affect the absorption of glucose or fructose. This product is not intended for those who have celiac disease or food allergies. This product is intended for individuals with milder sensitivities and intolerances who experience unpleasant symptoms after indulging in gluten, dairy, soy, and egg proteins, or excessive amounts of starchy foods and sucrose.

Recommended Use: Take 2 capsules per day before a meal or as directed by your health-care practitioner.

Supplement Facts

PurePaleo™

PurePaleo™ is a novel, great-tasting, dairy-free protein powder, yielding 21 to 26 grams of protein per serving (depending on the flavor). It contains HydroBEEF™, a highly concentrated, pure beef protein, produced through an exclusive proprietary process that allows the protein to be hydrolyzed into more peptides, resulting in easier absorption and assimilation. This product contains beef from animals raised in Sweden without hormones or antibiotics, and it is non-GMO and free of grains, grasses, and/or ensilage. PurePaleo™ is an ideal protein for those who are dairy sensitive, want a Paleo protein source, and want the power of beef to build muscle, cartilage, and ligaments.**

Recommended Use: Mix 27 grams (approximately one scoop) in 8 ounces of water or any other beverage per day, or as directed by your health-care practitioner. Use a blender or shaker bottle, and shake or mix well. For best blending results, the liquid should be at room temperature.

Q-Evail® 200

QEN200 | 60 softgels

Q-Evail® 200 offers 200 mg of highly bioavailable ubiquinone coenzyme Q10 (CoQ10) in easy-to-swallow softgels. It is manufactured via a proprietary emulsification process that uses all natural ingredients, including DeltaGold® tocotrienols, medium-chain triglycerides (MCT), and lecithin, and it is free of polysorbates, castor oil, and polyoxyethylated chemicals.

Recommended Use: Take 1 softgel per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Coenzyme Q10 (Ubiquinone)	200 mg *

*Daily Value not established.

Other Ingredients: Medium chain triglycerides, softgel ingredients (bovine gelatin, glycerine, purified water, annatto [color]), quillaja extract, DeltaGold® tocotrienols.

Quercetin + Nettles

QUN090 | 90 vegetarian capsules

Quercetin + Nettles is a blend of 600 mg of quercetin and 600 mg of nettles, two plant extracts that have been shown to support the immune system and the body's natural inflammatory response upon exposure to environmental challenges.** Quercetin is a flavonoid found in many foods, such as red onions, apples, cruciferous vegetables, and leafy greens that works to promote a healthy inflammatory response.** Nettles have a high vitamin C content underlying its immune-supportive and antioxidant properties that may also benefit a normal inflammatory response.**

Recommended Use: Take 3 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 3 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Quercetin	600 mg *
Nettle Extract (<i>Urtica dioica</i>)(leaf)	600 mg *

*Daily Value not established.

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), silicon dioxide, vegetable stearate.

Quercetin Ascorbate

QUA100 | 100 g (3.5 oz)

Quercetin-Ascorbate powder is a powerful flavonoid and antioxidant blend. Quercetin is one of several flavonoids that have effects on mast cells and basophils. Vitamin C helps promote normal histamine and healthy inflammatory responses.**

Recommended Use: Take 1 gram (approximately one scoop) per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 gram (approx. one scoop)
Servings Per Container 100

Amount Per Serving	% Daily Value
Vitamin C (as Ascorbic Acid)	500 mg 556%
Quercetin	500 mg *

*Daily Value not established.

Other Ingredients: Silicon dioxide.

Red Yeast Rice

RD RYO180 | 180 vegetarian capsules

Red Yeast Rice is our yeast (*Monascus purpureus*) product containing several compounds collectively known as monacolins, which are substances shown by clinical studies to support healthy blood lipids already in the normal range.** The red yeast rice in this product is USDA-certified organic, and it is grown in the U.S. Designs for Health takes great care to assay our red yeast rice to ensure undetectable levels of citrinin and appropriate levels of naturally occurring monacolin compounds, especially monacolin K. Red Yeast Rice may support the health of the arterial lining.**

Recommended Use: Take 2 capsules per day in the evening, preferably right before bed, or as directed by your health-care practitioner. This product may contain soy.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 90

Amount Per Serving	% Daily Value
Organic Red Yeast Rice (<i>Monascus purpureus</i>)	1.2 g *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), L-leucine.

Resveratrol Supreme

RD RVS060 | 60 vegetarian capsules

Resveratrol Supreme contains the powerful polyphenol resveratrol, which is found in peanuts, berries, red grape skins, red wine, and the Japanese knotweed plant, also known as polygonum. Research has shown that resveratrol has very potent antioxidant properties, which among other things acts as a sirtuin activator — meaning it activates the SirT1 gene that is believed to provide healthy aging effects.** The polygonum source used in this product is standardized to 50% resveratrol, all in the trans-resveratrol form.

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Trans Resveratrol (from Japanese Knotweed)(<i>Polygonum cuspidatum</i>)(root)	200 mg *
Quercetin	200 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), sunflower lecithin, microcrystalline cellulose, vegetable stearate, silicon dioxide.

Ribo-CarniClear™

RD RCL8OZ | 8 fl oz (237 mL)

Ribo-CarniClear™ liquid is a tasty way to get high doses of ribose and carnitine, two very important nutrients known for heart health, energy enhancement, and muscle recovery.** Both of these nutrients promote cellular energy production. Carnitine specifically promotes energy levels by helping fat to be burned for energy.**

Recommended Use: Take 5 mL (approximately 1 teaspoon) per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 5 mL (approx. 1 teaspoon)
Servings Per Container 47

Amount Per Serving	% Daily Value
Pantothenic Acid (as d-Calcium Pantothenate)	100 mg 2000%
L-Carnitine	2 g *
D-Ribose	2 g *

*Daily Value not established.

Other Ingredients: Purified water, vegetable glycerine, natural orange flavor, organic stevia leaf extract powder (*Stevia rebaudiana*).

RYR Synergy™

RD RYR120 | 120 vegetarian capsules

RYR Synergy™ provides support for maintaining healthy lipids that are already in the normal range.** It features the same USDA-certified organic red yeast rice as found in our organic Red Yeast Rice product with added coenzyme Q10 (CoQ10).

Recommended Use: Take 2 capsules per day in the evening, preferably right before bed, or as directed by your health-care practitioner.

This product may contain soy.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 60

Amount Per Serving	% Daily Value
Organic Red Yeast Rice (<i>Monascus purpureus</i>)	1.2 g *
Coenzyme Q10	40 mg *

*Daily Value not established.

Ingredients: Cellulose (capsule), β-cyclodextrin, microcrystalline cellulose, vegetable stearate.

S-Acetyl Glutathione Synergy

CD SAG060 | 60 vegetarian capsules

S-Acetyl Glutathione Synergy (S-A-GSH) is a unique form of glutathione, one of the most powerful antioxidants naturally produced in the body. It has an acetyl group (COCH₃) attached to the sulfur atom of cysteine in the glutathione molecule. S-A-GSH is well-suited for oral ingestion because this acetyl group protects glutathione from breaking down in the gastrointestinal tract. Once absorbed and inside the cells, it is removed, leaving the glutathione molecule intact. S-A-GSH helps to support immune function and to optimize glutathione-dependent hepatic detoxification pathways.** It is the perfect choice when higher doses of glutathione are recommended. This product also includes N-acetyl-L-cysteine (NAC) and vitamin B6, both of which are important for the production of glutathione.

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules

Servings Per Container 30

Amount Per Serving	% Daily Value	
Vitamin B-6 (as Pyridoxal-5-Phosphate)	10 mg	588%
N-Acetyl-L-Cysteine (NAC)	1 g	*
S-Acetyl Glutathione	200 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate, silicon dioxide.

SAMe

CD SAM030 | 30 vegetarian capsules
SAM090 | 90 vegetarian capsules

SAMe (as S-adenosyl-L-methionine) is a naturally occurring metabolite found in the human body and in plant and animal foods. It is the most active of all methyl donors and has been compared to adenosine triphosphate (ATP) in its importance for the body. SAMe is naturally synthesized in humans from the amino acid methionine in the presence of the cofactors vitamin B12 and folate. SAMe is involved in the synthesis of neurotransmitters, the hormone melatonin, phospholipids, and polyamines, which control cellular growth. It is also the source of methyl groups inside the nucleus for DNA methylation, which controls gene expression and the masking of genetic damage.**

Recommended Use: Take 1 capsule per day, preferably on an empty stomach, or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Vitamin B-6 (as Pyridoxal-5-Phosphate)	5 mg	294%
Folate (as Quatrefolic® [6S]-5-Methyltetrahydrofolate, glucosamine salt 200 mcg)	170 mcg DFE	43%
Vitamin B-12 (as Methylcobalamin)	50 mcg	2083%
SAMe (as S-Adenosyl-L-Methionine from SAMe Powder - S-Adenosyl-L-Methionine P-Tolensulfate, Calcium Chloride and Calcium Oxide)	200 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

Senolytic Synergy

CD SNS060 | 60 vegetarian capsules

Senolytic Synergy is uniquely formulated to enhance overall cellular health and support healthy aging.** This formula contains a synergistic blend of well-researched ingredients that help attenuate cellular aging by selectively supporting the clearance of senescent cells and promoting a healthy inflammatory response.** Each 2-capsule serving provides 200 mg each of curcuminoid powder (as Curcumin C3 Complex®), quercetin, and red grape powder (as Vinia®), along with 100 mg each of fisetin and Senactiv®.

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules

Servings Per Container 30

Amount Per Serving	% Daily Value	
Curcuminoid Powder (as Curcumin C3 Complex®) (<i>Curcuma longa</i>)(rhizomes) (containing three curcuminoids: Curcumin, bisdemethoxycurcumin, demethoxycurcumin) [standardized to contain 95% curcuminoids]	200 mg	*
Quercetin	200 mg	*
Red Grape Powder (Vinia®)(<i>Vitis vinifera</i>)(cells)	200 mg	*
Fisetin (<i>Cotinus coccinea</i>)(branch)	100 mg	*
Senactiv® Proprietary Blend [standardized extract from Ginseng (<i>Panax notoginseng</i>)(root) and Dog Rose (<i>Rosa canina</i> L.)(fresh fruit)]	100 mg	*

*Daily Value not established.

Other Ingredients: Partially hydrolyzed guar gum, ascorbyl palmitate, Quillaja extract, silicon dioxide, vegetable stearate.

Sensitol™

SEN120 | 120 vegetarian capsules

Sensitol™ is a unique formulation comprised of two naturally occurring isomers of inositol — myo-inositol (MI) and D-chiro-inositol (DCI) isomers — along with alpha-lipoic acid designed to support normal insulin function and cellular metabolism.** Inositol occurs naturally as nine isomers in a variety of vegetable and animal foods and in the human body. The MI and DCI isomers have been recognized as most predominant and have important functions in human physiology, such as mediating normal cell signaling from insulin and from sex and thyroid hormones.**

Recommended Use: Take 2 capsules two times per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 60

Amount Per Serving	% Daily Value
Inositol (as myo and D-chiro)	1.6 g *
Alpha Lipoic Acid	100 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate, silicon dioxide.

Silvercillin™ Liquid

SVL16Z | 16 fl oz (473 mL)

Silvercillin™ Liquid is an effective preparation of pure silver complexed with purified water, which exhibits antimicrobial properties.** Silvercillin™ uses Silver Sol Technology®, the term “sol” is the designation of a mineral permanently distributed into the structure of water. The silver permanently becomes a part of that water molecule, so that it will not fall out of the solution or suspension.

Silvercillin™ contains 15 ppm of purified silver per serving. This is an incredibly powerful, non-toxic form of silver, which will not build up in the body, so it does not cause argyria (also known as “blue man syndrome”).

Recommended Use: Take 5 mL (approximately 1 teaspoon) orally per day or as directed by your health-care practitioner.

NOT FOR TOPICAL USE. INTENDED FOR ORAL INGESTION ONLY.

Supplement Facts

Serving Size 5 mL (approx. 1 teaspoon)
Servings Per Container about 95

Amount Per Serving	% Daily Value
Purified Silver	75 mcg *

*Daily Value not established.

Other Ingredients: Purified water.

Silvercillin™ Spray

SVS4OZ | 4 fl oz (118 mL)

Silvercillin™ Spray is a highly effective preparation composed of pure silver complexed with purified water. Silvercillin™ uses Silver Sol Technology®, the term “sol” being a designation of a mineral permanently distributed into the structure of water. The silver permanently becomes a part of that water molecule, so that it will not fall out of the solution or suspension.

Silvercillin™ contains 15 ppm of purified silver per serving. This is an incredibly powerful, non-toxic form of silver, which will not build up in the body, so it does not cause argyria (also known as “blue man syndrome”).

Recommended Use: Take 5 mL (approximately 6 sprays) per day or as directed by your health-care practitioner.

NOT FOR TOPICAL USE. INTENDED FOR ORAL INGESTION ONLY.

Supplement Facts

Serving Size 5 mL (approx. 6 sprays)
Servings Per Container about 24

Amount Per Serving	% Daily Value
Purified Silver	75 mcg *

*Daily Value not established.

Other Ingredients: Purified water.

SPM Supreme™

SPM060 | 60 softgels

SPM Supreme™ is a combination of three highly potent “specialized pro-resolving mediators” designed to help support the body’s natural ability to respond to physical challenges and “resolve” the initial steps in the natural inflammatory process.** The “resolution” of a healthy inflammatory response is an active process controlled by these unique metabolites.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value	
Calories	5	
Total Fat	0.5 g	1%*
Active Fractionated Marine Lipid Concentrate	300 mg	†
[standardized to 150 mcg Total Pro-Resolving Mediators (PRMs) - 18-hydroxyeicosapentaenoic acid (18-HEPE), 17-hydroxydocosahexaenoic acid (17-HDHA) and 14-hydroxydocosahexaenoic acid (14-HDHA)]		

*Percent Daily Values are based on a 2,000 calorie diet.
†Daily Value not established.

Other Ingredients: Olive oil, bovine gelatin, glycerine, purified water, natural lemon flavor, DeltaGold® tocotrienols.
Contains fish (anchovy, squid, sardine, mackerel, and herring).

Stabilized R-Lipoic Acid Supreme

RLA060 | 60 vegetarian capsules

Stabilized R-Lipoic Acid Supreme, which many may know simply as lipoic acid, provides a stabilized and isolated R-lipoic acid (RLA) isomer, thanks to technological advancements. Since S-lipoic acid (SLA) isomers can interfere with the efficacy of RLA isomers, supplementing with pure RLA provides a significant advantage for intensive lipoic acid supplementation. Once separated from SLA, RLA is extremely unstable. Binding RLA to potassium, as found in this unique product, solves this problem. Unlike other R-lipoic products, stabilized R-Lipoic Acid Supreme is a non-hydroscopic, non-polymeric potassium salt form of RLA.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Biotin	4000 mcg	1333%
Taurine	500 mg	*
R-Lipoic Acid	100 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), potassium bicarbonate, vegetable stearate, silicon dioxide.

Stellar C™

STC090 | 90 vegetarian capsules

Stellar C™ is rich in vitamin C (from a mixture of ascorbic acid and acerola fruit) and plant bioflavonoids (hesperidin, rutin, quercetin, and mixed citrus bioflavonoids) known for their immunoprotective properties.** In addition to supporting healthy immune function, these nutrients have historically been used for applications such as maintaining healthy veins, capillaries, skin, hair, and nails by supporting normal collagen production and repair.**

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Vitamin C (as Ascorbic Acid and Acerola)	600 mg	667%
Acerola (<i>Malpighia glabra</i> L.) (fruit)	200 mg	*
[standardized to contain 25% vitamin C]		
Citrus Bioflavonoids	100 mg	*
[standardized to contain 50% hesperidin]		
Rutin	50 mg	*
Quercetin	50 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), vegetable stearate.

StressArrest™

STA090 | 90 vegetarian capsules

StressArrest™ is a uniquely formulated product that provides gamma-aminobutyric acid (GABA), a key neurotransmitter in the body involved in a normal, calm stress response. In addition, it supplies other calming nutrients including glycine, niacinamide, pantothenic acid, and vitamin B6.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Not recommended for use with alcohol. Not recommended for pregnant women. Consult with a health-care practitioner before use if you are taking prescription medication for anxiety or depression.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Niacin (Vitamin B-3) (as Niacinamide)	100 mg NE	625%
Vitamin B-6 (as Pyridoxine HCl)	10 mg	588%
Pantothenic Acid (as d-Calcium Pantothenate)	100 mg	2000%
GABA (gamma-Aminobutyric acid)	300 mg	*
Glycine	200 mg	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate.

Super Liquid Folate

SLF10Z | 1 fl oz (30 mL)

Super Liquid Folate contains 400 mcg of folate (as calcium folinate), along with 40 mcg of vitamin B12 (methylcobalamin and hydroxycobalamin) per 1-drop serving. Research suggests that folate is an important nutrient for maintaining healthy homocysteine levels.** Vitamin B12 is present in cases of unknown B12 deficiency since folate supplementation can mask B12 deficiency and exacerbate symptoms. The liquid form is easy to use, allowing for easy titration and rapid absorption.

Recommended Use: Take 1 drop per day or as directed by your health-care practitioner.

Warning: Pregnant and nursing women should take as prescribed by their physician.

Supplement Facts

Serving Size 1 drop

Servings Per Container about 660

Amount Per Serving	% Daily Value	
Folate (as Calcium Folate)	680 mcg DFE	170%
Vitamin B-12 (as Methylcobalamin)	40 mcg	1667%

Other Ingredients: Vegetable glycerine, deionized water.

Taurine

TAU120 | 120 vegetarian capsules

Taurine capsules deliver effective doses of this sulfur-containing amino acid found mainly in meat and seafood. Vegetarians and non-meat/fish eaters, therefore, may not be meeting their requirements for taurine. Scientists are unsure whether humans make enough taurine, and elevated levels of homocysteine often suggest the body may be having difficulty making this compound. Taurine is also needed to make bile and taurocholic acid.

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Taurine	1 g	*

*Daily Value not established.

Other Ingredients: Cellulose (capsule), vegetable stearate.

TegriceL® Colostrum

CD TEG060 | 60 capsules

TegriceL® Colostrum uses the latest technology to produce potent colostrum that supports optimum immune function and intestinal health.** It provides a perfect combination of immune and growth factors, including immunoglobulins, amino acids, and other important nutrients.

Unlike other brands, TegriceL® Colostrum comes from nutritionally supplemented cattle from USDA Grade A dairy farms in the U.S. These cattle are carefully fed a scientifically designed diet that contains the proper balance of legumes and grasses, along with minerals and trace minerals to ensure consistently high quality colostrum.

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Colostrum	1 g *
(as TegriceL®) [minimum 40% IgG]	

*Daily Value not established.

Other Ingredients: Gelatin (capsule), vegetable stearate, silicon dioxide.

Contains milk.

Thermo-EFx™

CD THM060 | 60 vegetarian capsules

Thermo-EFx™ is designed to support thermogenesis and healthy body weight management without causing any stimulant-associated side effects often seen with other weight management formulas.**

Bitter orange extract has been shown to increase thermogenesis and basal metabolic rate in various studies. Naringin and green tea extract provide additional thermogenic support to this formula.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner. (Divided dosing recommended.)

Supplement Facts

Serving Size 2 capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Naringin (<i>Citrus grandis osbeck</i>)(fruit)	600 mg *
Bitter Orange (Advantra-Z®) (<i>Citrus aurantium L.</i>)(fruit) [standardized to contain 30% synephrine]	334 mg *
Green Tea Extract (Decaffeinated) (<i>Camellia sinensis</i>)(leaf) [standardized to contain 95% polyphenols and 45% EGCG]	150 mg *
Citrus Bioflavonoids	100 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), dicalcium phosphate, microcrystalline cellulose, vegetable stearate, silicon dioxide.

Thyroid Synergy™

CD THS120 | 120 vegetarian capsules

Thyroid Synergy™ is a top-quality, all-in-one formula for the nutritional support of thyroid function.** The non-stimulating adaptogenic botanical American ginseng (*Panax quinquefolius*) helps maintain healthy cortisol, blood glucose, and insulin metabolism, along with a balanced conversion of peripheral thyroid hormone.** Essential vitamins, minerals, and other nutrients work synergistically to provide a premium thyroid product in just two capsules per day.

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 capsules
Servings Per Container 60

Amount Per Serving	% Daily Value	Amount Per Serving	% Daily Value
Vitamin A (as Retinyl Palmitate)	600 mcg RAE 67%	Chromium (as TRAACS®)	50 mcg 143%
Riboflavin (Vitamin B-2) (as Riboflavin-5-Phosphate)	5 mg 385%	Chromium Nicotinate Glycinate Chelate

Tri-Butyrin Supreme™

TBS060 | 60 softgels

Tri-Butyrin Supreme™ represents a new approach to gut health and immune function by modulating intestinal flora, promoting colonocyte health, and supporting proper gut permeability.**

This product features CoreBiome™, a patent-pending form of tri-butylin, consisting of three molecules of butyric acid (butyrate) bound to glycerol. Each softgel provides 300 mg of this novel, broad-application compound.

Recommended Use: Take 1 softgel per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value
Tributylin (as CoreBiome™)	300 mg *

*Daily Value not established.

Other Ingredients: Bovine gelatin, purified water, glycerine, black cumin seed oil (*Nigella sativa*), medium chain triglycerides.

Tri-K™

TRK060 | 60 softgels

Tri-K™ is a synergistic blend of vitamins K1 and K2, along with geranylgeraniol (GG) that work together to promote optimal delivery of vitamin K2 (as MK-4) to tissues supporting normal blood clotting, bone mineralization, and arterial elasticity.**

Each 1-softgel serving delivers 2,000 mcg of vitamin K1 (as phytonadione), 500 mcg of vitamin K2 (as menaquinone-4 [MK-4]), and 17.5 mg of GG-Gold®, a patented form of GG, to support vitamin K status in the body.**

Recommended Use: Take 1 softgel twice per day with a meal or as directed by your health-care practitioner.

Tri-K™ is contraindicated in people on warfarin (Coumadin).

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin or other anticoagulant medications.

Supplement Facts

Serving Size 1 softgel

Amount Per Serving	% Daily Value	
Vitamin K	2500 mcg	2083%
(as Vitamin K1-Phytonadione 2000 mcg; Vitamin K2-Menaquinone-4 500 mcg)		
Trans-Geranylgeraniol (as GG-Gold®)	17.5 mg	*

*Daily Value not established.

Other Ingredients: Medium chain triglycerides, softgel ingredients (bovine gelatin, glycerine, purified water).

Tricobalamin™

TRIC60 | 60 lozenges

Tricobalamin™ lozenges provide a synergistic combination of the three bioavailable forms of vitamin B12, as methylcobalamin, hydroxycobalamin, and adenosylcobalamin. These three forms of B12 are naturally present in foods and can be readily converted in the body to the active intracellular forms of B12. Tricobalamin™ lozenges are formulated to support healthy levels of vitamin B12, with their lozenge delivery system allowing for optimal absorption of B12.

Recommended Use: Take 1 lozenge per day or as directed by your health-care practitioner. Allow lozenge to dissolve slowly and completely in mouth and swallow.

Supplement Facts

Serving Size 1 lozenge

Amount Per Serving	% Daily Value	
Vitamin B-12	3,000 mcg	125,000%
(as Methylcobalamin, Hydroxycobalamin and Adenosylcobalamin)		

Other Ingredients: Mannitol, modified cellulose, natural orange flavor and color, vegetable stearate, citric acid, and luohanguo extract (fruit).

Trifolamin™

TRIF60 | 60 lozenges

Trifolamin™ lozenges provide a synergistic combination of the three bioavailable forms of vitamin B12, as methylcobalamin, hydroxycobalamin, and adenosylcobalamin, with the natural active form of folate as [6S]-5-methyltetrahydrofolate. These three forms of B12 are naturally present in foods and can be readily converted in the body to the active intracellular forms of B12. Trifolamin™ lozenges are formulated to support healthy levels of vitamin B12. Folate is included because it is one of the most important cofactors to benefit the optimization of vitamin B12 status. The lozenge delivery system allows for optimal absorption of B12 and folate. It is best to take Trifolamin™ after a meal and allow the lozenge to dissolve slowly and completely in the mouth before swallowing.

Recommended Use: Take 1 lozenge per day or as directed by your health-care practitioner. Allow lozenge to dissolve slowly and completely in mouth and swallow.

Supplement Facts

Serving Size 1 lozenge

Amount Per Serving	% Daily Value	
Folate	680 mcg DFE	170%
(as Quatrefolic® [6S]-5-methyltetrahydrofolate, glucosamine salt)		
Vitamin B12	3,000 mcg	125,000%

Other Ingredients: Mannitol, modified cellulose, natural orange flavor and color, vegetable stearate, citric acid, and luohanguo extract (fruit).

TriGandha™

☞ TGD030 | 30 vegetarian capsules

TriGandha™ is a comprehensive blend of three unique and well-researched forms of ashwagandha extracts that help support a healthy mood and normal response to perceived stress.** TriGandha™ is carefully formulated with industry-leading ashwagandha sources — Sensoril®, NooGhanda®, and a high-quality standardized extract — that are derived from whole plant extracts (root and leaf) to provide optimal efficacy and bioactive diversity.** Each 1-capsule serving provides 650 mg of adaptogenic ashwagandha extracts.

Recommended Use: Take 1 capsule per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Ashwagandha Extract (Sensoril®) (<i>Withania somnifera</i>)(root and leaf)	250 mg *
Ashwagandha Extract (NooGandha®) (<i>Withania somnifera</i>)(root and leaf)	250 mg *
Ashwagandha Extract (<i>Withania somnifera</i>) (root)[standardized to contain 1.5% withanolides]	150 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, dicalcium phosphate, vegetable stearate, silicon dioxide.

TriMag Supreme™

☞ TRMGDY | 150 g (5.3 oz)

TriMag Supreme™ is a unique blend of three highly absorbable forms of magnesium designed to support cardiovascular health.** One serving provides 300 mg of elemental magnesium in an easy-to-mix powder. TriMag Supreme™ contains three forms of magnesium that may support energy production, heart health, blood vessel function, and healthy blood glucose metabolism.** It is sweetened with monk fruit and contains no artificial sweeteners.

Recommended Use: Mix 5 grams (approximately one scoop) of powder mixed in 8 ounces of water per day or as directed by your health-care practitioner.

Supplement Facts

Magnesium (as Magnesium Orotate 100 mg, Magnesium Glycerophosphate 100 mg, TRAACS® Magnesium Bisglycinate Chelate Taste Free 100 mg)	300 mg 71%

*Daily Value not established.

Other Ingredients: Citric acid, luo han go extract (fruit).

TriMag Supreme™ Night

☞ TRMGNT | 180 g (6.3 oz)

TriMag Supreme™ Night is a unique blend of three highly absorbable forms of magnesium along with relaxation-supportive botanicals to help provide restful sleep.** One serving provides 300 mg of elemental magnesium in an easy-to-mix powder. This product contains botanicals that may support a healthy response to stress and help support sleep quality and duration.** TriMag Supreme™ Night has a delicious lavender and lemon flavor, and it is sweetened with stevia.

Recommended Use: Mix 6 grams (approximately one scoop) of powder in 8 ounces of water per day 30 to 60 minutes before bedtime or as directed by your health-care practitioner.

Twice Daily Essential Packets

 TDE060 | 60 packets

Twice Daily Essential Packets allow patients to get their daily essential nutrients in two easy packets. No need to count, sort, or measure. All the basics are here: Calcium Malate and Magnesium Malate are added to the Twice Daily Multi™ packets to allow for meaningful doses and balanced omega-3-6-7-9 fatty acid support from OmegAvail™ Synergy. An added benefit of OmegAvail™ Synergy includes lipase, the enzyme crucial to the digestion and absorption of fatty acids.

Twice Daily Essential Packets are a perfect foundation for those who are just getting started on a vitamin regimen, those focused on comprehensive maintenance, and those at a starting point for weight loss programs and other health regimens.

Recommended Use: Take 2 packets per day or as directed by your health-care practitioner.

Warning: If taking a blood thinner medication or if planning to have surgery, consult a health-care practitioner before using.

Twice Daily Multi™

 TDM060 | 60 vegetarian capsules
TDM120 | 120 vegetarian capsules
TDM240 | 240 vegetarian capsules

Twice Daily Multi™ contains optimal amounts of many nutrients not easily obtained in most diets. It uses higher quality ingredients than most multivitamins, including vitamin E Isomers as DeltaGold® tocotrienols, a highly bioavailable form of folate, and true amino acid chelate minerals for optimal tolerance and absorption. These exceptional ingredients are combined in an up-to-date, science-based formulation to create a truly superior multivitamin.

Recommended Use: Take 2 capsules per day with meals or as directed by your health-care practitioner.

Warning: If taking a blood thinner medication or if planning to have surgery, consult a health-care practitioner before using.

Ultimate Antiox Full Spectrum

UAFS90 | 90 vegetarian capsules

Ultimate Antiox Full Spectrum is a unique antioxidant formula derived from a combination of some of nature's most powerful herbs and spices, along with other classic and novel compounds with antioxidant properties. These ingredients were chosen due to their ability to maintain the function and integrity of both water-based and lipid-based body structures and compounds, including cell membranes, low-density lipoprotein (LDL) cholesterol, proteins, and enzymes.**

Recommended Use: Take 3 capsules per day with meals or as directed by your health-care practitioner.

Supplement Facts

Serving Size 3 capsules

Ultra B12-Folate

B12090 | 90 vegetarian capsules

Ultra B12-Folate is a unique formula that combines vitamin B12 (cobalamin) with the patented folate derivative, Quatrefolic®. These two vitamins work synergistically, improving methylation and helping to promote balanced concentrations of homocysteine.** Although many manufacturers offer these separately, Designs for Health's formula offers the convenience of getting both B vitamins in one capsule. The premium B12 in this product comes from equal amounts of adenosylcobalamin and methylcobalamin.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Folate	680 mcg DFE 170%
(as Quatrefolic® [6S]-5-methyltetrahydrofolate, glucosamine salt)	
Vitamin B-12	2000 mcg 83333%
(as Methylcobalamin [MecobalActive®] and Adenosylcobalamin)	

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), vegetable stearate.

Uric-X™

URX060 | 60 vegetarian capsules

Uric-X™ is a unique combination of Belleric Myrobalan fruit (*Terminalia bellerica*) and tart cherry fruit (*Prunus cerasus*) that have been standardized to contain targeted amounts of bioactive ingredients that may help maintain normal uric acid status in the body.** *T. bellerica* is a deciduous tree native to Southeast Asia whose fruit and kernel oil have been used for centuries in Ayurvedic and ancient Greek medical traditions, and it is used today to support healthy uric acid metabolism.** Tart cherries contain high levels of anthocyanins, which are polyphenolic compounds that may help support the body's antioxidant status.** Tart cherries also help to promote the urinary excretion of uric acid and thus, less absorption of uric acid in the body.**

Recommended Use: Take 1 capsule twice per day (once after breakfast and once after dinner) or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value
Belleric Myrobalan (<i>Terminalia bellerica</i>)(fruit) [standardized to contain 6% gallic acid and 0.5% ellagic acid]	500 mg *
Tart Cherry (<i>Prunus cerasus</i>)(fruit) [standardized to contain 2% proanthocyanidins]	75 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, vegetable stearate, silicon dioxide.

UT Intensive™ Chewables

UTIC30 | 30 chewable tablets

UT Intensive™ Chewables are a powerful blend of whole fruit cranberry extract and D-mannose, which are designed to promote a healthy urinary tract.** Cranberry is one of the most widely studied, time-tested, traditional remedies for supporting urinary tract health. Unlike many commercially available cranberry products, which are made from juice or contain individual isolated, health-promoting phytochemicals, the cranberry extract in UT Intensive™ is made from the whole fruit — juice, skins, flesh, and seeds — and therefore contains the full complement of phytochemicals, organic acids, fatty acids, and phenolics. Mannose is a type of sugar found in various fruits and vegetables. The naturally occurring isomer, D-mannose, is similar in structure to certain urinary tract receptors, and thus, functions in a way that helps maintain a healthy environment in the urinary tract.** Although mannose is a sugar, it is eliminated from the body instead of impacting calorie intake or metabolism, and it does not interfere with blood sugar regulation.** This product is presented in great tasting, chewable, orange-flavored tablets, allowing for easy patient compliance.

Recommended Use: Chew 2 tablets per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 2 tablets
Servings Per Container 15

Amount Per Serving	% Daily Value
D-Mannose	2 g *
Cranberry (<i>Vaccinium macrocarpon</i>)(fruit)	500 mg *

*Daily Value not established.

Other Ingredients: Xylitol, modified cellulose, vegetable stearate, natural flavor, silicon dioxide, citric acid, luohanguo extract (fruit).

UT Synergy™

UTS060 | 60 vegetarian capsules

UT Synergy™ features *Hibiscus sabdariffa*, a unique compound designed specifically to support the health of the urinary tract.** *Hibiscus sabdariffa* is an extract of the Hibiscus species that is high in certain organic acids and polyphenols, especially flavonoids and proanthocyanidins. These compounds have been shown to have microbial inhibition and bacterial anti-adhesive properties. Additionally, this formula has mild diuretic properties to support healthy kidney function.**

Recommended Use: Take 2 capsules per day or as directed by your health-care practitioner.

Supplement Facts

VegeCleanse Plus™ Detox Program

  **VCP14D | 14 day program kit**
VCP21D | 21 day program kit

This is a comprehensive, science-based nutritional program designed to support safe and effective detoxification. This is accomplished by providing the nutrients needed to support and balance phase I and phase II metabolic pathways and to promote healthy liver function and elimination.** Everything is consolidated into packets to make the program easy to follow and ensure that individuals on the program do not miss any necessary nutrients. Each program kit provides single-serving VegeCleanse Plus™ functional food powder, drink mix packets, and capsule packets containing Amino-D-Tox™ and Detox Antiox™. Each kit also comes with a shaker bottle and a detailed program guidebook that includes a supplement schedule, sample menus, and suggested food and snack options.

Recommended Use: Mix 38 grams (one packet) of VegeCleanse Plus™ in 8 ounces of water and take 1 capsule packet twice per day or as directed by your health-care practitioner.

VegeMeal Plus™ Lean Body Program Chocolate Flavor

VMPCHC | 14-day program kit

The VegeMeal™ Plus lean body program is designed to support healthy weight loss and successful weight maintenance by helping individuals lose fat while maintaining lean muscle.** The program is easy to follow, which translates into high compliance and great outcomes. The simple steps to success are highlighted in the patient guidebook, which is included in every program kit.

Each kit contains:

- 28 Single-serving VegeMeal™ drink packets (dairy-free functional food powder containing 16 g protein per serving from non-GMO, North American grown yellow peas)
- 28 Weight Loss Support Packets, which include:
 - Thermo-EFx™ (1 capsule)
 - Carnitine Synergy™ (2 capsules)
 - EndoTrim™ (2 capsules)
- Program Guidebook, which provides a detailed patient guide that includes a supplement schedule, sample menus, and suggested food and snack options
- DFH Branded Blender Bottle®

Recommended Use: Take 1 VegeMeal™ packet mixed in 10 ounces of water and 1 capsule packet twice daily or as directed by your health-care practitioner. Once mixed, VegeMeal™ is best if consumed within 15 minutes.

Vitamin B-6 Liquid

V6B4OZ | 4 fl oz (118 mL)

Vitamin B-6 Liquid combines magnesium and zinc with vitamin B6. These three nutrients serve as common cofactors in the body and are needed for multiple metabolic conversions. This unique formula works synergistically to support numerous reactions in the body, such as neurotransmitter production, hormone metabolism, and much more.** Vitamin B-6 Liquid has a great tasting, natural raspberry flavor that is easily absorbed. It is the perfect solution for people who need higher doses of this often-lacking vitamin.

Recommended Use: Take 5 mL (approximately 1 teaspoon) per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 5 mL (approx. 1 teaspoon)
Servings Per Container about 24

Amount Per Serving	% Daily Value
Calories	15
Total Carbohydrate	3 g 1%*
Vitamin B-6 (as Pyridoxine HCl)	50 mg 2941%
Magnesium (as TRAACS® Magnesium Bisglycinate Chelate Taste Free)	30 mg 7%
Zinc (as Zinc Bisglycinate Chelate)	5 mg 45%

*Percent Daily Values are based on a 2,000 calorie diet.

Other Ingredients: Glycerine, purified water, citric acid, natural flavor, β-carotene (color).

Vitamin B12

VB1260 | 60 lozenges

Vitamin B12 lozenges offer high-dose vitamin B12 in a delicious, berry-flavored lozenge. Each lozenge contains 5,000 mcg of methylcobalamin, which is the activated form of vitamin B12, for enhanced bioavailability.** The easy-to-dissolve lozenge delivery format was designed to support superior nutrient absorption and individuals who may have trouble swallowing capsules or softgels.

Recommended Use: Dissolve 1 lozenge slowly in mouth per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 1 lozenge

Amount Per Serving	% Daily Value
Vitamin B-12 (as Methylcobalamin)	5000 mcg 208,333%

Other Ingredients: Mannitol, modified cellulose, natural berry flavor, vegetable stearate, citric acid, luu han guo extract (fruit).

Vitamin C

VCB240 | 240 g (8.5 oz)

Vitamin C powder is a blend of non-acidic powdered vitamin C and alkalizing minerals, calcium, magnesium, and potassium. This formula was designed for high dosing of vitamin C and to determine vitamin C tolerance. Vitamin C is a potent antioxidant essential for healthy immune and adrenal function and collagen production. The addition of alkalizing minerals results in a less acidic form of vitamin C that is gentler on the gastrointestinal (GI) system, allowing for higher dosing without unpleasant side effects.** The added calcium, magnesium, and potassium also help to reduce the transit time through the GI tract allowing for better vitamin C absorption, and it provides the additional benefits of these minerals, such as bone mineralization, electrolyte balance, and cellular energy production.**

Recommended Use: Take 3 grams (approx. one scoop) per day or as directed by your health-care practitioner.

Supplement Facts

Serving Size 3 grams (approx. one scoop)
Servings Per Container 80

Amount Per Serving	% Daily Value	
Vitamin C (as Ascorbic Acid)	2000 mg	2222%
Calcium (as Calcium Ascorbate)	80 mg	6%
Magnesium (as Magnesium Ascorbate)	160 mg	38%
Potassium (as Potassium Bicarbonate)	200 mg	4%

Vitamin D Supreme

VDS030 | 30 vegetarian capsules
VDS060 | 60 vegetarian capsules
VDS180 | 180 vegetarian capsules

Vitamin D Supreme provides a clinically useful dose of vitamin D3 along with vitamin K as both K1 and the MK-7 form of K2. This formula contains higher targeted doses than Vitamin D Synergy for situations where more aggressive repletion is required. Vitamins D and K are essential for optimal bone and arterial health and for maintaining the immune system in proper balance.** The amount of vitamin D and K in this formula may be beneficial for those who do not get adequate sun exposure and/or dietary sources of these vitamins. Vitamins D and K work as a team. Thus, increasing doses of vitamin D will increase the need for vitamin K.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin or other anticoagulant medications.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Vitamin D (as Cholecalciferol)	125 mcg (5000 IU)	625%
Vitamin K	550 mcg	458%
(as Vitamin K1 Phytanadione 500 mcg; Vitamin K2 Menaquinone-7 50 mcg)		

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), L-leucine.

Vitamin D Synergy™

VID120 | 120 vegetarian capsules
VID240 | 240 vegetarian capsules

Vitamin D Synergy™ provides clinically useful doses of vitamin D3 and vitamin K (in the form of K1). This formula can be replaced with Vitamin D Supreme when more aggressive targeted levels of vitamins D and K are desired. Vitamins D and K are essential for optimal bone and arterial health and for maintaining the immune system in proper balance.**

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin, or other anticoagulant medications.

Supplement Facts

Serving Size 1 capsule

Amount Per Serving	% Daily Value	
Vitamin D (as Cholecalciferol)	50 mcg (2000 IU)	250%
Vitamin K (as Vitamin K1 Phytanadione)	200 mcg	167%

Other Ingredients: Microcrystalline cellulose, cellulose (capsule), L-leucine.

Vitavescence™

VVP240 | 270 g (9.5 oz)

Vitavescence™ is a delicious and exceptional multivitamin/multimineral supplement in powdered form. It consists of a comprehensive and well-balanced blend of vitamins, minerals, and phytonutrients, providing a strong nutritional foundation to help support optimal health. Vitavescence™ also contains an impressive array of health-promoting nutrients that are not typically found in multivitamins, such as alpha-lipoic acid, along with N-acetyl cysteine (NAC), green tea, rosemary, and grape extracts. Not only are these compounds unique to most formulations, but they are also generally lacking in the standard American diet and play important roles in human health. Vitavescence™ powder offers a convenient delivery system that mixes easily in water or other beverages and turns into an effervescent, great-tasting nutritious drink. It has a natural fruit punch flavor and is sweetened with organic stevia leaf extract. It is the ideal multivitamin/multimineral for children, the elderly, and anyone who prefers not to take pills.

Recommended Use: Mix 9 grams (approximately one scoop) in 8 ounces of water per day or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before using this product if you are taking Coumadin, warfarin, or other anticoagulant medications.

Vitamin B-12 (as Methylcobalamin)(MecobalActive®)	250 mcg 4170%				

Other Ingredients: Malic acid, natural flavor with other natural flavors, partially hydrolyzed guar gum, inulin, maltodextrin, organic stevia leaf extract (*Stevia rebaudiana*), sodium bicarbonate, sunflower lecithin, beet powder (color).

Weight Loss Support Packets

WLS060 | 60 packets

These packets are designed to assist the body in using fat for fuel and to help support healthy insulin, cortisol, and energy metabolism. They provide great support for any weight loss program.**

Each packet contains:

- 2 Endotrim™ capsules
- 1 Thermo-EFx™ capsule
- 2 Carnitine Synergy™ capsules

Recommended Use:

Take 2 packets per day or as directed by your health-care practitioner.

EndoTrim™

Amount Per Serving	% Daily Value
L-Carnitine (from L-Carnitine Tartrate)	1.6 g *
Acetyl-L-Carnitine HCl	400 mg *

*Daily Value not established.

Other Ingredients: Cellulose (capsule), microcrystalline cellulose, stearates (vegetable source), silicon dioxide.

WheyCool™

Whey Cool™ is a great-tasting, high protein, low carbohydrate, functional food powder. It is made with an exceptional quality whey protein made from the milk of cows that graze on pesticide-free, non-GMO grass pastures in New Zealand, which are known to be one of the least polluted environments in the world. The milking cows are never fed grain and are not subjected to hormone or antibiotic treatments. This whey is instantized with sunflower lecithin (non-GMO), which helps it dissolve more easily in water and prevents foaming during blending.

Recommended Use: Mix 30 grams (approximately one scoop) in 8 ounces of water or any other beverage per day, or as directed by your health-care practitioner.

WheyMeal™

WheyMeal™ is a great-tasting, nutrient-rich, powdered meal supplement designed to help promote an optimal intake of protein, fats, carbohydrates, vitamins, and minerals needed for overall wellness. The ingredients make this formula ideal for patients needing support with weight control, gastrointestinal health, detoxification, immune health, heavy metals, and muscle gain.** WheyMeal™ is made with an exceptional quality whey protein made from the milk of cows that graze on pesticide-free, non-GMO grass pastures in New Zealand, which are known to be one of the least polluted environments in the world. The milking cows are never fed grain and are not subjected to hormone or antibiotic treatments. This whey is instantized with sunflower lecithin (non-GMO), which helps it dissolve more easily in water and prevents foaming during blending.

Recommended Use: Mix 36 grams (approximately one scoop) in 8 ounces of water or any other beverage per day, or as directed by your health-care practitioner. WheyMeal™ may be blended into a shake, if desired, and is not intended to be the sole source of calories, but rather to be used as part of an overall program of healthy eating. Best if consumed within 15 minutes.

Whole Body Collagen

WBC390 | 390 g (0.86 lbs)

Whole Body Collagen contains a unique blend of three patented collagen peptides supported by clinical research showing their efficacy for supporting collagen production, bone strength, joint health and integrity, skin elasticity, and more.**

Collagen is a special type of protein that accounts for as much as 30% of the body's total protein. In particular, it's a primary structural component of connective tissue. The amino acid composition of dietary collagens are very similar to those in human collagens, making dietary collagen peptides ideal for supporting normal body collagen turnover and renewal.

Many individuals — the elderly, in particular — do not consume adequate protein. Even among those with a higher protein intake, the richest sources of collagen — animal skins, bone broth, and tendons — are not typically part of the modern Western diet. Whole Body Collagen can be incorporated into shakes, smoothies, and other foods and beverages, making it convenient to ensure the adequate intake of collagen's unique amino acids.

Recommended Use: Mix 13 grams (approximately one scoop) in 8 ounces of water per day or as directed by your health-care practitioner. For best results, add powder prior to adding water.

Supplement Facts

Women's Twice Daily Essential Packets

WTDE60 | 60 packets

Women's Twice Daily Essential Packets provide women with all the necessary nutrients in a convenient, twice daily packet. These packets do not contain iron, making them an ideal choice for women of all ages.

Each Packet contains:

- 1 Twice Daily Multi™ capsule
- 2 OsteoForce™ capsules
- 1 OmegaVail™ Synergy softgel
- 2 FemGuard + Balance™ capsules

Recommended Use: Take 2 packets per day with a meal or as directed by your health-care practitioner.

Warning: If you are taking blood thinner medication or if you are planning to have surgery, consult a health-care practitioner before using.

XanthOmega™ Krill Oil

XOS060 | 60 softgels
XOS120 | 120 softgels

XanthOmega™ Krill Oil provides a generous 12 mg per serving of astaxanthin to help achieve optimum benefits from this potent carotenoid. It would take eight conventional krill softgels to equal the astaxanthin levels in just one XanthOmega™ softgel. XanthOmega™ Krill Oil has a high phospholipid content, standardized to a minimum of 40% phospholipids, mostly as phosphatidylcholine. This is considered to be a virgin krill oil, the purest form available. It contains higher phospholipid bioavailability, which enhances the absorption of astaxanthin. Many studies suggest that this exceptionally high level of astaxanthin offers a wide array of benefits, which may include powerful antioxidant properties and support for cardiovascular, skin, eye, and gastric health.** Astaxanthin also assists the body with a healthy inflammatory response.**

Recommended Use: Take 2 softgels per day with meals or as directed by your health-care practitioner.

Warning: Consult a health-care professional prior to use if you have a bleeding disorder or if you are taking anti-coagulants or planning to have surgery.

Supplement Facts

Zinc Supreme™

ZNP090 | 90 vegetarian capsules

Zinc Supreme™ offers chelated minerals by Albion Advanced Nutrition, the leader in mineral technology. These are ideal chelates with a 2:1 molar ratio of two molecules of the amino acid glycine chemically bonded in liquid to one mineral ion of zinc or molybdenum for optimal absorption. These minerals are combined with other nutrients such as vitamin B6 and taurine to provide superior results.

Recommended Use: Take 1 capsule per day with a meal or as directed by your health-care practitioner.

MyoStim™

*Supports Healthy Body Composition and Muscle Metabolism**

Call (860) 623-6314
or order online at designsforhealth.com

MyoStim™ Benefits*

May help attenuate age-related muscle loss

Promotes maintenance of muscle mass

May help promote muscle growth

May help attenuate muscle protein breakdown in athletes

Promotes overall bone health

May help support muscle strength

Formula Highlights

- Includes BodyBalance® collagen peptides — a proprietary blend of hydrolyzed collagen peptides shown to help support connective tissues, muscles, and bones*
- Includes MyHMB® — a powdered HMB to help promote overall muscle health*
- Provides 3 g of the branched-chain amino acid (BCAA) leucine to help support muscle protein synthesis and reduce muscle breakdown*
- 25 mcg (1,000 IU) of vitamin D3 to support overall bone health*
- Chelated form of creatine monohydrate bound to 200 mg of magnesium for superior absorption to help support cellular energy metabolism*

BODYBALANCE® is a registered trademark of GELITA AG. MyHMB® is a registered trademark of TSI Group Limited.

**Offer valid for Designs for Health customers who purchase MyoStim™. Cannot be combined with any other offers. One time use only. Offer expires 12/31/21.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
